Radford officer suspended following arrest for assault, DUI

A Radford City Police officer has been placed on suspension following an arrest for driving under the influence and assault.

Officer John Fuhrman was arrested Saturday, Jan. 27 after an incident at the Log House Restaurant in Wytheville after officers responded to reports of a

fight just before 1 a.m. early Saturday morning. Fuhrman was off duty at the time and left the restaurant before police arrived, but police encountered the apparent victim at the scene. Fuhrman and his brother, Michael Fuhrman, were taken into custody following a traffic stop a short time later.

Radford City Police Department Chief Jerry Holdaway said Thursday Fuhrman has been suspended following his arrest.

"The Radford City Police Department was notified that off duty Officer John Fuhrman was arrested on Saturday, Jan. 27, 2024, for Driving Under the

Influence and Assault and Battery," said Holdaway. "Immediate actions were taken by the Radford City Police Department. Officer Fuhrman was placed on suspension pending an internal investigation."

NRV named in 2023 Top 50 Metro Area for Economic Growth in the U.S.

NEW RIVER VALLEY – The New River Valley is one of the top 50 places in America for metro areas that are "hotspots for economic growth", according to Area Development.

The magazine recently released its rankings of the 2023 leading metro locations that are hotspots for economic growth.

The Blacksburg-Christiansburg-Radford metropolitan statistical area (MSA), also known as the New River Valley, ranked No. 49 overall and No. 21 among mid-sized metros with populations between 160,000 to 600,000. The New River Valley is the only location from Virginia that made the top 50.

According to Area Development, they ranked "384 MSAs across 24 economic and workforce indicators pulled from eight data sets — each set containing a five-year change, a three-year change, and a one-year change indicator — originating from the U.S. Bureau of Labor Statistics, U.S. Census, and JobsEQ by Chmura Economics & Analytics." The "Overall Ranking" was created by totaling the score across all data sets, with the five-year change indicators carrying the

GRAPHIC COURTESY OF ONWARD NRV

most weight and the one-year indicators carrying the least weight. The four primary indicators used to compile the rankings included Prime Workforce, Economic Strength, Year-Over-Year Growth, Three-Year Growth, and Five-Year Growth.

The "overall ranking" isn't a product of just one indicator, but all the factors combined. This shows the New River Valley's strength in a variety of different indicators that make it 'a natural fit' across the board. The region benefits from its emerging tech hub, high-tech advanced manufacturing, access to talent, great cost of living and many other key factors that make the NRV a great place to live and do business.

PHOTOS COURTESY OF APPALACHIANS AGAINST PIPELINES

Mama Julz, an Ogala Lakota protestor, locked herself to a Mountain Valley Pipeline (MVP) helicopter on Poor Mountain early Thursday morning.

Pipeline protestors jailed from Elliston site

ELLISTON — Two protestors were arrested Thursday following a protest on Poor Mountain related to the Mountain Valley Pipeline.

According to the Appalachians Against Pipelines group, "Mama Julz, an Ogala Lakota land defender and water protector, locked herself to a Mountain Valley Pipeline (MVP) helicopter to prevent the transportation of pipeline workers onto a remote work site on Poor Mountain."

Julz "prevented MVP's use of the helicopter for multiple hours before she was extracted from her blockade and arrested, along with one other person." Both Julz and the supporter were charged with one misdemeanor; both were denied bond and were being held in jail as of Thursday afternoon.

"Without water there is no life," said Julz. "Violence upon our Mother Earth is violence against our sisters."

As the founder of Mothers Against Meth Alliance and an active voice in the MMIWG2ST movement,

she has fought meth dealers in her homelands and ways pipeline workers prey upon women and other relatives. The red dress on the helicopter represents these missing and murdered Indigenous women, girls, two-spirit, and trans folks.

"In my culture, the women are the backbone of our society, and right now it's the women who are standing up in all these frontlines," she said. "I keep coming here because this land reminds me of my ancestral lands in the Black Hills, the rivers, the streams, the waterfalls."

The Mountain Valley Pipeline is a 42-inch diameter fracked gas pipeline that will cover 303 miles of Appalachia once completed. Mountain Valley Pipeline has recently filed Strategic Lawsuits Against Public Participation (SLAPP suits) against protestors at pipeline construction sites.

Calling all LEGO architects

Announcing the LEGO Home Building Contest at the 2024 NRV Home Expo

NEW RIVER VALLEY - Registration is now open for The New River Valley Home Builders Association (NRVHBA) LEGO Home Building Contest, sponsored by Carter Bank & Trust, taking place at the 2024 NRV Home Expo March 23 and 24 at the Christiansburg Recreation Center.

Kids and adults ages four and up from the New River Valley are invited to submit entries of their best custom home creation. New for the 2024 Lego Home Building Contest, entries from 18 and up architects will be accepted.

Best in Show winners will be chosen from among three age groups for the kid's entries, and one from the 18 and up

entries. The homes will be judged at the 2024 NRV Home Expo by NRVHBA members, receiving scores based on Overall Design, the Best Use of LEGO Elements, and the "Cool Factor" (overall creativity and originality).

An award will also be given for the People's Choice for both the younger and adult groups. Attendees at the NRV Home Expo will be invited to vote for their favorite entry. Each age group winner and the people's choice winner will receive a custom-made medal and a \$50 gift card. Winners will be announced at the NRV Home Expo on Sunday

UPCOMING EVENTS

Saturday, Feb. 3:

Book Sale
There will be a book sale at the Radford Public Library 10 a.m. – 5 p.m. Lots of selections and low prices. Come and support the Radford Library.

Southwest Virginia High School Art Show
The art of high school students from throughout Southwest Virginia will be on display at The Art Museum on Tyler (214 Tyler Ave., Radford) Feb. 3 – Feb. 17. Opening reception: Saturday, Feb. 3 at 1 p.m. Gallery hours are 10 a.m. - 5 p.m. Monday through Friday and 12- 4 p.m. Saturdays.

