## Two Radford City Schools named distinguished schools for STEM curriculum

RADFORD – Belle Heth and McHarg elementary schools have been recognized as 2023-24 Project Lead The Way (PLTW) Distinguished Schools.

The honor is given to a select number of elementary schools across the U.S. for providing broad access to transformative learning experiences for students through PLTW Launch, an elementary STEM curriculum. PLTW is a national nonprofit organization that serves millions of Pre-K-12 students and teachers in schools across the U.S., aiming to make every child in every grade STEM successful. Belle Heth and McHarg are two of only five Virginia elementary schools to receive this honor.

Assistant Superintendent for Radford City Schools Ellen Denny said the designation shows the dedication of the staff and RCPS's

GRAPHIC COURTESY OF RCPS

focus on innovation.

“Our recognition as a distinguished PLTW school highlights Radford City Schools commitment to providing students with innovative and hands-on Science, Technology, Engineering and Math (STEM) education that prepares them for future careers,”

said Denny. “This award is a testament to the hard work of our dedicated teachers, students, and community partners who have embraced the PLTW program and its impact on our academic excellence. We are very proud to receive this recognition!”

The PLTW Distinguished School recognition honors schools committed to increasing student access, engagement, and achievement in their PLTW programs. To be eligible for the designation, Belle Heth Elementary and McHarg Primary schools had to have more than 75 percent of the student body participating in the program and had to offer at least one PLTW Launch module at each grade level during the 2022-23 school year.

Staff report

PHOTO BY DEVON JOHNSON FOR VIRGINIA TECH

Virginia's 14 species of bumblebee are important pollinators.

## Celebrate Virginia Pollinator Week with the Master Gardener program

This week, Virginians will celebrate the bees, butterflies, birds, and bats that perform the vital work of pollination, following Virginia Gov. Glenn Youngkin's declaration of the week of June 17-23 as Virginia Pollinator Week.

“Pollinators play a critical role in our ecosystems,” said Ed Olsen, Virginia Cooperative Extension consumer horticulture specialist and director of the Extension Master Gardener program, who sought the declaration. “Our pollinators support a vast array of plant life, which in turn provides food and habitat for countless insects, birds, mammals, and other animals. A decline in pollinators could disrupt this delicate balance of food webs.”

Here are a few ways to celebrate pollinator week:

Plant a native plant. Native plants provide food and habitat for native species. Find the right native plant for your landscape using the Department of Conservation and Recreation's Virginia Native Plant Finder.

Help butterflies by providing a shallow, muddy puddle where they can get minerals. Fill a shallow dish with soil and a few rocks, place at ground level, and keep it moist.

Learn about moths. They are powerhouse pollinators. Survey the nocturnal moths that live in your yard by creating a moth trap. Simply hang up a white sheet, and when it gets dark, shine a bright light on it.

Implement an integrated pest management plan in your home garden. Instead of relying on insecticides at the first sign of damage, develop a plan that will help you evaluate if and when insecticides are necessary. See the Virginia Cooperative Extension publications “Reducing Pesticide Use in the Home Lawn and Garden” and “An Introduction to Integrated Pest Management”

Many common food crops, such as blueberries or potatoes, rely on insects for pollination. Pollinators also are critical for the health of Virginia's ecosystems by helping plants reproduce and fostering robust plant communities.

To support and protect Virginia's pollinators, Virginia Cooperative Extension Master Gardeners are hard at work organizing educational events, installing demonstration gardens with native plants, and providing research-based advice to Virginians with gardening questions.

Interested in learning more about pollinators? Master Gardeners bring the resources of Virginia's land-grant universities – Virginia Tech and Virginia State University – to the people of the commonwealth. Contact your local Master Gardeners through your Extension office or learn more about gardening in Virginia and the Virginia Extension Master Gardener program.

Tom Soladay for Virginia Tech

## City offers extreme heat safety tips

RADFORD - There is hot, and then there is hot!

Extreme heat is a period of high heat and humidity with temperatures above 90 degrees for at least two to three days. The City of Radford is encouraging residents to prepare now for extreme heat, as temperatures are supposed to rise throughout the week.

In extreme heat your body works extra hard to maintain a normal temperature, which can lead to death. Extreme heat is responsible for the highest number of annual deaths among all weather-related hazards.

Older adults, children and sick or overweight individuals are at greater risk from extreme heat. Humidity increases the feeling of heat.

### Prepare for Extreme Heat

Learn to recognize the signs of heat illness.

Do not rely on a fan as your primary cooling device. Fans create air flow and a false sense of comfort, but do not reduce body temperature or prevent heat-related illnesses.

Identify places in your community where you can go to get cool such as libraries and shopping malls or contact your local health department to find a cooling center in your area.

Cover windows with

drapes or shades. Weather-strip doors and windows.

Use window reflectors specifically designed to reflect heat back outside.

Add insulation to keep the heat out.

Use a powered attic ventilator, or attic fan, to regulate the heat level of a building's attic by clearing out hot air.

Install window air conditioners and insulate around them.

### Be Safe During the Heat

Never leave people or pets in a closed car on a warm day.

Take cool showers or baths.

Wear loose, lightweight, light-colored clothing.

Use your oven less to help reduce the temperature in your home.

If you're outside, find shade. Wear a hat wide enough to protect your face.

Drink plenty of fluids to stay hydrated.

Avoid high-energy activities or work outdoors, during midday heat, if possible.

Check on family members, older adults and neighbors.

Watch for heat cramps, heat exhaustion and heat stroke.

Consider pet safety. If they are outside, make sure they have plenty of cool water and access to comfortable

GRAPHIC COURTESY OF PIXABAY

shade. Asphalt and dark pavement can be very hot to your pet's feet.

### Heat-Related Illnesses

Know the signs of heat-related illnesses and ways to respond. If you are sick and need medical attention, contact your healthcare provider for advice and shelter in place if you can. If you are experiencing a medical emergency call 9-1-1.

#### Heat Stroke

- Signs:
- Extremely high body temperature (above 103 degrees F) taken orally
- Red, hot and dry skin with no sweat
- Rapid, strong pulse
- Dizziness, confusion or unconsciousness

If you suspect heat stroke, call 9-1-1 or get the person to a hospital immediately. Cool down

with whatever methods are available until medical help arrives. Do not give the person anything to drink.

#### Heat Cramps

Signs: Muscle pains or spasms in the stomach, arms or legs

#### Heat Exhaustion

Signs: Heavy sweating, paleness, muscle cramps, tiredness, weakness, fast or weak pulse, dizziness, headache, fainting, nausea, vomiting

If you have signs of heat cramps or heat exhaustion, go to a cooler location and cool down by removing excess clothing and taking sips of sports drinks or water. Call your healthcare provider if symptoms get worse or last more than an hour.

City of Radford

## Wilderness Road Chorus to perform at RPL

PHOTO COURTESY OF THE WILDERNESS ROAD CHORUS

The Wilderness Road Chorus, a well-established organization of women of all ages who sing four-part harmony, a cappella, and perform in a variety of venues, is performing at the Radford Public Library this Tuesday, June 25, 2024. Come see and hear the Chorus in action as they perform popular tunes and jazz tunes, 6:30 - 7:30 p.m.

## Radford participates in Torch Run for Special Olympics

PHOTO COURTESY OF THE RADFORD CITY POLICE DEPARTMENT

Officers from the Radford City Police Department, Radford City Sheriff's Office, and members of Probation and Parole recently "proudly participated" in the Law Enforcement Torch Run for Special Olympics, the RCPD recently announced. "This inspiring event traveled through the city, celebrating and supporting our incredible Special Olympics athletes. Thanks for everyone cheering us on as we carried the torch through Radford City!"

# UPCOMING EVENTS

## Saturday, June 22:

### Blacksburg Farmers Market

At Market Square Park, 100 Draper Rd SW, Blacksburg; 8 a.m. - 2 p.m. The Blacksburg Farmers Market is a local, family-friendly gathering place in downtown Blacksburg featuring farmers of locally grown produce and meats, alongside artisans of baked goods and handmade crafts. For more information, visit <http://blacksburgfarmersmarket.com>.

