Bradford Pear trees adorn the City of Parsons each Spring

Bradford pear (*Pyrus calleryana* ‘Bradford’) is a spring-flowering tree that has been widely planted throughout the eastern U.S. in the last few decades. It is a popular tree that is frequently seen in nearly every city within its growing range. The species is a native of China, Taiwan, Japan, and Vietnam; the cultivar ‘Bradford’ is the most commonly planted in South Carolina.

The Bradford pear grows 30 to 50 feet tall and 20 to 30 feet wide. It has a wider and more erect, branchier canopy than the species.

A rapid grower (12 to 15 feet

increase in height over an 8- to 10-year period), it has a short to moderate life span (15 to 25 years).

The most attractive feature of this thornless tree is the showy white flowers that appear before the leaves in the spring. Early spring flowering may last two weeks, but spring frosts may reduce bloom time. Occasionally the tree will flower in the fall, usually due to some stress factor, like drought. The flowers, unfortunately, have an unpleasant fragrance.

Small, round, brown fruit then appear but are hidden by the leaves. Fruits are about the

size of a marble and are often eaten by birds. In the fall, the leaves turn mahogany-red and sometimes bright orange-red. Bradford pears are one of the first flowering trees in the spring, and one of the last trees to have colorful leaves in the fall.

Bradford pear may be grown as a specimen, screen, or street tree. Bradford pear grows best in full sun but will tolerate part shade. It requires low-to-medium fertility. It tolerates most soil types and conditions, including occasional wet soils or drought. It is also tolerant of

PVFD Homecoming Fair Rescheduled

Parsons VFD Homecoming Fair scheduled for May 18 - 22, 2021 has been postponed until September 28 - October 2, 2021. This is do to concerns with COVID restric-

tions and providing a quality and safe event. The Triathlon will still be held on May 15 as planned and next years fair 2022 will move back to May 17 - 21.

Heckler Requested a plea of “Not Guilty by Reason of Mental Illness”

On Friday, April 9, 2021, Emily Jo Heckler, charged with one count of First-Degree Murder in the death of her step-mother, Marion Heckler, appeared before the Honorable James W. Courier, Jr. with her attorneys, Jeremy Cooper and Brent Easton. The State appeared by Savannah Hull Wilkins, Prosecuting Attorney. Also present in the courtroom was Sergeant

Teter of the Tucker County Sheriff’s Office along with numerous members of Ms. Heckler’s family. At the onset of the hearing, the parties informed the Court that they had reached an agreement with respect to resolution of Ms. Heckler’s case. Specifically, Emily Heckler requested that the Court accept a plea of “Not Guilty by Reason of Mental Illness” and the

State consented to the entry of that plea.

The Court questioned Ms. Heckler regarding her understanding of her rights, and as to whether or not she was entering this plea freely **See HECKLER page 2A**

Davis Council hear from Davis Health System

By Heather Clower
The Parsons Advocate

With all members present per Recorder Andy Snyder’s roll call, Vice President of Davis Health System Marking and Development Tracy Fath gave a presentation to the Davis Town Council regarding the future Davis Health Systems Walk In Clinic that will occupy a section of Shop N’ Save, which has been in consideration since 2019.

It was highly recommended

and needed for the clinic to offer evening and weekend hours, which Fath stated the hours being considered are Monday through Friday from 11 a.m. until 7 p.m., Saturday from 9 a.m. until 1 p.m., and on Sundays from 12 p.m. until 4 p.m. The clinic would operate under the care of one full time Nurse Practitioner and two part-time PRNs, and two licensed medical assistants. The needs for radiology will be evaluated for consideration during their first year of opera-

tion. The pharmacy that is currently in Parsons will also be relocated to the entry way of Shop N’ Save.

Councilman Al Tomson expressed concern with sick patients entering through the grocery store to access the clinic. This topic was discussed at length and taken into advisement. The plan is for the facility to open for service the middle of June.

A motion was made by Tomson and Councilman **See DAVIS page 2A**

Parsons VFD Co. 10 responded to a residential structure fire Saturday morning at 173 Spruce Street Parsons around 3:40 a.m. Responding units were notified that a occupant was possibly still in the house. Upon arrival one persons was outside the house and transported by Tucker EMS. Additional resources was requested from Thomas Co. 40 and Leading Creek Co. 47 and WVSP. The cause of the fire is under investigation.

Parsons City Council Approves Certificate of Substantial Completion of Sewer Extension Project

Eleni Brick, Representative from The Thrasher Group spoke on the Parsons Sewer Extension Project and issued a Certificate of Substantial Completion in which City Council approved.

Ms. Brick also presented a contract to the City Council to start the design and construction drawings for the Parsons Emergency Water Preparedness and Resiliency Project. This project would connect Hamrick PSD and the City’s water systems together. Each utility will serve as each other’s backup water source in times of system failures or in times of emergency. City Coun-

cil approved this contract unanimously.

City Council made it in the form of a motion that they will be reviewing/adjusting water and sewer rates every 3 years.

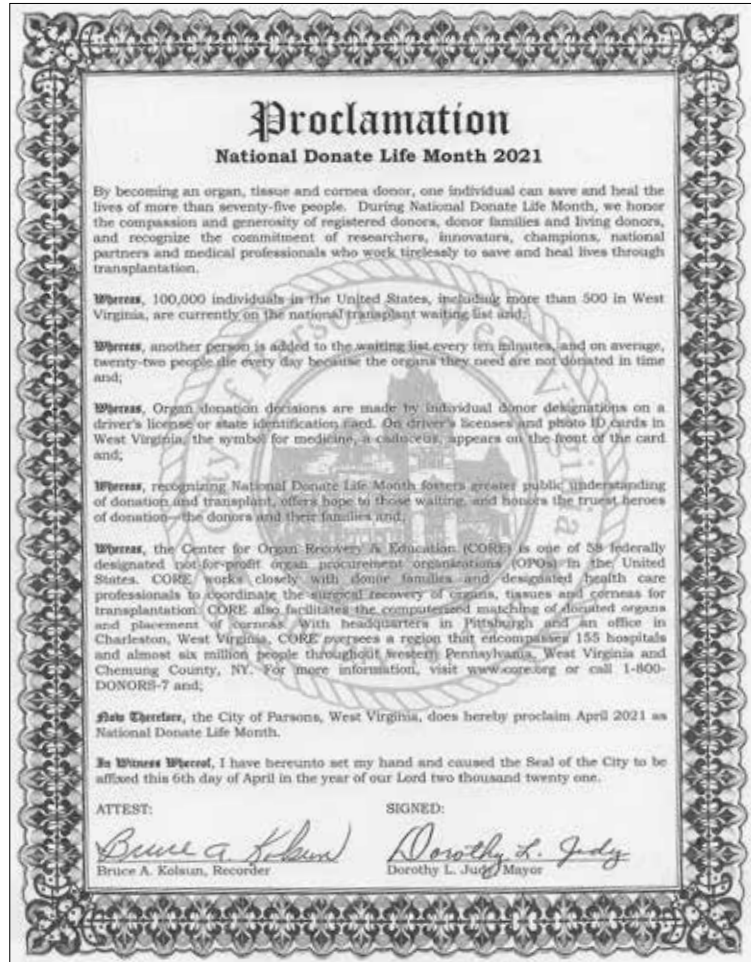

In order to certify the new code enforcement officer, the State Fire Marshal’s Office required the City to adopt the 2015 International Property Maintenance Code. The new code was presented and passed on first reading.

