VT honoring more than 6,000 graduates at spring commencement ceremonies

PHOTO BY RAY MEESE FOR VIRGINIA TECH

A team of workers checks the spacing between seats in Lane Stadium in preparation for spring commencement ceremonies. Virginia Tech is hosting 16 in-person ceremonies that conclude on Sunday, May 16.

Virginia Tech is holding in-person commencement ceremonies in Lane Stadium that began Monday and will run through Sunday, May

The university is celebrating graduating seniors, graduate school students, and their families, while adhering to public health guide-

All in-person ceremonies will be live-streamed, and details about attending commencement in-person can be found online.

The first of two graduate school commencement ceremonies was held Monday at 2 p.m., with the second one occurring Tuesday at 4 p.m. The Virginia-Maryland College of Veterinary Medicine honored its graduates at 6:30 p.m. The complete schedule is available on-

The remainder of the week will

include in-person ceremonies for those receiving undergraduate degrees from both the Class of 2021 and the Class of 2020.

On Friday, the university will hold a virtual commencement ceremony at 6:30 p.m. with the preceremony beginning at 6:15 p.m. to honor the Class of 2021. The virfrom a keynote speaker, as well as messages from students.

Joseph Kozak, who is receiving his doctoral degree in electrical and computer engineering, is the graduate school student speaker. Kozak is the 2020 Outstanding Graduate Student of the Year, recognizing him for his character, service, and academic achievements. He earned his bachelor's degree in engineer-University of Pittsburgh. His re- in Roanoke.

search interests revolve around making systems smaller and more efficient.

Class of 2021 President Grant Bommer will also offer a message to fellow graduates during the virtual ceremony. Bommer is receiving a bachelor's degree in business and

Francis S. Collins, the director of the National Institutes of Health, was announced as the university's commencement keynote speaker last month. Collins has been a prominent figure in the nation's response to the COVID-19 pandemic and is the only presidentially appointed NIH director to serve more than one administration.

Virginia Tech will honor 47 associate degree candidates from the College of Agriculture and Life Sciences and a total of 5,554 bachelor's degree candidates from all colleges throughout the week.

This year, 3,127 graduating Hokies completed their baccalaureate degree programs with honors, having achieved cumulative gradepoint averages of at least 3.4 on a

The Virginia Tech Corps of Catual ceremony will include remarks dets is recognizing 217 graduates from its program. Of those, 156 will be entering service in the military as commissioned officers, 65 in the U.S. Army, 48 in the U.S Air Force, 36 in the U.S. Navy, and seven in the U.S. Marine Corps.

The Virginia-Maryland College of Veterinary Medicine plans to hand out a Doctor of Veterinary Medicine degree to 128 recipients. The Virginia Tech Carilion School ing physics and a master's degree of Medicine honored its class of 38 in electrical engineering from the graduates at a ceremony on May 8

Blacksburg Rotary Club awards scholarships

Pictured left to right are the Rotary Club of Blacksburg's scholarship winners, Jackson Schulz, Neha Nauman, and Margaret Ferguson, with the children's books that the club places in the Montgomery Floyd Regional Library in their honor. Not pictured is Jordan Lockhart.

The Rotary Club of Blacksburg has presented its Outstanding Math/Science awards, which come with scholarships, to three Montgomery County High School students, and a fourth award, the Outstanding Career and Technical Education Award, to a fourth public school student.

Outstanding Math/Science Awards are presented to MCHS seniors with outstanding credentials and the goal of further pursuit of a math or science education. Proper ethics, character, service to others, and past math/ science achievements weigh heavily in the selection process.

This year's winners of the math/science awards were Neha Nauman, Jordan Lockhart, and Jackson Schulz.

Nauman is a senior at

Radford University commencement ceremonies celebrate 2020, 2021 graduates

Seventeen separate commencement ceremonies were held recently on the Radford University main campus and at the Berglund Center in Roanoke to celebrate the achievements of approximately 1,930 undergraduate and graduate students in the RU and RU Carilion classes of 2020 and 2021 who attended in person.

The festive activities began at the Class of 2020 College of Graduate Studies and Research Hooding and Commencement Ceremony, held at Cupp Stadium. Graduates and their guests heard from keynote speaker Lyn Lepre, Ph.D., provost and vice president for academic affairs.

Christiansburg Kiwanians present check to NRV disabilities agency

As an ongoing part of the Kiwanis Club of Christiansburg's support of the local community, Kiwanian Jim Vanhoozier recently presented a check for \$2,000 to Sheila Roop, the executive director of the Intellectual Disabilities Agency of the New River Valley, which provides services to families in the New River Valley who have members with intellectual challenges.

Nominations open for 2022 Farm Bureau Farm Dog of the Year, People's **Choice Pup Award**

WASHINGTON— The support farmers receive from their canine companions is priceless, and American Farm Bureau Federation (AFBF) is once again recognizing the contributions of America's finest farm dogs.

Farmers whose dogs demonstrate helpfulness on the farm, playfulness and obedience can submit nominations for the 2022 Farm Bureau Farm Dog of the Year contest through July 2. This is the fourth year of the contest, which honors farm dogs and the ways they assist with U.S. food production. The People's Choice

Pup Award is also returning for its third year.

"We're excited to host this popular contest again and provide the general public with another glimpse into daily life on the farm," said American Farm Bureau President Zippy Duvall. "Farm dogs often play a dual role as both working dogs and companions to farm families, which is especially important because farming and ranching can be stressful, even on the best

ers must be Farm Bureau

members. Prospective ap-

plicants can learn more

about becoming a Virginia Farm Bureau member at vafb.com/membership-at-

work/membership. The Montgomery County Farm Bureau offices are located at 1095 Peppers Ferry Road in Christiansburg.

