Virginia, Norfolk Southern finalize plan for NRV passenger rail

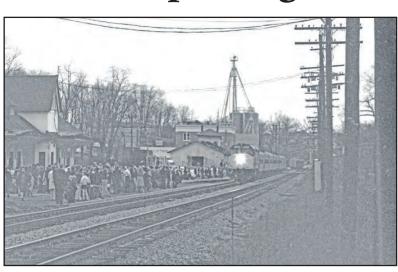

The Virginia Passenger Rail Authority (VPRA) and Norfolk Southern Corporation have announced the financial closing of the Western Rail Initiative Agreement that will expand passenger rail service from Washington, D.C., to Roanoke and the New River Valley.

The first step in the expansion is the addition of a second Commonwealth-supported round-trip train between Roanoke and Washington, D.C., which will launch on July 11, 2022.

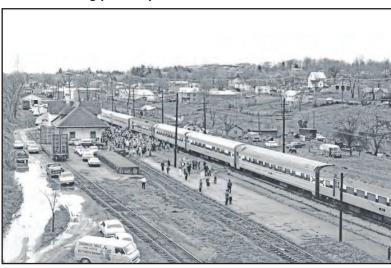

This round trip further connects Virginia's Blue Ridge with Northern Virginia and points along the Northeast Corridor including New York and Boston. The agreement includes the future extension of the Roanoke service to the New River Valley with the construction of a new station as well as track and signal improvements.

"The closing of the Western Rail Agreement is great news for Virginians as this is a big step forward in our mission to expand passenger rail to the New River Valley," said DJ Stadtler, executive director of VPRA. "Communities along the Interstate 81 and Route 29 corridors will now have more passenger rail options when traveling to and from our nation's capital and beyond, and the improvements will also increase our economic opportunities by en-

Crowds gathered along the rail line in Cambria to greet the Amtrak passenger train.

Night Jammers." Music starts at 6:30 p.m. The events are family friendly and free to attend.

West Main Gardens announces weekly music event

RADFORD - West Main Gardens, located in the courtyard at 309 West Main St., has announced a weekly music event, free and open to the public.

The first event was Tuesday, July

"We are so excited to share a new recurring event with you, Radford," the organization stated on its Facebook page. "Starting July 5, we will be blessed with the music of the "Tuesday Night Jammers - guitars, mandolins, and fiddles to accompany some of our favorite folk, soft rock, and Americana songs.'

West Main Gardens is self-described as "a community initiative of local business owners, health professionals, and environmental enthusiasts seeking to cultivate community connection and resilience through gardening."

"You can expect to start hearing music around 6:30 p.m., but you are welcome to visit the courtyard beforehand, thanks to the generosity of J&K Property Management," organizers said. "These are family friendly events so please feel comfortable to bring the kids and set up on the lawn for a little."

Danilowicz begins duties as Radford University president

Danilowicz officially began his role as the eighth president of Radford University.

The Radford University Board of Visitors announced Danilowicz's selection as the presidentelect in December. A strong advocate of shared governance and transparency, Danilowicz brings 22 years of higher education leadership experience to the presidency.

"I join my colleagues on the Presidential Search Committee, as well as the

Friday, July 1, Bret Board of Visitors, in welcoming Dr. Danilowicz as our new president at Radford University. We have all been impressed with Bret's knowledge, skills and experience in higher education and believe that he is the right fit for our university as we go into the future," said Debra McMahon, Ph.D., rector of the Board of Visitors. "Bret and Kay will be wonderful assets to the Radford community; they are excited to

New law allows DMV to grant extended license validity to military, foreign service, and hardship cases

July 1, 2022, certain license holders are able to apply with the Virginia Department of Motor Vehicles (DMV) for driver's license extensions of up to six years for military and foreign service members serving outside of Virginia and government contractors working outside the United States; and up to two years for those showing good cause for extensions. Prior to July 1, those extensions were valid for up to three years and one year, respectively.

"We understand the challenges faced by our military, foreign service, and government con-

tractor customers with deploy-

ments and assignments keeping them on the move," said Acting DMV Commissioner Linda Ford. "Similarly, we know that things like long-term medical treatment or caring for a loved one in another state can create hardships for any of us. We're pleased to be able to work with customers in these situations to

further extend driver's licenses, giving them one less thing to worry about."

The change stems from HB 540, introduced by Delegate Danica Roem (D-Prince William), passed by the General Assembly during the 2022 session, and signed into law by Governor

Glenn Youngkin.

In all cases, customers need to complete an application process and provide supporting documentation to qualify for a driver's license extension. Currently extended customers can apply for the newly enacted extensions, up to the six- and two-year limits, via the same application process they originally followed.

UPCOMING EVENTS

Today, Wednesday, July 6:

Ocean-Themed sidewalk art contest

At the Meadowbrook Public Library at 9 a.m. Children ages 10-14 are invited to participate in an oceanthemed sidewalk art contest. All supplies will be provided to create a masterpiece with sidewalk chalk. Tropical refreshments will be provided. All art contest participants may enter their names in a raffle. Limited space is available, so registration in advance is encouraged.

Talking about Books: Cloud Cuckoo Land At the Christiansburg Library at 11 a.m. To be discussed this month is Cloud Cuckoo Land by Anthony Doerr, in-person and virtu-

At the Blacksburg Library at 2 p.m. Participants can bring their projects and join the Loops Group for community and conversation. Everyone is welcome.

Loops group

CAC aquatic advisory board meeting The aquatic advisory board

of the Christiansburg Aquatic Center will meet today, Wednesday, July 6, at the aquatic center, 395 N. Franklin St., from 4:30 to 6:30

Thursday, July 7:

American Legion meeting American Legion Harvey-Howe-Carper Post 30 will meet on Thursday, July 7, at 7 p.m. at the VFW Post Home on 102 Watts St. in Radford. For further information, call 540-250-2283 or 540-239-9864.

Pokémon swap At the Blacksburg Library

at 3 p.m. Pokémon trainers can bring their consoles, Pokémon games, and their Pokémon cards to trade, battle, and play with others. Fill out their Pokedex, challenge others, and enter a raffle for a rare, shiny Pokémon. Contact Pokémon Trainer Sally at sstauffer@mfrl.org with any questions.

At the Radford Public Library at 2 p.m. Kasey Jones from HoloRhythm drum school will be teaching a djembe drumming class! Participants will learn about the rhythm of the drum and about West African music.

Friday, July 8:

Teen goldfish taste test

At the Christiansburg Library at 2 p.m. Teens can put their taste buds to the test and try to name and identify different goldfish flavors while blindfolded. A prize will be awarded to the winner. This program may not be suitable for those with food allergies. Registration is required.

