RoadKill Cook-off attracts huge crowd

Suzanne Stewart
Staff Writer

After a dreary week of wind and rain, the sun pushed aside the clouds Saturday just in time for the 33rd RoadKill Cook-off and Autumn Harvest Festival in Marlinton.

The gazebo park was transformed into a cooking arena for six teams to pit their roadkill recipes against one another, and the streets in town were filled with vendors selling crafts and delicious foods, as well as non-profits spreading awareness about their causes.

This was the third festival since the COVID-19 pandemic put everything on hold, and Pocahontas County Chamber of Commerce President Bill Jordan said it's been good to get back into the swing of things with the one-of-a-kind festival.

"I think it was a good day – tons of vendors and six cooks," he said.

Indeed, it seemed the crowd was pleased as word had reached the far corners of the country that roadkill was back on the menu. Jordan said he met people from Massachusetts, Michigan, California and Georgia who heard about the festival and couldn't wait to see what all the fuss was about.

There were several out-of-staters who came to feature the cook-off on their podcasts and even a journalist with *The Washington Post*

TAKING FIRST PLACE in the 2024 RoadKill Cook-off in their first time competing, The High Rocks Grow Getters team wowed the judges with its presentation of Front Fender Farm Stand Stir Fry. The team was one of six that cooked up a meal in the unique contest last Saturday in Marlinton. Above, Joe Riley, left, and Bret Doolittle, members of the Grow Getters, portion out venison as they cook up the winning dish. S. Stewart photo

took in the events of the weekend.

Everything kicked off Friday evening with the Rockin' Redneck Square Dance at the opera house before the big day on Saturday.

The crowd was at a record capacity of nearly 7,000 people, with around 700 partaking of the RoadKill goodness.

"We usually project ten

percent of people taste the food, so we had almost seven thousand people there, according to our ticket sales," Jordan said.

Among those taste testers, of course, were the three judges who had a tough decision to make as they reviewed the entries from the six teams. Two of the original judges had to drop out at the last minute, but thank-

History comes alive at Huntersville

Laura Dean Bennett
Staff Writer

For many years, residents and visitors alike have looked forward to the first weekend of October when a little old-fashioned festival – Huntersville Traditions Days – welcomes everyone to step back in time.

The little village of Huntersville will hearken back to its glory days when, even before we became West Virginia, it was the first county seat of Pocahontas County.

Huntersville Historical Traditions is a non-profit organization formed to preserve, restore, educate and promote the awareness of the history of Huntersville.

Huntersville Traditions Days is their way of offering the public a chance to see the results of the organization's work while enjoying a unique, old-fashioned fair.

Through the tireless efforts of HHT president Tim Wade and the Huntersville Historical Traditions team of volunteers, several historical sites in Huntersville have been restored and

opened to the public.

Twice a year, Pocahontas County students are hosted by HHT at the historical sites during field trips which give them the opportunity to learn about the rich history of the county.

And once a year, the team brings several hundred visitors to Huntersville to enjoy a taste of what life was like in the 18th, 19th and early 20th centuries on the frontier of Western Virginia.

This year, Huntersville Traditions Days will be held Friday, October 4, and Saturday, October 5.

On Friday night, 4 to 6 p.m., a pork loin supper with all the fixins – catered by Rayetta's Lunchbox – will be served at the old Huntersville schoolhouse on Schoolhouse Lane.

There is no charge for the meal, although donations will be gratefully accepted.

Following supper, the festivities continue with an old-fashioned cakewalk and pie auction (with cakes and pies donated by some of the county's best-known bakers), with music per-

Recognizing good work

AT THE WVU Extension Service Annual Conference at Jackson's Mill, Pocahontas County Extension agents were recognized for their efforts in serving the community.

Greg Hamons, left, was recognized for 15 years of service and received the Extension Award of Excellence in Team Creativity for the at-home meat processing project.

Luci Mosesso was recognized for five years of service and her promotion to Assistant Professor. She received the Award of Excellence for Outstanding new Faculty in Service. Photo courtesy of the WVU Extension Office

Take shelter? Take a photo!

A TORNADO WAS spotted in Hillsboro last Wednesday evening when heavy rain moved into the area. This was the first ever reported tornado in Pocahontas County and the 20th in the state this year. There was no damage. Photo by Angie Brooks Gwinn

Pocahontas County Emergency Management/911 supports county commission's Resolution for Modernizing NRQZ Regulations to Improve Public Safety

Pocahontas County Emergency Management / 911 stands firmly in support of the Pocahontas County Commission's resolution, which calls for modernized changes to the National Radio Quiet Zone (NRQZ) regulations. The resolution seeks exemptions for public safety communications on the radio frequency spectrum allocated by the Federal Communications Commission (FCC), highlighting the urgent need for updated regulations that align with modern technologies used by first responders.