City Council made a proclamation declaring the Month of April 2021 as National Donate Life Month. (A jpg file is attached to

this email.)

City Council will be sponsoring Highlands Trail Foundation’s Blackwater Canyon Half Marathon in the amount of \$250. The Highlands Trail Foundation’s Blackwater Canyon Half Marathon will be held on Saturday, September 11, 2021.

Two contracts were presented to City Council from the Tygart Valley Conservation District. One was in the amount of \$46,000 to construct two wooden piers at the Pulp Mill Bottom Pond. The other one was for \$137,000 to construct trails as designed by The Thrasher Group. This proj-

ect will be funded by a grant from the West Virginia Division of Highways. This contract was

approved pending approval by the West Virginia Division of **See PARSONS page 3A**

News of Record

The following criminal complaint has been filed in the Tucker County Magistrate office:

Eric Scott Pennington, Parsons, has been charged with one felony count of Strangulation: Suffocation: Asphyxiation. According to the complaint on Sunday, March 21, at approximately 3:38 p.m., Deputy C.A. Martin responded to a Domestic in progress at 115 Outlook Drive in Parsons. Upon speaking to the victim, Alicia Pitzer, he was told in a recorded interview that she was allegedly strangled multiple times by the defendant over the course of the previous week. She advised that she thought she was going to die from breathlessness multiple times. She stated she was in constant fear of receiving an immediate and violent physical injury. She said that the defendant allegedly attempted to smother her to death with a pillow. There were faint marks on the sides of her neck where the defendant had allegedly grasped her neck while strangling her. The defendant and the victim live together, are engaged and are sexually active with each other. All individuals are presumed innocent until proven otherwise in a court of law.

The following property transfers have been recorded in the Tucker County Clerk’s office:

- Barbara E. Mayor, Dry Fork, 1 acre Life Estate Reserved to Timothy Pratt; Barbara E. Mayor/Life Estate, \$0.

Davis

John Felton to approve the minutes from March 10, 2021 as presented. Mayor Doug Martin provided the accounts payable to the Council Members and gave a brief update on the water improvements project. Tomson and Council-

woman Cindy Robeson made a motion to pay the bills with all in favor. Councilman Terry Helmick presented a list of projects pertaining to the streets, sidewalks, and alleys for acknowledgement. Moving into old

business, the Council discussed the need to set back dwellings and buildings so many feet from the property boundaries. It was suggested that the spacing be at least 10 feet at the back of the property, three feet on each side, 10 feet from the

sidewalks, and 10 feet at the front of the property. After brief conversation, Martin stated he would write up an ordinance to present to the Council for review and approval. There were three building permits submitted to

the Town of Davis for approval, consisting of one for a fence, one for a shed, and one for a garage. All permits were approved unanimously by the Council. The lay of the levy will take place on April 20 at 5

p.m. At the conclusion of business, Robeson made a motion to adjourn with Councilwoman Jeannette Tekavec Ware offering a second with all in favor. The Davis Town Council will meet again on Wednesday, April 14, at 6:30 p.m.

Heckler

and voluntarily. After this inquiry, the Court accepted her plea of “Not Guilty by Reason of Mental Illness.” Consequently, there will no longer be a jury trial in this matter, and instead Ms. Heckler will be com-

mitted to the custody of the Department of Health and Human Resources for placement at an appropriate mental health facility. Jurisdiction of the Court will last for the maximum amount of time she would

be facing if convicted of this offense at trial, which would be for the rest of her natural life. Prosecuting Attorney Savannah Wilkins issues the following statement: “This was not a decision that was made lightly, nor one that was made alone. Numerous mental health experts were consulted as part of this decision, as well as Marion Heckler’s adult children, and Sergeant Teter as the investi-

gating and arresting officer. All parties involved agreed and consented to this resolution. Now, three years following her death, Marion Heckler’s family, friends, and loved ones will hopefully have comfort and closure to this tragedy. The Prosecuting Attorney’s Office would like to recognize the Tucker County Sheriff’s Office and all other assisting agencies for their hard work and dedication to this case.”

TURNER’S TIDBITS

This is a photo of Mary Kuh Fawley and her daughter Bertie Fawley Norman. She was married to John Jacob Fawley and they lived on-River Street. Mary eventually moved to her grand-daughters, Florence Probst, home on-Spruce Street. Mary passed away at age 79. She had two children: Bertie and Luther. She had on brother: John Kuh. She had two grandchildren at the time she passed away. Ideas, comments, suggestions, photos to share contact Tim Turner (304) 478-3389.

Thank You

We would like to extend our gratitude to all our friends and family who have shown love and support this year during the loss of Joseph Kisner. A special thank you to Anita and Nick Barb, the emergency squad, EMT’s and law enforcement for being so prompt and caring.

*May God Bless You,
The Joseph Kisner Family*

Senior News

Some very encouraging news! As of this moment the arrangements for our trip to Lancaster have been made. The trip will be July 20 – 22, 2021. We have just a couple of openings for this trip. The price is \$500 per person based on double occupancy and \$620 for a single. If you are interested, please call 304-478-2423 and ask to be on the waiting list. We will let you know for sure in a couple of weeks. We will be going to the Sight and Sound Theater to see “Esther”, to the American Music Theater, Kreider Farms where they milk their cows on a carousel, Kitchen Kettle, and several other attractions. April is National Car Care Month. Now that the weather is nicer, it is a good time to clean and detail your car. Remember to clean the underside to remove any salt that may be there from the winter. The inside probably needs a good cleaning too because of the dirt and mud you have gotten in there from all the mud and snow. April is also National Card and Letter Writing Month. When was the last time (not a holiday) that you sent a card or a letter? Why not sit down and write a letter or even a short note to someone who doesn’t get out of the house much? It will make you feel better and it will cheer up someone else. April is also Physical Wellness Month. With the warmer weather upon us, it’s time to get moving. April 2nd was Walk to Work Day but you can start walking now. We’ve been cooped up because of Covid and the weather too long. Even if you just go out and walk around in your yard, you’re moving. You’ll be surprised how much better you’ll feel. It’s also time to do a little yardwork or gardening. Plant some pretty flowers, even in a flower box and that will bring cheer to you and your neighbors.

Charleston WV (April 2021) – The following events happened on these dates in West Virginia history. To read more, go to *e-WV: The West Virginia Encyclopedia* at www.wvencyclopedia.org.

April 14, 1774: Surveyors met at the mouth of the Kanawha River to establish military bounty claims in Kentucky. They became involved in several skirmishes with Indians in the region. This was the start of Dunmore's War, the name given to the conflict in the Ohio Valley in the spring of 1774.

April 15, 1872: Peter Godwin Van Winkle died in Parkersburg. Van Winkle was a member of the Governor's Council of the Reorganized Government of Virginia, 1861–63, under Gov. Francis Pierpont. On August 4, 1863, Van Winkle was elected as one of the first two U.S. senators from the new state of West Virginia.

April 16, 1829: Jacob Beeson Jackson was born in Parkersburg. In 1880, he became West Virginia's sixth governor.

April 16, 1894: Leonard Rigglesman was born in a Randolph County cabin. As president of Morris Harvey College, he moved the school to Charleston in 1935 and led the college to accreditation in 1958.

April 16, 1923: Arch Moore was born at Moundsville. He was the first governor in 100 years to serve a second term, and he returned later for a third.

April 17, 1827: Outdoorsman William "Squirrelly Bill" Carpenter was born on the Elk River near the mouth of Laurel Creek. Carpenter guided prominent West Virginians, including Governor MacCorkle, through the wonders of the Elk Valley.