Sunday, Feb. 4 – Sunday, Feb. 25:

Black History Month speakers
Asbury United Methodist Church, 500 Stuart St., Christiansburg, will observe Black History Month each Sunday in February starting at 11 a.m. during church services. The theme “Community - Bringing Hope to a Weary World” will be shared by guest speakers: Feb. 4, 2024- Dr. Takiyah Nur Amin; Feb 11, 2024-Ms. Stacie Wright; Feb. 18, 2024- Dr. Frederick Douglass Dixon; Feb. 25, 2024- Ms. Demiah Smith. Asbury UMC regular services are each Sunday at 11 a.m. Rev. Lance Presley, Pastor. Please join us! For additional information, please call 540-382-0743.

Saturday, Feb. 10:

Mount Tabor Ruritan Biscuit Breakfast
Mount Tabor Ruritan Club will be serving up hot biscuits topped with delicious sausage gravy, or with the latest batch of our “world-famous” apple butter. We will also have scrambled eggs, orange juice and coffee. Breakfast will be served in the Fellowship Hall of Slusser’s Chapel, 1543 Mount Tabor Rd, Blacksburg; 8 – 10 a.m. This is below the sanctuary, on the lower church parking lot level. This is a fundraiser for our club to help us as we serve our community, and donations will be accepted for the breakfast. More information at <https://fb.com/MtTaborRuritan>

Monday, Feb.12:

Radford City Council meeting
The Radford City Council will hold its regularly

scheduled meeting at 7 p.m. in council chambers at the Radford Municipal Building, 10 Robertson St., Radford. See the agenda at www.radfordva.gov.

Montgomery County Board of Supervisors meeting
Public meetings are the second and fourth Monday of each month at the Montgomery County Government Center, 755 Roanoke St. in Christiansburg. Closed sessions begin at 6 p.m. if needed. Open sessions begin at 7:15 p.m. Citizens are invited to attend and allowed to speak at each meeting. All regular meetings of the Board of Supervisors are rebroadcast on Montgomery County Comcast and Shentel Channels 190 daily.

Tuesday, Feb. 13:

Blacksburg Town Council meeting
The council meets in regular session the second and fourth Tuesdays of each month at 6:30 p.m. in the Roger E. Hedgepeth Chambers of the Blacksburg Municipal Building, 300 S. Main St. These meetings are open to the public and televised live on WTOB Channel 2.

Christiansburg Town Council meeting
Regular Town Council meetings are held on the second and fourth Tuesday of each month beginning at 7 p.m. in the Council Chambers of Town Hall (100 E. Main St.). The public is welcome and encouraged to attend, with a citizen hearing time reserved at each meeting for residents to bring any matter they desire before the entire council.

Thursday, Feb. 15:

Sons of Confederate Veterans meeting
The Sons of Confederate Veterans, Stuart Horse Artillery Camp 1784 will meet at 7 p.m. at Aly’s Family Italian Restaurant, 3204 Riner Rd. Members of the United Daughters of the Confederacy (UDC) are also invited to attend. Member Will Reed will speak on “Animals of the War Between the States”. If Montgomery and/or Floyd County Public Schools are closed on Thursday or Friday of this week due to weather, the meeting will be cancelled. For further information, please call 540-320-4315 or 540-239-9864.

Saturday, Feb. 17:

Community Garden planning session
At the Meadowbrook Library; 1 – 3 p.m. First meeting for people interested in a community garden

in the Shawsville/ Ellison area.

Sunday, Feb. 18:

Quaker Open House
What is a Quaker? The Blacksburg Friends Meeting (Quakers) welcome all to find out at our Open House, 9:45 - 11 a.m. Join us at our Meeting house at 404 Mount Tabor Rd, Blacksburg, for a tour and question/answer period at 9:45 a.m., short open worship (with activities for children) at 10 a.m. and fellowship. Children are welcome with accompanying adult. Our underlying principles revolve around the belief that there is that of God in everyone. This leads us to promote peace, simplicity, equality, integrity, community and stewardship. For more information about the Blacksburg Friends Meeting and the event, please visit www.blacksburgfriends.org.

Monday, Feb. 19:

The Dinos are coming!
Looking for a fun, family-friendly activity to enjoy together? Join us 10 a.m. – 4 p.m. at the Blacksburg Community Center for Dino Squad! Explore fossils, cast replicas and museum models of dinosaurs during this interactive, educational program. \$3/child, \$2/ additional child. Adults free when accompanying a child. Register in advance online, or in-person at the door. Keyword search “Dino Squad”, activity number: 201014. For more information, call 540.443.1100.

Saturday, February 24:

Soul food tasting event
Celebrate Black History Month and take a step back in time at the 7th annual Soul Food Sampling at historic St. Luke and Odd Fellows Hall (SLOFH), where generations met to enjoy delicious food, music, and fellowship. In this spirit, you will receive generous portions of traditional soul foods at dinner table settings, learn about the history of soul food, and enjoy discussions with former New Town residents. There are three time slots for the event, each capped at 18 people: 12 – 1:45 p.m., 2 – 3:45 p.m., and 4 – 5:45 p.m. Discounted tickets for Blacksburg Museum & Cultural Foundation members open until Feb. 3. Tickets will then be released at \$37 per person and available at the SLOFH Soul Food Sampling Page.

School board votes for third party review of events surrounding deaths of BHS students

The Montgomery County School Board voted Tuesday to start a third-party review of the events surrounding the deaths of two Blacksburg High School students in November.

“At a special meeting on Jan. 30, 2024, the Montgomery County School Board voted to initiate a third-party review of circumstances related to the off-campus deaths of two Blacksburg High School students on Nov. 7, 2023,” reads a statement released by Montgomery County Public Schools. “Our goals are to work expeditiously in support of this review and to take responsible and appropriate actions based on any recommendations returned.”