Communication Challenges in the NRQZ

NRQZ restrictions, originally created in the late 1950s to protect scientific research at the Green Bank Observatory, have become a significant challenge for emergency services in the county.

First responders often face dangerous communication gaps when operating within the county, entering for mutual aid, or passing through the NRQZ, putting both responders and the public at risk.

While we deeply appreciate the Green Bank Observatory's contributions to as-

Resolution by the Pocahontas County Commission of West Virginia opposing continued NRQZ regulation on radio frequency spectrum allocated for public safety by the Federal Communications Commission

WHEREAS, the Pocahontas County Commission recognizes that, due to National Radio Quiet Zone (NRQZ) regulations, first responder entities operating within the county, entering the county to provide mutual aid, or passing through the county, face dangerous challenges with radio communications which are vital for ensuring the effective collaboration of those working to maintain public safety, and

WHEREAS, the County Commission acknowledges and appreciates Green Bank Observatory for their part in scientific and technologic advancements towards the field of astronomy, and the positive attention brought to the county as a result, and

WHEREAS, The County Commission appreciates Green Bank Observatory's efforts to support county public safety fixed transmitter communications within their allowed abilities, under NRQZ regulations, including the support of partnerships, technological developments, NRQZ power density waivers, and with financial resources at their disposal when available, and

see Resolution pg 5

tromony and its role in and visitors alike. It has recently taken over 400 days to bring attention to our county, the NRQZ regulations have not kept pace with advancements in public safety communication technologies. The inability to reliably communicate in emergency situations due to outdated regulations threatens the safety of residents

Rural Broadband Protection Act unanimously passes Senate

The Rural Broadband Protection Act ensures internet service providers using federal funds deploy promised broadband in West Virginia

U.S. Senator Shelley Moore Capito (R-W.Va.), a member of the Senate Commerce, Science, and Transportation Committee, applauded the unanimous Senate passage of her Rural Broadband Protection Act. The legislation now heads to the U.S. House of Representatives.

The Rural Broadband Protection Act would require a more thorough vetting and verification process for in-

ternet service providers seeking to participate in the Federal Communications Commission's (FCC) high-cost programs. Additionally, this bill would provide essential safeguards to the Universal Service Fund's High-Cost program by ensuring that funding goes to companies with both a proven track record of success and those that have demonstrated sound judgment in deploying in hard-to-serve areas.

"West Virginians keep their word, and it's time internet service providers do the same," Capito said. "This legislation expands on my previous broadband efforts and is a product of many discussions I've had

with small rural service providers and local leaders in West Virginia. These discussions made it abundantly clear the FCC needs congressional direction to ensure taxpayer money is being used properly to fund broadband deployment in rural areas. By verifying that providers can actually deliver on the promises made to bring high-speed internet to specific areas, we can maximize the influx of broadband dollars coming to West Virginia and move toward our goal of closing the digital divide in communities of all sizes across our state. I encourage my House colleagues to pass this important legislation quickly."

The main purpose of the fencing is to prohibit vehicles from accessing the site when closed which should prevent construction debris from being dumped in the boxes. Walkways are already in place to allow citizens to walk in after hours to dis-

pose of household trash.

The guardrails will also be more resistant to deliberate destruction, which has been the fate of the traditional fence. The gates at both sites will also be repaired and re-installed.

SWA members also acted on a proposal to remove the small buildings that are inside the green box sites.

Those buildings are being used by citizens as spaces to place still usable furniture and other items for people who may need them. The total quote for both sites was \$7,000.

Members agreed with land-

fill manager Chris McComb that the green box sites attract a lot of people looking for used items, and attracting more people to the sites can cause problems. McComb said that most of the items eventually must be transported at great expense to the landfill. He said green box sites are for disposing of household trash, not serving as markets for free, second-hand items.

ALASH returns to the opera house

The Pocahontas County Opera House is thrilled to announce the highly anticipated return of ALASH, the acclaimed masters of Tuvan throat singing, as part of its ongoing 25th-season celebration. The ensemble, a perennial favorite among opera house audiences, is set to take the stage Saturday, October 12, at 7 p.m.