Nominations for the contest include written responses to questions, still photos of the animal and optional video clips. Eligibility guidelines and submission requirements can be found at fb.org/land/ The grand prize winner

of the contest, sponsored by Purina, will receive \$5,000 in prize money, a year's worth of Purina dry dog food and recognition as the 2022 Farm Dog of the Year during the AFBF convention in January 2022.

The People's Choice Pup contest, which allows the public to vote for, comment on, share and like their favorite farm dogs on social media, also is returning. Profiles of the top 10

nominees from the Farm Bureau Farm Dog of the Year contest will be shared starting in October, and the public is invited to vote for their favorite pups. The 2022 People's Choice Pup will receive bragging rights and a \$50 cash prize.

COMING EVEN

Wednesday, May 12:

Hahn Horticulture Garden Virtual Road Trip

At 2 p.m. from the Wisconsin Arboretum with VT alumnus David Stevens. Register online for these talks and a zoom link will be provided: https://virginiatech.qualtrics.com/jfe/form/ SV_cumxRA4Mec96guy.

Chair Yoga for everybody:

From 2:00 to 2:30 p.m. at the Blacksburg Library. Join Rachel for 20 minutes of chair yoga, a perfect practice for anytime you want a break but can't leave your seat.

Going Out Green At 3 p.m. at the Montgomery Floyd Regional Library online. Learn about environmentally friendly burial options from the Funeral Consumers Alliance of the Virginia Blue Ridge. Email Kerri at kcopus@ mfrl.org to register.

Evening Book Talk: Virtual Meeting

From 6:30 to 7:30 p.m. at the Christiansburg Library. To be discussed this month is "A Woman of No Importance by Sonia Pur-

Thursday, May 13:

Radford Army Ammunition Plant community meeting The Radford Army Am-

munition Plant (RFAAP) will hold its next Com-Community mander's Meeting from 6:00 to 8:00 p.m. at the Christiansburg Library. Due to COVID-19 restrictions, seating is very limited. The event will be broadcast on Facebook Live from the Radford Army Ammunition Plant Facebook page. These meetings are open to the public and are an opportunity to learn about the plant's modernization and environmental projects. Environmental

topics discussed.

compliance and corrective

actions will be among the

Lifeguard Training Recertification

At the Christiansburg Aquatic Center from 5:00 to 9:00 p.m. on Friday and 8:00 a.m. until noon on Saturday. The cost is \$100.

Caturday Storytime At the Montgomery

Regional Library online at 11 a.m. Come read to Creature the cat, who was adopted from the Montgomery County Animal Shelter two years ago by a library staff member and loves to lay and read. Email shodges@mfrl.org for info on the library's Go-To Meeting.

Monday, May 17:

Ice Cream Cone Planters Pick up your own ice cream cone planter kit from the Christiansburg Library at 10:00 a.m. and watch it

Tuesday, May 18:

Dungeons & Dragons

Join the Radford Public Library's very first Dungeons & Dragons adventure at 4:30 p.m. This is a oneshot adventure for level 1 characters. To participate, message the RPL on Facebook or email duncan.hall@ radfordva.gov. Tuesday, May 18 at 4:30 p.m.

Wednesday, May 19:

American Red Cross Blood Drive

At the Meadowbrook Public Library from 1:00 until 6:00 p.m. The American Red Cross will be having a blood drive at the Waldron Wellness Center Carilion Community Room. It is sponsored by Blue Ridge Church and the Montgomery-Floyd Regional Library. Help Save a life by donating blood. Schedule an appointment at www.redcrossblood.org. If patrons of the Montgomery-Floyd Regional Library have fines and donate blood, the library will forgive up to \$10, redeemable only at

the Meadowbrook Public Library. Donors will also be able to select a used library book to take home compliments of Friends of the Library Meadowbrook

Thursday, May 20 -Friday, May 28:

Blended learning lifeguard

At the Christiansburg Aquatic Center

May 20 from 5:30 p.m. until 7:30 p.m.: Pre-Test.

May 21 through May 26: Video portion of the train-May 27-28: 8 a.m. until

The cost is \$200.

Friday, May 21:

United Way Drive-Thru

At the Hampton Inn, 680 Arbor Drive, Christiansburg, from 6:00 to 9:00 a.m. Make a \$10 donation and pick up a breakfast bag that will include a breakfast biscuit, fruit, a pastry, a cup of coffee, and a newspaper.

Donations can be made to local first responders and teachers, and delivery will be

Monday, May 24:

Radford Chamber of Commerce Golf Tournament: Birdies, Bogeys, and Business At the Pete Dye River Course at VT with Captain's Choice shotgun at 1 p.m. Registration and lunch starts at 11:30 p.m. Awarding of prizes via social media is at 6:00 p.m. Contests include Hole in One and Closest to the Pin with a \$200 prize. The team registration fee is \$350 per team. radfordchamber@ Email govt.com to be emailed a registration form.

Wednesday, May 26:

Hahn Horticulture Garden Virtual Road Trip

At 2 p.m. from Lotusland with Paul Mills and Rebecca Anderson. Register online and a zoom link will be provided: https://virginiatech. qualtrics.com/jfe/form/SV_ cumxRA4Mec96guy.

Monday, May 31:

Radford Memorial Day

Hosted by VFW Post 776 and the Harvey-Howe-Carper Post 30 of the American Legion at 11 a.m. at the Bisset Park gazebo, Radford.

Ongoing: Through May 14:

Young Chef Ingredient challenge

Through Friday, May 14, all day at the Montgomery Floyd Regional Library online. Calling all young chefs to challenge their creativity by making a meal with

spring peas, basil, and any kind of cheese (including vegan). They can add more ingredients to their recipe(s) but the meal must include all the ingredients listed. Please submit a photo and recipes by May 14. Email shodges@mfrl.org for further questions and for submission.

All month of May

Story Walk

All the month of May, at the Christiansburg Library. Exercise your brain and body as you read and walk the trail. Begin at the library College Street entrance of Downtown Park. This month's book is "If You Give a Pig a Pancake."