April 17, 1871: West Virginians approved the Flick Amendment, which allowed former Confederates to vote. The amendment also applied to former slaves, but they had been enfranchised already by the 15th Amendment to the U.S. Constitution.

April 18, 1912: The Paint Creek-Cabin Creek Strike of 1912–13 began when coal operators rejected the demand of their unionized workers for a wage increase. The strike that followed was one of the most dramatic and bloody conflicts in the early 20th century labor struggles in southern West Virginia known as the Mine Wars.

April 19, 1896: Writer Melville Davisson Post was born in Harrison County. His best-known works are the Randolph Mason series, published in three volumes, and the more successful collection, *Uncle Abner: Master of Mysteries*.

April 19, 1902: Author Jean Lee Latham was born in Buckhannon. She wrote a number of children's books, including *Carry On, Mr. Bowditch*, which won the 1956 Newberry Award.

April 20, 1823: General

Jesse Lee Reno was born in Wheeling. He graduated from the U.S. Military Academy at West Point in 1846, eighth in a class that included another cadet from western Virginia, Thomas J. Jackson, later known as Stonewall.

April 20, 1863: President Lincoln issued a proclamation that in 60 days West Virginia would become a state. This occasion was marked 100 years later during the state's Centennial celebration with a special ceremonial session of the West Virginia legislature on April 20, 1963, in Wheeling.

April 20, 1909: Fiddler Melvin Wine was born near Burnsville. A favorite of old-time music enthusiasts nationally, he was chosen as a National Heritage Fellow in 1991 by the National Endowment for the Arts, the highest recognition given to a folk artist in the United States.

April 20, 1939: Poet Irene McKinney was born in Belington, Barbour County. Governor Gaston Caperton appointed her state poet laureate in 1993, and she served in that capacity until her death in 2012.

Mom would be so excited with the warm weather we have been having because that would make the ramps grow so fast. She would be old enough now that she may not have made it to the woods but I am sure she would have had me there digging for her. I could see it now, she would probably sit in the car and I would dig and intermittently bring her a basket full. She would sit in the shade and clean that basket while I went back to dig another. **Momma Said,** "Idle hands are the devil's playground."

She looked busy even when she was sitting still, which wasn't often. She mowed grass in the rain and if it was too bad, she was doing something in the house. Cleaning, baking bread and even going to the hospital to give blood. She was so proud when she got her three gallon certificate. I was devastated when I found out I could not donate because of a childhood illness. I would have liked to reach her goal or even surpass it in tribute to her, but it is not in my cards.

She was the type of person that went out of her way to help someone. She was so giving and caring and I try to be like that myself. You hear that old adage that every time you try to do good it backfires on you, well that has happened to me on several occasions but I will not stop trying to be a good person. I helped an elderly couple the other day at the doctor's office and I am sure if I hadn't intervened she would have fallen. I just can't stand by and not help someone in need, that is just inhumane.

I would like to think when my time comes for need of help that there will be someone that will step in and give me a hand. I try to see the good in people and only hope they will be kind enough to help. **Momma Said,** "You can only put your hand out and hope someone takes it."

Comments made in the year 1957 #2

Just thought I would share some more things that seem impossible today:

- Kids today are impossible. Those ducktail haircuts make it impossible to stay groomed. Next thing you know, boys will be wearing their hair as long as the girls.
- If they think I will pay 50 cents for a haircut, forget it.
- I read the other day where some scientist thinks it is possible to put a man on the moon by the end of the century. They even have some fellows they call astronauts preparing for it down in Texas.
- Did you see where some baseball player just signed a contract for \$75,000 a year just to play ball? It would not surprise me if someday they will be making more than the president.
- I never thought I would see the day that all kitchen appliances would be electric. They are even making electric typewriters now.
- It is too bad things are so tough nowadays. I see where a few married women are going to work to make ends meet.

Momma Said, "Did you ever think you would see the day."

DMV reminds customers about REAL ID and Driver’s License differences

License with “Not for Real ID Purposes” still a valid license

CHARLESTON, WV — DMV Commissioner Everett Frazier would like to remind customers about the upcoming federal enforcement of REAL ID, and about the differences between the two types of valid driver’s licenses and identification cards that DMV currently issues.

Federal enforcement of the REAL ID Act is set to begin on October 1, 2021. To board an aircraft or get into some federal buildings, you will need to have a REAL ID-compliant credential. The Department of Homeland Security’s website at <https://www.dhs.gov/real-id> includes information regarding acceptable forms of REAL ID. One is a driver’s license. WV DMV does offer a REAL ID-compliant credential, often called a “For Federal” or “gold star” license or ID card. Currently, there are two different “looks” to West Virginia’s REAL ID-compliant license, due to a change in licensing vendors. If you received your license or ID card after December 2020, you more than likely have the new look.

According to Commissioner Frazier, “WV DMV now issues all license and ID card credentials through central issuance. This means that when you come to our offices for a driver’s license or ID card, you will receive a temporary receipt with your picture on it. The temporary receipt combined with your expired License or ID should provide proof of identity and/or licensure while your hard copy is produced in a central, off-site secure print facility. BOTH types of licenses and ID cards are valid, secure credentials. The only difference is the ones that say ‘Not for Federal’ or ‘Not for REAL ID Purposes’ may not be used to board aircraft or get into some fed-

eral buildings once REAL ID enforcement begins. But they are still valid credentials and should be treated as such.”

If you currently have a “Not For Federal” or “Not For REAL ID Purposes” driver’s license or ID card, and you would like to switch to the REAL ID-compliant credential, DMV is happy to assist you. Please visit any Regional Office and be sure to bring proof of identity, proof of Social Security Number, and two proofs of physical residency. If your name has changed and is different than what is on your proof of identity document, you will need to bring name change documents as well to show the link in names. Appointment

ments are strongly encouraged for your convenience and may be made by visiting the DMV website at dmv.wv.gov or by calling 304-558-3938.

For more information about REAL ID in WV, please visit go.wv.gov/realid. The mission of the Division of Motor Vehicles is to provide essential motor vehicle and driver services, facilitate interstate travel by promoting reciprocity for West Virginia vehicles and drivers in other states, promote highway safety, and collect revenue for highway maintenance and construction programs. For more information and tools for motorists, visit the DMV website.

WVU hosts Traditional WV Foods program

Celebrate our food heritage with Alex Coffman, WVU Grant County Extension Agent, for an enjoyable program on “Traditional West Virginia Foods” at 1 p.m. West Virginia’s long history of Appalachian home cooking is seen even today with home gardens, community covered dishes and rows of canned goods on basement shelves. From wild foraged foods to the ever-popular pepperoni roll, West Virginia’s traditional foods are still family favorites “Breads, syrups and wild plants are just some of the historic foods still made today,” says Coffman. “Be sure to join in to learn more about Appalachia food history and how to prepare some favorite dishes.” The WVU Extension Service is continuing a series of

live and interactive Zoom programs with the WVCEOS. Classes are FREE and will be available on twice a month in April and May Thursdays at 1:00 p.m.

“These live programs are a great opportunity to stay connected and learn new information as we continue to social distance this winter,” says Margaret Miltenberger, WVU Mineral County Extension Agent.