Known for their extraordinary mastery of Tuvan throat singing, or xöömei, ALASH seamlessly blends traditional Tuvan music with contemporary influences, creating a captivating sound that is

both ancient and modern. Praised by *The Washington Post* as "utterly stunning," ALASH has garnered international acclaim for their intricate harmonies and innovative fusion of Western instruments while preserving the deep-rooted traditions of throat singing.

Their groundbreaking approach to Tuvan music has captivated global audiences, making their return a highlight of the opera house season.

Tickets are available for a \$10 donation for adults, while those aged 17 and younger enjoy free admis-

sion. To purchase tickets, stop by the 4th Avenue Gallery in Marlinton, visit pocahontasoperahouse.org or buy them at the venue on the evening of the performance.

The continuation of this landmark season is made possible through the generous support of the West Virginia Division of Culture and History, the West Virginia Commission on the Arts, Pocahontas County Dramas, Fairs and Festivals, Mid-Atlantic Arts, and the Pocahontas County Convention and Visitors Bureau, as well as the enduring support of the greater community.

meaningful sentences. But it doesn't understand the meaning of the words any more than someone inside the Chinese room understands Chinese.

Metadata lets computer scientists write better rules for manipulating markings.

Underneath each webpage or mobile app screen is a set of instructions telling the computer what to do with all words and images that make up the content you read.

At a very basic level, the instructions describe how things appear on the page or screen—this thing is a paragraph, that thing is a heading, etc. But we can also add metadata to those instructions, specifying things like this page is about a book; the title of the book is "Moby Dick"; the author of the book is "Herman Melville".

In philosophy-speak, the conclusion of this thought experiment is that syntax is not semantics.

Syntax refers to the set of rules we use for constructing sentences. Semantics refers to the meaning of words inside the sentence.

The thought experiment shows that—given a sufficiently detailed set of rules—it's possible to create meaningful sentences (syntax) without understanding the meaning of any of the words in the sentence (semantics).

Computers are stuck inside the Chinese room.

When you put a question into a search box or a ChatGPT query, the computer sees a bunch of markings. It can apply a set of rules (called algorithms) to manipulate markings into

Rodeo team hits the road

Suzanne Stewart
Staff Writer

This summer, while most of her fellow classmates were gearing up for their senior year at Pocahontas County High School, Mya Workman, of Hillsboro, was in Wyoming, representing the West Virginia High School Rodeo Association.

On July 7, Workman, who is president of the WVHSRA, traveled to Cody, Wyoming, and spent a week there competing in the Cody Nite Rodeo.

From there, she went to Rock Springs, Wyoming, where she competed in the National High School Rodeo Association finals.

"I compete in barrel racing, pole bending, goat tying, breakaway roping and team roping," she said.

While they were focused on doing their best during the competition, they also had a chance to mingle with students from other states and countries.

"They have dances every night," Workman said. "It's like get-together dances to get to know the other kids."

Workman also had a chance to meet college coaches while she was in Wyoming.

"I'm thinking of going to New Mexico or Alabama," she said. "At this nationals, they had a college day, and I talked to the New Mexico coaches and they were really homey."

it didn't count."

At the national competition, there were more than 1,500 high school students from 46 states, and Mexico, New Zealand and Australia, all vying for the fastest score in their event.

Workman was joined by fellow PCHS students Warren Burns and Lane Butcher, and recent PCHS grad Hannah Burks, who is now competing on the college level.

While they were focused on doing their best during the competition, they also had a chance to mingle with students from other states and countries.

"They have dances every night," Workman said. "It's like get-together dances to get to know the other kids."

Workman also had a chance to meet college coaches while she was in Wyoming.

"I'm thinking of going to New Mexico or Alabama," she said. "At this nationals, they had a college day, and I talked to the New Mexico coaches and they were really homey."

Workman has been competing in rodeo events since she was in the sixth grade, but was no stranger to riding horses, which she began doing at a younger age. She started riding horses with Nicole Brock and was introduced to rodeo by family members—her uncle, Jarrett McLaughlin, and her older sister, Olivia.

"Jarrett is the one that got me into the roping side of things and then my sister used to barrel race in the high school rodeo," Workman said.

Competing in rodeo events takes a lot of time and effort, but it was easy for Workman to decide if she would do rodeo or school sports.

"It was guaranteed rodeo for sure," she said, laughing. "You've got such a deep friendship with your horse, and you grow friendships with the rodeo kids, too."

This summer, with the help of her sponsor, the Pocahontas County Con-

Library Lines

by Joe Miller,
Director of Development

Last week I got a little—okay, fine, a lot—nerdy about metadata.