### Radford Farmer's Market

Every Saturday through October; 9 a.m. - 1 p.m. on the grounds of Glencoe Mansion, 600 Unruh Dr. Visit weekly for an ever-changing supply of homemade goodies, crafts, plants, meats, produce, and more.

### Sea Monster Adventure: A Monstrous Museum

At Radford Public Library; 11 a.m. - noon. Join us at the library for a very special museum exhibit! Sea Monster Adventure captures the awe and magic of the ocean as we share the amazing creatures that lived there. Through real fossils, museum-quality models, and great books - the sea monsters will come to life at the library.

### Ask An Author: Mystery Author Panel Discussion

At the Radford Public Library; 3:30 -4 p.m. Join mystery authors Katharine Schellman, Mindy Quigley, Krista Davis, Mollie Ann Cox, and Sarah Warburton for a panel discussion about mystery writing and publishing. The authors will discuss their books and writing trajectories with plenty of time for an audience Q&A. Bring your questions about writing, plotting, editing, querying, publishing and more! Books will be available for purchase.

## Sunday, June 23:

### Vintage Market

At Market Square Park, 100 Draper Rd SW, Blacksburg; 10 a.m. - 5 p.m. The market is made up of a carefully chosen group of vendors selling a wide selection of quality vintage items, upcycled crafts, and occasional antiques. For more information, visit [blacksburgfarmersmarket.com/vintage-market/](http://blacksburgfarmersmarket.com/vintage-market/).

## Monday, June 24:

### Montgomery County Board of Supervisors meeting

Public meetings are normally held the second and fourth Monday of each month at the Montgomery County Government Center, 755 Roanoke St. in Christiansburg. Closed sessions begin at 6 p.m. if needed. Open sessions begin at 7:15 p.m. Citizens are invited to attend and allowed to speak at each meeting. All regular meetings of the Board of Supervisors are rebroadcast on Montgomery County Comcast and Shentel Channels 190 daily.

## Tuesday, June 25:

### Blacksburg Town Council meeting

The council meets in regular session the second and fourth Tuesdays of each month at 6:30 p.m. in the Roger E. Hedgepeth Chambers of the Blacksburg Municipal Building, 300 S. Main St. These meetings are open to the public and televised live on WTOB Channel 2.

### Christiansburg Town Council meeting

Regular town council meetings are held on the second and fourth Tuesday of each month beginning at 7 p.m. in the Council Chambers of Town Hall (100 E. Main St.). The public is welcome and encouraged to attend, with a citizen hearing time reserved at each meeting for residents to bring any matter they desire before the entire council.

## Wednesday, June 26:

### Blacksburg Farmers Market

At Market Square Park, 100 Draper Rd SW, Blacksburg; 2 - 6 p.m. The Blacksburg Farmers Market is a local, family-friendly gathering place in downtown Blacksburg featuring farmers of locally grown produce and meats, alongside artisans of baked goods and handmade crafts. For more information, visit <http://blacksburgfarmersmarket.com>.

### Market Square Jam

Blacksburg's Market Square Jam is an official Crooked Road affiliated venue that provides fun and entertainment on Wednesday evenings, June through September. The Jam takes place at Market Square Park from 7-9 p.m. Host Band: Ashlee Watkins & Andrew Small. For more information and a list of hosts, please visit [blacksburg.gov/marketsquarejam](http://blacksburg.gov/marketsquarejam).

## Thursday, June 27:

### Radford Photo Club meeting

Joe Pack of Fairlawn will present a program at the Radford Photo Club meeting about famous photographer Carol Highsmith, then will present his own work taken in the Highsmith style. The meeting will be at the Radford Public Library at 6 p.m. The photo challenge for June is People. The Radford Photo Club is made up of professional and amateur photographers from throughout the New River Valley. Meetings, events, and outings are open to the public. If you have questions about the club, email Lucy Gilmore at [lucyg.gilmore@gmail.com](mailto:lucyg.gilmore@gmail.com) or Joyce Crowder at [joycecrowder2@icloud.com](mailto:joycecrowder2@icloud.com).

### Classic movies at the Lyric

Beat the summer heat with a free classic movie at the historic Lyric Theatre at 135 College Ave. All movies begin at 3 p.m. "Some Like It Hot," June 29.

### adVRenture Begins at the Library

At the Radford Public Library; 11:30 a.m. - 12:30

p.m. Go on a wilderness adventure in Virtual Reality with the Nature Treks and National Geographic Explore apps on our Oculus Quest 2 headsets! If you'd prefer to arrange a different time for a 30-minute demo, email [duncan.hall@radfordva.gov](mailto:duncan.hall@radfordva.gov).

## Friday, June 28:

### Blacksburg Friday night outdoor concert

Featuring: Music Road Co. (funk/rock/reggae/afrobeat/Latin fusion). The summer of 2024 lineup of outdoor concerts offers six bands throughout June and July. Live music will take place Friday evenings on Henderson Lawn at the corner of Main Street and College Avenue, from 6 -7:30 p.m. In case of inclement weather, the event will be canceled.

### Will it Waffle? A Teen Cooking Club

At the Radford Public Library; 2- 3 p.m. NOT your average cooking program. Teens are invited to meet in the teen section with our teen librarian to see what types of foods we can make with waffle-makers that aren't actually waffles. Then maybe we'll try them. Will various cheeses waffle? What about ground up Oreos? Only one way to find out!

## On-going:

### Participants sought for Blacksburg Fourth of July Parade

Participants are needed for Blacksburg's Fourth of July parade, organized by the Mount Tabor Ruritan Club. The "A Child's Fourth of July" parade starts at 2 p.m. on Eheart Street, runs through downtown on Main Street, and ends on Alumni Mall. Entries can be floats, bicycles, wagons, marchers, walkers, antique/classic cars, Jeeps, trucks, fire engines, scouts, bands, sports teams, etc. Information is available on the Mount Tabor Ruritan Club's Facebook page, by texting 540-449-6178, or at the Blacksburg Parks and Recreation office. The Town of Blacksburg will have music and fireworks at the Municipal Park, near the Rec. Center: Live music 6-9:30 p.m. and fireworks at 9:30 p.m. (even if raining).

### Applications open for healthcare workshop for people with disabilities

Individuals with disabilities who live in Radford City and Floyd County can now apply for a program presented by the New River Valley Disability Resource Center. "Improving Health Literacy Through Technology" is a six-week program designed to empower people with disabilities to gain better access to healthcare. Participants will receive a free iPad after completing six weekly, one-hour workshops exploring how to use technology to take better control of their health and social support needs. Workshops will run Aug. 1 through Sept. 5. Applications available at [www.nrvdc.org](http://www.nrvdc.org) or by calling 540-266-1435 or email at [outreach@nrvdc.org](mailto:outreach@nrvdc.org). Applications are also available at the Radford and Floyd libraries. The application deadline is Fri., July 12.

# Virginia Tech's College of Engineering leads the way in U.S. News & World Report graduate school rankings

BLACKSBURG - Virginia Tech's ongoing commitment to research, teaching, and engagement continue to be reflected in university rankings, as several of the institution's College of Engineering graduate programs were rated highly in the latest U.S. News & World Report's annual graduate school rankings released Tuesday.

The university's top 100 global effort, named Virginia Tech Global Distinction, seeks to make the university a destination for the best faculty, students, and partners from the commonwealth, the nation, and the world. The engineering graduate school rankings reflected that priority.

Overall, U.S. News & World Report ranked Virginia Tech's engineering graduate programs at tied for No. 31.

U.S. News & World Report ranked four of Virginia Tech's College of Engineering individual graduate programs in the top 10:

- Environmental: Tied for No. 5
- Industrial and systems: No. 5, up from No. 6
- Civil: No. 9
- Biological/agricultural: Tied for No. 10, up from No. 12

In addition, four other individual graduate programs were rated in the top 20:

- Aerospace: Tie for No. 11, up from No. 14
- Computer: No. 15, up from No. 23
- Mechanical: No. 17
- Electrical: No. 20

Other engineering graduate programs to receive top-50 marks included materials at No. 34, computer science tied for No. 36, biomedical at No. 36, and chemical at No. 42.