Messy munchkins: Sensory play

At the Blacksburg Library at 11 a.m. Parents and caregivers are invited to let little ones get messy at Sensory Play with sensory bins that will include rainbow spaghetti, oobleck, and more.

Teen Nerf battle

At the Blacksburg Library at 6 p.m. Participants can take part in an epic Nerf battle at the library. They will be playing Nerf versions of Capture the Flag, Humans vs. Zombies, and more. Participants should bring their own Nerf blaster (some available). Ages 10 and up. A waiver is required to participate.

Friday, July 8 – Thursday, Aug. 18:

Alexander Black House Farming Exhibit

The Blacksburg Museum and Cultural Foundation announces the Virginia is for Farmers: Agriculture in Southwest Virginia, Then and Now exhibit from July 8 through August 18, in the Alexander Black House main galleries, 204 Draper Road SW, Blacksburg. Admission

is free, hours are Tuesday through Saturday from 10 a.m. until 4 p.m. A reception open to the public will be held on Saturday, Aug. 6, from 11 a.m. to 1 p.m.

The exhibit explores presettler agriculture in Southwestern Virginia, Blacksburg area farms in the 18th and 19th centuries, and the birth of the Future Farmers of America at Virginia Tech in the early 20th Century. It includes the present-day local farmers' market and Blacksburg's neighborhood gardens.

The exhibit will include agricultural tools from the late-19th and early-20th century, adapted farm tools for farmers with disabilities, Future Farmers of America and Virginia historical items, maps, photos, and interviews. For more information, contact Janean Williams, Communications and Visitor Services Manager at 540-443-1602 or jlwilliams@blacksburghistory.org or visit blacksburgmuseum.org.

Saturday, July 9:

Mt. Tabor Ruritan fish fry The Mount Tabor Ruritan Club will hold its July fish fry from 5 p.m. to 7 p.m. at Slusser's Chapel Picnic Shelter, 1543 Mount Tabor Rd, Blacksburg. The club will be serving up fish, fries and slaw; homemade desserts; and beverages. The cost is \$12 for adults, \$6 for children under 12; free for children under three. Carry-outs are \$12. This month the Blacksburg Community Band will be playing. The fish fry will be held rain or shine. Call or text 540-449-6178 for further information. On Facebook at MtTaborRuritan.

New River Valley garden

From 9 a.m. to 5 p.m. Tickets can be purchased for \$15 in advance and are available at the library or online. Tickets will also be available at the gardens on the day of

Movie and a craft

At the Christiansburg Library at 10:30 a.m. A ragtag band of explorers will search for the lost city and make a craft.

Mermaid party

At the Meadowbrook Public Library at 11 a.m. This fin-tastic party will celebrate mermaids and mermen and will include treats, crafts, and games. All ages are welcome. Registration is required.

Monday, July 11:

Radford City Council meeting

In the city council chambers, 10 Robertson St., Radford, at 7 p.m.

STEM club

At the Christiansburg Library at 1 p.m. This homeschool STEM club will explore science, technology, engineering, and/or math. Ages 8 and up. This month the club will model and study ocean currents.

Monday, July 11 -Friday, July 15:

Teen connections

At the Blacksburg Library at 11 a.m. each day. Teens, grades 6 through 8, will become peer health educators. This program will teach leadership development, relationship skills, navigating puberty and body changes, STI and pregnancy prevention, and healthy decision making. To register, go to https://linktr. ee/tcswva.

Tuesday, July 12:

City Radford School Board meeting The Radford City School

Board will have a regular meeting and an organizational meeting at 6 p.m., at the School Administration Building, 1612 Wadsworth St., Radford. A copy of the agenda can be seen at www. rcps.org.

Sons of Confederate Veterans meeting

The Sons of Confederate Veterans, Stuart Horse Artillery Camp 1784 will meet at 7 p.m. at Aly's Italian Fam-

ily Restaurant at 3204 Riner Rd. Members of the United Daughters of the Confederacy (UDC) are invited to attend. The guest speaker will be Author Tom Peery. For further information, call 540-320-4315 or 540-239-

Summer Backpack Pro-

At the Meadowbrook Public Library at 3:30 p.m. The Summer Backpack Program is intended to help families with children and teens stretch their grocery budget. The bags are filled with nutritious food with one bag per child per week. This is a drop-in program with crafts for the kids each week in addition to the bags of food. The program is drive-thru only at the curb side of the library. Open to residents of Eastern Montgomery County only. For more information, call the Meadowbrook Library at 540-268-1964.

Thursday, July 14:

River City Quilt Guild

The River City Quilt Guild will meet at 9:30 a.m. in Grove United Methodist Church, 1020 Tyler Avenue, Radford. All skill levels of quilters are welcome. For more information, call Anna Handy, 540-320-7791.

Radford Reads with Ron Peterson, Jr. At the Radford Public Li-

brary at 7 p.m. Local author Ron Peterson, Jr., will talk about some new insights on the Gina Hall case featured in Under the Trestle, as well as new information on Wally Thrasher of Chasing the Squirrel. He will also discuss his new book Eyes of a Mon-

Most recently, Danilowicz served as provost and vice president for academic affairs at Florida Atlantic University. As provost, he implemented incentive-based budgeting, coordinated a nation-leading improvement in graduation rates, established a public forum for civil discourse, and developed and implemented strategies for advancement towards R1 reclassification. "Bret will be a won-

derful president. I am extremely proud of his achievements, and so happy for Bret and his family as he transitions into this role," said John Kelly, Ph.D., president of Florida Atlantic University. "He is a creative thinker and very personable. He will serve Radford University well."

Before joining Flor-Univer-Atlantic sity, Danilowicz served as dean of the College of Arts and Sciences at Oklahoma State University. There, he created a shared governance strategic planning and budgeting process, diversified college and departmental leadership, established a

college-wide focus on di-

Danilowicz from page 1 versity and inclusion, and always exceeded fundraising goals. While dean, he "Organizco-authored ing Academic Colleges," which uses models and case studies to describe

how to successfully navigate administrative reorganizations.

In collaboration with the faculty senate at Florida Atlantic, Danilowicz launched a diversity, equity and inclusion committee charged with

identifying policies and practices which should be changed to improve diversity and inclusion efforts. As a result, one of the major changes enacted was the addition of diversity and inclusion

In the last three years, Danilowicz led Florida Atlantic to achieve its highest scores ever in the

degrees.

years.

Florida Board of Governors' Performance Metrics. The 89-point score in 2021 was the third highest score in Florida.