Several people have reached out since then asking questions about where all that metadata comes from. Where are we getting all the metadata that goes into our catalog? Do we type it all in ourselves? Are we writing the book descriptions you see in our catalog or on Libby? Are they written by other librarians across the state?

When I was first learning to teach, an advisor warned that if a couple of people in a class had a question about something, the odds were that most everyone else did, too. So, I thought it might be worth saying a little more about how our library systems work.

I think it's helpful to understand how computers use metadata. We're going to do that by way of what philosophers call a thought experiment. Don't worry. It'll be fun.

Imagine that you're inside a room whose only access to the outside is a mail slot. The walls are lined with instruction manuals.

Every once in a while, a piece of paper with a bunch of markings on it comes in through the mail slot. You look up those markings on the left-hand page of your in-

struction manuals. You then copy down the markings on the right-hand page and push the paper back through the mail slot.

Now as it turns out, the markings are actually Chinese characters and each paper coming through the mail slot asks a question. The markings you put back down form intelligible responses to those questions.

To a Chinese speaker outside the room, it would appear that there's an ongoing conversation in Chinese. But you don't actually speak Chinese!

In philosophy-speak, the conclusion of this thought experiment is that syntax is not semantics.

Syntax refers to the set of rules we use for constructing sentences. Semantics refers to the meaning of words inside the sentence.

The thought experiment shows that—given a sufficiently detailed set of rules—it's possible to create meaningful sentences (syntax) without understanding the meaning of any of the words in the sentence (semantics).

Computers are stuck inside the Chinese room.

When you put a question into a search box or a ChatGPT query, the computer sees a bunch of markings. It can apply a set of rules (called algorithms) to manipulate markings into

meaningful sentences. But it doesn't understand the meaning of the words any more than someone inside the Chinese room understands Chinese.

Metadata lets computer scientists write better rules for manipulating markings.

Underneath each webpage or mobile app screen is a set of instructions telling the computer what to do with all words and images that make up the content you read.

At a very basic level, the instructions describe how things appear on the page or screen—this thing is a paragraph, that thing is a heading, etc. But we can also add metadata to those instructions, specifying things like this page is about a book; the title of the book is "Moby Dick"; the author of the book is "Herman Melville".

The thought experiment shows that—given a sufficiently detailed set of rules—it's possible to create meaningful sentences (syntax) without understanding the meaning of any of the words in the sentence (semantics).

Computers are stuck inside the Chinese room.

When you put a question into a search box or a ChatGPT query, the computer sees a bunch of markings. It can apply a set of rules (called algorithms) to manipulate markings into

meaningful sentences. But it doesn't understand the meaning of the words any more than someone inside the Chinese room understands Chinese.

Metadata lets computer scientists write better rules for manipulating markings.

Underneath each webpage or mobile app screen is a set of instructions telling the computer what to do with all words and images that make up the content you read.

At a very basic level, the instructions describe how things appear on the page or screen—this thing is a paragraph, that thing is a heading, etc. But we can also add metadata to those instructions, specifying things like this page is about a book; the title of the book is "Moby Dick"; the author of the book is "Herman Melville".

In philosophy-speak, the conclusion of this thought experiment is that syntax is not semantics.

Syntax refers to the set of rules we use for constructing sentences. Semantics refers to the meaning of words inside the sentence.

Marlinton Mayor's Corner

By Sam Felton

Trails and outdoor recreation are drawing visitors to our region – visitors who spend money on lodging, food and other services. Last week, I said, “Trails are economic development.” But do you know how much?

According to the US Department of Commerce’s Bureau of Economic Analysis, outdoor recreation generated an impressive \$563.7 billion in economic output nationally, accounting for 2.2% of the total gross GDP, in 2022. Last year, according to the Outdoor Industry Association, “the outdoor recreation participant base grew 4.1% to a record 175.8 million participants. That is 57.3% of all Americans aged six and older.”

Outdoor recreation is not only among the nation’s largest economic sectors, it

What's Cookin'?

With Sally Cobb

Apple Butter

10 pounds tart apples
5 cups apple cider
4 cups sugar

1 cup dark corn syrup
2 tsp. ground cinnamon
1/4 tsp. ground cloves
Dash of nutmeg

Core and thinly slice apples. (About 30 cups sliced.) Place in 10-quart kettle (copper or brass), add cider. Bring to boiling, reduce heat. Cover and cook until apples are soft (about 30 minutes), stirring occasionally. Press through food mill or sieve, return to kettle. Boil gently, stirring frequently, until mixture is of desired consistency, about 2 hours.