“The School Board intends for this review to aid in better understanding of the factual circumstances of the matter and to assess the school division’s legal and regulatory obligations in matters such as these,” the statement continues. “The School Board will not comment further until the review has been completed.”

The school board vote follows the presentation of a petition to the board initiated by community members asking for the independent review.

Dr. Wendy Eckenrod started a petition, established on www.nextdoor.com, calling for an independent investigation into how Montgomery County Public Schools’ employees responded to domestic violence

issues that had been occurring between the two students and had been reported prior to the murder-suicide. The bodies of the two students were discovered Nov. 7, 2023, a teacher workday for Montgomery County Public Schools, in a Blacksburg parking garage.

Eckenrod is a professional counselor and Radford University professor, working in the School of Teaching Education and Leadership and is the parent of a Blacksburg High School student.

Warm Hearth at Home welcomes new administrator

Warm Hearth at Home is proud to welcome Joshua Toney RN, BSN, as the new administrative and clinical functions of the agency ensuring that clients and families continue to receive

outstanding care and services in their home.

Toney comes to Warm Hearth from Amedisys Home Health where he was the Regional Team Lead Remote Clinical Manager. He received his Bachelor of Science Degree in Nursing from Mary Baldwin University and his Associate of Applied Science Degree in Nursing from New River Community College.

Warm Hearth at Home is positioned to grow tremendously under Toney’s leadership.

“I’m thrilled to learn and share the WHV commitment to excellence with our community,” said Toney. “From preventing hospital visits to offering support like wound care, medication help, and therapies – we’re here for our clients. Their well-being is our priority as is ensuring they can thrive in the comfort of their own home.

Toney calls Montgomery County

Good Samaritan Advanced Illness Care and Hospice receives 2023 Large Non-Profit of the Year Award

BLACKSBURG - Good Samaritan Advanced Illness Care and Hospice is announcing it was honored as the 2023 Large Non-Profit of the Year by the Montgomery County Chamber of Commerce on December 7,

2023 at The Inn at Virginia Tech. The Large Non-Profit of the Year was presented at the Annual Awards Celebration of the Montgomery County Chamber of Commerce. Good Sam was selected

from among seven finalists, including Habitat for Humanity NRV, the NRV Community Foundation, and the Montgomery County Christmas Store. "As the region's only community based, non-profit

hospice, there is no greater honor than being recognized by the people in our service area," said Aaron Housh, Good Samaritan President and CEO. "It speaks of exactly what we desire to be, the community's advanced

illness care and hospice. We thank each and every person who voted and congratulate the nominees."

Alexandra DiFeliceantonio, assistant professor with the Fralin Biomedical Research Institute at VTC and associate director of the research institute's Center for Health Behaviors Research.

Instead of calories and macros, think about level of food processing, expert says

Scientific consensus is building around a clear recommendation: To improve health, we need to think differently about our diet of ultra-processed foods. Rather than focus on calories or macronutrients, consider how the food you eat has been physically and chemically modified, says Alexandra DiFeliceantonio, an assistant professor with the Fralin Biomedical Research Institute at VTC and associate director of the research institute's Center for Health Behaviors Research.

It's not as easy as it sounds. Processed foods have become a growing part of the American diet as manufacturers work to produce inexpensive, convenient foods with a long shelf life. "Given how prevalent these foods are -- they make up 58 percent of calories consumed in the United States -- there is so much we don't know," said DiFeliceantonio

said. How to identify ultra-processed foods: Scientists at the University of Sao Paulo in Brazil created the NOVA Food Classification system to help people group foods by their level of processing. Notably, ultra-processed foods lack fiber; include a significant amount of added sugar, salt and fat; and their nutrition labels include a long list of often unrecognizable ingredients.

Why this matters: When thinking about food choices, people often focus on calories in, calories out; macronutrients; and the prevalence of obesity. But for people of all sizes and activity levels, a diet high in ultra-processed foods has been associated with diabetes, cancer, and all-cause mortality. "We're eating things that hurt us," DiFeliceantonio says.

Their effect on the brain: Ultra-

Tax-time donations benefit biodiversity conservation, outdoor recreation

As one-third of animal and plant species face extinction nationwide, Virginia taxpayers have a chance to help the commonwealth make a difference.

This tax season, those who are passionate about biodiversity conservation and outdoor recreation may contribute to the Open Space Recreation and Conservation Fund by donating all, or a portion of, their 2023 state tax refunds.

A whopping 34% of plants and 40% of animals in the United States are at risk of disappearing, according to a 2023 report by NatureServe. Forty-one percent of ecosystems are at risk of range-wide collapse.

The Department of Conservation and Recreation, the state's

lead natural resource conservation agency, manages the fund to support biodiversity conservation and expand and enhance outdoor recreation opportunities. The agency works to protect Virginia's native plant and animal life and their ecosystems.

Half of the fund generated by the state individual income tax check-off program is used to buy land for conservation and recreation, including the Virginia Natural Area Preserve System. More than 20 natural area preserves across the state offer public access for hiking, water access, birdwatching, nature photography and other low-impact recreation opportunities.

The other half is used

for outdoor recreation grants to localities for projects that increase access to safe open space in Virginia's communities, including the Trail Access Grants program, which funds projects that increase access to trail opportunities for people with disabilities.

To choose the Open Space Recreation and Conservation Fund, enter Code Number 68 on Schedule VAC (Virginia Contributions Schedule), Section II (Other Voluntary Contributions). This form accompanies the state individual tax return Form 760.

For more information, go to <https://www.dcr.virginia.gov/checkoff>.