"It is our mission to advance the boundaries of engineering knowledge and practice through transdisciplinary research," said Julie Ross, the Paul and Dorothea Torgersen Dean of Engineering. "The caliber of our world-class education is truly reflected in our students, faculty, and alumni, who are sought globally for their excellence. We invest in the resources that prepare our graduates to solve today's most complex social and technological challenges in

and beyond their communities."

The engineering graduate school rankings build on a strong showing by other individual graduate programs in Virginia Tech colleges that were released by U.S. News & World Report in early April. The university's Doctor of Veterinary Medicine program within the Virginia-Maryland College of Veterinary Medicine came in tied for No. 19 nationally, while Virginia Tech's part-time Evening MBA program, offered by the Pamplin College of Business, was tied 35th nationally and No. 1 in Virginia. The program, based in Falls Church, holds in-person courses in the evening and offers online elective classes in the summer.

Virginia Tech's graduate programs in computer science and computer engineering, along with the Evening MBA program, will be based at the Innovation Campus location in Alexandria starting in spring 2025.

Virginia Tech's graduate programs in public affairs (tie for No. 57), education (tie for No. 79) and public health (No. 88) earned top-100 rankings from U.S. News & World Report release in early April. The first two of those programs reside in the College of Liberal Arts and Human Sciences, while the public health program is in the Virginia-Maryland College of Veterinary Medicine, which focuses on three academic programs related to health: Doctor of Veterinary Medicine, Biomedical and Veterinary Sciences Graduate Program, and public health.

In addition, within the College of Science, graduate programs in earth sciences (tie for No. 33), statistics (tie for No. 37), physics (tie for No. 50), mathematics (tie for No. 51), economics (tie for No. 65), chemistry (tie for No. 67), and psychology (tie for No. 68). Within the College of Liberal Arts and Human Sciences, two programs received top-100 marks, including sociology (tie for No. 64) and English (tie for No. 82).

The publication's rankings of medical school graduate programs will be released in late July.

Michael Stowe for Virginia Tech

PHOTO BY LUKE HAYES FOR VIRGINIA TECH

Faculty members and students from civil engineering and environmental engineering test the strength of concrete diaphragms in the Thomas M. Murray Structures Lab. Virginia Tech's civil and environmental engineering graduate programs were ranked among the top 10 nationally in the latest U.S. News & World Report.

RADFORD NEWS JOURNAL Serving Radford Since 1884

# Through Alzheimer's Awareness Month, highlighting how Virginia Tech researchers are working toward better treatments

Alzheimer's disease, a deadly brain disease that can cause loss of memory and mobility, affects millions of lives daily. Nearly seven million Americans have been diagnosed with Alzheimer's disease, and about 11 million in the U.S. act as caregivers for people with Alzheimer's or other forms of dementia. June marks Alzheimer's and Brain Awareness

Month, and June 20, the summer solstice, saw a nationwide fundraising effort to counter Alzheimer's and similar diseases, known as The Longest Day. Virginia Tech researchers are engaged in research meant to advance treatment for Alzheimer's disease and assist caregivers of loved ones with dementia. **The power of music** "Music is so powerful,

it overrides so many things," said Jo Culligan, an instructor with the Department of Human Development and Family Science in the Virginia Tech College of Liberal Arts and Human Sciences. Culligan has explored the benefits of music therapy for dementia patients and their caregivers. A study that surveyed caregivers and their charges through a series of weekly community choir rehearsals showed that listening to music and singing boosted the well-being of choir participants.

At the beginning of rehearsals, some caregivers and people with dementia reported having negative feelings. But as time progressed, "they were getting into the routine and people were more happy once they arrived. We saw big changes," Culligan said. "Where your musical memory is stored is an area that is not impacted by dementia. It can create opportunities for orientation and connection and increase communication," Culligan said.

**Modeling brains and manipulating molecules** Tim Jarome, a neuroscientist in Virginia Tech's School of Animal Sciences within the College of Agriculture and Life Sciences, has been working on a way to model Alzheimer's disease using a pig's brain, which has many more similarities to the human brain than that of a rodent. "One of the hallmarks of Alzheimer's disease is cognitive impairments

IMAGE COURTESY PEXELS

**A caregiver puts a hand over the hand of an older patient.**

and memory loss, so we need to study the complicated tasks that pigs do," Jarome said. "Pigs are very intelligent and can perform complicated tasks that are beyond the capabilities of rodents. If we develop this model, researchers in every state in the U.S. could use it because every state has at least one university with facilities to house pigs." Jarome also has collaborated on pioneering work that manipulates protein complexes in the brain to determine what role they may have in age-related cognitive decline. "It gives us a therapeutic target we can start to develop strategies around to stimulate and hopefully improve memory across the life span," he said.

**Better views inside the brain** Xiaoting Jia, an associate professor in Virginia Tech's Bradley Department of Electrical and Computer Engineering, uses tools to help neuroscientists study and solve brain diseases. Current electrical and imaging tools to diagnose brain disorders are limited in resolution, both time and spatial, making it difficult to study devastating neurological diseases. Jia has developed a fiber a little thicker than a strand of hair that can be used to probe the brain without harming it, allowing better imaging for studying brain disease. Jia leads a research team that focuses on what relationship might exist between the buildup of plaque in the brain and the onset of Alzheimer's symptoms. In collaboration with faculty from the University of Virginia and Washington University in St. Louis, Jia is developing a new kind of scope that will allow imaging and observation of plaque buildup to analyze its relationship with memory loss. The

team also will explore sending electrical pulses to re-establish blood flow and oxygenation to dead neurons and restore memory. "Alzheimer's is a devastating problem - I've seen firsthand how bad it could be," Jia said. "It's why it concerns me as an electrical engineer. I want to build tools and try to assist neuroscientists in solving brain problems."

**LEGAL NOTICE OF PUBLIC HEARING OF THE TOWN OF CHRISTIANSBURG TOWN COUNCIL**  
The Town of Christiansburg Town Council will hold a Public Hearing on Tuesday, June 25, 2024, at 7:00 PM in the Council Chambers of the Christiansburg Town Hall, 100 E. Main Street, Christiansburg, Virginia 24073. The purpose of the public hearing is to receive public comments concerning:

Amendment to the Christiansburg Town Code, Chapter 40, Section 40-2 Definitions and Section 40-3 - Administrator, to allow for additional administrative and planning commission reviews. Proposed revisions to Section 40-2 change the definition of "plat" and "preliminary plat subdivision" for consistency with the Virginia State Code definitions. Proposed revisions to Section 40-3 include:  
(1) allowance to the agent or the planning commission to approve lot line revisions, lot line vacations, accept on behalf of the town publicly dedicated easements including, but not limited to, utility, access, and drainage easements, and review for tentative approval preliminary subdivision plats that contain 11 or more lots, but less than 50 lots; and  
(2) allowance of tentative approval to the planning commission for the acceptance of the dedication of public rights-of-way on behalf of the town and for preliminary subdivision plats that contain 50 or more lots.  
A copy of the proposed ordinance amendment and the Town's Zoning Ordinance may be viewed in the Planning

### Notice of Public Hearing Town of Blacksburg Planning Commission Tuesday, July 2, 2024

Notice is hereby given that the Planning Commission of the Town of Blacksburg will conduct the following public hearings on Tuesday, July 2, 2024 during its meeting beginning at 6:30 PM in the Roger E. Hedgepeth Council Chamber, 300 South Main St, Blacksburg, VA on the following item:  
Zoning Ordinance Amendment (ZOA) #61-An amendment to the Town of Blacksburg Zoning Ordinance to create a new Small Lot Development Option in the R-4 Low Density Residential Zoning District to allow smaller lot sizes. This is proposed text amendment would create the Small Lot Development Option within the R4 Low Density Residential Zoning District. It will allow for development of homes (single-family, detached; two-family dwelling; and townhouse) on relatively small lots to increase housing choice, affordability and sustainability. Small lot development in the R-4 District is intended to

### Legals - Montgomery County

accommodate residential development on lots between 3,000 and 7,499 square feet. The Option will have its own site development standards, occupancy regulations and design standards to ensure compatibility with the existing R-4 District.