Upcoming topics include:

- Apr 19-23 WVCEOS Spring Conference: “A Patchwork of Proud People”
- May 6 Adventures in Aging
- May 20 West Virginia Rivers

To access these programs contact your local WVU Extension Office or email m.miltenberger@mail.wvu.edu, details and the Zoom Link will be emailed to you. If you are new to Zoom it is easy to access via smart phone, tablet or computer. It is free when accessing a WVU Extension program. Contact a local Extension office for details or look for videos on-line about an introduction to Zoom.

WVDNR stocking trophy tiger trout in April and May

SOUTH CHARLESTON, WV — On Tuesday, Gov. Justice announced that in April and May, the West Virginia Division of Natural Resources (WVDNR) will stock 25,000 tiger trout in lakes and streams throughout West Virginia.

The tiger trout will be stocked with other trout species at a rate of 10% in scheduled stockings. Many are trophy size at four pounds.

“This is just the latest example of the unique, world-class fishing opportunities we’re providing in West Virginia for anglers from our great state and all over the country. I could not be more proud,” Gov. Justice said.

Tiger trout, which are known for unique markings that look like tiger stripes, are bred in hatcheries by fertilizing brown trout eggs with brook trout milt. Jim Hedrick, hatchery program manager for the WVDNR, said hatchery staff have been raising tiger trout for a few years and are now ready to stock them around the state.

“Tiger trout are a cross between brook and brown trout and aren’t usually found in nature, so this stocking is going to provide a really unique opportunity for anglers looking for a challenge,” Hedrick said. “We stocked tiger trout a number of years ago but haven’t done it recently, so stocking these fish is an exciting opportunity for anglers.”

Tiger trout are aggressive and while a special technique or bait is not necessary to catch one, anglers targeting the fish can use lures, such as small spoons, spinners or jigs. To entice more strikes, anglers should try keeping their lure moving and change up their retrieve.

To fish for tiger trout, all anglers 15 and older are required to have a West Virginia fishing license and trout stamp, which can be purchased online at wvfish.com. Additionally, all anglers must follow West Virginia’s fishing regulations, which can be found online at wvdnr.gov.

Dominion Energy West Virginia Reminds Public That State Law Requires Calling 8-1-1 Two Business Days before Digging

Dominion Energy West Virginia reminds customers and the general public that West Virginia law requires property owners and contractors to call 8-1-1 -- to have underground utility lines marked -- at least two business days prior to ANY digging project. WV 811, also known as Miss Utility of West Virginia, Inc., operates the state’s one-call system. A vital resource for West Virginia residents and businesses alike, WV 811 acts as a communications link between Dominion Energy and other member utilities and individuals and companies planning any digging activity. Under West Virginia law, individuals and excavators MUST contact WV 811, by calling 8-1-1, at least two business days, but no more than 10

working days (excluding weekends and legal holidays) before beginning ANY digging project. Calling 8-1-1 connects the general public and contractors to WV 811, which notifies the appropriate utility companies of their intent to dig. This service is free of charge. Professional locators are then sent to the requested digging site to mark the approximate locations of underground lines and facilities with flags, spray paint or both. “Calling before digging helps ensure safety and prevents accidental dig-ins and potential injuries, property damage and utility service disruptions,” notes Jim Eck, Vice President and General Manager, Ohio & West Virginia Distribution.

State law requires a call to 8-1-1 for every digging project, no matter how big or small. For your safety, careful hand digging is required within 18 inches of any line marking. Natural gas lines are typically installed around 36 inches in depth, but this depth easily can vary over time to much shallower or deeper depths as land improvements are made. Installing a mailbox, putting in a fence, building a deck, or planting a tree, are all examples of digging projects that require a call to 8-1-1 before starting. Visit www.wv811.com for more information about the call-before-you-dig process. For additional natural gas safety information, visit www.dominionenergy.com/safety/call-before-you-dig.

Mt. Lions Boys' Post Wins Over Moorfield and Petersburg

The Tucker County Boys' Basketball Seniors (L-R) Gus Mullenex, Taylor Long and Zack Colebank were honored before the game on April 9th. Tucker County won the contest 73-43.

By Dave Helmick
TuckerCountySports.Com

HAMBLETON – Tucker County hosted Moorefield on Tuesday April 6th. Moorefield surged out to a lead, but the Mt. Lions battled back for the 61-59 comeback win. Moorefield controlled the first quarter as they led Tucker County 15-11 after one quarter. The Yellowjackets edged the Mt.

Lions in the second quarter 9-7 to push the Moorefield lead to 24-18 at the half. Tucker County got the offense going in the third quarter as they outscored Moorefield 16-12 to make the score 36-34 Moorefield after three quarters. The Mt. Lions forged ahead in the fourth and pulled out the hard fought win by the final score of 61-59. Zack Colebank led Tucker County with 18

points, 7 rebounds and Trenton Wilfong added 16 points, 4 rebounds. Maddox Anderson chipped in with 10 points, 5 assists and Ashton Lycliter led the Mt. Lions in rebounding with 12 boards. The Tucker County JV team also got the win over Moorefield 62-49. BAKER – The Tucker County JV team traveled to East Hardy on Wednesday April 7th. The Mt. Lions

Tucker County's Taylor Long takes the ball in for a layup against Petersburg on April 9th. The Mt. Lions got the win over Petersburg 73-43.

JV picked up the road win by the final score of 51-45. The Varsity game was canceled during the JV contest. HAMBLETON – The Mt. Lions Basketball team played host to Petersburg

on Friday April 9th. Tucker County the game strong and cruised to a 73-43 home win over Petersburg. The Mt. Lions exploded on offense to start the game

AREA SCHEDULE:

- Thursday April 15th**
- Tucker County Girls' Basketball Sectionals vs TBA @ Home 7pm

HAMBLETON – The Lady Mt. Lions Basketball team hosted Notre Dame on Monday April 5th. Tucker

County got off to a quick start and never looked back in route to a 65-24 victory. The first quarter was dominated by the Lady Mt. Lions as they led after

one quarter 20-6. Tucker County continued to play good defense as they held Notre Dame to just 5 points in the quarter and the Lady Mt. Lions scored 17 points to take a halftime lead of 37-11. The Lady Irish struggled on offense in the third quarter as Tucker County outshot Notre Dame 20-0 to make the score 57-11 after three. The Lady Mt. Lions reserves finished the game in the fourth as Notre Dame outscored Tucker County 13-8 in the fourth quarter to put the final score at 65-24 Tucker County. London Hood led Tucker County with 25 points, 4 steals and Kadie Colebank added 16 points, 12 rebounds for the Lady Mt. Lions in the win. Gracie Rapp and Brylee Wetzel chipped in with 8

DAVIS-THOMAS BOYS' BASKETBALL UPDATE

By Dave Helmick
TuckerCountySports.Com

PETERSBURG – The Bears Boys' Basketball teams traveled to Petersburg on Tuesday April 6th. In the JV contest Davis-Thomas fell by the score of 34-15. John Rivera led the Bears JV with 5 points and Emmet Felton added 4 points. The Davis-Thomas Varsity got the road victory in the last game of the night by the final score of 59-37. Trevan Bonner led the Bears with 38 points and Cole Carr added 9 points in the Davis-Thomas win. MILL CREEK – Davis-Thomas traveled to Tygarts Valley on Wednesday April 7th. The Bears JV came up short in a close game 34-32. The Davis-Thomas JV team was led by Logan Shahan, John Rivera and Cayden Arnold with 8 points each. The Bears Varsity team pulled out the road win over the Bulldogs 50-47. Trevan Bonner led Davis-Thomas with 26 points and Carson Dearborn chipped in with 9 points in the Bears win.