In addition, Florida Atlantic's four-year graduation rates rose from 31 to 47% in the last three

Danilowicz earned a doctor of philosophy degree in zoology from

Duke University, a master of business administration from Georgia Southern University, master of arts in education leadership from Open University, U.K., and his bachelor of science in biology with a computer science minor from Utica College of Syracuse University. Additionally, he held two postdoctoral fellowships at the University of Windsor, Canada. He is married to Kay

Danilowicz, an experienced pediatric speech language pathologist who has worked extensively with early intervention and school-aged children. They are the proud parents of Torin, Brynn, Teagan, and Cullen, and are learning outcomes for all active in the communities where they live. They cotrained a therapy dog and served as a pet therapy team at universities and in healthcare settings. They have built sets, worked backstage, and performed onstage in local theatre, coached soccer, and served on nonprofit and educational boards. When not at work or with the community, both enjoy exploring the outdoors, riding their horses, and spoiling their dogs, Bainne and Koda.

VT students write, introduce bill that passes Virginia legislature

Criminology and sociology major Amanda Ljuba had never known or, let's face it, understood much about the mysterious legislative happenings inside the Virginia State Capitol.

But she and fellow student Saket Bikmal, then a senior studying computational and systems neuroscience, dropped everything to take a road trip to Richmond this spring on behalf of House Bill 105. "Hi, we're from Virginia Tech," they said as they met with delegates or their aides. "We're with Hokies for SUD Recovery. We really want you to support

For good reason. The bill they were advocating for was one that, as students in a fall 2021 Appalachian Community Research course, they helped

House Bill 105 proposed studying the feasibility of transforming Southwest Virginia's Catawba Hospital from a mental health facility into a state-of-the-art treatment center for substance use disorder (SUD). The need for the project was dire, they'd learned. With SUD running rampant in Appalachia, housing and

treatment facilities were available locally for only about one in 10 people who needed them.

Rasoul officially introduced HB 105 in the House of Delegates in January. By then, of course, the Appalachian Community Research class had wrapped up.

But a few students found they couldn't walk away from HB 105. Hannah O'Malley, then a senior in neuroscience, said, "I don't think there's any possibility of me not sticking with this and trying to see it through."

So O'Malley, Ljuba, Bikmal, and Neha Reddy, then a senior studying nanomedicine and neuroscience, signed up for an independent study with Satterwhite and gave their group of legislative war- committee on a Thursriors a name: Hokies for day in February, Bikmal SUD Recovery.

When they heard HB 99-0 in favor of their bill. 105 was coming up for HB 105 then headed to a vote in the House rules the Virginia Senate. Un-

Saket Bikmal, a spring 2022 graduate in computational and systems neuroscience, poses in the House Chamber of the Virginia State Capitol on a trip to talk to state legislators about a bill he and fellow students wrote in an Appalachian Community Research class. Photo courtesy of Saket Bikmal.

House of Delegates voted

fortunately, that's where it stalled out, when a motion in the Senate Rules Committee tabled it to the 2023 legislative session. To a despondent Bikmal, Ljuba, O'Malley, and Reddy, it looked like HB 105 was dead for now.

One Hail Mary remained. Rasoul had inserted a line-item request for funding for the Catawba Hospital feasibility study into the state budget. The students had no

idea if it was likely to go through. "After the bill did not pass, I was kind of like, 'Hannah, don't get your hopes up,'" said O'Malley.

In early June, a few weeks after Bikmal, O'Malley, and Reddy graduated from Virginia Tech, they heard news so good they didn't know if they should believe it. The new Virginia state budget passed with \$750,000 in funding exclusively for the Catawba Hospital study, part of a larger effort to assess Virginia's mental

health infrastructure. It wasn't HB 105, the way the students originally envisioned the study moving forward, but the project they cared about was actually happening. "We put a lot of effort into getting this to pass, and it feels like that truly paid off," said Bikmal.

Colonel is a happy boy ready for his fur-ever home! He will gladly go for a walk or hang out inside. Colonel would do best in a home with a consistent environment where he could receive all the attention of his person. Stop by the Animal Care and Adoption Center to meet him.

Newly formed School of Animal Sciences cements Virginia Tech's reputation as animal sciences powerhouse

Virginia Tech's newly formed School of Animal Sciences is one of the largest of its kind east of the Mississippi River and ranks fourth nationally in the number of research grants.

For more than 125 years, the Virginia Tech College of Agriculture and Life Sciences has been home to leading researchers studying everything from animal nutrition to translational

animal sciences. As of Friday, July 1, the departments of Dairy Science and Animal and Poultry Sciences were combined into a new School of Animal

With the State Council of Higher Education for Virginia's approval – effective July 1 – the school becomes one of the largest animal science programs east of the Mississippi. It is well-positioned to build on its outstanding legacy and move even higher in the rankings with modern facilities, cutting-edge researchers, and a curriculum that prepares students for a wide array of jobs, not only in traditional agriculture and allied industries, but also in areas of medicine, veterinary sciences, biotechnology, and many other highly rewarding professions.

"The synergies created when combining these two extremely talented groups into one academic unit is going to allow us to harness our strengths and create a formidable force in the animal sciences discipline across the globe," said David Gerrard, director of the school, which is housed in the College of Agriculture and Life Sciences.

With nearly 700 students and over 40 faculty members, the new school is currently ranked fourth and sixth nationally in the number of grants and total grant dollars, respectively, se-

cured for such programming.

Formation of the school also allows the college to boast one of the largest dairy-centric faculties assembled in the U.S. Programs in dairy sciences include but are not limited to production efficiency, reproductive performance, One Health, and climate change. The benefit of such programming breadth better prepares students for careers in dairy science and those industries tasked with supporting the sector.

"The scope and vastness of the research programming in this new academic unit will have wide-ranging impacts, and we are excited to see how it continues to grow," said Alan Grant,

dean of the college. With an annual economic impact of \$70 billion annually, agriculture is by far the largest private industry in Virginia, and products

from the animal industry represent five of the

top commodities produced. Faculty in this new school will help the animal industry in Virginia thrive and grow by creating a pipeline for new talent to lead these efforts.

Students enrolled in this school and those from across campus will have access to a larger array of classes and hands-on learning experiences with animals that were more difficult to maintain through smaller departmental struc-

Many of the scientists studying animal productivity also use animals to model and study those factors that impact the human condition. From this vantage point alone, studying animal sciences is a popular choice for many high school students because graduates can go directly into the animal industry or veterinary medicine without eliminating the option of becoming a doctor, pharmacist, or biomedical researcher. Areas of discovery with this type of duality in purpose include anorexia nervosa, infertility, infant nutrition, learning, fitness, obesity, and more.

As the School of Animal Sciences, the unit is expanding its scope to include companion animal research and outreach programming that started in the last few years. As part of this programming effort, researchers are studying the behavior of dogs in animal shelters and the procedures necessary to adopt these individuals throughout the community.