Persons affected by or interested in the zoning ordinance amendment may appear and present their views. After hearing, the Planning Commission may take action. Copies of the requests and all related items may be found online at https://letstalkblacksburg.org or reviewed in person at the Blacksburg Planning and Building Department, 400 South Main Street, Blacksburg, Virginia. You may also call the office at (540) 443-1300 for more information. Individuals with disabilities who require special assistance to attend and participate in the public hearing on the above should contact the Planning & Building Department at (540) 443-1300, or (540)-443-1000-TDD.

### NOTICE OF PUBLIC HEARING OF THE MONTGOMERY COUNTY PLANNING COMMISSION

Pursuant to the provisions of Section 15.2-2204 & 15.2-2285 of the Code of Virginia of 1950, as amended, the Montgomery County Planning Commission hereby gives notice of a public hearing to be held on July 10, 2024 at 7:00 p.m. in the County Government Center, 755 Roanoke St., Christiansburg, Virginia, in

### Legals - Montgomery County

order to hear citizen comments regarding the Planning Commission's intention to act on the following requests:

A request by DW, LLC (Agent: Michael Gay, P.E.) to rezone 49.17 acres from Agricultural (A-1) to Rural Residential (R-R), to allow for the development of a fourteen (14) lot single-family residential subdivision. The property is located at the end of Brammer Lane, approximately 0.50 miles east of the intersection of Houchins Road (State Route 758) and Brammer Lane. The property is further identified as Tax Map 080-5 1 (Parcel ID: 033688), in the Shawsville Magisterial District. The property lies in an area designated as Rural in the 2025 Montgomery County Comprehensive Plan.

AND  
A request by DW, LLC (Agent: Michael Gay, P.E.) to allow the construction of private streets to service the proposed fourteen (14) lot single-family subdivision. The proposed private street network would connect to Brammer Lane, approximately 0.50 miles east of the intersection of Houchins Road (State Route 758) and Brammer Lane. Section 8-152 of the Code of Montgomery County requires approval of all private streets by the Board of Supervisors.

Copies of the proposed plans, applications, ordinances or amendments may be examined at the Department of Planning and GIS Services, County Government Center, 755 Roanoke St., Suite 2A, Christiansburg, Monday through Friday between the hours of 8:30 a.m. and 5:00 p.m. or at <http://www.montgomerycountyva.gov/pendingapplications>.

### Legals - Montgomery County

### NOTICE OF PUBLIC HEARING OF THE MONTGOMERY COUNTY PLANNING COMMISSION

Pursuant to the provisions of Section 15.2-2204 & 15.2-2285 of the Code of Virginia of 1950, as amended, the Montgomery County Planning Commission hereby gives notice of a public hearing to be held on July 10, 2024 at 7:00 p.m. in the County Government Center, 755 Roanoke St., Christiansburg, Virginia, in order to hear citizen comments regarding the Planning Commission's intention to act on the following Special Use Permit request:

A request by Jonathan L. Yates for Arcola Towers for a Special Use Permit (SUP) to allow a 197-foot monopole wireless telecommunications tower, freestanding. The property is owned by Reginald L. Duncan and is located at 3936 Childress Road, northeast of Fairview Church Road (State Route 669) and southwest of Piney Woods Road (State Route 600). The property is further identified as Tax Map 127-A 3, 4 (Parcel ID: 019114), 50.4383 acres, zoned Agricultural (A-1) in the Riner Magisterial District. The property currently lies in an area designated as Rural in the 2025 Comprehensive Plan.

Copies of the proposed plans, applications, ordinances or amendments may be examined at the Department of Planning and GIS Services, County Government Center, 755 Roanoke St., Suite 2A, Christiansburg, Monday

# Sea Monster museum exhibit today at the Radford Public Library

## SEA MONSTER ADVENTURE

A MONSTROUS MUSEUM EXHIBIT!

Ahoy there! There are sea monsters at the library! Come view a special museum exhibit that captures the awe and magic of the ocean as we share the amazing creatures that lived there!

June 22nd @ 11 am

Join the Radford Public Library for a very special museum exhibit today, Saturday, June 22 at 11 a.m. Sea Monster Adventure captures the awe and magic of the ocean as we share the amazing creatures that lived there. Through real fossils, museum-quality models, and great books - the sea monsters will come to life at the library! The event is being held in conjunction with RPL's Summer Reading Program.

Radford News Journal is a newspaper of, by and for the people of Radford. We encourage letters from our readers on topics of general interest to the community and responses to our articles and columns. Letters must be signed and have a telephone number where you can be reached for verification. All letters will be verified before publication. We reserve the right to deny publication of any letter and edit letters for length, content and style.

Radford News Journal (USPS 387-780) is published twice a week for \$46 a year in the City of Radford, \$55 elsewhere in Virginia, and \$59 out of state by Virginia Media Inc., P.O. Box 429, Lewisburg, WV 24901. Periodical postage paid at Christiansburg, VA. POSTMASTER: Send address changes to RADFORD NEWS JOURNAL 1633 W. Main St., Salem, VA 24153.

PHOTO BY MAX ESTERHUIZEN FOR VIRGINIA TECH  
Sydney Johnson (at left) and Pablo Sobrado found a way to synthesize on a large scale a naturally occurring compound that hasn't previously been used for antibacterial applications.

## There's more to blue cheese than just the stench

Marbled veins of blue line the otherwise antique white surface.

As you approach, the pungent smell fills your nostrils, akin to gym socks for some.

But there's far more to blue cheese than just the stink. The marbled veins of blue, which are edible *Penicillium* molds, produce compounds with antifungal, antibacterial, and other biological properties in high doses also known as natural products.

Virginia Tech researchers found a new, efficient way to synthesize some of these beneficial blue cheese compounds in a way that avoids the use of harmful chemicals. Previously, the synthesization of these compounds was either extremely low in yield or required the use of harmful or dangerous chemicals.

"This discovery explains the mechanism behind a new reaction in our field, filling a knowledge gap," said Sydney Johnson Ph.D. '24, the lead author who earned her doctorate in biochemistry.

Antibacterial resistance has become a growing problem for society, which was caused by the overuse of natural products used on the market for decades, Johnson said.

By finding a way to synthesize on a large scale a naturally occurring compound that hasn't previously been used for antibacterial applications, Virginia Tech researchers were able to evade the existing antibacterial resistances.

"We work with an enzyme that can help create a natural product that has a unique structure that would make it very difficult for pathogens to become resistant," Johnson said. "Existing pathogens would have to evolve to be resistant to this new compound."

The paper was recently published in ACS Biochemistry.

"This publication lays the foundation to utilize the enzyme to synthesize the natural products," Johnson said.

"This publication lays the foundation to utilize the enzyme to synthesize the natural products," Sydney Johnson said.

"I like to train innovative scientists that work on trying to move the science

forward by developing projects that move the entire field forward," said Pablo Sobrado, professor of biochemistry who leads the Sobrado Lab and is also a researcher on the paper. "Sydney achieved that with this research."

Enzymes are proteins that help speed up chemical reactions. For their experiment, researchers used an enzyme that produces something called roquefortine L. Parts of its chemical structure are biologically active, which means that it can have beneficial properties such as antimicrobial activities.

In addition, the production of roquefortine L is central to the production of other molecules called glandiclone, meleganin, and oxaline, which have been shown to have broad antimicrobial properties and promising anticancer effects against human breast and leukemia cancer cells.

This enzyme attaches two hydroxyl groups to a nitrogen atom, which are functional groups found in sugars and alcohols. A hydroxyl group consists of one hydrogen and one oxygen atom. Through a complex chemical process, the hydroxyl groups then develop an entirely different functionality.

"This has not been studied in detail before, and Sydney showed how the enzyme holds on first to the product that has the one hydroxyl group, attaches the second group, and then obtains the final product," Sobrado said.