West Virginia's new five-week spring gobbler season opens April 19

SOUTH CHARLESTON, WV — Beginning this year, West Virginia’s state-wide spring gobbler season will run for five weeks instead of four. The 2021 season opens Monday, April 19.

The season still opens the third Monday in April but now ends Sunday, May 23, eight days later than last year. Hunters can harvest one bearded bird per day with a season bag limit of two.

The two-day youth spring gobbler season will be held April 17-18, the Saturday and Sunday before the regular season. Youth at least 8 years old and under 18 can harvest one bearded bird, which counts toward their

season bag limit of two.

“Between the extended youth and regular spring turkey season, hunters of all ages will have plenty of opportunity to pursue these birds,” said Mike Peters, wild turkey project leader for West Virginia Division of Natural Resources (WVDNR).

Hunters are encouraged to check the 2021-2022 West Virginia Hunting and Trapping Regulations Summary for details, available at wvdnr.gov. Hunting licenses may be purchased online at WVhunt.com or at license agents located across the state.

The spring turkey harvest is dependent on the number of birds available (population

size) and participation (number of hunters). The WVDNR typically projects the spring harvest by using turkey brood reports from two years earlier because the average harvested spring gobbler is a two-year-old bird.

In 2019, turkey brood observations were 43% below 2018 observations and 32% below the five-year average (2015-19).

“Under previous hunting regulations we would project this year’s harvest to be lower than last year,” Peters said. “With the increased number of days available to hunt this season, we expect the overall spring turkey harvest to be

similar to 2020.”

Hunting turkeys over bait and killing hens is illegal. Turkey hunters are encouraged to report any such activity to their local Natural Resources Police Officer or call 911 to report the violation.

The West Virginia Chapter of the National Wild Turkey Federation pays a \$100 reward for information that leads to the arrest and conviction of anyone using bait to attempt killing wild turkeys.

TV Boys

Wildcats.

HAMBLETON – Tucker Valley finished out the busy week with 2 games at TCHS against Davis-Thomas on Sunday April 11th. The Wildcats JV picked up the win over

Davis-Thomas by the final score of 40-29. Luke Barb led the Tucker Valley JV with 15 points and Ethan Cummings had 14 points in the Wildcats JV win. In the last game of the night Tucker Valley pulled away in

the fourth quarter for the 41-29 win. Garrett Wilfong led Tucker Valley with 16 points and Nate Ricottilli added 10 points for the Wildcats in the loss. For more info go to TuckerCountySports.Com

DT Boys

BAKER – The Bears took to the road on Friday April 9th as they traveled to East Hardy. The Davis-Thomas JV team fell in the contest by the score of 32-11. Cade Rapp led the Bears JV with 6 points and Cayden Arnold added 3 points for the Davis-Thomas JV team in the loss. In the Varsity game East Hardy pulled out the win by the final score of 48-43.

Trevan Bonner led Davis-Thomas with 20 points and Cole Carr added 10 points for the Bears in the loss.

HAMBLETON – The Davis-Thomas finished the busy week with a pair of games against Tucker Valley on Sunday April 11th at TCHS. The Bears JV team fell in the first game of the day 40-29. John Rivera led the Davis-Thomas JV with 11 points and

Logan Shahan added 10 points for the Bears JV in the loss. In the Varsity game Davis-Thomas fell in the contest as Tucker Valley pulled away in the fourth quarter to win 41-29. Trevan Bonner led Davis-Thomas with 11 points and Reid Kisamore added 6 points for the Bears in the loss. For more info go to TuckerCountySports.Com.

TC Boys

and Tucker County held a 18-3 lead after one. The domination continued in the second quarter as the home-standing Mt. Lions outscored the Vikings 18-9 in the second to make the halftime score 36-12 Tucker County.

Petersburg fought back in the third as they edged Tucker County in scoring 18-15 in the third to put the

Mt. Lions lead to 51-30 after three. The Tucker County reserves played the fourth quarter and outscored Petersburg 22-13 in the final period to make the final score 73-43 Tucker County.

Zack Colebank led Tucker County with 14 points and Trenton Wilfong added 12 points in the win. The Mt. Lions also got 9 points from Blake

Anderson and 8 points from little brother Maddox Anderson. The Tucker County JV team took the win over Petersburg also 58-21.

Tucker County (10-2) will return to action Thursday April 15th at Tygarts Valley and then they will host Pendleton County on Friday April 16th. For more info go to TuckerCountySports.Com.

Consumer Confidence Report - 2021
Covering Calendar Year - 2020

This brochure is a snapshot of the quality of the water that we provided last year. Included are the details about where your water comes from, what it contains, and how it compares to Environmental Protection Agency (EPA) and state standards. We are committed to providing you with information because informed customers are our best allies. If you would like to observe the decision-making process that affect drinking water quality, please call MATT QUATTRO at 304-463-4360.

Your water comes from:

Source Name	Source Water Type
INTAKE - IMP UNNAMED N FK BLKWTR RI	Surface Water

Buyer Name	Seller Name
There are no additional purchases to display.	

Some people may be more vulnerable to contaminants in drinking water than the general population. Immune-compromised persons such as those with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800- 426-4791).

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline (800-426-4791).

The sources of drinking water (both tap water and bottled water) included rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in sources water before we treat it include:

Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, livestock operations and wildlife.

Inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.

Pesticides and herbicides, which may come from a variety of sources such as storm water run-off, agriculture, and residential users.

Radioactive contaminants, which can be naturally occurring or the result of mining activity.

Organic contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and also come from gas stations, urban storm water run-off, and septic systems.

In order to ensure that tap water is safe to drink, EPA prescribes regulation which limits the amount of certain contaminants in water provided by public water systems. We treat our water according to EPA's regulations. Food and Drug Administration regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

Our water system has an estimated population of 753 and is required to test a minimum of 1 sample per month in accordance with the Total Coliform Rule for microbiological contaminants. Coliform bacteria are usually harmless, but their presence in water can be an indication of disease-causing bacteria. When coliform bacteria are found, special follow-up tests are done to determine if harmful bacteria are present in the water supply. If this limit is exceeded, the water supplier must notify the public.

Water Quality Data

The following tables list all of the drinking water contaminants which were detected during the 2020 calendar year. The presence of these contaminants does not necessarily indicate the water poses a health risk. Unless noted, the data presented in this table is from the testing done January 1- December 31, 2020. The state requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants are not expected to vary significantly from year to year. Some of the data, though representative of the water quality, is more than one year old.

Terms & Abbreviations

Maximum Contaminant Level Goal (MCLG): the “Goal” is the level of a contaminant in drinking water below which there is no known or expected risk to human health. MCLGs allow for a margin of safety.

Maximum Contaminant Level (MCL): the “Maximum Allowed” MCL is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Secondary Maximum Contaminant Level (SMCL): recommended level for a contaminant that is not regulated and has no MCL

Action Level (AL): the concentration of a contaminant that, if exceeded, triggers treatment or other requirements.

Treatment Technique (TT): a required process intended to reduce levels of a contaminant in drinking water.

Maximum Residual Disinfectant Level (MRDL): the highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Non-Detects (ND): lab analysis indicates that the contaminant is not present.

Parts per Million (ppm) or milligrams per liter (mg/l)

Parts per Billion (ppb) or micrograms per liter(ug/l)

Picocuries per Liter (pCi/L): a measure of the radioactivity in water.

Millirems per Year (mrem/yr): measure of radiation absorbed by the body.