Stir in spices, cook and stir 15 minutes more. Pour into sterilized jars, adjust

lids and process in boiling water bath for 10 minutes. Makes approximately 6 pints.

Quick and Easy Chocolate Cherry Cake

1 pkg. Chocolate cake mix
2 eggs

1 tsp. almond extract
1 can cherry pie filling

Combine all ingredients in a bowl; stir with a spoon. Pour into a 9 x 13-inch greased and floured pan.

Bake at 350 degrees for 20 to 25 minutes.

Serve with ice cream or whipped cream, if desired.

Safety, from page 2

Satellite Technology as a Solution

Over the past year, Pocahontas County Emergency Management has successfully implemented satellite communication systems, including Starlink, to bypass NRQZ limitations and improve response times in areas with inadequate radio reception. However, the NRQZ's recent volunteer partnership announcement with Starlink caught us by surprise and has resulted in a decrease in our satellite coverage. Unfortunately, emergency services were not considered in this agreement, despite prior recommendations from NRQZ to explore satellite technology as an option. Our attempts to contact high-level Starlink representatives have been met with responses that this issue is dictated by local government mandates.

Additionally, we have concerns about the exclusion of emergency services from a \$2 million National Science Foundation study on satellite communications within the NRQZ. Why was this partnership with Starlink implemented before the study was completed? With next-generation 911 core services and satellite-based Integrated Public Alert and Warning System (IPAWS) rapidly advancing, the availability of satellite communications within the NRQZ must account for the future needs of emergency responders.

Protecting Public Safety in an Evolving Technological Landscape

The Pocahontas County Commission's resolution is not an attempt to eliminate the NRQZ, but to find a balanced solution that protects public safety without undermining the important work of the Green Bank Observatory. We propose that the FCC exempt emergency services from NRQZ coordination requirements, particularly in frequency bands that the Observatory no longer actively uses for research. Additionally, we call for federal agencies to fully fund the filtration of unwanted signals at the NRQZ's equipment head-end, instead of passing the financial burden onto local emergency services, making it increasingly difficult to build new communication sites.

The NRQZ office is now based in Charlottesville, VA, meaning that the people enforcing these regulations are no longer embedded in our community, nor are they directly affected by these restrictions. It is our hope that local, state, and federal legislators will recognize the unique and significant burden placed on our emergency services and act swiftly to implement these necessary changes.

A Recent Example of the Risks

Just last week, Pocahontas County experienced its first recorded tornado in Hillsboro.

Fortunately, during a local soccer game at the school, there was cellular and satellite service available to alert those in attendance to take shelter. However, if this

Resolution, from page 2

WHEREAS, the Pocahontas County Commission believes that Federal NRQZ regulations, developed and adopted in the late 1950s, no longer align with modern radio and wireless communications technology and tools currently used by first responders across the US, to provide safe and secure communities, and

WHEREAS, over the past 12 months, the Office of Emergency Management & 911 has successfully utilized satellite (non-fixed communications transmission and receiving technology, namely Starlink) to overcome communications challenges and improve public safety communications in areas where radio reception is inadequate due to NRQZ regulations, thereby, helping first responders save lives, reduce injuries, and prevent cascading impacts at emergency incident scenes, and

WHEREAS, Pocahontas County has the unique distinction and challenge of being comprised of over 50% public land (National Forest, State Forests, and State Parks), used by the public for whom the county bears the responsibility of providing safety and security, and

WHEREAS, satellite communication accessed through the federal Integrated Public Alert and Warning System (IPAWS) will become the most viable mode of alerting backcountry travelers in areas beyond cell and internet service range as to developing weather hazards, wildfire hazards, hazardous materials exposures carried by wind and water, etc., and

WHEREAS, the Pocahontas County Commission believes that the Federal NRQZ regulating agencies should fully fund and support filtration of unwanted signals at the head-end of the NRQZ-Agency equipment, or in the design, construction, and maintenance of radio infrastructure, rather than passing the cost prohibitive expense associated with power reductions and nulls of signal onto local public safety providers.

NOW, THEREFORE, BE IT RESOLVED, that the Pocahontas County Commission formally affirms its continued commitment to enhancing public safety through all means necessary, including communications for the protection of both the residents of Pocahontas County and the 100,000s of thousands of

visitors who come to our county annually; and

BE IT FURTHER RESOLVED, that, to this end, the Pocahontas County Commission emphasizes the importance of preserving the ability to utilize current and evolving satellite communications technology - namely Starlink for public safety communications throughout the entire county in the present and future; AND THE Pocahontas County Commission fully supports total waivers of any NRQZ restrictions imposed on the Public Safety Radio Spectrum by the NRQZ, including AT&T First Net emergency provider services.