All of these changes are coinciding with the creation of some of the most modern and upto-date-facilities of any animal science program in the U.S.

On Plantation Road, a new equine facility is being built to support a highly visible equestrian program. A few miles down the road at Kentland Farm, a state-of-the-art cattle-feeding facility is equipped with the latest electronic feed monitoring system and a 60sow farrow-to-finishing facility that provides pigs for several highly productive biomedical researchers. Moreover, two new, technology-driven

buildings are nearing completion on Glade Road to support the poultry industry and the annual \$1 billion in gate receipts. Additional support structures also are being built that are part of a Phase I livestock building initiative supported by Virginia through Agency 229.

The new school builds on a strong history of excellence across both departments and creates a massive tailwind that allows us to be leaders in animal sciences for years to come," Gerrard said.

Fountain will sit in your lap and then melt your heart. Shy at first, she is a sucker for a good neck scratch and will happily pay for them with purrs. Now kittens are grown, she is ready to find her purrfect human.

ONLINE AUCTION

Ends Thursday July 14th @ 4 PM **Kennel and Boarding Business for Sale!** 426 Mt Elbert Rd, Riner VA 24149

Bid Now at VaAuctionPro.com

You have the opportunity to purchase a lucrative business in Floyd County VA! This property features a turn key dog boarding business on 2 acres for sale in Riner VA. The building was constructed in 2017 and has over 1,300 sq. ft. of space with an office, dog bathing space, handicap accessible bathroom and 10 8x8 boarding rooms. Each room has air vents and ceiling fans for comfort. The building is metal sided with metal interior walls, roof and is well insulated. It has a private well and septic. There is a large, fenced lot out back for dogs to run and play for exercise during their stay. This is a great opportunity to pick up and continue a highly successful dog boarding business in a great location. Business stays steady and has the potential to remain booked throughout the year. It could serve as a great source of income. Don't miss out on the opportunity to scoop up this great business for sale in Riner VA! Contact agent for P&L statement and other financial documents.

Home Country: "From the cow to the plow"

"From the cow to the plow, Dewey," Windy said, leaning on a shovel. Windy Wilson was on another of his "helper days" and today it was Dewey Decker's turn to be helped.

"What do you mean,

Windy?" "You know ... a slogan for

the business. From the cow to the plow. Fertilizer. Farming." He was helping Dewey spread some product around at Mrs. Simmons's yard, helping her anticipate a greener lawn this sum-

mer. Besides enriching the English language at every possible moment, Alphonse "Windy" Wilson devotes one day each week to helping someone, for free, here in the valley. He usually calls it his "enrichelating ex-Windy went back to Dewey's

pickup for the steel rake. "What you're doing here," Windy tossed back over his shoulder, "is plowing backly into our community the veriatable seedlets of hope and change for the future. Yes, if I can coagulate some ideas for assisticating your business, I'm delightable. We need ya, boy!"

'Thanks, Windy. Everyone's been so nice. You know Emily's coming up with new ways of using cow manure so we can ... well, spread out a bit more."

"Absotively. I heard that sweet little chickadee of yours was masticating some ideas that are ultra noo voe and knife bladely sharp. She's a honey."

"She sure is. She thinks we might get a steel tank and pour

manure in it, then fill it with water. She says they call it 'fertilizer tea' or something and it's good to spray on crops." "No foolin'? Won't you have

to buy one a them sprayer thingies to drag behind a tractor?" Dewey stopped shoveling and

thought. "Now that you mention it, we'd have to have some way to get it on the field. But you know about me and machinery ..."

Dewey's being monumentally self-destructive around anything valuable, movable or sharp was

"Why son," Windy said, "you just worry about getting that tractor ignitified, and I'll drive 'er for you.'

You'd do that?"

Windy put his hand on his heart. "Dewey, my word is my blonde."

The project also includes ers 136.6 and 141.8 from replacing six bridges, widtwo to three lanes is set to ening two bridges, installearly summer, work will be miles of sound barrier walls performed on the inside along northbound I-81, and outside shoulders along improving the southbound a five mile section of both exit 137 off-ramp intersecnorthbound and south- tion at Wildwood Road bound Interstate 81 in Roa- and adding interchange noke County and the city lighting at exits 137, 140 and 141 are also included in the project. Expected completion in early 2026.

TROUTVILLE REST AREA CLOSURE The Troutville Rest Area located on southbound Interstate 81 near mile marker 158 in Botetourt County is closed until September 2, 2022. Signage indicating the closure has been posted in the rest area. During the closure, a temporary concrete barrier wall will be installed in front of the facility. The rest area facility, ramps and parking lot will be closed to the public. This project will extend the ramp into the rest area by 500 feet and the ramp out of the rest area by 2,100 feet. It will also include expanding the truck parking area at the facility by about 10-13 spaces. Work is expected to be completed in early fall 2022.

REST AREA TIONS: While the Troutville Rest Area is closed, southbound I-81 drivers can use the Fairfield Rest Area at mile marker 195 in Rockbridge County or the Radford Rest Area at mile marker 108 in Montgomery County. In addition, the Troutville Weigh Station, located on southbound I-81 at mile marker 149, will have portable

LANE WIDENING CONSTRUCTION EXIT 141 TO EXIT 143 -A project to widen the lanes on I-81 in Roanoke in both northbound and southbound directions between Exit 141 to Exit 143 has been underway. All lanes now open and will remain open through winter with periodic lane closures at night as needed. The final surface paving and markings for northbound traffic will resume this summer. Drivers can expect rough pavement. Estimated completion date of the project is summer 2022.

PAVING TIONS DELAYED: Paving operations northbound have been delayed until after the 4th of July holiday. In addition, the outermost right lane northbound currently has pavement that is approximately 1-1/2" higher than the inner two lanes of travel for 0.8 mile (mile marker 141.9 to 142.7). Drivers should use caution and slow their speed. Message boards are in place to notify drivers. When paving resumes, it will remain during nighttime hours, 8 p.m. to 6 a.m., for the next three weeks. Weather permitting, this paving operation will finish the project with final paving that will smooth out the rough sur-

ROUTE 615 CUL-VERT REPLACEMENT - Route 615 (Pilot Road) is undergoing a culvert replacement located at the intersection of Pilot Road and Old Pike Road, across from the Pilot Post Office. Lane closures on Route 615 maintained by utilizing temporary traffic signals are in place through August 2022. Flagging operations may be in place. Route 615 will be limited to one 10 foot lane. Expected completion is October 2022.

ROUTE 641 CUL-VERT REPLACEMENT – Route 641 (Wayside Drive) will be closed for a culvert replacement over Spring Branch until July 22 at 5 p.m.