Virginia Department of Conservation and Recreation

processed foods share the addictive qualities of tobacco and other substances, says DiFeliceantonio, a neuroscientist. "Certain types of food affect people's brains in a way that may be similar to drugs of abuse. They have been engineered to be delicious." People can experience intense cravings, less control over intake, symptoms of withdrawal, and continued use despite negative consequences.

"If you're trying to quit drinking, you don't go to the bar. But you can't

stop eating," DiFeliceantonio says. Food advertising, vending machines, the checkout line at the grocery store, and even the cookies in the breakroom make ultra-processed foods difficult to avoid. The challenge is in defining which foods have the most potential for addiction and why, and determining how we can best change the modern food environment.

Eminent scientists say a child-centric approach is the blueprint to improve communities

Communities can prosper by providing attentive education and social services to their youngest residents — but the challenge is for leaders to work together.

That is the message of Craig Ramey and Sharon Ramey, Virginia Tech distinguished research professors of the Fralin Biomedical Research Institute at VTC, who presented on Dec. 1 details of a decades-long study that focuses on early childhood education and development.

In a research article in the journal *Medical Research Archives*, the official journal of the European Society of Medicine, the scientists discuss lessons learned from the Abecedarian Project, a study that followed the children who participated in an early intervention program initiated by Craig Ramey and colleagues in Chapel Hill, North Carolina, in 1971.

“Coordinated education, health care, and well-thought-out social services with participation from the private sector make communities more attractive, bring in new business, and improve the quality of life for the people who are already there,” said Craig Ramey, an original founder of the Abecedarian Project. “Each segment of the community has to be included in these efforts because it allows for the scale-up that needs to occur for places that aspire to be a more attractive destination for families and businesses.”

The scientists have gathered extensive evidence of how the Abecedarian approach has improved the trajectories of children’s lives and suggest the findings can be used to realize more widespread improvements.

In the research article, the scientists present a set of vital standards associated with the successful implementation of child and family programs with the aim of integrating these scientifically validated approaches into a framework that leaders can use to enhance their communities.

“We’ve summarized 50 years of research since the landmark study began, pointing out successful replications of key interventions,” said Sharon Ramey. “We believe that what we’ve learned is ready for global application. There’s ample reason to keep moving forward in this direction.”

The Abecedarian Project has entered its fifth decade, examining the effects of educational, social, health, and family support services on high-risk infants who now are in their 50s.

In repeated interviews and examinations, the children who originally participated in the program displayed enduring benefits that have enhanced their careers, families, and social networks.

Some of the more recent findings from the Abecedarian Project show children who were given high-quality education at an early age — starting at six weeks old and continuing through their first five years of

Craig Ramey and Sharon Ramey of the Fralin Biomedical Research Institute at VTC have published a reflective view of key findings from the Abecedarian Project, a study that has spanned 50 years examining the effects of early childhood education and development.

life — are more likely to be employed full-time and have better relationships with their parents as adults.

Even more recently, researchers demonstrated that vulnerable children who received stimulating and emotionally supportive learning experiences exhibit statistically significant changes in brain

structure through middle age.

The Rameys are also professors in the Department of Psychology of the Virginia Tech College of Science.

John Pastor for Virginia Tech

Virginia Tech researchers discover new role for protein that forms memories

Virginia Tech researchers discovered a new function for a common protein in the brain — a development that sheds new light on the mysteries of the mind and holds promising implications for the treatment of memory loss and post-traumatic stress disorder.

The protein normally performs necessary housekeeping in the brain’s hippocampus by working as part of a larger protein complex called the proteasome to destroy other proteins.

But researchers in the College of Agriculture and Life Sciences’ School of Animal Sciences recently noticed this protein, called RPT6, behaving in a previously undetected way.

“We found that RPT6 is capable of this completely different function where it can bind to DNA and increase the expression of other genes or proteins during memory formation,” said Tim Jarome, associate professor of neurobiology. “This indicates that RPT6 plays a unique dual role in memory formation, both inside and outside the proteasome complex.”

The discovery, published this month in the *Journal of Neuroscience*, opens up new avenues for exploration of how RPT6 functions in the brain and how it could be manipulated to improve memory and alleviate memory disorders such as Alzheimer’s disease and post-traumatic stress disorder (PTSD).

The project was led by research scientist Kayla Farrell, who received her Ph.D. from the School of Animal Sciences in December. Farrell previously headed a study identifying a protein that could lead to better therapeutic treatment for women with PTSD.

Gene expression is critical to memory formation. It helps to build the neural networks needed to form and strengthen memories. Researchers don’t yet understand why RPT6 has this dual function or how it is helping to control the cells that are recruited to form a memory.

“There has to be something else that’s working with it to regulate gene expression,” Jarome said. “We are trying to understand now how it’s doing that.”

Ultimately, the discovery will be helpful to the ongoing research in Jarome’s lab, which focuses on

understanding and treating memory disorders such as Alzheimer’s, dementia, and PTSD.

“This discovery is leading us somewhere new in unraveling the complexities of the brain and how we learn and store memories,” Jarome said. “We hope that this will help to inform new directions into understanding how gene expression is controlled during memory. In the long-term, this could lead to potential therapeutic targets for controlling and improving memory or treating maladaptive memories.”

Understanding the dual role of RPT6 provides insights into the complex processes of memory formation. This knowledge could pave the way for targeted therapeutic interventions to enhance memory or alleviate negative memories associated with conditions such as PTSD.

The study marks a crucial step in unraveling the complexities of the brain and gene expression control during memory formation. Researchers anticipate that further investigation into RPT6’s mechanisms will inform new directions for understanding memory at the molecular level.

OBITUARIES

Burton, Ted

Ted was born Dec. 21, 1931 to Linda (Stephen) Mungall, and Ann Robert Henry Burton and Ethel Lee Fuqua in Vinton, Va. After Ted graduated with a Bachelors of Science from Roanoke College in 1953, he went on to earn his Doctor of Medicine from the Medical College of Virginia in 1957.