Grab-and-Go Crafts All day at the Meadowbrook Public Library. Drop by the library for Take-and-Make Craft Kits. Available for grab-and-go at the library or with curbside pickup. The kits are free, but supplies are limited.

Through Saturday, October 30:

Radford Farmers Market The Radford Farmers Market will be held each Saturday through Oct. 30 from 9:00 a.m. until 1:00 p.m. in the New River Valley Community Service parking lot

(Old Wade's parking lot) on

West Main Street.

COVID Companions seeks to curb isolation among older adults by providing technology and a friend Companions' volunteer

Kirin Anand places the Amazon Fire highdefinition tablet on the front steps of a house and rings the doorbell. Then he walks back to his car and makes a phone call. His COVID Companion answers and, after a brief conversation, she opens the door to retrieve the new technology on her doorstep.

The companion looks out at her street and sees Anand, a biological systems engineering major at Virginia Tech. The two wave an enthusiastic greeting to each other before Anand starts his car and pulls away.

Half an hour later, he will call his companion again to make sure she is acclimatizing to the tablet. Together they will navigate how the device connects to Wi-Fi, how applications such as Zoom and FaceTime work, and how to use the web browsers. Amid the technical discussion, they will talk of grandchildren, new recipes, and how the COVID-19 vaccinations work.

This scenario is how the COVID Companions program works, a new partnership among Virginia Tech's Public Health Program and Center for Gerontology, the Virginia Tech Corps of Cadets, the New River Valley Public Health Task Force, the Blacksburg Police Department, and the Blacksburg Health Department.

It is a buddy program that connects older adults with a friend within the New River Valley community. The program includes weekly phone calls, video-calls, pen pal correspondence, and technology assistance to help aid connectedness.

The collaboration is so important," said Pamela Teaster, director of the Center for Gerontology, "because an initiative of this kind, one that needs focus, energy, and immediacy must have these organizations and more involved to help meet the needs of older adults in the New River Valley who are isolated because of COVID-19."

The initiative is the brainchild of Emily Hoyt and Laura York, both graduate students in public health and a certificate program from the Center for Gerontology. Together they have organized the effort with Callyn Niesen, a classmate in public health, who serves as the COVID

coordinator.

The program's origins stem from the New River Valley Public Task Force, which earlier during the pandemic worked with a group of students called COVID Crushers. These volunteers handed out masks and COVID-19 prevention information to the community.

out to Virginia Tech, and Hoyt's and York's names came up because they are both in the Graduate Certificate in Gerontology program. Together they brainstormed on how to help the aging issues that first came to technology.

The task force reached

Department and admin- conversation," one of the issues that everything else.' jumped out immediatetally and physically due not put older adults in

to that population that we can help reduce ageism among community members," Hoyt said. "So students can understand, it's not just, 'oh, they're these old people who are lonely.' No they're real people who have real emotions and real-life experiences. And it's a symbiotic relationship between the volunteer and the older

adult." "This is truly one of the incredibly positive outcomes that can occur when a community faces adversity," said Wilson. 'The community joined together to care for all."

Hokie Olympians share perspectives about competing on world's biggest stage

Kristi Castlin was the first female from Virginia Tech to win an Olympic medal, taking bronze in the 100meter hurdles at the 2016 Summer Games. She was recognized for that accomplishment at a Virginia Tech football game later that fall.

Reliving their past Olympic experiences and discussing Virginia Tech's impact on their lives served as the main topics of discussion for five Virginia Tech Olympic athletes at the "Road to Reunion: Hokie Olympian Panel" held virtually re-

Olympians Kristi Castlin, who was the first female VT athlete to an Olympic medal, Bimbo Coles, Queen Harrison, Marcel Wesh participated in the the 2016 Summer Games panel discussion. The event in Rio de Janeiro, Brazil.

mer Virginia Tech football So when I finally crossed py and ecstatic just to go to the Olympics.

"It was a great experience for me, as it was my first Olympics and just going and my friends and family being there to celebrate and just doing great things," Castlin said.

Castlin was the first former Virginia Tech athlete to win an Olympic medal as she took home the bronze medal in the 100-meter hurdles.

"For Haiti, it's a little different than the U.S.," said Wesh (Human Development '15), who has dual citizenship with the U.S. and Haiti, but competed for Haiti in the 100-meter race in Rio.

'We don't have the trials because our country is so small, so all you really have to do is get the Olympic 'A' standard," Wesh said. "So, I remember getting that Olympic 'A' standard, and I was crying to my mom and crying to my dad. It was like, 'I did it.' I was set

Lomnicky (Management 13), who competed in the hammer throw for his native Slovakia, is one of two Virginia Tech athletes to compete in two Olympics. The other is Kaan Tayla, a swimmer, who competed for Turkey. Lomnicky competed in the 2012 Olympic

again in 2016 in Rio.

"The Olympic experience was nice," the two-time national champion at Virginia Tech said. "In London, I was scared. I was young. I didn't know what to do. I didn't make the finals.

"In Rio, I learned from the first one. I had a lot more experience. In Rio, I made the finals and almost got a medal — I got fifth," Lonnicky said. "It was amazing. I really loved it."

The Olympians talked extensively of their time in the Olympic Village, the location where nearly all of the athletes from all the countries stay while in a host city. Most of their discussions centered on the

Castlin and Lomnicky found McDonald's much more to their liking than the food options offered within the village in Rio.

"They had a McDonald's that stayed open fairly late, and the line for Mc-Donald's was like 25 or 30 meters long — no exaggeration," Castlin said. "I found myself getting tired of eating the same food that they were providing [in the Olympic Village]. I found myself going to McDonald's more often. I literally fueled an Olympic medal off of McDonald's."