ROUTE 114 TURN **LANE** CONSTRUC-TION - Road improvements on Route 114 (Peppers Ferry Road) for the construction of a new entrance to Belview Elementary School are in progress. Motorists should expect daily lane closures controlled by flagging forces. Work is expected to last until August 2022. OPERA-**PAVING**

TIONS - Weather permitting, crews will pave, patch and repair pavement on various routes. Lane closures may be in place and flaggers may control traffic at times during daylight hours. Drivers should watch for signs and expect possible delays.

Route 765, both east and west lanes, will have a flagging operation in place for paving from 7 a.m. to 5 p.m. daily. **INTERSTATE 581**

ROUTE 581 BRIDGE WORK OVER WIL-LIAMSON ROAD -On lane closures between the intersections with Rutherford Avenue and Wells Avenue. Intermittent daytime and nighttime lane closures between the intersections above might be required, and will be in place utilizing flagging operations. Any impacts to I-581 will be minimal. The project is expected to be complete in the fall of 2022.

LANE CLOSURES:

o A left lane closure will be in place on northbound and southbound I-581 from mile marker 0-1, Monday at 7 a.m. through Wednesday at 7 p.m. o A right lane closure

will be in place on northbound and southbound I-581 from mile marker 0-1, Thursday at 7 a.m. through Saturday at 7 p.m. o A left and center lane

closure will be in place on northbound and southbound I-581 from mile marker 0-1, Saturday at 5 p.m. through Sunday at 2 p.m.

A right lane closure may be in place on Route 11 northbound between the intersections of Rutherford Avenue and Wells Avenue periodically.

Nighttime left lane closures for both the northbound and southbound directions of Route 11 are possible between the intersections referenced above. * I-581/220 EXPRESS-

WAY PAVING OPERA-TIONS - Weather permitting, crews will pave, patch and repair pavement on various routes. Lane closures may be in place during nighttime hours, 9 p.m. to 6 a.m. the following morning. Drivers should watch for signs and expect possible delays.

* I-581/220 LANE & RAMP CLOSURES FOR PAVING AND MAINTE-NANCE OPERATIONS IN ROANOKE COUN-TY- Weather permitting, crews will be milling and paving along Interstate 81. Right and left lane closures will be in place along northbound and southbound lanes during nighttime hours. Drivers should expect possible delays.

Bringing barley back

Will Payne and Will Clear didn't son said.

About four years ago, the pair Payne of Coalfield Strategies and Clear of the Virginia Department of Energy — visited Virginia Tech with a complex question that has for years bounced around the agriculture industry: "Knowing the farming legacy in Southwest Virginia, how can we build on that legacy and find a way to attract young farmers to the

That's when longtime College of Agriculture and Life Sciences Professor and specialty grains expert Wade Thomason joined the conversation.

Ideas danced around the sturdy metal table at which the men gathered outside The Inn at Virginia Tech one sunny summer afternoon. They discussed the state's - and the university's - rich agricultural past. And they discovered potential, and a possible solution, for its future.

They call it Thoroughbred. A barley variety developed by Virginia Tech researchers in the School of Plant and Environmental Sciences. Originally targeted toward horse owners, Thoroughbred was later tested for its malting quality.

'Call it luck or just skilled outcome, but the genetics of this variety combined in a very beneficial way. We produced an incredible barley that had malting quality," Thoma-

Could Thoroughbred be the answer Payne and Clear were searching for? Could Southwest Virginia be a key part of the state's growing craft beer industry?

From summer's blessings of sweet iced tea to a refreshingly hazy IPA, every beverage has a backstory, a recipe full of ingredients that come together to make it tasty - to make

The same goes for every bold endeavor, and in Project Thoroughbred's case, it is a team of public and private stakeholders, along with experts at Virginia Tech and Virginia Cooperative Extension, that continue the work to make it what Payne calls "a perfect example of a great American success story."

Barley. It's been around for centuries, said Thomason.

"Go back 100 years, and almost everyone in this region who had any livestock to feed - and almost everyone did — grew some barley because it was relatively cheap feed," he said. "That existed up until the 1970s and '80s. At that point, we had so much vertical integration, there was less demand for a less expensive, on-farm feed.

Despite the decline in barley acres, Virginia Tech made a conscious decision to maintain the barley breeding program. It remains one of the few east of the Mississippi.

"Sometimes it's good to be one of the few that is working in a particular area ... to be the 'contrarian,' Thomason said.

He was right.

In the mid-'80s, the college hired a new small grain breeder to lead the program. He decided to increase the genetic diversity of the barley being grown, and one of the outcomes was the Thoroughbred seed. Its valued malting quality is due to one of its parents, a French-developed malt

Fast forward to the mid-2000s, craft breweries and distilleries started popping up nationwide, and Virginia was no stranger to the trend. Brewers and distillers knew where to turn for high-quality, Virginiagrown barley. After their initial visit to Virginia Tech and conversation with Thomason back in 2018, so did Payne and Clear.

"Project Thoroughbred is about creating a specialty grain market in Southwest Virginia that ultimately delivers higher revenues to farmers and attracts next-generation farmers to the area," Payne said. "We're trying to be bold with this project, and it begins with the belief that Southwest Virginia produces the best malting quality grain in the world."

University partnership to provide greater mental health support to students

On behalf of member institutions of the Virginia Higher Education Procurement Consortium, Virginia Tech, James Madison University, and Virginia Commonwealth University have entered into a systemwide agreement for telehealth and tele-mental health services with TimelyMD. TimelyMD is the leading virtual health and well-being resource for institutions of higher education and has been trusted to care for more than 1 million college

This agreement will bring additional, much-needed mental health assessment and treatment services to all students at participating colleges and universities at a time when student mental health concerns and needs are increasing across the

Mental health continues to be of particular concern to students and campus leaders.

Higher Ed, 14 percent of students say their mental health got worse at the start of the pandemic and remained unchanged, while only 10 percent said they haven't had mental health challenges. Approximately 56 percent of students responding said their mental health was fair or poor, nearly one in five students had suicidal ideation, and a staggering three-quarters struggled with anxiety or depression while at college. No matter the numbers, the mental health challenges students experience continue to increase.

"The mental and emotional health of every student, whether they are on campus, with family, or in our larger community is integral to student success at Virginia Tech," said Virginia Tech President Tim Sands. "Learning, and social engagement occurs around the clock in today's higher edu-In a recent article from Inside cation environment, and it's throughout the year.

important to support our students' educational experience and well-being with accessible mental health coverage."