Many fungal species make this compound naturally, and it's relatively new in the biochemistry field to research how to synthesize these processes at a large scale. According to the researchers, the reaction mechanism and the actual chemistry that takes place on the involved nitrogen atom is completely novel from other publications.

"This publication lays the foundation to utilize the enzyme to synthesize the natural products," Johnson said. "The improvements make this process much more marketable. Eventually, we could get a drug containing one of these compounds or something similar to it to the market."

Tom Soladay for Virginia Tech

# OBITUARIES

## Duncan, Jerry Norman

Jerry Norman Duncan, of Shawsville, died June 14, 2024, at age 74. He was born in Radford to the late Myrtle Garland Duncan (Carroll) and Arnold Austin Duncan on Feb. 21, 1950. He was also preceded in death by his brother, Jeffrey Garland Duncan.

Jerry is survived by Stanley William Guthrie, his soul mate and spouse of 48 years; brother, John B. Duncan and wife, Sharon; sister-in law, Robin Duncan; nephews, Bartley Duncan and Zach Duncan; great nephew, Grady Duncan; great niece, Madison Duncan; uncles, Don and Arthur Garland; a number of beloved cousins; and dogs, Lollie and Leala.

Jerry had a great love and talent for music. A student leader of the BHS Warrior Band, he earned First Chair Symphonic and Concert in-State two consecutive years. Jerry received a partial scholarship to Florida State University and established himself as a proud member of the FSU marching Seminole Band. He completed his degree specializing in Music Therapy.

Jerry devoted many years to serving America's veterans with vision impairment

and those in need of hospice care, and our nations wounded warriors. He was a member of St. Thomas Episcopal Church in Christiansburg and was active in "Our House", which is a homeless program affiliated with St. Thomas.

Jerry had no doubts he was coming "home" after retirement. His return was filled with holidays, cooking and enjoying the love of his family... particularly watching his nephews grow up. Nothing was more important to Jerry than family.

Jerry never met a stranger. He was friendly—a listener who made people feel good about themselves. His sense of humor was abundant and free flowing with anyone who needed a laugh. Jerry was a healer, incorporating that life value into his everyday life and was always ready to reach out.

A celebration of Jerry's life for family and friends is Saturday, June 22, 2024, at 5 p.m. at McCoy Funeral Home, Blacksburg, Virginia.

If you choose to honor Jerry by a donation, please consider PETA, Arbor Day Foundation or charity of your favor.

## Givens Jr., Hugh Peck

Hugh Peck Givens Jr., 85, passed away peacefully at home June 16, 2024, surrounded by his loving family.

Peck was born in Giles County in 1939 and spent most of his childhood in Christiansburg. He met his future wife Brenda when they were both in third grade at Christiansburg Elementary School. Peck and Brenda were high school sweethearts and married in 1958.

Peck earned an M.S. in Mechanical Engineering from Virginia Tech in 1962 and remained a lifelong Hokies fan. He worked for Celanese and Fiber

Industries for most of his engineering career, and he and his family lived in Christiansburg, Charlotte and Shelby, North Carolina, and Simpsonville, South Carolina. Peck was an avid golfer, gardener, and woodworker, and had many other interests and hobbies throughout his life.

Peck is survived by his wife Brenda; his four children Lisa (Bill), Becky,

Anne (Molly), Ben; his four grandchildren Clare, Ellen (Marcel), Julian, and Dante; and his three great-grandchildren Marlee, Zoey, and Nellie.

## WORSHIP DIRECTORY

### I Need Help

Read Psalms 11:1 through 18:50

Many of the Psalms are full of praise to God. We sometimes visualize David as peacefully strumming a harp as he quietly watches a flock of sheep grazing on a grassy slope. Psalm 13 presents a different picture.

David apparently had doubts, troubling thoughts, and enemies. Things did not always go well for him. In the first part of this psalm, David, in authentic transparency, expressed some real concerns. He apparently had enemies who were getting a little too close for comfort. The amazing part is how, in spite of the chaos around him, David made a decision to trust God.

But I trust in your unfailing love; my heart rejoices in your salvation (Psalm 13:5).

Everything does not always go well for us either. We face challenges that seem overwhelming, and we do not always see a clear path through the jungle of everyday life. But God is our Source of help, and we can trust Him to get us through!

Prayer Suggestion: Father, I do not feel up to the task that is before me at times, but I have decided that I will trust You.

Quicklook: Psalm 13:1-6

**If your church is not listed and if you are interested, call Wendi Craig at 276-340-2445 or email at advertise@mainstreetnewspapers.com**

& Film, Rough Draught, etc.) detailed in weekly email and on website: clcradford.org. 540-639-2671.

**Our Saviour Lutheran Church ELCA**, 1845 Cambria St NE, Christiansburg. Celebrate Word and Sacrament as we worship with varied liturgy, hymns and music. # OBITUARIES

## Brown, Tammy Renee Dingus

Tammy Renee Dingus Brown, 50, of Dublin, passed away Thursday, June 13, 2024.

He was preceded in death by her father, Dennis Lee Dingus; and brother, Michael Dingus.

Survivors include her husband, Gary Brown; daughter, Leah (Cody) Edmondson; grandsons,

Nolan and Alden; mother, Kathy Smith Dingus; and many uncles, aunts, cousins and friends.

A celebration of her life will be announced at a later date.

The Brown family is in the care of Mullins Funeral Home & Crematory in Radford.

## Turman, Robert Lee

Robert Lee (Bobby) Turman passed away Tuesday, June 18, 2024, at Commonwealth Senior Living in Radford.

He was born July 8, 1938, in Pulaski and was the son of the late Edgar Lemon and Ruth Allison Turman. On Sept. 4, 1960, at the Allisonia United Methodist Church in Allisonia, Pulaski County, he married the love of his life, his wife, the late Diana Lee Dunnigan Turman.

Robert "Bobby" was a life-long resident of Pulaski County. He graduated from Dublin High School in 1955 and was drafted into the Army in 1961. He served from 1961 to 1963 in Fort Hood, Texas, where he earned the rank of Sergeant and was a squad leader. After he was discharged from the Army, he returned home and continued working with the Virginia Department of Transportation. He retired after 48 years of service. He was an active member of the Dublin United Methodist Church, a member of the American Legion Post 58 in Dublin, and a member of the Dublin Ruritan Club.

He is preceded in death by his wife, his parents, brother Edgar (Butch) Turman, brother-in-law James (Jimmy) Dunnigan, brother-in-law Robert (Bobby) Dunnigan, and nephew Robert (Robbie) Dunnigan, Jr.

He is survived by many loving family members, including sister and

brother-in-law, Judy and David Coffman of Midlothian, VA, and their children, Jason and Alyson Coffman Pauley of Roanoke and Mitchell and Amy Coffman Smith of Richmond; sister-in-law, Betty Martin Dunnigan and her children, Randy and Cherish Dunnigan and children, Chandler, Cooper, and Claire, and daughter-in-law, Angie Dunnigan and children, Zack, Shay, and Chase, all of Dublin; sister-in-law, Barbara Jarrells Turman of Allisonia and her children, Keith and Tina Turman and children of Pulaski, and Misty Turman and children of Dublin; many cousins, church family, friends and caregivers at Commonwealth Senior Living in Radford.

Funeral services will be held Saturday, June 22, 2024, at 11 a.m. at the Dublin United Methodist Church with Reverend Josh Kilbourne officiating. Interment will follow in the Highland Memory Gardens in Dublin. The family will receive friends beginning at 10 a.m. prior to the service. In lieu of flowers, the family requests that contributions be made to the Dublin United Methodist Church in his memory (PO Box 577, Dublin, VA 24084).

The Turman family is in the care of Mullins Funeral Home in Radford.

## Workforce development consortium receives grant

RADFORD – The New River/Mount Rogers Workforce Development Area Consortium recently received a \$1.5 million grant from the U.S. Department of Labor.

The grant is part of a \$98 million initiative to enhance training and employment services for young people and expand apprenticeships in high-demand careers.