Ted served in the Army Medical Corp after completing medical school. He then worked as a Board Certified OB-GYN in New Bern, NC and Radford, VA and brought 5000 new lives into this world.

Ted was happily married to Phyllis Ann Crenshaw Burton for 62 years, living in Radford, VA for 22 years before returning to their home in New Bern, NC following his retirement in 1996.

Ted was a faithful member of Centenary United Methodist Church where he served as Chair of the Administration Board and Staff Parish. Ted was also an active member of the Salvation Army Advisory Board and the Rotary Club.

Ted is survived by his four children: Chris (Kristine) Burton, Kevin Burton,

(Steve) Lambert; his 10 grandchildren: Brian (Whitney) Burton, Kristin Burton, Michael (Rheanna) Burton, Kelly (Michael) Distler, Megan (Admas) Belay Mungall, Brooke (Andrew) Chambers, Hunter (Sarah) Lambert, Samantha (Jordan) Barnette, Lauren (Nicholas) Stone,

and Hope Mungall; his seven great-grandchildren: Layla, Maggie, Sadie, Beau, Natalie, Emersan and Madeleine; and his cherished dog, Gigi. Ted is predeceased by his loving wife of 62 years, Phyllis Burton; sister, Dawne Maxey; and Kevin's wife, Sarah Burton.

A private graveside service in memory of Ted will be held at a later date in Richmond, Va. In lieu of flowers, memorial donations may be made to Centenary UMC, PO Box 1388, New Bern, NC 28763 or to Shriners Hospital. Online condolences can be made www.cottenfuneralhome.com. Cotten Funeral Home is honored to serve the family and friends of Ted Burton.

McIntyre, Kenneth Ray

Kenneth Ray McIntyre passed away Palm Beach, Fla., upon discharge. Ken Saturday, Jan. 27, 2024, at the age of 68.

Ken, the son of Ophelia and Everett Duane McIntyre, was born in Charlotte, N. C., on Jan. 7, 1956. He was the beloved brother of three siblings, all of whom survive him: Gloria McEwen (David) of Christiansburg; Duane McIntyre (Kathy) of Christiansburg; and Keith McIntyre (Terri) of Clarksville, Tenn. He leaves behind five nieces, two nephews, and eleven grand nieces and nephews.

Kenneth served in the United States Air Force during the final years of the Vietnam War, 1973 - 1975, as a Security Specialist and a qualified dog handler. He returned to West

learned the construction trade and worked on a number of projects in Palm Beach. He later moved to St. Petersburg, Fla., using his trade in his own business for many years.

His willingness to help people in need, great sense of humor, and expertise in his craft endeared him to many people. Twice married, twice divorced, Ken's relationship with his second wife Cheryl lingered, as did his love for her.

A graveside service was held Thursday, Feb. 1, 2024 at Southwest Virginia Veterans Cemetery. Online condolences may be made at gardnerfuneralhomefloyd.com. The family is being served by Gardner Funeral Home.

Website: www.stpaulvaumc.org

Radford
WORSHIP DIRECTORY

LOVE YOUR ENEMIES

Read 1 Samuel 21:1 through 24:22

He [David] said to his men, "The Lord forbid that I should do such a thing to my master, the Lord's anointed, or lay my hand on him; for he is the anointed of the Lord" (1 Samuel 24:6).

King Saul mercilessly pursued David intending to murder him, although David had done nothing against the king. Yet David would not retaliate despite the insistence of his men. Even when God permitted him to catch Saul at a vulnerable time, David refused to take the life of the Lord's anointed.

Why would he do that? Because David revered God.

Instead of slaying the man who was out to murder him, David put his trust in the Lord, seeking God's protection and justice.

While the worldly pummel each other with everything from words to bombs, an honorable faith like David's is the hallmark of those who walk in step with Christ. Jesus said to "love your enemies and pray for those who persecute you, that you may be children of your Father in heaven" (Matthew 5:44-45).

Challenge for Today: Trust God to handle your enemies while you choose love over revenge.

Quicklook: 1 Samuel 24:1-12

Obituaries from page 1

McPeake, William Douglas

William Douglas "Doug" McPeake, 85, of Radford, passed away Monday, Jan. 29, 2024.

Doug spent 19 years as an inspector with the State Highway Department as well as owning and operating Dandy Discount and Rustic Village Mobile Home Park. In his earlier years, he enjoyed racing boats which led to a love of being at Claytor Lake, as well as car racing and hunting. He was preceded in death by his parents, Raymond and Juanita McPeake.

Survivors include his loving wife, Sylvia "Sibby" McPeake; sons, Timothy McPeake (Janet) and Jeffrey McPeake; grandchildren, Zachary McPeake (Lindsay), Lauren McPeake, Erin McPeake (Tyler) and Carlie McPeake; great grandchildren, Isaiah and Ivy

McPeake; and numerous other family members and friends.

The family will receive friends 10 a.m. - 12 p.m. Monday, Feb. 5, 2024, at the Fairlawn Presbyterian Church in Fairlawn. Funeral services will begin at 12 p.m. with Pastor Allison Unroe officiating. Interment with full military honors will be at the Southwest Virginia Veterans Cemetery in Dublin on Tuesday, Feb. 6, 2024, at 11 a.m.

In lieu of flowers, the family requests that donations be made to the Fairlawn Presbyterian Church, 6900 Pulaski Ave., Fairlawn, Va. 24141.

The McPeake family is in the care of Mullins Funeral Home and Crematory in Radford.

Harris, Paul White

Paul White Harris, 80, of First Baptist Church of Radford, Asheville, N.C., passed away Jan. 26, 2024.

He was born July 31, 1943, in Lake Village, Ark., to the late Captain Dewey and Lucille White Harris. His career in higher education spanned over 30 years at Henderson State University, Stephen F. Austin University, the University of Arkansas, and Radford University where he retired. He received a bachelor's degree from the University of Arkansas at Monticello; his master's degree from Henderson State University; his Ed.D. from Texas A&M at Commerce, and Post Doctoral studies at Harvard University.