TimelyCare serves as a 24/7 virtual extension of campus counseling center resources, with a goal of improving student well-being, engagement and retention. Through TimelyCare on their phone or other device, students can now select from a wide-ranging menu of virtual care options from licensed counselors and mental health providers- at no cost and without the need to bill costs to traditional insurance - including On-demand mental health support (TalkNow), appointment-based mental health counseling, psychiatric support, health coaching, care navigation with basic needs, and digital self-care content

In addition, 12 scheduled Several Mindful Campus Practice markers can be found around counseling visits are available Virginia Tech's Blacksburg campus to encourage good mental at no cost for each student health practices. Photo by Christina Franusich for Virginia Tech

Virginia Tech hosts local leaders for NRV Childcare Summit

In creating a road to the best possible New River Valley, Virginia Tech's leadership wants to ensure a critical aspect is not overlooked.

"We don't want child care to be the pothole in the road that derails our progress," said President Tim Sands during his opening remarks at the NRV Childcare Summit, last week.

Sands said the success of both the university and employers throughout the region depends on recruiting and retaining talent, and the availability of child care is essential to that process. In the hope of advanc-

ing a collective effort, Sands invited leaders of the New River Valley's top 50 employers, education institutions, and municipalities to come together and discuss the current child care environment and its impact on the region.

"We can take great pride, I think, in the way the New River Valley came together as a region to address the pandemic. I believe a regional, collaborative approach to child care will be much more effective than each of us working in isolation," Sands said.

For more than two hours the group heard from professionals working in a variety of efforts related to early childhood education and worked together to identify overarching problems, hurdles, and potential solutions.

"The good news is that we really do have some good leadership here in the New River Valley and a tradition of collaboration in order to address these kinds of challenges," said Jessica Wirgau, ČEO of the Community Foundation of the New River

The summit was an outgrowth of the university's child care working group, which was established in 2018 with the goal of improving quality, access, affordability, and flexibility of child care not just at Virginia Tech, but also within the surrounding communities. As a part of that effort, Kim Thomason joined the university as the program manager for early childhood education initiatives last spring.

Thomason shared with the group a snapshot of the current child care situation across the country and the New River Valley. She said nationally, 80 percent of child-care providers report staffing shortages, and facilities in the New River Valley were collectively operating only at a third of their capacity, resulting in a gap in potential service to almost 7,000 children. For Montgomery County alone that means estimated losses of \$38 million in family revenue, \$13 million in business revenue, and \$7 million in tax revenue, each

Kristi Snyder, program manager at the Blacksnames each week.

"The problem is we jobs in this sector," said have a huge gap because we don't have the teachers," Snyder said. "The demand is huge. The ability to provide the supply is problematic because of that staff shortage.

"We're not talking about babysitters here," Snyder said. "We're talk-ing about early childhood professionals who not only are caring for our youngest citizens, but they're also educating them and helping them prepare for the next stage of their educational life."

The gap in available service is causing one in three women across the country to consider leaving or changing jobs, Thomason said. At Virginia Tech alone that could be as many as 1,600 people.

A host of challenges stands in the way of increasing the availability and quality of child care in the New River Valley. They include recruiting and retaining well-trained and experienced educators, balancing wages with affordability for working families, increasing easily accessible locations throughout the region, and creating options for people with non-traditional work schedules.

"The biggest takeaway for me was there is a

burg-based Rainbow Rid- strong desire to collaborate ers Childcare Center, said across the region working the provider currently has toward creative solutions more than 1,200 children to address the most presson a wait list to attend and ing challenge, developing is adding 10 to 15 new a workforce pipeline for people to fill the critical

Kevin Byrd, executive director of the New River Valley Regional Commission. "It is encouraging to see President Sands initiate the conversation because we believe future solutions will require partnerships

between employers, child care providers, and many other partners."

More conversations and events will be planned in the near future.

Passenger Rail from page 1

hancing freight rail service through the commonwealth. We thank our partners at Norfolk Southern for helping us make this a reality."

"Today's closing marks the future of rail in the Commonwealth of Virginia," said Norfolk Southern Senior Vice President and Chief Strategy Officer Mike McClellan. "Together, we have reached an agreement that expands access for passengers and preserves an important link in the supply chain for businesses that rely on freight rail to ship base materials and finished products.'

With this agreement the Commonwealth of Virginia will acquire approximately 28 miles of Norfolk Southern-owned "V-line" right-of-way including existing tracks from Christiansburg to the Salem Crossovers plus the passenger easement between Salem Crossovers and the Roanoke station platform. The Commonwealth's plans also include rail infrastructure improvements between Manassas and the New River Valley for more frequent and reliable service.

The extension of passenger rail to Virginia's Blue Ridge began in 2009 with service to Lynchburg, which saw ridership triple what it had been predicted to be in just its first year. In 2017 the service was extended to Roanoke, and ridership continued to grow with more than 220,000 passengers traveling in Fiscal Year 2019 (pre-pan-

In April and May of 2022 ridership on the Roanoke Route surpassed the record ridership of the same months in

The new Washington, D.C. to Roanoke round trip will make stops at Alexandria, Manassas, Culpeper, Charlottesville, and Lynchburg. The agreement also calls for a future station at Bedford. The new service is expected to add approximately 80,000 passengers in the first year once it is extended into the New River Valley.

RADFORD SPORTS

Southwest swim league

seconds at Hethwood during week 4 of Southwest Virginia Swim League competition.

Pine Valley's A.J. Hazleton prepares to start in the boys 7-8 25-meter backstroke. He would win the event in a time of 44.40.

Christiansburg runner has beer named after her

This past week, Christiansburg runner Carmen Graves helped unveil a beer at hometown brewery Iron Tree named Blue Collar Beer after her and her philosophy of being a bluecollar runner who lays down fast times while holding a full-time

Blue-collar runners "grind on the daily to fit in both work and training," Graves said. "They are the runners who don't have a running contract, but still have big dreams."

Her dream is of qualifying for the steeplechase in the Olym2016 but sustained a plantar fasciitis injury that sent her to the sidelines. Her time was 9.52, barely hitting the Olympics qualifying standard of 9.53. This year the committee lowered the standard to 9:50, which worried her because she hasn't run under 9:50 in over six years.

"I ended up qualifying with a personal best time of 9:47 at the Portland Track Fest (May 27)," Graves said. "It's exciting because I know that I can run faster. I fell in the water pit and still ran a personal best in Portland, so I am excited to see how pics. She initially qualified in fast I can run while staying on

A 2009 graduate of Christiansburg High School, Graves now lives in Denver. After an outstanding career at CHS and Roanoke Čollege, she went on to run in the professional ranks.

"I identify myself as a blue collar runner," Graves said. "I work full time in education and coach track and field while also rubbing elbows with full-time professional runners."