"The only difference

[between Rio and London] was that, in London, the McDonald's was located right in the dining hall," Lomnicky said. "You walked straight to the dining hall and the McDonald's was right there. People were not waiting in line. It was quicker. It was amazing.

"The food there, they tried to satisfy all the athletes," Lomnicky said. "They had a Europe section and an Asia section and all the different styles of cooking, but the food, in my experience, was tasteless. That's why a lot of people went to McDonald's to get cheeseburgers."

Harrison, who earned her sociology degree in 2010, said she loved staying in the Olympic Village, where she got to know her U.S. teammates and tried all the various food options.

As a member of the U.S. men's basketball team, Coles and his teammates enjoyed the best of accommodations in Seoul.

"Our accommodations were great," said Coles, who earned his degree in apparel, housing, and resource management in 1990. "We pretty much did everything first class. The food was terrific. They had so many different foods from every country in the food court. Just a great area. My experience was terrific."

Scientists from VT, City of Hope aim to improve therapy for deadly brain cancer

forme is among the most lethal of cancers and the most stubborn in the face of treatment. Fewer than 20 percent of patients survive more than two years after diagnosis, according to the Central Brain Tumor Registry of the United

But a team of researchers at Fralin Biomedical Research Institute at VTC and City of Hope, a comprehensive care center in California, believes the complex way fluid flows through glioblastoma tumors holds the key to the therapy's success. They believe they can use that flow to improve chimeric antigen receptor T cell therapy (CAR-T) and help more patients survive.

The National Institute of Neurological Disorders and Stroke, part of the National Institutes of Health, has awarded the team \$3.75 million to study the impact of fluid flow on the therapy over the next five

"We believe we can actually encourage the T cells to move deeper into the tumor and search out those invading tumor cells in the brain and kill them," said Jennifer Munson, associate professor at the Fralin Biomedical Research Institute.

Christine Brown, the Heritage Provider Network Professor in Immunotherapy, and Russell Rockne, director of the Division of Mathematical Oncology, both at City of Hope in Duarte, Calif., complete multi-investigator

CAR-T cell therapy has been successful in treating a range of cancers. The method uses immune system cells called T cells that are genetically engineered to recognize and kill cancer cells. These engineered cells are injected into the patient's body where they

replicate and attack the tumor.

But results of the therapy have been inconsistent from patient to patient, Munson said. The team's study aims to identify the patient-specific factors that cause the therapy to work in some patients, but not others, while improving the therapy's implementa-

Munson's lab at the Fralin Biomedical Research Institute will study the movement of liquid within human tissues, called interstitial fluid flow, to understand how beneficial T cells penetrate tumors. Munson specializes in engineering tissue models, so-called "tumors in a dish," which can replicate the tumors of individual patients so the researchers can see how the

cells move inside a tumor. 'We want to know if we can deliver T cells into a specific part of the tumor, or at a specific flow rate or

volume, to basically push the T cells around or move them where we need them to go," said Munson, who also is an associate professor in the Department of Biomedical Engineering and Mechanics in Virginia Tech's College of Engi-

Rockne will build mathematical models to identify biomarkers to predict He compared fluid flow through tumors to a river reaching the ocean, where it may leak in numerous directions.

Treatments and the survival rates for patients with gliobastomas haven't improved in decades, Munson said. The team's study affords an opportunity to contribute to progress in the ongoing enterprise of the research community to deploy multiple approaches to improve outcomes for patients with this disease.

Associate Professor Jennifer Munson and her lab at if the therapy will be effective in individual patients.

ASSOCIATE PROTESSOR JERRITIER MURSON and HER IAD AT the Fralin Biomedical Research Institute at VTC will build tissue-engineered model tumors to test how fluid build tissue-engineered model tumors to test how fluid flow can be manipulated to improve CAR-T cell therapy for glioblastoma, an aggressive form of brain cancer. Munson and collaborators at City of Hope received a \$3.75 million grant from the National Institute of Neurological Disorders to support this research.

QuoteWizard: Tornadoes down 14.4% in Virginia across last decade

Analysts at QuoteWizard, one of the nation's leading online insurance marketplaces, have released a new report tracking changes in tornadic activity across the United States that shows tornadic activity in the commonwealth has declined by 14.4 percent since 2010.

That percentage represents a net decline of 33 tornadoes in the state.

The report also shows that tornado activity is increasing in the Deep South while states such as Kansas, Texas and South Dakota in what has traditionally been known as Tornado Alley have seen significantly fewer tornadoes. "Southern states like Louisiana, Kentucky and Mississippi have seen their

number of tornadoes increase by 70% or more," said Nick VinZant, Sr. Research Analyst at QuoteWizard. In other findings, the

overall number of tornadoes increased 11.7% from 2010 through 2019.

Wyoming, Kentucky, and Pennsylvania had the largest increases in tornadic activity. South Dakota, Florida, and South Carolina has the largest decrease in tornadic activity nationwide, tornadoes have caused more than \$14.1 billion in damages.

Virginia had 196 tornadoes from 2010-2019, according to QuoteWizard. Fourteen states had more tornadoes than did Virginia during the decade. By comparison, Texas had

1196 tornadoes, the most of any state but still a decline of 134 total tornadoes; Kansas had 935 tornadoes during the decade, a decline of 89 tornadoes; and Mississippi had 881, an increase in the number of tornadoes of

fore the pandemic.

nadoes, 190.

Virginia continues to struggle in its recovery unemployment claims. The latest WalletHub survey ranked the commonwealth as the state that is recovering at the sixth slowest pace among the 50 states and the District of Columbia. Only Michigan, New Mexico, Delaware, Rhode Island, and Vermont are recovering at a slower rate than is Virginia, according to WalletHub's figures.

Virginia's gas prices rise again; cyberattack shuts down pipeline, shortages threaten

According to Gas-Buddy's daily survey of 4,081 stations in Virginia, gas prices in Virginia are 5.2 cents per gallon

er than a year ago.