He was a member of Rotary for over 30 years and a Deacon in the

In his retirement, he enjoyed making stained glass, spending time on Claytor Lake and spending time with his grandkids. He claimed to be famous for a basketball move known as the Harris hook but this is unconfirmed as of this writing. He also enjoyed fishing and watching sports, particularly the Arkansas Razorbacks, which some believe may have taken as much as 10 years off his life.

He will be missed by his wife of 54 years, Hilda; sister-in-law Cindy Brown and her husband Ronnie; two sons, Marty Ensminger of Little Rock, Ark. and Russ Harris of Sylva, N.C.; two daughters-in-law, Laquita Ensminger of Little Rock, Ark. and

Marne Harris of Sylva, N.C.; three grandchildren, Lindsey Spradlin of Benton, Ark., and Ella and Rayna Harris of Sylva, N.C.; and one great grandson, Beau Spradlin of Benton, Ark.

He was preceded in death by his parents and his brothers, Dewey Jr., John, Charles, and Dave.

The family would like to thank the professional and caring staff of Givens Estates for going the extra mile in caring for him both physically and emotionally during his time there.

In lieu of flowers, donations may

be made to Paul Harris Leadership Scholarship at <https://inspire.radford.edu/harris>.

Checks made payable to Radford University Foundation, Inc. and mailed to PO Box 6893, Radford, VA 24142, can be designated for the Dr. Paul Harris Leadership Scholarship by note or in the memo line.

An online registry can be found at Legacy.com.

"By God Woodrow, it's been quite a party, ain't it." Augustus McCrae, Lonesome Dove.

Ramsey, Suzanne Adams

Suzanne Adams Ramsey, 64, of Fairlawn, passed away Sunday, Jan. 28, 2024. She was preceded in death by her parents, Morris Lee and Ella Akers Adams; and her beloved husband, Kermit Weston Ramsey.

Survivors include her sons, Bryan Paul Ramsey (Rebecca), Weston Dean Ramsey, and Travis Justin Ramsey (Victoria); five grandchildren; siblings, Kristie

Joey Jamison, Mike Jamison and many other nieces, nephews, relatives and special friends.

A memorial service will be held at 1 p.m. Monday, Feb. 5, 2024 at the Lighthouse Family Ministries, 365 Union Valley Rd., Riner, with Buford Linkous officiating.

The Ramsey family is in the care of Mullins Funeral Home & Crematory in Radford.

Legal Notice

NOTICE TO THE PUBLIC OF A PETITION BY APPALACHIAN POWER COMPANY FOR A PRUDENCY REVIEW, PURSUANT TO § 56-585.1:4 H OF THE CODE OF VIRGINIA, WITH RESPECT TO THE PURCHASE OF ENERGY CAPACITY, AND ENVIRONMENTAL ATTRIBUTES FROM SOLAR FACILITIES THROUGH POWER PURCHASE AGREEMENTS CASE NO. PUR-2023-00212

On January 11, 2024, Appalachian Power Company ("APCo" or "Company"), pursuant to § 56-585.1:4 H of the Code of Virginia ("Code"), filed a petition ("Petition") with the State Corporation Commission ("Commission") for a prudency determination with respect to three power purchase agreements ("PPAs") that the Company seeks to add to its portfolio of renewable energy used to comply with the Renewable Portfolio Standards ("RPS") established by the Virginia Clean Economy Act. Pursuant to Code § 56-585.1:4 H, the Commission must issue a final order regarding the Petition within three months of the date of filing.

The Company states that the PPAs and the solar projects ("Projects") that are the subject of this Petition are:

- Elliot Solar, which is a 5 megawatt ("MW") solar facility located in Tazewell County, Virginia, with an expected commercial operations date in late 2025. APCo and the developer, Inovateus, entered into a 20-year PPA for the facility's output.
- County Line Solar, which is a 150 MW solar facility located in Charlotte County, Virginia, with an expected commercial operations date in late 2026. APCo and the developer, Competitive Power Ventures, entered into a 20-year PPA for the facility's output.
- 7 Bridges Solar, which is an 80 MW solar facility located in Mecklenburg County, Virginia, with an expected commercial operations date in late 2026. APCo and the developer, Longroad, entered into a 30-year PPA for the facility's output.

The Company asks that the Commission determine that the execution of the PPAs will be prudent additions to the Company's RPS compliance portfolio. The Company asserts the PPAs were selected after a competitive and robust bidding process, due diligence and contract negotiations. According to the Petition, the Projects will help the Company comply at a reasonable cost with the RPS requirements (by producing approximately 1.0 million renewable energy certificates annually on a Virginia retail basis). The Company asserts that the PPAs will also allow APCo to reduce the amount of power purchased from the PJM energy markets. APCo further asserts that the PPAs will produce carbon-free energy thereby advancing the Commonwealth Clean Energy Policy.

According to the Petition, as the Projects are not expected to go online until after the rate year in the Company's next RPS compliance filing, expected to be filed in April 2024, the Company will not seek cost recovery related to the PPAs from Virginia customers until 2025.

The details of these and other proposals are set forth in the Company's Petition. Interested persons are encouraged to review the Company's Petition and supporting exhibits for the details of the proposals.

The Commission entered an Order for Notice and Hearing that, among other things, scheduled public hearings on APCo's Petition. A hearing for the receipt of testimony from public witnesses on the Company's Petition shall be convened telephonically at 10 a.m. on March 6, 2024. On or before February 26, 2024, any person desiring to offer testimony as a public witness shall provide to the Commission (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at sec.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@sec.virginia.gov; or (iii) by calling (804) 371-9141. This public witness hearing will be webcast at: sec.virginia.gov/pages/Webcasting.