Monitoring Period Average (MPA): An average of sample results obtained during a defined time frame, common examples of monitoring periods are monthly, quarterly and yearly.

Nephelometric Turbidity Unit (NTU): a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person. Turbidity is not regulated for groundwater systems.

Running Annual Average (RAA): an average of sample results obtained over the most current 12 months and used to determine compliance with MCLs.

Locational Running Annual Average (LRAA): Average of sample analytical results for samples taken at a particular monitoring location during the previous four calendar quarters.

Testing Results for: THOMAS CITY OF

Microbiological Source	Result	MCL	MCLG	Typical Source
COLIFORM (TCR)	In the month of December, 1 sample(s) returned as positive	Treatment Technique Trigger	0	Naturally present in the environment

Total Haloacetic Acids (HAA5)	WADE ZIRKS EUCLID AVENUE	2020	44	0.0443-0.0443	ppb	60	0	By-product of drinking water disinfection
TTHM	WADE ZIRKS EUCLID AVENUE	2020	20	0.0199-0.0199	ppb	80	0	By-product of drinking water chlorination

Lead and Copper	Monitoring Period	90th Percentile	Range (low/high)	Unit	Sites AL Over AL	Typical Source
COPPER, FREE	2017-2019	0.05	0.0034-0.069	ppm	1.3 0	Corrosion of household plumbing systems Erosion of natural deposits; Leaching from wood preservatives
LEAD	2017-2019	0.6	0-0.93	ppb	15 0	Corrosion of household plumbing systems Erosion of natural deposits;

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Your water system is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

During the 2020 calendar year, we had the below noted violation(s) of drinking water regulations.		
Compliance Period	Analyte	Comments
9/1/2020-9/30/2020	CHLORINE	FAILURE TO COMPLETE OR SUBMIT MOR
1/1/2020	LEAD & COPPER RULE	LEAD CONSUMER NOTICE (LCR)
7/1/2020-9/30/2020	CHLORINE	MONITORING, ROUTINE (DBP), MAJOR
9/1/2020-9/30/2020	TURBIDITY	MONITORING, ROUTINE (IESWTR/LTI), MAJOR
9/1/2020-9/30/2020	E. COLI	MONITORING, ROUTINE, MAJOR (RTCR)
9/1/2020-9/30/2020	CHLORINE	MONITORING, RTN/RPT MAJOR (SWTR-FILTER)

Additional Required Health Effects Language:
Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other, potentially-harmful, bacteria may be present. Coliforms were found in more samples than allowed and this was a warning of potential problems.
There are no additional required health effects notices.

Water System	Type	Category	Analyte	Compliance Period
No Violations Occurred in the Calendar Year of 2020				

There are no additional required health effects notices.
There are no additional health violation notices.

Consumer Confidence Report - 2021
Covering Calendar Year - 2020

This brochure is a snapshot of the quality of the water that we provided last year. Included are the details about where your water comes from, what it contains, and how it compares to Environmental Protection Agency (EPA) and state standards. We are committed to providing you with information because informed customers are our best allies. If you would like to observe the decision-making process that affects drinking water quality, please call CVPSD Receiver for T4SU 304-866-2366.

Your water comes from:	
Source Name	Source Water Type
WELL 4	Ground Water
WELL 5 (GWUDI)	Ground Water under the influence of Surface Water

Buyer Name	Seller Name
There are no additional purchases to display.	

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as those with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline (800-426-4791).

The sources of drinking water (both tap water and bottled water) included rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in sources water before we treat it include:

Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, livestock operations and wildlife.

Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.

Pesticides and herbicides, which may come from a variety of sources such as storm water run-off, agriculture, and residential users.

Radioactive contaminants, which can be naturally occurring or the result of mining activity.

Organic contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and also come from gas stations, urban storm water run-off, and septic systems.

In order to ensure that tap water is safe to drink, EPA prescribes regulation which limits the amount of certain contaminants in water provided by public water systems. We treat our water according to EPA's regulations. Food and Drug Administration regulations establish limits for contaminants in bottled water, which

must provide the same protection for public health.

Our water system has an estimated population of 544 and is required to test a minimum of 1 sample per month in accordance with the Total Coliform Rule for microbiological contaminants. Coliform bacteria are usually harmless, but their presence in water can be an indication of disease-causing bacteria. When coliform bacteria are found, special follow-up tests are done to determine if harmful bacteria are present in the water supply. If this limit is exceeded, the water supplier must notify the public.

Water Quality Data

The following tables list all of the drinking water contaminants which were detected during the 2020 calendar year. The presence of these contaminants does not necessarily indicate the water poses a health risk. Unless noted, the data presented in this table is from the testing done January 1 - December 31, 2020. The state requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants are not expected to vary significantly from year to year. Some of the data, though representative of the water quality, is more than one year old.

Terms & Abbreviations

Maximum Contaminant Level Goal (MCLG): the "Goal" is the level of a contaminant in drinking water below which there is no known or expected risk to human health. MCLGs allow for a margin of safety.

Maximum Contaminant Level (MCL): the "Maximum Allowed" MCL is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Secondary Maximum Contaminant Level (SMCL): recommended level for a contaminant that is not regulated and has no MCL.

Action Level (AL): the concentration of a contaminant that, if exceeded, triggers treatment or other requirements.

Treatment Technique (TT): a required process intended to reduce levels of a contaminant in drinking water.

Maximum Residual Disinfectant Level (MRDL): the highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.

Non-Detects (ND): lab analysis indicates that the contaminant is not present.

Parts per Million (ppm) or milligrams per liter (mg/l)

Parts per Billion (ppb) or micrograms per liter (ug/l)

Picocuries per Liter (pCi/L): a measure of the radioactivity in water.

Millirems per Year (mrem/yr): measure of radiation absorbed by the body.

Monitoring Period Average (MPA): Art average of sample results obtained during a defined time frame, common examples of monitoring periods are monthly, quarterly and yearly.

Nephelometric Turbidity Unit (NTU): a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person. Turbidity is not regulated for groundwater systems.

Running Annual Average (RAA): an average of sample results obtained over the most current 12 months and used to determine compliance with MCLs.

Locational Running Annual Average (LRAA): Average of sample analytical results for samples taken at a particular monitoring location during the previous four calendar quarters.

Testing Results for: TIMBERLINE -CV PSD				
Microbiological	Result	MCL	MCLG	Typical Source
No Detected Results were Found in the Calendar Year of 2020				

Regulated Contaminants	Collection Date	Highest Value	Range (low/high)	Unit	MCL	MCLG	Typical Source	
BARIIUM	12/3/2020	0.051	0.051	ppm	2	2	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits	
CHROMIUM	12/3/2020	01.6	1.6	ppb	100	100	Discharge from steel and pulp mills; Erosion of natural deposits	
FLUORIDE	12/3/2020	0.88	0.88	ppm	4	4	Erosion of natural deposits; Water additive which promotes strong teeth; Discharge from fertilizer and aluminum factories	
NITRATE	5/21/2020	0.86	0.83 - 0.86	ppm	10	10	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits	
NITRATE-NITRITE	5/21/2020	0.86	0.83 - 0.86	ppm	10	10	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits	

Disinfection Byproducts	Sample Point	Monitoring Period	Highest RAA	Range (low/high)	Unit	MCL	MCLG	Typical Source	
TTHM	LOT #153	2020	6	0.0064 - 0.0064	ppb	80	0	By-product of drinking water chlorination	

Lead and Copper	Monitoring Period	90th Percentile	Range (low/high)	Unit	AL	Sites Over AL	Typical Source	
COPPER, FREE	2020	0.061	0.0068 - 0.081	ppm	1.3	0	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives	
LEAD	2020	0.6	0 - 0.68	ppb	15	0	Corrosion of household plumbing systems; Erosion of natural deposits	

If present elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Your water system is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

Do you want government taking more control?