The consortium is one of 72 organizations across 30 states awarded through the YouthBuild Program. According to the YouthBuild website, "YouthBuild is a community-based pre-apprenticeship program that provides job training and educational services for

opportunity youth ages 16-24 who left school without a secondary diploma."

Administered by the U.S. Department of Labor's Employment and Training Administration and supported by the Workforce Innovation and Opportunity Act, YouthBuild grants help disadvantaged young people acquire occupational skills, employment services, and educational guidance. The program emphasizes green building techniques, including sustainable building materials, solar panel installation, and weatherization processes. Participants can also earn their high school diploma or equivalency degree while receiving workplace training.

Onward NRV

## Maj. Gen. William H. Seely III named next commandant of the Virginia Tech Corps of Cadets

U.S. Marine Corps Maj. Gen. William H. Seely III has been named the next commandant of the Virginia Tech Corps of Cadets and will officially step into his new role upon his departure from active duty, which is planned for the spring of 2025.

Seely will succeed Maj. Gen. Randal Fullhart, who will officially end his tenure as commandant on July 1.

As the commandant, Seely will serve as the highest-ranking military officer at the university and will provide strategic guidance, direction, and supervision to ensure the overall success and effectiveness of the corps.

"The Corps of Cadets is an essential part of the identity of Virginia Tech, founded as a military, land-grant institution that grew to become a leading research university and senior military college," said Virginia Tech President Tim Sands. "We look forward to advancing the corps' role in the university's mission under the leadership of Maj. Gen. Seely. His experience, achievements, and exemplary military career will be an inspiration to the cadets who will become tomorrow's global, ethical leaders."

"As I step into this honored position, I am filled with excitement as Virginia Tech is an incredible institution with a legacy of exceptional leadership within the corps," said Seely. "I look forward to working across the institution to shape outstanding officers and civilian leaders who excel in both military and non-military settings."

Throughout his 35-year military career, Seely has held critical leadership roles. He served as the communications platoon commander for H&S Company, 3rd Reconnaissance Battalion from 1990-92, company commander for India Company, Marine Cryptologic Support Battalion in Kunia, Hawaii, from 2000-02, and battalion commander for 3rd Reconnaissance Battalion, 3rd Marine Division from 2006-08. Additionally, he commanded the Marine Corps Intelligence Schools at Training Command from 2011-13, led Task Force-Iraq as part of Combined Joint Task

**Maj. Gen. William H. Seely III has been named the incoming commandant for the Virginia Tech Corps of Cadets.**

Force-Operation Inherent Resolve from 2019-20, and served as the commandant of the Joint Forces Staff College from 2020-21. Currently, he is serving as the commandant of the Eisenhower School at the National Defense University in Washington, D.C.

Seely has held numerous staff assignments that have demonstrated his versatility and strategic acumen. He served as the S-2 for 3rd Reconnaissance Battalion from 1992-93, deputy G-2 and G-2 operations officer for Marine Forces Central Command from 2002-03, and director of the Intelligence Integration Division at Marine Corps Combat Development Command from 2010-11. Notably, he also held the position of intelligence director for the Combined Joint Forces Land Component Commander-Iraq from 2015-16.

Seely also has received numerous military awards, including the Defense Superior Service Medal with Oak Leaf Cluster, Legion of Merit with Gold Star, Bronze Star with two Gold Stars and "Combat V," Defense Meritorious Service Medal with two Oak Leaf Clusters, Meritorious Service Medal with Gold Star, Joint Service Commendation Medal, Navy and Marine Corps Commendation Medal with two Gold Stars, Navy and Marine Corps Achievement Medal, and the Combat Action Ribbon.

"Throughout his 35-year military career, Maj. Gen. Seely has distinguished himself as a highly-respected leader guided by a commitment to service, personal and

professional ethics, and strength of character," said Executive Vice President and Provost Cyril Clarke. "The experience and expertise he brings to Virginia Tech will be invaluable to the Corps of Cadets and the development of military and civilian leaders through the tenets of UTProsim. I look forward to working with Maj. Gen. Seely and having him as a part of our university's leadership team."

Additionally, Seely's academic background includes a bachelor's degree from American University and master's degrees from Oklahoma State University, National Intelligence University, and the Naval War College.

"I am thrilled that Gen. Seely has agreed to serve as our next commandant of cadets," said Vice President for Student Affairs Frances Keene. "I have no doubt that Maj. Gen. Seely will lead the corps leadership in a way that will expand the impressive legacy of the corps."

Retired U.S. Army Reserve Brig. Gen. Dwayne Edwards, head of Virginia Tech's Department of Biological System Engineering, will serve as interim commandant until Seely's arrival.

"I am profoundly honored to serve Virginia Tech as the interim commandant," said Edwards. "It is a distinct privilege to be part of such a storied organization dedicated to developing the future leaders of our nation, to continuing its legacy of excellence, and to supporting our incoming new commandant, Maj. Gen. Seely."

## Veterinary hospital teamwork helps dog survive toxic ingestion

For April and Brian Barlow, letting their dogs out to enjoy some outdoor time on their property in Princeton, West Virginia, is just part of their morning routine.

But on one of those mornings, Chop, their curious Labrador retriever mix, would follow his nose into trouble.

Through attentive veterinary care and an emergency referral to the Virginia-Maryland College of Veterinary Medicine's Veterinary Teaching Hospital, Chop recovered from neurological intoxication.

About an hour after letting Chop outside, the Barlows looked outside to find the dog standing on the porch, shaking uncontrollably.

They immediately brought Chop to their local veterinarian, Michelle Postle at Happy Tails Veterinary Clinic.

Chop's tremors soon progressed to seizures, and he was vomiting violently. When Postle administered antiseizure medication, it wore off in the span of a minute.

Chop was in dire straits. Postle called the Veterinary Teaching Hospital. Veterinary neurologists advised her on doses and medication.

Multiple teams worked tirelessly to help Chop beat the odds.

"Not only was it interdepartmental collaboration, but it was collaboration with the veterinary community. If it was not for their vet calling us, there is no question the dog wouldn't have made it. What she started with taking initiative with stabilization is very much why he is alive today," said neurology/neurosurgery resident Leanne Jankelunas.

Chop needed intensive treatment at

the Veterinary Teaching Hospital, but there are no pet ambulances, so the job fell to Chop's family. The challenge? Chop needed near constant medication to keep the seizures at bay.

While Brian Barlow drove, he had one phone giving him directions to the Veterinary Teaching Hospital and another phone set with a timer. Every 30 seconds, the timer went off and April Barlow gave Chop a dose of anesthetic through an IV.

The family drove like this for an hour and a half until they finally reached the Veterinary Teaching Hospital.

Before Chop arrived, the neurology and critical care teams met to come up with a plan to address the seizures, potential brain swelling, and the medications Chop would need to pull through.

"The moment he arrived, he was a combination of anesthetized and comatose," said Laura Vega, clinical assistant professor of emergency and critical care medicine. "It was all hands on deck. It was fantastic to see multiple services coming together to get everything done so quickly."

Chop was in respiratory distress and needed to be intubated. He received medication to decrease brain swelling and an anticonvulsant. He was given a muscle relaxant to try to control his tremors, and he also needed to get his blood sugar up.

At the time, nobody knew exactly what Chop had ingested.

"It was minute-to-minute, hour-to-hour. In many toxicity cases, you're a little bit in the blind. There's no specific antidote you're going for — you're just

PHOTO BY MARGIE CHRISTIANSON FOR VIRGINIA TECH

**(From left) Tiffany Luci and Holly Newberne with Chop, a two-year-old Labrador retriever.**

trying to keep them alive and roll with the punches," said Vega.

In addition to activated charcoal to absorb toxins, Chop was given intralipid therapy, a fat emulsion given intravenously to draw the toxins from tissues into the blood, where it can be more easily eliminated.

"It takes a village. I am really happy to have the ICU technical staff that I have — we were working together through the night. They really kept him alive and we worked so, so hard. It was a huge effort," said Vega.

