OF WEST VIRGINIA

CASE NO. 25-0772-E-ENEC
MONONGAHELA POWER COMPANY and
THE POTOMAC EDISON COMPANY

Petition and General Investigation to determine reasonable rates
and charges on and after January 1, 2026.

NOTICE OF FILING AND HEARING

On August 29, 2025, the Companies filed their annual review of and updates to the 2025 ENEC. The review period for this proceeding is July 1, 2023 through June 30, 2025, and the forecast year and new rate period is calendar year 2026. The Companies propose a \$14,065,752 increase in ENEC rates which is a 0.8 percent overall increase in current total rates, proposed to be effective on January 1, 2026. This amount is comprised of an actual \$71 under-recovery balance as of June 30, 2025 and a projected \$56,967,717 over-recovery for the 2026 rate-effective forecast period. The Companies stated the increase is due mainly to collection of the remaining under-collection balance, which is partially offset by forecasted changes in coal, reagents, and purchased power costs.

The impact to the average residential customer using 1,000 kilowatt hours (kWhs) per month is a decrease in the monthly bill of \$0.12 from \$137.43 to \$137.31 or a 0.1 percent decrease.

This matter is scheduled for an evidentiary hearing on December 15, 2025. The hearing will begin at 9:30 a.m. in the Howard M. Cunningham Hearing Room at the Public Service Commission, 201 Brooks Street, Charleston, West Virginia. The Commission may cancel the evidentiary hearing for good cause shown.