Elected officials are looking to make big changes

The West Virginia Legislature is considering taking Tucker County legal ads and public notices out of The Parsons Advocate and onto a state government-controlled website in Charleston.

- Delinquent tax lists
- Property sales
- Election ballots
- Voting changes
- Tax increases
- Project bids
- Family court
- Government budgets
- Government financial statements
- Zoning changes and other public notices

Contact your legislator today and tell them you want your legal ads and public notices in The Parsons Advocate:

Randy Smith
(304) 357-7995
randy.smith@wvsenate.gov

Dave Sypolt
(304) 357-7914

PUBLIC NOTICE

Department of Environmental Protection
Division of Water & Waste Management
Office of Waste Management
601 57th Street, SE
Charleston, WV 25304
(304) 926-0465

APPLICATION FOR WEST VIRGINIA SOLID WASTE LANDFILL PERMIT RENEWAL
Permit Notice No.: SW-06-21 Paper: The Parsons Advocate
Public Notice Dates: April 14, 2021 P.O. Box 345
April 21, 2021 Parsons, WV 26287

The following has applied to the West Virginia Department of Environmental Protection for a permit renewal of its solid waste landfill NPDES (National Pollutant Discharge Elimination System) permit.

Applicant: Tucker County Solid Waste Authority
P.O. Box 445
Davis, WV 26260
Application No.: SWF-8295/WV0109126
Location: 0.3 Miles Northwest of the Intersection of Route 32 and Route 93, between Thomas & Davis, Tucker County, West Virginia
Activity: Class B Landfill

The applicant may receive a maximum of 9,999 tons monthly of the following types of waste: solid waste as defined in W. Va. Code Chapter 22, Article 15, Section 2(27) and as listed in 33CSR 1 Section 2.114. Wastewater treatment plant solids, nonhazardous industrial process solid wastes, and non-hazardous sludge will only be accepted after approval by the Division of Water & Waste Management. Tires may be used in the landfill in accordance with W. Va. Code and 33 CSR5.

The waste will originate from the 48 contiguous states, the District of Columbia, and Canada. The facility is located along an unnamed tributary of Pendleton Run. The center of the site is 39°08'32"N Latitude, and 79°28'20"W Longitude. The storm water discharge points are 39°08'36" N Latitude and 79°28'22" W Longitude; 39°08'36" N Latitude and 79°28'34" W Longitude; and Latitude 39°08'44.64" N and Longitude 79°21'38.61" W.

All leachate will be collected and trucked to the City of Fairmont's, the City of Thomas', the City of Weston's, the City of Elkin's, the City of Petersburg's, the City of Clarksburg's, and the Upper Potomac River Commission of Westport, Maryland Wastewater Treatment Plants.

On the basis of review of the application, the Solid Waste Management Act, Chapter 22, Article 15, Sections 5(b) and 5(c); and the West Virginia Solid Waste Management Rule 33CSR1, the State of West Virginia will act on the above application.

Interested persons may submit written comments during the 30-day public comment period, which begins on April 14, 2021 and ends on May 14, 2021 to the following address:

West Virginia Department of Environmental Protection
Division of Water & Waste Management
Office of Waste Management
601 57th Street, SE
Charleston, WV 25304
Attention: Dawn Jones

Comments received within this time period will be considered prior to any state action on the subject application. Correspondence should include the name, address, and telephone number of the writer and a concise statement of the nature of the issues addressed.

A public hearing may be held if the state identifies a significant degree of public interest on issues relevant to the permit application. To obtain further information concerning the subject application or to request a public hearing, you may contact the Division of Water and Waste Management during the public comment period at the above address.

The draft permit will be on file for public review during the comment period at the DEP Regional Office located at DMV Building, Route 50, Food Lion Plaza, Romney, WV 26757, (304) 822-7266 between 8:00 a.m. and 5:00 p.m., Monday through Friday. To receive a copy of the permit application or draft permit, please contact Dawn Jones at the Division of Water and Waste Management, Office of Waste Management, 601 57th Street SE, Charleston, WV 25304, (304) 926-0499, extension 43854, between 8:00 a.m. and 5:00 p.m., Monday through Friday.

Fair Housing and Non-Discrimination Notice

This notice is published pursuant to the requirements of 24 CFR Part 8 Nondiscrimination Based on Handicap in Federally Assisted Programs and Activities of the Department of Housing and Urban Development, as published in the Federal Register on June 2, 1988. Section 8.4 prohibits discrimination against qualified individuals because of their handicap status.

The Town of Davis advises the public, employees, and job applicants that it does not discriminate on the basis of handicapped status in admission, or access to, or treatment, or employment, in its programs and activities.

Also, the Town of Davis is taking steps to affirmatively further fair housing, meaning that no person shall be subjected to discrimination (because of race, color, religion, sex, handicap, familial status, or national origin) in the sale, rental, or advertising of dwellings, in the provision of brokerage services, or in the availability of residential real estate-related transactions.

All inquiries in regards to complying with these issues need to be directed to: Town of Davis, William Avenue, P.O. Box 207, Davis, WV 26260.

LEGAL

I have before me the accounts of the Executor or Administrator of the estates of the following deceased persons:

Deceased	Personal Representative(s)
Darlene C. Sedmock	Pamela K. Caruthers

CASE NO. 20-1049-E-P
MONONGAHELA POWER COMPANY and
THE POTOMAC EDISON COMPANY
Petition to address the effect of the 2017 Tax Cuts and
Jobs Act on Accumulated Deferred Income Taxes

NOTICE OF FILING AND HEARING

On December 30, 2020, Monongahela Power Company (Mon Power) and the Potomac Edison Company (PE) (collectively Companies) filed a Petition to determine the Companies' net excess accumulated deferred income taxes (ADIT) due to the Tax Cuts and Jobs Act of 2017 (TCJA) (Petition). According to the Companies, there are combined property-related excess and deficient ADIT balances of approximately \$286.8 million and combined non-property excess and deficient ADIT balances of approximately \$28.7 million. The Companies are proposing rate treatment for net excess and deficient ADIT, over a proposed 10-year amortization period, to be reflected in the Companies' next Expanded Net Energy Cost (ENEC) rates. The Companies also propose to apply net excess ADIT accrued from 2018 through 2021 as an offset to COVID-19 related expenses.

The Petition is on file with and available for public inspection at the Commission, 201 Brooks Street, in Charleston, West Virginia, and is available online at the Commission website (www.psc.state.wv.us).

The Commission schedules this matter for evidentiary hearing to be held on August 18, 2021, at 9:30 a.m. and continuing on August 19, 2021 if necessary at its offices at 201 Brooks St., Charleston, West Virginia. Because of the COVID-19 pandemic, the Commission will not take in-person public comment at the hearing and will consider written comments and protests. The Commission may determine, in light of the COVID-19 situation, that the scheduled hearing will be conducted virtually, with the parties to the case appearing online. Interested persons should be able to view the evidentiary hearing via an internet livestream. The Commission website, www.psc.state.wv.us, contains links to "Case Information," "Submit a Comment," and "Commission Webcast."