In addition, a cyber-

higher than a month ago the Colonial Pipeline, and stand \$1.07/g high- which means that if the problem is not resolved and the flow of gasoline attack has shut down does not resume soon, Virginia motorists could face gasoline shortages. According to Gas-

> Buddy price reports, the cheapest station in Virginia is priced at \$2.17/g today while the most expensive is \$3.49/g, a difference of \$1.32/g. The national aver-

> age price of gasoline has risen 4.5 cents per gallon in the last week, averaging \$2.95/g today. The national average is up 10.0 cents per gallon from a month ago and stands \$1.12/g higher

While average gas prices jumped last week as the nation continues to see COVID-19 recovery, all eyes are now on the Colonial Pipeline and the fact a cyberattack has completely shut all lines, leading to what could become a major challenge for fuel delivery," said Patrick De Haan, head of petroleum analysis for GasBuddy.

"The situation is growing more intense each day that passes without the pipeline restarting, and motorists are advised to show extreme restraint or exacerbate and prolong

challenges," Haan said. "If the pipeline returns to service in the next day or two, the challenges will be minimal, but if full restart doesn't happen by then, we're likely to see a slight rise in gas prices, but more importantly, challenges for motorists needing fuel in Georgia, Tennessee, the Carolinas, Virginia, Northern Florida and surrounding areas. I'm hopeful the situation will quickly improve as multiple levels of government are in-

"This may become a nightmare should it continue just ahead of

the start of the summer driving season," De Haan said. "GasBuddy will continue to watch the situation and update as necessary.'

GasBuddy is the authoritative voice for gas prices and the only source for station-level data spanning nearly two decades. GasBuddy's survey updates 288 times every day from the most diverse list of sources covering nearly 150,000 stations nationwide, the most comprehensive and up-to-date in the country. GasBuddy data is accessible at http://FuelInsights.Gas-Buddy.com.

Graduates from page 1

moment for all of our grad- provost told the graduates. uates," Lepre said. "This is a day of justly deserved celebration. A day to also cel- use life's setbacks as buildebrate all those who have ing blocks for future sucsupported them along the journey to this stage.

"I am amazed at the but to thrive." drive, dedication, motivation and inspiration of our bers of the Class of 2020 students, especially those of you who have overcome obstacles and barriers in your educational journey

"This is a life-changing and in your life's path," the "Your Radford educa-

tion has prepared you to cess. It has given you the skills to not only survive Hundreds of the mem-

returned to campus for their graduation, which was postponed a year by the pandemic. Logan Richards, who earned his undergraduate degree in computer science, said he participated in person for his family.

"My parents and grandparents wanted to experience this once-in-a-lifetime moment with me," Richards said. Within a few hours of the commencement ceremonies, he was interviewing for his first job after a year spent interning in Salem.

"The pressure's on," he said.

For Eric Molly of Gloucester, Va., commencement was "10 years in the making." Molly attended another university for three years, took three years off, and then transferred to Radford. His parents, brother, and girlfriend all joined him to celebrate the milestone. "I couldn't miss it," said

Molly, who earned a degree in music education. Chanera Durante chose

to participate in the delayed ceremony as an example to her 10-year-old son, Camden. Durante and Camden, both dressed in graduate gowns, eagerly waited in line at the campus fountain with other Class of 2020 social work graduates.

work toward both her undergraduate and master's degrees in social work. She also earned a minor degree in special education and a certificate in autism, an achievement especially important to Durante. Camden, she said, is

on the autism spectrum. Throughout her time at Radford, he would often join her in the classroom where dedicated faculty would help Durante navigate Camden's unique educational and social needs. "It's been a blessing

the way that Radford has included Camden and helped us as a family," Durante said. "He's as much a Highlander as I am." Durante is also a first-

generation student and said she wanted to make attending college a "new norm" for her family. The pandemic also pre-

sented unexpected challenges for the Class of 2021, and they were finally able to conclude and celebrate a year filled with "We've been waiting

for this a long time," said Cassie Wolfe, standing among a group of fellow communication sciences and disorders majors waiting for the Waldron College of Health and Human Services ceremony to begin. "It's great to be able to have commencement in person. I think everybody's really excited for this opportunity." Wolfe came to Radford

because of its speech-language pathology program. During the ceremony,

President Brian Hemphill and Provost Lepre honored New River Health District Director Noelle Bissell, M.D. with the Presidential Medallion for Service "for her tireless efforts and sheer determination to make a difference

in the lives of others, particularly during this past year when the world was devastated by the health pandemic."

"It was her dedication as a community leader that guided us through a time like no other," Provost Lepre said. "Her knowledge, skills and positive attitude are an inspiration to all of us."

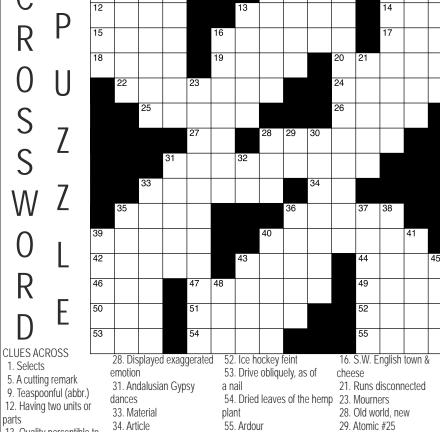

Across campus, the Davis College of Business and Economics ceremony was held on Moffett Lawn. Before the event, finance major Luis Segal spoke about the bittersweet moment of graduating and then moving on to start a job the following week in Richmond, his hometown.

"My Radford experience has been great," Segal said. "It's had its challenges because of the pandemic, but everyone here has been super supportive. Radford has given me all the tools I need. I couldn't ask for anything better."