This past week, she said, "It's probably not the best recovery strategy, but after a long day at work and a hard training session, I just want to relax on the couch with my husband, my dog, and a cold beer. It's hard to find a good IPA that hits the spot just right after a run," Graves said. "My taste buds seem to be

sensitive after physical activity, and the typical IPA can taste too harsh and strong. The perfect post-run beer to me is light and refreshing while still holding the integrity of an IPA; hence, Blue Collar Runner," she said.

Graves said it was important to work with Iron Tree Brewing Company because they are helping to make downtown Christiansburg special.

"The Brewhouse Manager,

Seth Locklear, has been great to collaborate with, and he took all

suggestions into consideration," she said.

Iron Tree Brewing Company is a new brewery that is not yet at the point where it is canning beers yet, but it's definitely a possibility in the future for Graves and her newly named beer.

'I've been healthy and happy, which has allowed me to get into consistent training for the last four years," she said. "Moving to Denver and training at high altitudes has also been a good change."

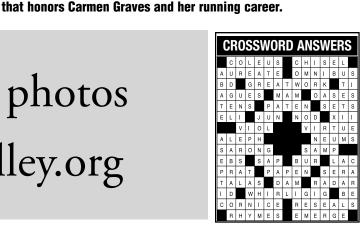

Carmen Graves (forefront, #9) is reaching for the top ring in the steeplechase event with the possibility of appearing in the Olympics.

Blue Collar beer is a new line at Iron Tree Brewery in Christiansburg

VT 2022 class of All-Americas is largest in program history

The Virginia Tech baseball team is celebrating its most decorated All-American class in the program's history as four Hokies have combined to garner 13 such honors for their outstanding diamond performances during the 2022 season.

Sophomore shortstop Tanner Schobel led Tech's national yearend honorees with six All-American mentions while sophomore outfielder Jack Hurley collected four All-American nods. Freshman starting pitcher Drue Hackenberg was named to two All-American teams while third-year sophomore fielder Gavin Cross earned one All-American selection, placing onto Perfect Game's First Team.

With four national standouts, Tech's 2022 All-American class marks its largest such class all-time, doubling the size of its two-player classes in 1982, 1996, 1999, 2003, and 2020. Additionally, Cross becomes the Hokies' first All-American firstteam selection since 2003 (Matt Dalton) and the program's first such position player since 1986 (George Canale).

Among Schobel's six All-American titles, the All-ACC First Team shortstop was twice named to the Second Team (ABCA/Rawlings, NCBWA) while showing up on four thirdteam lineups (Baseball America, Collegiate Baseball Newspaper, D1Baseball, Perfect Game). The draft-eligible sophomore set Tech's ACC-era records for both RBIs (74) and home runs (19), achieving the program's highest marks in both categories since 1986 (Trey McCoy) and 1996 (Kevin Barker), respectively. Starting each of the Hokies'

59 games, Schobel batted .362 (85 hits, 18 doubles), slugged .689, scored 68 runs, stole seven bases, and helped turn 36 double plays (.954 fielding percentage). He was also tabbed as one of six national finalists for the 2022 Brooks Wallace Award (presented annually to the nation's best collegiate shortstop), was named a national semifinalist for both the Golden Spikes Award and the Dick Howser Trophy, garnered ABCA/Rawlings Atlantic All-Region First Team praise and was lauded on the VaSID All-State First Team.

Scoring four All-American mentions, Hurley accompanied Schobel on the NCBWA Second Team while collecting thirdteam consideration from three outlets (ABCA/Rawlings, Collegiate Baseball Newspaper, Perfect Game). The All-ACC First Team outfielder led all NCAA Division I players in batting average as late as April 7 (.464), finishing with a .375 mark that yielded 87 hits, 23 doubles, a triple, and 14 home runs (.664 slugging percentage).

Arguably the toughest out in Tech's offense, Hurley posted the Hokies' best on-base percentage (.452), swiping 10 bases on his way to scoring 59 runs while accounting for 55 RBIs. An invitee to USA Baseball's 2022 Collegiate National Team training camp, he was named a national semifinalist for the Dick Howser Trophy, earned ABCA/Rawlings Atlantic All-Region First Team distinction, sported VaSID All-State First Team honors and placed onto the All-ACC Academic Team.

A breakout rookie, Hackenberg came away with a pair of All-American third-team selections, as so named by Collegiate Baseball Newspaper and the NCBWA. Named a Freshman All-American by both outlets as well, the All-ACC First Team starting pitcher led the ACC in regular season ERA (2.44) while winning 10 games, the most by a Tech hurler since 2013 (Devin Burke). Joining Hurley as an invitee

to USA Baseball's 2022 Collegiate National Team training camp, Hackenberg notched the most strikeouts (87) in a Tech uniform since 2011 (Marc Zecchino), which ranked him sixth among ACC pitchers in fewest walks allowed per nine innings (1.85). Recently named the Va-SID Pitcher and Rookie of the Year, he has also earned ABCA/ Rawlings Atlantic All-Region First Team, All-ACC Academic Team and VaSID All-State First Team honors.

Tech's lone 2022 All-Ameri-

can First-Team selection (as so named by Perfect Game), Cross performed at his best when facing the best, swinging 12 of his 17 home runs against Power Five opposition. The All-ACC First Team outfielder ranked among the top 25 NCAA Division I players in runs per game (70 runs, 1.23 per game), pairing his .328 batting average with 14 doubles, eight triples (tied for the second most nationally), his 12-for-12 mark in stolen bases, and his .660 slugging percentage.

Cross could well become one of the Hokies' highest MLB Draft picks all-time, seeking to join Franklin Stubbs (1982) Brad DuVall (1987, 1988). Denny Wagner (1997) and Joe Saunders (2002) in the coveted first round. Among his additional 2022 honors, he made his way onto the ABCA/Rawlings All-Region Second Team and the VaSID All-State First Team. He was also named the Most Outstanding Player of the 2022 NCAA Blacksburg

Regional.

ERATIONS – Weather permitting, crews will be performing paving operations along Interstate 77 between mile marker 24 and 0. Right and left lane closures may be in place along northbound and southbound lanes during nighttime hours, 7 p.m. to 6 a.m. Drivers should watch for moving vehicles and equipment. Expect possible delays. Milling and paving

operations on I-77 southbound lane. Right lane closure will be in place from mile marker 9 to 7. Ramp restrictions possible. Latex application

on I-77 northbound 2 lanes near mile marker 11. Ramp closures possible. Message boards will alert

I-77 BRIDGE DECK REPAIRS - Weather permitting, crews will repair bridge decks on Interstate 77. Right and left lane closures may be in place northbound or southbound during nighttime hours, 9 p.m. to 5 a.m. the following morning. Drivers should watch for signs and expect possible delays.