Anyone desiring to intervene should file a written petition to intervene no later than 4:00 p.m., May 14, 2021. Failure to timely intervene may affect your right to participate in the proceeding. All requests to intervene should briefly state the reason for the request to intervene and comply with the rules on intervention set forth in the Commission's Rules of Practice and Procedure. The Commission will receive public comments and protests until the beginning of the hearing.

All written comments, protests and requests to intervene should state the case name and number and be addressed to Connie Graley, Executive Secretary, P.O. Box 812, Charleston, West Virginia 25323. Public comments may also be filed online at <http://www.psc.state.wv.us/scripts/onlinecomments/default.cfm> by clicking the "Formal Case" link.

TC Girls

Tucker County's Gracie Rapp shoots the ball against Gilmer County on April 7th. Tucker County fell in the contest 63-54. Photo by Becky Moore.

points each for Tucker County. The Lady Mt. Lions JV team defeated Buckhannon-Upshur before the varsity contest by the final score of 30-15.

The Tucker County Girls' Basketball Senior Gracie Rapp and Senior Cheerleaders Emma Hockman, Kyleigh Barrett, Karley Kyle and Averie Bunnell were recognized before the varsity game.

HAMBLETON – The Tucker County Girls hosted #1 Gilmer County for a varsity only contest on Wednesday April 7th. The Lady Mt. Lions fought hard and led throughout the contest, but the Lady Titans pulled out the road victory by the score of 63-54.

The game started with both teams hitting shots as the score showed

Tucker County with a slim 17-16 lead after one quarter. The Lady Mt. Lions then added to their lead in the second quarter as they outscored Gilmer County 17-13 in the second to put the halftime score to 34-29.

The Lady Titans came out in the third and cut into the Tucker County lead. Gilmer County outpaced the Lady Mt. Lions 15-11 in the third to make the score 45-44 Tucker County after three quarters. The fourth quarter was back and forth with neither team leading by more than 3 points throughout. Then with 1:23 left in the game the Lady Mt. Lions took a 54-53 lead, but Tucker County could not hold the lead. The Lady Titans then took the lead and they made their foul shots down the stretch to secure the road victory 63-54.

Cont. From 1B

Kadie Colebank led Tucker County with 20 points, 19 rebounds and London Hood added 12 points, 5 rebounds for the Lady Mt. Lions. Macy Helmick chipped in with 10 points, 4 rebounds and Gracie Rapp had 7 points, 6 rebounds for Tucker County in the loss.

MOOREFIELD – The Lady Mt. Lions traveled to Moorefield on Thursday April 8th. Moorefield raced out to a quick lead over Tucker County, but the Lady Mt. Lions came from behind to win the game by the final score of 49-47.

The first quarter was dominated by Moorefield as they got out to a quick 14-0 start and the Lady Yellowjackets led after one quarter 17-3. The Lady Mt. Lions fought back in the second quarter as they outscored Moorefield 14-10 to make the halftime score 27-17 Moorefield.

Tucker County cut the Lady Yellowjackets lead down to 36-30 early in the third, but Moorefield responded to outpace the Lady Mt. Lions in the third 9-8 to put the score at 36-25 Moorefield after three. The fourth quarter belonged to Tucker County as they chipped away at the Lady Yellowjackets lead and tied the game 38-38 with 4:50 left in the game. The teams then battled the rest of the game. Then with 12 seconds left in the game Macy Helmick drained 2 foul shots to give Tucker County the 49-47 lead. Moorefield then missed a shot to tie the game as time expired to give the Lady Mt. Lions the road win by the score of 49-47. Tucker County outscored Moorefield 24-11 in the fourth quarter to help the comeback.

London Hood led Tucker County with 19 points, 3 assists and Kadie Colebank added 13 points, 17 rebounds, 4 blocks. Macy Helmick had 7 points, 5 assists and Jacey Davis chipped in with 7 points, 5 rebounds for the Lady Mt. Lions in the win.

Tucker County(14-4) will host the Sectional Championship on Thursday April 15th against the winner of Union and East Hardy. The Lady Mt. Lions will then play for the Regional Championship on Wednesday April 21st, time and place of Regional Championship will be determined after Sectional Championship game. For more info go to TuckerCountySports.Com.

NOTICE OF TRUSTEE'S SALE
Under authority of that certain Deed of Trust dated August 22, 2013 from Charles K. Phillips, aka Charles Phillips, and Paula I. Phillips, aka Paula Phillips, to Marc B. Lazenby, Trustee, of record in the office of the Clerk of the County Commission of Tucker County, West Virginia in Trust Deed Book No. 264, at page 522, securing a promissory note in the principal amount of \$66,852.31, payable to Vanderbilt Mortgage and Finance, Inc., and default having been made under the promissory note secured by the aforesaid Deed of Trust and sale requested by Vanderbilt Mortgage and Finance, Inc., the undersigned Trustee will offer for sale at the front door of the Tucker County Courthouse in Parsons, West Virginia, on April 28, 2021 at 11:00 a.m., subject to all reservations, exceptions, easements and other matters which appear of record, and subject to all unpaid taxes, if any, the following two (2) pieces or parcels of real estate, together with the improvements thereon and appurtenances thereunto belonging, situate in the Town of Hendricks, Tucker County, West Virginia, described as follows, to-wit:

PARCEL ONE: Beginning at the Jeff Fraley N.E. corner on which his building stood, thence with his line S. 18 W. about 30 feet to the right of way of the now Western Maryland Railway Company, thence with the right of way of said road westerly to the west side of the first big run known as the school house run, thence up the west side of said run with the meanders so as to include the water to a point where the grantors western line of Jacob Woodruff's one acre lot intersects said run, thence from this point with the center of said run with the meanders to George Allender's northwest corner in said run as sold to him by J. W. Bowman, thence with Allender's line N. 39 E. 180 feet to the line of North Street, thence with said street line S. 56 W. 250 feet and if North Street is ever discontinued, said street is to fall to the parties of the second part, mentioned in this deed, crossing the end of Main Street to the South side street line, thence with the south line of Main Street S. 72 E. 125 feet to the beginning, containing about 3.26 acres, more or less. The above parcel of real estate is subject to an outsale of 5,760 square feet to Junior Harper and Evelyn Harper, husband and wife, by deed dated November 6, 1997 and of record in the said Clerk's Office in Deed Book No. 157 at page 187 and to an outsale to Dale K. Hedrick and Frances M. Hedrick, husband and wife, containing 32, 7670 square feet or 314 of an acre, more or, less, bearing date of May 8, 1980 and of record in Deed Book No. 96 at page 340. This leaves a balance of 2.51 acres, more or less, in the above described parcel.

PARCEL TWO: Beginning at the Jeff Fraley N.E. corner on which his building stood, thence with his line S. 18 W. about 230 feet to the right of way of the now Western Maryland Railway Company, thence with the right of way of said road, westerly about 150 feet to an iron stake in right of way, thence N. 18 E. about 230 feet crossing the end of main street to the south side street line, thence with the south line of main street S. 72 E. 150 feet to the beginning, containing about 314 acre or 32.670 square feet.

Being the same property conveyed from Dale K. Hedrick and Frances M. Hedrick, husband and wife, to Charles Phillips and Paula Phillips, husband and wife, by Deed dated May 20, 2010, of record in the aforesaid Clerk's office in Deed Book No. 200, at page 348.

Terms of sale: Ten percent nonrefundable cash deposit due at sale. Ninety percent balance of purchase price due within thirty days of date of sale.

Given under my hand this 25th day of March, 2021.