At Cupp Stadium, President Hemphill spoke during the College of Humanities and Behavioral Sciences ceremony, where his son, Jordan, earned a degree in communication. At RUC, three ceremo-

nies were held at the Berglund Center to celebrate the 2020 and 2021 graduates. A ceremony at 10 a.m. recognized the 2020 graduates from all programs at RUC, and ceremonies at 1 and 4 p.m. recognized the 2021 graduates with programs split between the two events. President Hemphill

conferred the degrees after which the ceremonies ended with a recession from the arena where RUC faculty lined up in a gauntlet, congratulating the new graduates - now RUC alumni — as they

Akers, George Anderson

George Anderson Akers, 83, of Christiansburg, died May 7, 2021, at Lewis-Gale Medical Center, Salem, with his family by his side.

He was born in Montgomery County on March 14, 1938, to the late Lucy and Freeman Akers. He was preceded in death by sisters Beulah Nester, Reba Meredith, and Betty Lou Linkous; and brothers Curtis Akers, Alvin Akers, Balford "Rowdy" Akers, Melvin James Akers, and Franklin Lee Akers.

He is survived by his wife of 59 years, Joyce Graham Akers; a daughter and son-in-law, Norma and Ray Willis; a son and daughter-in-law, Mark and Chrystal Akers; grandchildren Brittany Akers Martin and husband, Daniel, and Brooke Akers Mast and husband, Junior; a great-grandchild, Wyatt Anderson Akers; a sister and brother-in-law, Beva and Henderson Woods; brothers and sistersin-law, Beamer and Ellewese Aker, and Raymond and Charlotte Akers; sisters-inlaw, Edith Akers Conley and Nelva Akers; numerous nieces and nephews, and special friends Bob and Debbie Ashcraft.

Funeral services were conducted Monday, May 10, 2021, at 2 p.m. in the Mc-Coy Funeral Home Chapel with Pastor Jason Meredith and the Rev. Kenneth Poston officiating. Interment followed in the Akers Family Cemetery.

The family received friends prior to the service at McCoy Funeral Home, Blacks-

Korslund, Mary Katherine

Korslund, 86, of Blacksburg, died peacefully in her sleep on April 29, 2021, in the Radford Health and Rehab Center following a long physical decline.

She was born on September 18, 1934, in rural Thor, Iowa, on the family farm, the youngest daughter of Edwin and Clara (Foss) Korslund, to the delight of three older sib-

lings, Allen, Jeannette, and Lois (all de-

She is survived by a sister- in-law, Charlene Korslund of Edina, Minn.; four nephews, John Korslund of Fulton, Md.; David Korslund of Amsterdam, The Netherlands; Douglas Korslund of Chicago, Ill.; and James Korslund of Edina, Minn.; and two cousins, Brian Rainer of Champaign, Ill., and Mary Nan Meyer of Long Beach, Calif., plus eight grandnephews and nieces. Her loss is also mourned by her special companion dog, Happy, and numerous close friends in the Blacksburg area who were devoted in remaining close to her.

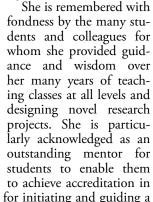

Mary's professional career was driven by an interest in teaching that started in a country school in rural Iowa. She gained pedagogical experience tutoring a young cousin brought into the Korslund family.

Mary graduated from Eagle Grove Iowa High School in 1952, and then earned a Bachelor of Science degree in Foods and Nutrition from Iowa State University in 1956, followed by the completion of dietetics internships at the Universities of Michigan and Wisconsin. She returned to Iowa State to earn a Master of Science degree in 1962. She accepted an assistant professor po-

sition at Virginia Tech in the Department of Human Nutrition and Foods in 1964 and remained on the faculty for 31 years until her retirement in 1995. During that time, she was granted a leave of absence to study at the University of Nebraska-Lincoln and received a PhD from that institution in 1972.

Dr. Korslund was active in both teaching and research. Many of her research projects focused on determining the nutrient needs of children and teens and how best to meet those needs. Her findings were reported in scientific journal articles she co-authored with other inves-

the field and for initiating and guiding a new dietetics internship program based in Northern Virginia and Blacksburg.

Mary has been described by faculty colleagues and administrators as a collaborative colleague, a team player, and a powerful mentor in a relatively new and emerging field of science-based human nutrition and its application by dietitians. Her excellence was recognized by Virginia Tech, which named her an Associate Professor Emerita upon her retirement.

Importantly in Blacksburg, Mary was an enthusiastic Hokie fan, holding her midfield season ticket seat in Lane Stadium since Frank Beamer played in the backfield. For many years she and a group of friends also held season tickets to men's and women's basketball, yet she alone also was an avid follower of the wrestling

Mary was a longtime active member of Luther Memorial Congregation in Blacksburg where she enjoyed singing in the choir. She also enjoyed chaperoning several collegiate opera tours for Radford University. For those wishing to remember Mary in some way, the family suggests that any gifts be directed through Luther Memorial Church to a hunger or spiritual mission of your choice in her memory.

Funeral services will be conducted at 10 a.m. on Saturday June 5, 2021, outdoors at Luther Memorial Church, 600 Prices Fork Road, Blacksburg, VA, 24060, with the Reverend Monica Weber officiating (indoors in case of rain). Family and friends may linger as permissible after the service to share smiles, laughter, and perhaps a few tears in celebration of

Interment of cremains will occur later with family graveside services near Eagle Grove, Iowa. Arrangements by McCoy Funeral Home, Blacksburg.

Memorial services will be conducted Thursday, May 13, 2021, at 1 p.m. in the McCoy Funeral Home Chapel with Pastor Joseph Moore officiating. Arrangements by McCoy Funeral Home, Blacksburg.

Sampson, Bernice Louise Harper

Moore, William H.

Bernice Louise Harper Sampson made the journey to her eternal home on May 8, 2021.

She was born in United, W.Va., on April 24, 1931, to Dora (Stanley) and Van Harper.