In addition to the toxin itself, Chop was in respiratory distress. Aspirating his own vomit caused severe infection and inflammation in his lungs, but Chop recovered.

Later testing confirmed that Chop had consumed tremorgenic mycotoxins, which grow on things like moldy food and compost piles.

"It turns out that he's a little miracle kid," said Vega. "Neurologically, he was almost back to normal within 24 hours."

Though he still had trouble breathing, the next day the Barlows saw Chop on his feet with no tremors or seizures. His appetite and energy slowly returned, and now, Chop is back to his old self.

"We never dreamed we would be picking him up like this," said April Barlow. "If it wasn't for your team and Dr. Postle's team, our baby wouldn't be coming home with us."

## Offensive coordinator promoted to head coach at Christiansburg High

**Marty Gordon**  
NRVsports@ourvalley.org

Christiansburg High School has turned to a familiar face to lead its football program this fall.

Offensive coordinator Matt Heron has been promoted to the post. In the announcement, Principal Shane Guynn said Heron brings a wealth of experience, passion and strong commitment to fostering excellence on both on and off the field. Heron has coached for the past six years under Alex Wilkens, who stepped down last month. Heron has served the past five seasons as the school's offensive coordinator.

PHOTO COURTESY OF CHS  
**Matt Heron**

"My goal for Christiansburg football is that our players will be recognized by their success, both on the football field and in life beyond football," the new coach said. "They will be the best spouse, parent, job candidate and community member that they are capable of being. I want myself and our coaching staff to develop our athletes to maximize their potential at CHS and beyond."

Previously, Heron coached for five years at Cave Spring High School. He has also been the head coach of Christiansburg Lacrosse for the past two seasons, and coached baseball for 10 seasons at Roanoke Catholic, Cave Spring and Christiansburg.

He attended Northside High School in Roanoke, where he played football. Heron cites the examples set by his former mentors.

"My youth coach was Coach Bob Price, who won four state championships as head coach at Roanoke Catholic," he said. "My father also coached football at Roanoke Catholic with Coach Price."

Heron played baseball at Roanoke College where he received his undergraduate degree and a Master's degree from Grand Canyon University.

## Assistant appointed head varsity coach

**Morgan Taylor**

**Marty Gordon**  
NRVsports@ourvalley.org

Christiansburg High School is turning the keys of the volleyball program over to a familiar face.

Morgan Taylor has coached for the past three years at the school, leading the junior varsity squad and assisting with the varsity, which finished 22-6 this past season with an appearance in the region 3D playoffs.

The school said in the announcement made Wednesday Taylor has been directly involved in helping to build its program over the past three years and brings a strong commitment to helping student athletes

represent themselves and CHS in the best possible light, both on and off the court.

"Her knowledge, experience and leadership are excellent pillars for our program," the school announced.

Taylor, who is a math teacher at the school, says she applied for the opening because she loves the sport and the program.

"I wanted to continue to see these girls continue to grow and wanted to help the program as best I can," she said.

Taylor had also coached a high school freshman team and two club teams for two years in Indiana. She moved to Virginia four years ago and coached the CMS middle school team for two years before moving to the junior varsity at CHS in the 2022 and 2023 seasons.

"Ultimately, I would love to be champions of our district and region, but I am also mainly aiming to provide a program for these athletes to learn, grow, and excel in," she said.

## Auburn High's Katie Light named Class 1 soccer player of year

Players from Radford, CHS, Auburn and East Mont also get the nod

**Marty Gordon**  
NRVsports@ourvalley.org

Katie Light led the Auburn High School girls' soccer team to another state championship appearance, and Wednesday, she was named the Class 1 player of the year.

Her coach, Adam Ritchie, was named coach of the year in Class 1.

Light was joined on the first team by teammates, Logan Mundy, Kristen Pack, Jillian Tucker and Lucy George. Auburn's Grace Harris was named to the second team.

Meanwhile in Class 2, Radford goalkeeper Hollybrook Cline was named to the first team for soccer with Lauren Owens and Kendall Carpenter being named to the second team.

In Class 2, the Radford boys' squad was the state runner up, and four Cats were named to the all-state soccer team. Brody Shull, Enzo Pugliese, Eli Goff and Charlie Davis were all first teamers. Robert Fuksz was named

FILE PHOTO

to the second team.

Christiansburg's Luca Pickeral and Sami Selfe were named to the Class 3 all-state first-team.

In Class 1, Auburn placed Jared Bradley and Nick Millirons on the first team with Eastern Montgomery's Talen

Bruce. Osman Amya of Eastern Montgomery was named to the second team.

## Big South honors RU's Wellings

Radford University senior Chloe Wellings (Newcastle Upon Tyne, U.K.) has been voted the 2023-24 Big South Conference Women's Track Athlete of the Year, respectively, while Charleston Southern junior Chloe Greene (South Kingstown, R.I.) has been selected the league's 2023-24 Women's Field Athlete of the Year, it was announced today by the Conference office.

The awards are voted on by the Big South track & field head coaches as part of their annual June meeting, and encompass both the indoor track & field and outdoor track & field seasons. Wellings was the Big South Champion in the Indoor 3,000m and 5,000m, as well as the Outdoor 5,000m and 10,000m -- becoming just the second women's student-athlete in Big South history to sweep the four events in the same year.

Her winning time of 34:39.29 in the Outdoor 10,000m established a Championship Meet record, and she repeated as the 5,000m champion with her time of 16:47.59. During the outdoor season, Wellings also won the App State Open 10,000m and the Charlotte 49er Classic 5,000m, and set PRs in the 5,000m at the Virginia Challenge (16:22.23) as well as the 10,000m at the Raleigh Relays (34:10.32).

Both efforts rank fourth in Big South history. In the indoor campaign, Wellings became the first Highlander to win the Big South 5,000m championship (16:58.06), and was Radford's first winner in the 3,000m since 2014 with her 9:33.72 performance. She won the 3,000m (9:42.97) at the VMI Invitational in January, and established PRs in the mile (4:55.44) and 3,000m (9:32.06) at the Darius Dixon Memorial

PHOTO COURTESY OF BIG SOUTH CONFERENCE

**Chloe Wellings of Radford University is the Big South Conference's track athlete of the year.**

Invitational in February -- with her 3,000m time the second-fastest in the conference record book.

Greene was the Most Valuable Athlete at both the Big South Indoor Championship (22 points) and Outdoor Championship (31 points) in 2024. She was the Pentathlon champion and finished third in the long jump, in addition to scoring in the triple jump and high jump. Greene won medals in the outdoor long jump (second) and high jump (third), and scored in the 100m Hurdles, javelin and triple jump.

She concluded the outdoor season in the javelin at the NCAA East First Round and qualified for the event with a PR of 46.34m at the Charleston

Southern Last Chance Qualifier (seventh-best performance in Big South history). At the Big South Outdoor Championships, Greene set PRs in the 100mH (13.95), long jump (5.99m -- 10th all-time in league annals) and triple jump (11.17m).

Her outdoor season included wins in the long jump and javelin at the Charleston Southern Invitational in March. During the indoor campaign, Greene won the Big South Pentathlon with a score of 3506 -- one point shy of her own school record. She finished third in the long jump with a PR leap of 5.75m, which is tied for fourth in school history.

Greene also recorded a personal-best in the triple jump with a leap of

11.12m to take sixth. Her points at the Big South Indoor Championships helped the Buccaneers claim second-place to mark the highest finish in program history with a program-record 157 points.

In February, Greene was part of CSU's winning DMR team at the South Carolina Invitational, as the relay squad turned in a school-record 11:46.26 -- the third-fastest in Big South history. She also set a school record in the 600m with a time of 1:36.99 at the Gamecock Opener in January (9th in Big South history) and was part of the 4x400m relay squad at the USC Indoor Open in February that took second overall at 3:48.65.

## Christiansburg gymnastics group send another to next level

**Marty Gordon**  
*NRVsport@ourvalley.org*

None of the area's high schools field a gymnastics team, thus many individuals have turned to Christiansburg's Virginia Techniques gym.