BE IT FINALLY RESOLVED, that the Pocahontas County Commission calls upon the Legislature of West Virginia, the Governor's Office of West Virginia, the United States Congress and the Executive Branch, to support the preservation of satellite communication, alongside enhancements of radio frequency communications, across the entirety of Pocahontas County for redundant backup public safety systems (as would be provided for any other local jurisdiction in these United States). AND that as long as the NRQZ remains imposed upon any portion of the public safety radio spectrum within the jurisdiction of Pocahontas County, or any jurisdiction therein, that the Federal government, financially offset the development, construction and maintenance costs associated with public safety communications network given the unique burden of NRQZ regulations. AND that the Pocahontas County Commission shall convey these interests stated herein to the members of the WV Legislature and Executive Branch AND the United States Congress and Executive Branch.

This resolution shall take effect immediately upon adoption and entry thereof.

This resolution is hereby adopted by the Pocahontas County Commission on this 17th day of September 2024.

Crowd, from page 1

artist in the West Virginia Department of Culture and History.

Ironically, the other judge, Jim Adkins, of Barboursville, is also a glassblower. He joined a glassblowing apprenticeship and quickly gained the skills to make beautiful work. He is also a renowned chef with decades of experience in the restaurant industry in West Virginia.

Adkins gained his love of the culinary arts from his grandmother, JoJo, who taught him how to cook.

After tasting the six dishes, all with quirky roadkill related stories, the judges announced the winners.

First place went to the High Rocks Grow Getters for their venison stir fry.

"We had to scrape the deer out of the road, but all the other things came from the High Rocks gardens," team spokesperson Sarah Riley said.

It was High Rocks' first year competing and since, according to team member Steven Saffel, a deer hit the produce truck while they were loading it, they decided to compete and cook up the rascally deer with their fresh produce.

Second place and People's Choice went to the Pendleton Community Bank Buck Busters, for their Buck Bustin' Bumper Beans, which featured venison and three types of beans, a little kick of heat, cornbread and a hit of sour cream.

There is an official Road

Kill Cook-off Queen. Hailey Pugh received the crown this year, but no king. If there was a RoadKill king, most would say it should be Kendall Beverage.

Beverage has led the Pendleton Community Bank Buck Busters team for several years, leading them to victory several times. But that's not why he should be RoadKill king. Beverage has become an unofficial spokesperson for the cook-off and has recruited competitors for the past three years to help the cook-off grow even bigger.

"I'm here to promote the festival," he said. "I think we really need to try to build this up to have at least twelve to fifteen teams every year."

The PCB Buck Busters started competing in 2017 and the team was happy to see the festival return after the pandemic.

"We're excited to have the festival back up and just keep going," Beverage said. "Everything looks great."

Third place went to Grant County's Ditch Divas, in their second year of competing.

Led by Kayla Kuh, the team came across quite the sight when they were out hunting bear for their dish.

"Our bear was hit in the road by an egg truck while we were hunting, and we didn't want to waste anything, so we decided to cook it up," she said.

Going with a breakfast theme, the team concocted a bear and scrambled egg dish.

Receiving the Showmanship Award was the River Rats team with their French

bistro theme. Led by Kathy Mosesso, the team was a family affair with Margaret Worth, Katie Workman and her daughter, Iris, and Mosesso's grandsons, Silas and Victor Dean, rounding out the group.

The team served road to table venison ratatouille served with fresh rat dropings.

Instead of using rat as the main ingredient, they were instead part of the team, helping cook, just like in the Disney movie *Ratatouille* in which Remy the rat helps French chef Linguini hone his cooking skills.

Mosesso credited Beverage with enticing her to form her team this year.

Kendall Beverage is the best community person we have, and he called and asked," she said. "I've had an idea about this theme for a while, so I must have had a weak moment [and decided to enter]."

Also competing was the RoadKill Clean Up Crew from the Pocahontas County Day Report Center, led by day report director Jodi Gragg-Zickefoose. The team served Bumper Bambi wraps with brain sauce.

Gragg-Zickefoose said she wanted to get some of her clients together to participate in a community event. The team also included Day Report administrative assistant Stephanie Bennett and her husband, Ian, and Gragg-Zickefoose's son, Bailey.