Beginning at 10 a.m. on March 6, 2024, the Hearing Examiner will telephone sequentially each person who has signed up to testify as provided above.

On March 6, 2024, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Hearing Examiner will convene a hearing to receive testimony and evidence related to the Petition from the Company, any respondents, and the Commission Staff.

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

Electronic copies of the public version of the Petition may be obtained by submitting a written request to counsel for the Company, Noelle J. Coates, 1051 East Cary Street, Suite 1100, Richmond, Virginia 23219, njcoates@aep.com.

On or before February 26, 2024, any interested person may submit written comments on the Petition by following the instructions found on the Commission's website: sec.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2023-00212.

On or before February 16, 2024, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation at sec.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company. Pursuant to Rule 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by Rule 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2023-00212.

On or before February 16, 2024, each respondent may file with the Clerk of the Commission, at sec.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served on the Staff, the Company, and all other respondents simultaneous with its filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2023-00212.

All documents filed with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and other documents filed in the case may be viewed at: sec.virginia.gov/pages/Case-Information.

Renee from page 1

within the Appalachian Mountains, I spent most of my childhood exploring the natural wilderness around me," said Renee. "It was here that I discovered a sense of wonder and found myself captivated by the small details and moments that often go missed in a fast-paced world. I knew that I wanted to capture those moments - from the tiniest of creatures to the purest expression of a real smile."

Renee is a Radford-based artist who specializes in both two- and three-dimensional mediums. Renee obtained her Bachelor of Arts from Bluefield University in 2016 and then taught art to students in grades 8 - 12. Renee decided to return to college and then earned a Master of Fine Arts degree from

Radford University in 2021. Since then, Renee has turned her artistic focus to capturing photographs of her many nature excursions and creating three-dimensional resin pieces with materials found on her journeys.

"I began pursuing my passion for photography using a basic Kodak film camera, with flash being its only function aside from taking photographs - I still own it, by the way," she said. "I took it everywhere, taking as many photos as I could. It was my high school journalism teacher's recognition of these photographs and his enthusiasm for them that gave me the confidence to pursue this passion further."

"He let me borrow his Nikon DSLR, giving me the opportunity to take photos of every school event I could attend," she continued. "It encouraged my many nature photoshoot excursions, discovering the many functions the camera held as my experience grew."

Christiansburg offensive lineman Carter Stallard muscles his opponent to allow Izaiah Cotto to sprint through a hole for a big gain during a game this past season.

Christiansburg lineman commits to Virginia Tech

Marty Gordon
NRVsports@mainstreetnewspapers.com

Carter Stallard, who is the class 2025, has made his decision to play football at the next level at a place he calls home, Virginia Tech. The 6-8, 315 pounder announced Monday he was committing to play in his own backyard.

Stallard said Virginia Tech is home. “Coach (Brent) Pry is building

something special at Tech and I want to be a part of that,” he said.

He has been named the all-county/all-city lineman of the year, while garnering second team all-state this past season.

Because of his size and wingspan, he has been recruited heavily by schools from around the country. Stallard is listed as a three-star prospect and the Number 18, 2025 recruit in the state of Virginia. He had offers

from Pittsburgh, Maryland and Louisville.

Stallard is also looking forward to working with Tech offensive line coach Ron Crook. “I believe he can help develop me into a great college level offensive lineman. My best play is yet to come and I’m excited about that.”

Stallard also shines in the classroom with a 3.89 grade point average. He hopes to major in business with a future career in coaching.

Matilda Ekh transferred to Virginia Tech from Michigan State and is fitting in well on a Top-20 team here in Blacksburg.

Swedish sensation making name for Lady Hokies

Virginia Tech’s shooting guard Matilda Ekh has never backed down from chasing big dreams, even if it means moving to a foreign country or transferring schools.

A two-time All-Big Ten performer during her time at Michigan State, Ekh brought her talents to Tech in the summer of 2023.

The Sweden native grew up surrounded by basketball. Both of her parents played, as well as her brother, which compelled Ekh to follow suit around the time she was eight years old. Her talent and love for the game developed quickly.

At just 15 years old, Ekh made the big decision to move away from home and attend a premier basketball school, where she made a name for herself by representing Sweden in several European basketball tournaments. Her big break came when she was named to the Swedish National Team for the FIBA Women’s EuroBasket 2021 tournament.

“I’ve been on the youth national team since I was 15, but that was such a shock for me to get invited to play with the seniors,” Ekh said. “I’ve been watching those players since I was 10, so getting to actually play with them was such an amazing experience.”

Ekh knew that relocating to the United States would help advance her basketball career. She heard good things from other players who had moved and saw tremendous value in a collegiate student-athlete experience.

Following her senior year of high school, Ekh landed at Michigan State as a starting wing under head coach Suzy Merchant.

It wasn’t an easy transition. Ekh had to learn a new language and adjust to the many cultural differences. Basketball had its differences as well, namely in the playing style and interest in the sport.

“Basketball is not very big in Sweden, and here it’s one of the main sports,” Ekh explained. “Pretty much everyone played basketball growing up and is interested in basketball. That’s just not how it is in Sweden.”

Ekh’s playing style shifted from playing at point guard to shooting more. She became notoriously dangerous from behind the arc, shooting 39% from 3-point range while knocking down 138 3-pointers as one of the top 3-point shooters in the Big Ten during her time in East Lansing.

At the end of her sophomore season, Coach Merchant and most of the coaching staff stepped down, prompting Ekh to explore other options for her remaining two years of eligibility. The success and family-centric aspects of Virginia Tech’s program stood out to Ekh when she considered her next steps.

“I always had a good feeling about

Virginia Tech,” Ekh said. “When I started talking to the coaches, Coach Rad (Radville Autukaite) and I connected instantly since we’re both from Europe and she understood my situation.”