Over the past five years, the group has sent six athletes to the next level including Kentucky All-American Rayna Worley.

This past week, Annaliise Howard announced she will participate in acro and tumbling at Bluefield State.

Acrobatics & Tumbling includes student-athletes from a variety of gymnastic disciplines – artistic, acrobatic, trampoline, power tumbling - and

those who participate in competitive cheerleading. The sport includes six events, all of which are competed on the floor.

Currently 48 schools host a A&T program. Bluefield State is a NCAA Division II school as a member of the United States Collegiate Athletic Association with an enrollment of 1,248 students on the West Virginia side of the border.

Howard is recovering from ACL surgery and had wondered what her gymnastics future might hold. She had reached Level 9, one of the highest in the state of Virginia before the injury and surgery.

"I would say my

experience doing gymnastics has been both challenging at times and rewarding," she said. "The long hours required to practice and being a full-time student has helped me learn to manage my time and help me achieve a strong work ethic."

Howard hopes to be a positive addition to the Bluefield State, team contributing strong and clean tumbling skills and utilizing her strength in the acro portion of competition

She will join Virginia Techniques alum Karlee Williams at Bluefield State. Howard plans to major in Criminal Justice-Cyber Security Concentration.

Annaliise Howard (center) is the latest Christiansburg gymnast to commit to continue her athletic career at the next level. Also pictured are Techniques' coaches, Cheryl Robinson (left) and Amanda James.

Virginia Tech swimmer Carmen Weiler Sastre will be participating in next month's Summer Olympics in Paris.

## Tech's Sastre punches ticket to Paris

Virginia Tech swimmer Carmen Weiler Sastre punched her ticket to the 2024 Paris Olympics Tuesday during the 2024 Spanish Swimming Championships, which ran Tuesday through Saturday in Palma de Mallorca, Spain. In the 100-meter backstroke prelims, Weiler Sastre swam a 59.65. She stopped the clock in a personal-best time and lowered her own national record by

.11, which she set at last year's national championships.

Weiler Sastre surpassed the World Aquatics Olympic Qualification Time of 59.99 by .34. She will join Mario Molla Yanes on the Spanish Olympic team who qualified for the 100 butterfly earlier this year. In addition to the two Spaniards, Ian Ho, a Tech alumnus, will compete for Hong Kong in the 50 free.

## Radford athletes earn Big South honors

The Big South conference announced last Thursday morning the Presidential Honor Roll list which included an incredible 85.50% of Radford's 269 eligible student-athletes, a conference-high.

To be named to the Presidential Honor Roll, student-athletes must maintain a grade point average of 3.0 (on a 4.0 scale) or better for the recently-completed academic year. This past season, 2,152 out of the Big South's 2,909 eligible student-athletes achieved the benchmark.

For the second time in the last three years, it was Radford who led all Big South institutions with their 85.50% mark of student-athletes who earned the award. The Highlanders were one of just three members that eclipsed 80% joined

by Gardner-Webb and High Point. Within the list, 35 Radford student-athletes also earned the Commissioner's Award distinction for a perfect 4.0 GPA led by the women's soccer program which had nine student-athletes earn a 4.0 GPA.

The Big South had an all-time high 273 student-athletes receive Commissioner's Award distinction in 2023-24 for having a 4.0 GPA. Gold Award scholars (3.75-3.99) totaled 604 while another 522 received Silver Award (3.50-3.74) accolades in 2023-24 for a combined total of 1,399 student-athletes with at least a 3.50 GPA last year -- 65.01 percent of all Presidential Honor Roll members at or above that threshold.

*Radford University Athletics*

## Delon captures French Championship

Virginia Tech rising sophomore Valentine Delon hoisted the 2024 French Ladies Championship following a one-up victory over Camille Min-Gaultier, Sunday at the Golf Club of Lyon.

The Paris, France, native won five straight matches en route to the tournament title.

In stroke play, Delon fired rounds of 70 and 74 to tie for fifth at even-par 144 and lock up the sixth seed for match play. Delon nearly cruised to the championship match, which included a 5&4 quarterfinal win and a

6&5 semifinal win. In the 36-hole final against Min-Gaultier, Delon erupted for 12 birdies – seven on the first 18.

With the match all square through 18 holes, Delon birdied three of the first five holes in the second 18 to build a 1-up advantage. After carding a bogey on the par-4 27th hole to drop to 1-down, Delon recorded back-to-back birdies on holes 28 and 29 to regain the 1-up lead. Delon parred in to secure arguably the biggest win of her young career. Over the 36 holes played in Sunday's final, Delon shot the equivalent of 10-under-par.

*Virginia Tech Athletics*

## Women's Soccer program unveils 2024 schedule

The Radford women's soccer program unveiled their 2024 schedule Thursday morning jam-packed with interesting matchups, the program's 40th year at Division I and a quest to three-peat the Big South for the first time in program history.

Before action kicks off in the regular season, the Highlanders have a pair of exhibition matches planned. Radford fans can get their first look at the squad at home against Davidson on August 7 with a road exhibition against VMI on August 11 also scheduled.

Kicking off the 2024 regular season, the Highlanders start at home with a meeting against William & Mary on August 15. The Highlanders have won 10 straight matches at Cupp Stadium dating back to the 2022 season and have a 136-48-14 record on the home turf dating back to the stadium's opening.

Radford's first road contest is an intriguing one as the Highlanders visit West Virginia on August 18 for a rematch of the 2019 NCAA Tournament first round.

From there, Radford will return to Cupp Stadium for two straight home matches against Emory & Henry (August 22) and South Carolina State (August 25).

Back on the road for two straight, Radford makes two return trips to opponents they hosted in the 2023 slate. The Highlanders will visit Mount St. Mary's on August 31 before turning their attention to a tough Appalachian State squad who finished with a top-75 RPI last season on September 5.

Two of Radford's final three nonconference opponents will be right back at home. On September 8, Radford will play host to Wofford before hosting in-state rival Richmond on September 12. Closing out the nonconference slate, Radford visits the reigning 2023 Ohio Valley champions Morehead State on September 19.

Radford will open Big South play on the road when they visit Gardner-Webb on September 25. The program's conference home opener is a big one as the

Highlanders will host USC Upstate on September 28 for a 2023 Big South championship rematch.

Back on the road on October 2, Radford will visit an upstart UNC Asheville squad on coming off its first winning season since 2015. Returning home, Radford and Charleston Southern will clash for the 40th time in program history on October 5 as the Highlanders also celebrate alumni weekend.

After some time off, Radford returns to the pitch to host in-state rival Longwood on October 16 in their penultimate home match of the season. The Highlanders will then travel to Winthrop on October 19.

Closing out the regular season, Radford hosts High Point on October 23 in an always-intense meeting between two of the top programs in the Big South. Radford finishes up on the road at Presbyterian on October 26.

*Radford University Athletics*

## Former Virginia Tech soccer player selected for Venezuelan national team

Former Virginia Tech midfielder Daniel Pereira was selected to the Venezuelan national team's 26-man roster for CONMEBOL Copa América USA 2024.

The 48th edition of CONMEBOL Copa América began on June 20, with the match between Argentina and Canada in Atlanta, Ga., and will conclude on July 14 with the final in Miami, Fla.

Pereira, who made his debut for Venezuela on June 15, 2023, has four international caps, including two starts. The upcoming tournament will be the 2021 ACC Midfielder of the Year's first non-friendly action for his country.

Venezuela's first two matches, Ecuador (June 22) and Mexico (June 26), will be

aired live on FS1. The final group stage fixture against Jamaica (TV designation TBD) on June 30 will be contested at Q2 Stadium in Austin, Texas, the home field of Pereira's club, Austin FC.

In the midst of his fourth season as a professional, Pereira has made 105 appearances for the Austin FC across the MLS regular season and playoffs, recording two goals and 14 assists.

Pereira played high school soccer at Northside High School (Roanoke, Va.) before making 26 appearances in 2019 and 2020 for Virginia Tech. In the middle of the 2020-21 campaign, he was selected No. 1 overall in the 2021 MLS SuperDraft.