Another first time team, Lisa Winebrimmer and Brandon Cline, were also recruited and they decided it sounded like something fun to do together.

Going with a breakfast theme, the team concocted a bear and scrambled egg dish.

Receiving the Showmanship Award was the River Rats team with their French

event had occurred at the Green Bank School, where the county. NRQZ restrictions limit

Call to Action

We urge the West Virginia Legislature, the Governor's Office, the United States Congress, and the Executive Branch to support the County Commission's reso-

lution and ensure that public safety communications are fully protected and enhanced. As long as NRQZ restrictions remain in place, federal support for the construction, development, and maintenance of our communication networks must be provided to ensure that we

can meet the needs of our first responders and the community they serve.

For further information, please contact Pocahontas County Emergency Management / 911 at 304-799-3985

The Hudson Cream West Virginia Biscuit Bake Off took place at the opera house with entrants producing their best traditional, savory and sweet biscuit recipes for the judges. Local baker Autumn Warder was joined by RoadKill judges Nelson and Adkins who pulled double duty.

Luckily the week-long rain showers filled up the ponds and made it easier to catch all those frogs for the stew.

Roadkill wasn't the only thing on the menu Saturday.

The People's Choice award went to Ollie Barkley for her cinnamon sweet biscuits.

This year's festival will go down in history as a beautiful sunny day that brought out the fun for everyone.

Obituaries

Lenore Donovan

With great sadness, the family of Lenore McCloud Donovan announces her peaceful passing due to dementia on Tuesday, September 17, 2024, surrounded by family at her home in Roseville, California. She was 92.

Lenore was born in Marlinton and attended Marlinton High School. She served in the U.S. Army and the U.S. Army Reserve and worked in Federal Civil Service for 20 years at the Pentagon, Veterans Administration and U.S. Geological Survey. She raised her children in the community of Ophir, California, where she lived for 43 years. She enjoyed baking for friends and family, fellowship in her church, and reading non-fiction. She also liked playing the guitar and following professional football.

She was preceded in death by her father, John McCloud; and mother, Agnes McCloud; sisters, Lucille Withers, Carol Tyree, Nancy Baldwin and Mildred McCloud; and brothers, James McCloud, Warren McCloud and Harry McCloud.

Lenore is survived by her husband of 62 years, Joseph Donovan, of Edgartown, Massachusetts; daughter, Carol Sanchez, and husband, Pantaleon Sanchez; son, John Donovan, and wife, Heather Donovan; grandchildren, Mariah Sanchez and Nicolas Sanchez, Seth Donovan and Brendan Donovan; and great-grandson, Brandon Sanchez, all of Sacramento, California; and sisters, June Cutright, of Ohio, and Sharon Mullens, of Marlinton.

Lenore's memory will remain forever in our hearts. She was laid to rest at the Sacramento Valley National Cemetery in Dixon, California.

Trudy Friel

Mary G. "Trudy" Workman Friel, 82, of Marlinton, passed away Thursday, August 15, 2024, at Pocahontas Center.

Born February 18, 1942, at Burnside in Pocahontas County, she was a daughter of the late Robert Workman and Sarah Perry Workman.

Family and friends are invited to honor Trudy during a Celebration of Life Saturday,

We're not just a funeral home, we're your friends and neighbors – and we're here to serve you.

Deborah Maxwell

Deborah Puffenbarger Maxwell, 69, of Elkins, passed away Wednesday, September 24, 2024.

Born December 30, 1954, in Randolph County, she was a daughter of the late James Franklin and Betty Jo Rexrode Puffenbarger.

Deborah was a graduate of Pocahontas County High School and graduated from Davis & Elkins College as a Licensed Practical Nurse.

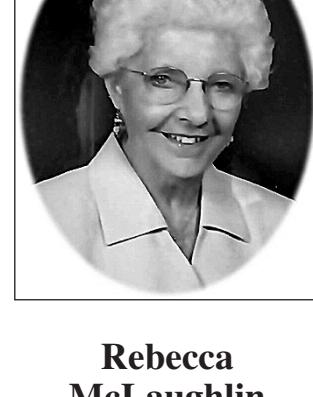

In addition to her parents, she was preceded in death by a sister, Judy Puffenbarger; and son, James "Jim Bob" McLaughlin.

She is survived by her sister, Tammy, and Buster Bennett; daughter-in-law, Lisa McLaughlin; grandchildren, Ethan McLaughlin, Haylee Queen and Gracie Mae McLaughlin; and step-grandchildren, Jayden Bennett and Brodie Bennett.