She was the youngest of eight children. She grew up in Cabin Creek, W.Va., where she met her husband and the love of her life, Harry, when she was just a teenager. They married on

June 19, 1948, when she was 17. They had a son, Harry Lee, Jr., who died at birth and later a daughter, Wanda.

Bernice was a full-time homemaker until her daughter started school, at which time she decided to further her education and get her teaching credentials. She taught elementary school in Clay County, W.Va., and until today kept pictures of her students and a special memory of each one. She loved her teaching career, but gave it up to help raise her grandsons. Later, she worked as a department manager in a small department store.

Her greatest mission on earth was to love and nurture her family and keep the nicest home possible for them. She excelled at cooking and cleaning and, according to Harry, her family owned the patent on cleanliness. There was never a visit that didn't include food.

She was preceded in death by her husband, Harry; her son, Harry, Jr.; her father and mother, Van and Dora (Stanley) Harper; a brother and sisterin-law, Alva (Thelma) Harper; sisters and brothers-in-law, Lola (Earnie) Morris, Phleta (Mac) Davis, Bleka (Robert) Profitt, Delphia (Thomas) Spencer, Leona (Fred) Rose, and Arlene (Joseph) Batton.

She is survived by her loving and devoted family, a daughter and son- in Radford.

Wanda Johnny Gibson of Claytor Lake, Va.; grandsons granddaughter-in Garland (Cheryl) Vaughan of Blacksburg, and Glenn Vaughan of Fairlawn, Va.; and a host of nieces and nephews.

Bernice was fiercely independent and private by nature, but she always had good words for her neighbors and described

them as the friendliest group she had ever known. She tried to learn the first names of all the people whom she saw regularly and never failed to greet

We have lost our wonderful mother, and we will miss her terribly, but she has given us the strength to continue. She has been the glue that held us together by her own sacrifices. Heaven has gained the greatest housekeeper of them all, and we have no doubt that she is eager to assist in maintaining the house of the Lord to keep it orderly and in harmony and to reunite with her husband.

"Do not let your hearts be troubled. Trust in God, trust also in me. In my Father's house are many rooms; if it were not so, I would have told you. I am going there to prepare a place for you. And if I go and prepare a place for you, I will come back and take you to be with me that you also may be where I am. You know the way to the place where I am going."

John 14:1-4

The family would like to thank Intrepid Hospice for their excellent care in a most difficult time. In keeping with her wishes, there will be a private graveside service in Oak Hill, W.Va. The Sampson family is in the care of Mullins Funeral Home & Crematory

Rogers, Elizabeth H.

Elizabeth H. "Liz" Rogers, 86, of Blacksburg, beloved mother, textile artist, shepherdess, and math teacher, died on May 5, 2021, leaving this world on her terms and exactly as she lived it: enjoying good food, a glass of wine, and surrounded by family.

She was born June 18, 1934, in Pasadena, Calif., to George J. and Anna

(Turnbull) Hall. A gifted student, she received a scholarship and endured four years at Bryn Mawr College, leaving there with a bachelor's degree and a wedding engagement, which the president of the university denounced saying "only our failures marry.'

Ever the rebel, she wed a Princeton graduate and U.S. Marine, Trenton, N.J., native Robert Frank Rogers, on Aug. 18, 1956, at the First United Presbyterian Church in Pasadena. Her husband, who became a zoning attorney in Burlington, N.J., died in August 2003.

Liz worked at a bank, then taught middle school math at Northern Burlington Jr.-Sr. High School. She birthed four children: Bob, Tony, Anna, and Amy, all of whom survive and are married to Shirley, Renee, Mark Shuster, and Brian Rensberger respectively. She was blessed with nine astounding grandchildren, all of whom survive, and supported their talents and exploits. In addition to her spouse of 47 years, she was preceded in death by her parents and an older brother, George (Flo) Hall. Her sister, Melinda,

survives. She will be remembered as a 4-H

teaching sewleader, ing and entomology, as well as running a sheep farm in Columbus, N.J., where visitors often encountered lambs running around the kitchen and something delicious in the oven. Her artistry in textiles included spinning, sewing, crocheting, and knitting. But her true talent was in quilting, which combined her

love of math with principles of art and deft use of color.

She attended Hedding United

Methodist Church for many years. Upon moving to Blacksburg, she attended Blacksburg United Methodist Church, visited Reevesville Baptist Church, and most recently supported Newport-Mt. Olivet United Methodist Church. She was also a strong supporter of the Special Olympics, cheering on her grandson, George. She was an avid gardener, a voracious reader, and Hokies fan who loved sports of all kinds. She was outspoken and stubborn but had a great sense of humor.

A memorial service was held Saturday, May 8, at McCoy Funeral Home, 150 Country Club Drive SW, Blacksburg VA, 24060. In lieu of flowers, memorials may be sent to the funeral home but made payable to Special Olympics of VA Area 9, or Reevesville Baptist Church for meals ministry, or Newport-Mt. Olivet United Methodist Church. The memorial service was recorded, and a link will be provided to those who request it.

She made dear friends in New Jersey,

Idaho, South Carolina, Virginia, and

NOTICE OF **PUBLIC HEARING**

Notice is hereby given to all interested persons that the Board of Zoning Appeals of the City of Salem, Virginia will hold a public hearing, in accordance with the provisions of Sections 15.2-2204 and 15.2-2309 of the 1950 Code of Virginia, as amended, on May 27, 2021, at 4:00 p.m. in the Community Room of the Salem Civic Center, 1001 Roanoke Boulevard, in the City of Salem, Virginia, to consider the following applications.

The request of David D. Arp, property owner, for a variance from Section 106-202.3(B)(1) and (2) pertaining to site development regulations, for the property located at 1416 North Mill Road, Tax Map # 34 3 8. The petitioner is requesting a variance to allow a shed in the side yard, a one-foot variance of side-yard setback for the shed and a variance of four and a quarter foot for an engineered panel cover over the driveway.