Just 20 games into her career as a Hokie, Ekh has already made an impact, scoring 10.4 points per game, third on the team. During Tech’s 84-59 win at Rutgers in December, she led all scorers with 25 points, including seven 3-pointers.

“Matilda positively impacts the team both on and off the court,” Autukaite said of Ekh and the effect she has on the program. “Anytime she steps on the court whether it be at practice or in a game you know she is going to give it her all. Off the court she’s pleasant, mature, and a reliable teammate. She fits perfectly into the culture that Coach Brooks has built at Virginia Tech. We are extremely lucky and grateful that she is a Hokie!”

Ekh has found a lot to love about the program, on and off the court. The team’s foreign tour to Greece and the exhilarating home triumph against the then-No. 3 NC State both resonate with her as standout moments.

She vividly remembers the electric atmosphere in Cassell that day, unable to hear anything for hours after the game because of the deafening cheers from a sold-out crowd.

“Cassell is just amazing to play in,” Ekh said. “One of the refs actually came up to me a few games ago and commented on how much he loved the atmosphere. You don’t always see such an exciting environment in women’s basketball as you do in Cassell.”

Living far away from family still presents challenges, but Ekh now has a second home with the players and coaches. She enjoys rooming with grad student Olivia Summiel, who played for four years at Wake Forest and understands the transfer experience.

For Ekh, the people are what truly elevate her Hokie experience into something extraordinary.

“Coach Brooks cares about us so much off the court and wants to build a relationship with every one of us,” Ekh said. “I’ve also never been on a team with this little drama, where everyone genuinely cares for each other. It’s such a great culture.”

Ekh is looking forward to putting her skills to the test against the best of the best down the stretch as the Hokies enter into the final month of ACC play. She aims to pursue a career in the EuroLeague after graduation, recognizing that her time at Tech will pave the way for her success.

Virginia Tech Athletics

Lewis elevated to associate head coach

Virginia Tech softball Head Coach Pete D’Amour announced the elevation of Mike Lewis to associate head coach Tuesday afternoon.

Lewis, who serves as the program’s recruiting coordinator enters his fourth season in Blacksburg. With Lewis on the staff, Tech has appeared in three straight NCAA Regionals, two Super Regionals and was crowned the 2022 ACC regular season champions.

“Since arriving in Blacksburg, Mike has elevated our program in every aspect,” D’Amour said about Lewis. “He’s established himself as one of the best assistant coaches in the country with his work ethic and desire to be the best in everything he does. I’m thankful that Mike calls his home Blacksburg and that we’re able to show him how valuable he is to

Virginia Tech.”

Lewis has had a significant impact on the program’s success over the past three seasons. During his time in Blacksburg, the Hokies have an overall record of 122-45 and a 58-23 record in conference play.

Lewis has helped the Hokies become one of the most dominant offensive programs in the nation, including mentoring All-American outfielder Emma Ritter. Ritter is one of the toughest batters to strike out in Division 1, striking out only 18 times in her career. Throughout her time at Tech, she’s recorded a .354 batting average, 161 hits, 101 RBI, and stolen 56 bases. She is a two-time All-ACC player and two-time NFCA Mid-Atlantic Region First Team member. In addition, she was named an NFCA All-American

in 2022, alongside pitcher Keely Rochard, marking the first time in school history the Hokies have had two All-Americans in one season.

He was also part of the staff that witnessed Kelsey Bennett become the program’s all-time leader in RBIs with 170. In 2023, Bennett signed with the Women’s Professional Fastpitch team, Smash It Sports Vipers.

The Hokies begin the season Feb. 9, in Auburn, Alabama at the Tiger Invite against Illinois. Tech’s challenging schedule consists of 10 NCAA Regional Teams, including World Series participant Alabama. ACC play begins March 1st at TSP against Notre Dame.

ESPNU tabs Winthrop at Radford as its Feb. 15 Big South wildcard selection

CHARLOTTE, N.C. – ESPNU has selected the Winthrop at Radford men’s basketball contest as its fourth Big South Wildcard broadcast of the 2023-24 season, the Big South Conference office announced.

The game will move from its current Wednesday, Feb. 14 date to Thursday, Feb. 15 and will tip at 8 p.m. inside the Dedmon Center in Radford.

Winthrop defeated Radford in triple-overtime, 92-88, in the first meeting of the season back on Jan. 13. The Feb. 15 match-up will mark the squad’s first all-time “Wildcard” meeting on ESPNU, as well as each program’s second appearance on the network this season.

Winthrop is 14-9 overall and 5-3 in the Big South following the

first half of the 16-game conference season. The Eagles rank second in league games with their 79.1 scoring average, as well as second in field goal percentage (49.2) and field goal defense (43.6) and are tops in three-point defense at 28.4 percent allowed. Kelton Talford is among the leaders with 18.0 points, 6.4 rebounds and a 66.7 field goal clip in Big South games. Radford, which is 3-5 at the conference’s midway point and 13-10 overall, has suffered three of its five league losses by single digits. The Highlanders ranked first in Big South games in three-pointers made per contest and are second in scoring defense. Individually, DaQuan Smith - who has made two game-winning buzzer-beaters this season (West Virginia and USC

Upstate) - is averaging 15.8 points vs. league foes.

This is the 11th year of the Big South’s ESPNU Wildcard series, which again features six Thursday broadcasts - Jan. 11 (Radford 69, at Longwood 58), Jan. 18 (UNC Asheville 82, at Winthrop 77), Feb. 1 (Longwood at High Point), Feb. 15 (Winthrop at Radford), Feb. 22 and Feb. 29 - that are selected 14-21 days in advance. A total of 49 games have been played in the series that began in 2013-14, and while the home teams are 31-18, the 49 contests have been decided by an average of 9.24 points, with 29 (59.1 percent) of those being decided by single digits.