I-77 LANE & RAMP CLOSURES FOR MAIN-LENANCE OPEKA-TIONS IN CARROLL COUNTY- Weather permitting, crews will be milling, paving and performing maintenance along Interstate 77. Right and left lane closures will be in place along northbound and southbound lanes during nighttime hours. Drivers should expect possible

delays. I-77 MOWING, BRUSH REMOVAL & SHOULDER WORK -Weather permitting, crews will remove and clear brush and work on shoulders and slopes along I-77 northbound and southbound from mile marker 17 to 14 during nighttime hours, 7 p.m. to 7 a.m. the following morning. A left lane closure will be in place.

ROANOKE CITY 13th STREET SE IM-PROVEMENTS WITH DETOUR - A project to improve a portion of 13th Street SE in Roanoke is underway. Located in a residential neighborhood just east of downtown Roanoke, this project will improve traffic flow and connectivity along 13th Street SE from Tazewell Avenue to Norfolk Avenue. The project entails reconstructing about 0.2-mile of 13th Street as an improved, two-lane roadway with 10.5-foot-wide travel lane and a raised median. A new roadway will extend 13th Street to Norfolk Avenue and the intersection at 13th Street and Wise Avenue will be reconfigured to include a roundabout. Bike lanes, sidewalks, crosswalks and curb and gutter will also be added. Southbound 13th Street traffic has a detour in place using Norfolk Avenue onto 12th Street to Tazewell Avenue. This detour will be in place throughout the duration of this project. Signs will be posted to designate the detour route. Northbound 13th Street will re-

Drivers can expect short-term lane closures with flaggers controlling traffic on West Riverside Drive periodically. Access to Green Hill Park, private entrances and busi-

> expected in the winter of 2022. DETOUR JULY 5: A 45-day detour will be in place July 5. For the majority of the 45-day closure, traffic can detour using West Riverside Drive and Mill Lane. However, there will be two, three-day periods when a large crane will be in use at Diuguids Lane and West Riverside Drive, so this intersection will need to be closed temporarily.

nesses will be maintained

at all times. Completion is

On those days when the large crane is in use, drivers will need to use Creekside Drive and Lilly Drive to detour. The crane is expected to be at the intersection on July 6, 7 and 8 and require that traffic use the alternate detour route between 7

a.m. and 10 p.m. each day.

During these hours, flaggers will control traffic on Lilly Drive to allow drivers to alternate using one open lane. Between 10 p.m. and 7 a.m., flaggers will control traffic at the West Riverside Drive intersection while the crane is present.

For three days later in July to be determined, the crane is anticipated to impact the West Riverside Drive intersection again. The same traffic pattern will be implemented on those days with drivers using Creekside Drive and Lilly Drive between 7 a.m. and 10 p.m. and flaggers controlling traffic on Lilly

Flagging operations in place, Monday through Friday, 9 a.m. to 3 p.m., on southbound Diuguids lane as well as the intersection of Harborwood Road/W Riverside Drive. A right lane closure northbound may also be in place, Monday through Friday.

BLUE RIDGE PARK-WAY CLOSURE - The Blue Ridge Parkway will be repairing slope failures. Detour signs to detour traffic around the Bent Mountain section of the Parkway will be in place. Traffic will be rerouted to Route 220 south to Route 419 north to Route 221 south. Traffic traveling north on the Parkway would be reversed. The detour is expected to be in place through Sum-

mer 2022. **SURFACE** TREAT-MENT OPERATIONS Weather permitting, crews will begin surface treatment operations on various routes. Lane closures may be in place and flaggers may control traffic at times during daylight Drivers should hours. watch for signs and expect possible delays. The road surface may be rough for several weeks after surface treatment is applied. Once it packs down, the road surface will be brushed and return to a more smooth surface.

BEDFORD COUNTY ROUTE 460 S-CURVE REALIGNMENT – Work is coming to a close to realign 1.4 miles of the eastbound lanes of Route 460 in Bedford County near Montvale, about eight miles west of Bedford and approximately 2.3 miles east of Montvale. All lanes are now open, and the speed limit has returned to 55mph. Drivers may see residual work continue and traffic impacts such as lane closures may be possible. Message boards will be posted to alert drivers. Completion is expected in Summer 2022.

ROUTE 747 REPLACEMENT CLO-SURE - Effective July 11, 2022 at 8 a.m., a section of Route 747 (Joppa Mill Road) and Route 691 (Shepherds Store Road) will be closed for a pipe replacement. This clo-

sure will be located 0.10

of a mile from Route 691 (Shepherds Store Road) and 0.75 mile from Route 807 (Scenic View Road) and 1.36 miles from Route 745 (Mount Olivet Road). There will be signage for a detour that follows Route 24 (Stewartsville Road) and Route 122 (Moneta Road). The road is scheduled to be completed on August 8 at

ROUTE 221 INTER-SECTION IMPROVE-MENTS - A project to improve safety and operations at three signalized intersections is underway. Two intersections are on Route 221 in Bedford County in the Salem District and one is at Route 460 Business (Timberlake Road) and Route 622 (Waterlick Road) in Campbell County in the Lynchburg District. In Bedford County, this project will improve two adjacent signalized intersections in the Forest area on Route 221 at Route 1425 (Graves Mill Road) and at Route 1426 (Gristmill Drive). Most work will be performed during nighttime hours, Monday through Friday, 6 p.m. - 7 a.m. the next morning. Drivers may see shoulder and lane closures during daytime hours on the weekends. The project is expected to be completed

in spring 2023. ROŬTE 655 TERSECTION AND IMPROVE-**SAFETY** MENTS - Construction to improve the intersection and shoulders began on Route 655 and various locations from 0.91 mile north of the Route 653 and 655 (Goodview Road and Route 616 (Horseshoe Bend Road) to 0.038 mile north of the Route 655 (Good View Road) and Route 616 (Horseshoe Bend Road) is in progress. Flagging operations at the intersection of Goodview Road and Horseshoe Bend will be in place during the week and work hours of 8 a.m. to 6 p.m. The expected completion date is the end of September 2022.

ROUTE 691 PIPE-LINE REPLACEMENT Effective immediately, a section of Route 691 (Quarles Road) is closed due to a pipe failure. The closure is located .40 mile from Route 726 (Quarterwood Road) and 1.30 mile from Route 619 (Pendleton Road). The road will be closed until further no-

ROUTE 623 CUL-VERT REPLACEMENT - A section of Route 623 (Turkey Foot Road) in Campbell County on the Bedford County line is closed to replace a culvert which carries Buffalo Creek. This structure is located .18 mile north of US 460 and 0.68 mile south of the Bedford/Campbell County line. There will be signage for a detour. The road is scheduled to be completed on July 29 at 5