At this hearing, all parties in interest will be given an opportunity to be heard, present evidence, and show cause why such requests should or should not be granted. For additional information, contact the Office of the Zoning Administrator, 21 South Bruffey Street, Salem, Virginia (Phone 375 3032).

Blacksburg High's Amanda Lowe named volleyball state Gatorade player of the year

NRVsports@ourvalley.org

Blacksburg School's Amanda Lowe has been named the Gatorade state player of the year for

"It feels amazing to be able to represent my school, club, southwest Virginia, and state with this award," Lowe said Sunday. couldn't have done it without my coaches and teammates. I am just so excited about the honor of being recognized for playing the sport that I love.

Lowe started playing volleyball in the fifth grade. Her family moved to the Blacksburg area when she was in middle school, and since then, she has led the Bruins to four consecutive playoff runs including a state title. Her sister, Ali, played collegiately at the University of Alabama in Huntsville.

"I grew up watching my sister play volleyball and just wanting to be like her," said Lowe. "I went to every tournament, game, and practice that I could to watch her and was just in awe of her talent and the sport. I looked up to her and just wanted to one day be as good as her. So I would say that my sister has really been my drive to be the best that I can be."

In the last three years, her volleyball team has won three VHSL 4A Region D Championships and competed in team VHSL 4A semi-finals.

Lowe has earned first and second team all-state honors

Blacksburg's Amanda Lowe (center) returns the ball during a match this season against Christiansburg High School.

as well as all-region and alldistrict honors while playing for the Bruins. This year, she had 300 kills, 101 digs, 50 blocks, and 38 aces. During her junior season, she received recognition for 1,000 career kills.

She has played travel volleyball with the River Valley Juniors for the past five years and played with the Alabama Juniors the prior three years. She garnered national recognition by being named to the 2018, 2019 American Volleyball Coaches Association (AVCA) Phenom Watch Lists. Lowe was also selected by USAV High Performance (HP), a national team development program for American volleyball, and competed with the HP Old Dominion Region Youth Select Team in 2018 and 2019. Her 2018 HP Youth Select Team played in the USAV High Performance Championship match, earning second place.

She will continue her volleyball career at Virginia Tech where she will join former high school teammate Anabel Zier.

"I decided to continue my career at Virginia Tech because it has been my dream school ever since I can remember," Lowe said. "During my recruiting process, I visited other D1 schools but I kept comparing them to Tech. It just felt like home. Virginia Tech also has really good academic programs in the fields that I am pursuing. I have also always wanted to be a Hokie."

She has not yet decided on a major at Tech but is leaning toward the College of Agriculture and Life Sci-

Former CHS wrestler killed in auto accident

NRVsports@ourvalley.org

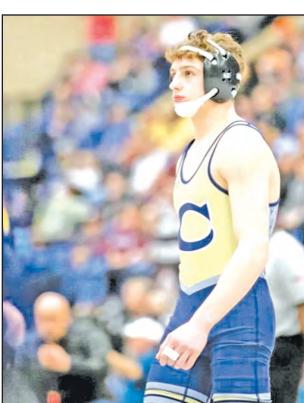

Kip Nininger, a standout wrestler at Christiansburg and Cave Spring high schools, has been killed in an auto accident. According to the Virginia State Police, the incident took place Friday around 10 p.m. on Route 11 in Botetourt County.

A 2011 Chevrolet Camero was driving north when it lost control, ran off the right side of the roadway, hit an embankment and flipped multiple times before Nininger was ejected from the vehicle.

Nininger was not wearing his seatbelt and was transported to Roanoke Memorial Hospital where he later died.

State police said speed was a factor in the crash and the incident remains under investigation.

titles wrestling for Cave ferred this past year to 103-8 mark.

Christiansburg and finished his career with a

Sisters share love both on and off the court and the field

Marty Gordon

NRVsports@ourvalley.org

For Elli and Lilly Underwood, looking for each other on the basketball and volleyball courts and the soccer field has just become natural. The sisters have been playing together since they were 5 years old.

Elli is a senior at Eastern Montgomery High School while Lilly is a sophomore. Elli was named the Pioneer District volleyball player-of-the-year this past week, and Lilly joined her on the All-District First Team.

"I know I can count on her when I am on the court," Elli said. "She is reliable and is easy to read, and I know she will be in certain spots when I need her to be. We have each other's back because of being sisters."

Lilly describes her older sister as a hard worker and a strong leader. "It's great to play with her," she said.

Elli has been racking up district awards for the past three years, and now it might be time for Lilly to continue the tradition.

The two did separate this spring when Lilly played football and Elli did not. The younger Underwood was named secondteam All-Pioneer District as a kicker.

"I brought it up to Coach (Jordan) Stew-

art, and he said come out," Lilly said. Her gridiron teammates treated her just like any other player, she said, admitting they had her back when it came to tackling or blocking after she thumped the kick deep into the opponent's territory. She was even credited with a tackle this past season.

"I loved it and plan to continue it in the

Lilly might have gotten the kicking "itch" from her dad, Casey, who was a kicker at Radford High School. "He has helped me a lot, and I feel I'm

getting better," she said. Both dad and mom, Casey and Cathy Underwood, played several sports in high school.

How did Elli feel about her sister venturing into a "boys" sport with more aggression than is found in the sisters' usual sports of volleyball, basketball and soccer?

"I was very nervous for her," Elli said. Lilly admits she will miss her sister on the

field and the courts this coming year.

Elli plans to attend Virginia Tech and study business. She said she might play a club sport but so far hasn't shown interest in playing a varsity sport in Blacksburg.

The Underwood sisters, Lilly (left) and Elli, have found success together on the soccer field and the basketball and volleyball courts.