Graveside service was held Sunday, September 29, 2024, at Boyer Cemetery.

Wallace and Wallace Funeral Home in Lewisburg is in charge of arrangements.

Online condolences may be shared at WallaceandWalaceFH.com

Rebecca McLaughlin

Our beloved mother, grandmother and friend, Re-

becca Jackson McLaughlin, 99, of Marlinton, passed away Saturday, September 28, 2024, at the Pocahontas Center in Marlinton.

Born July 17, 1925, in Marlinton, she was a daughter of the late Oley W. and Hester Wilfong Jackson.

Rebecca was the heart of our home and family and will be dearly missed. She reared two children, Patty and Douglas, in a happy, loving and Christian home, to be independent and thoughtful adults. Rebecca was married for 47 years to her soulmate, Chester, who preceded her in death.

Rebecca was of the Protestant Faith and lived her faith every day as an example to others. She spent many hours teaching Sunday School, leading prayer groups and Bible study, and overseeing Vacation Bible School.

She was a member of the Marlinton Order of the Eastern Star Lodge #97, Pasadena Presbyterian Church in St. Petersburg, Florida, and was a lifelong educator including teacher, administrator and mentor to new teachers.

Rebecca and her husband, Chester McLaughlin, founded Pocahontas Promenaders - a successful and fun square dance group. In addition to being a life member of the Order of the Eastern Star #97, she was also a delegate to the West Virginia Silver Haired Legislature. Rebecca remains a member of the Pasadena Presbyterian Church in St. Petersburg, Florida, where she resided for 23 years.

In addition to her parents and husband, she was preceded in death by two brothers, Marvin Gray Jackson and Raymond Jackson. Rebecca is survived by a daughter, Patty M. Burrows, of Pinellas Park, Florida; son, Douglas W. McLaughlin, of Greer, South Carolina; grandchildren, Gavin McLaughlin, Trevor McLaughlin, Brook Morrill, Jason Cook and Jeffery Burrows; eight great-grandchildren; and a sister, Hazel McPeak,

He is survived by his daughter, Susan Marie Tinger, and husband, Wendell, of Elkins; sons, Timothy William Riley, and Kathleen, of Springs, Pennsylvania, Robert Allen Riley, of Arbovale, and Stephen Lee Riley, and wife Terri, of Midlothian, Virginia; granddaughters, Jenna and Samantha Riley; grandsons, Zeshaan Bhatti, Taimoor Bhatti and Connor, Justin and Luke Riley.

Graveside service was held Saturday, September 28, 2024, at the Arbovale

of Marlinton.

In keeping with her wishes, the body will be cremated with services held at a later date. In lieu of flowers, the family asks that donations be made to Marlinton Presbyterian Church, P. O. Box 30, Marlinton, WV 24954.

Online condolences may be shared at Lantzfuneralhome.com.

James Riley

James "Jim" Allen Riley, age 86, of Arbovale, died Wednesday, September 25, 2024, at Charleston Area Medical Center.

Born June 13, 1938, in Arbovale, he was the youngest son of the late John William and Ada Varner Riley.

Jim was a veteran of the United States Air Force. As a young man, he was a construction worker and welder for various companies in Maryland and Pennsylvania. He worked for more than 20 years as a truck driver for the West Virginia Department of Highways. He cherished the time spent with his grandchildren, loved his dogs, and enjoyed sharing and listening to stories. His friendship touched the lives of many, and his absence will be deeply felt by both family and friends.

In addition to his parents, he was preceded in death by his wife of 57 years, Alice "Louise" Riley (2022); and his eight siblings, Joseph, John, Clinton, Ernest, Harold, Please Pierce, Patricia Nuckles and Wilma McGuire.

He is survived by his daughter, Susan Marie Tinger, and husband, Wendell, of Elkins; sons, Timothy William Riley, and Kathleen, of Springs, Pennsylvania, Robert Allen Riley, of Arbovale, and Stephen Lee Riley, and wife Terri, of Midlothian, Virginia; granddaughters, Jenna and Samantha Riley; grandsons, Zeshaan Bhatti, Taimoor Bhatti and Connor, Justin and Luke Riley.

Graveside service was

held Saturday, September 28, 2024, at the Arbovale

Cemetery Annex with Pastor David Rittenhouse officiating. Military rites by the Pocahontas County Veterans Honor Corps.

In lieu of flowers, the family has asked that memorial donations be made to the Arbovale United Methodist Church.

Wallace and Wallace Funeral Home in Arbovale is in charge of arrangements.

Online condolences may be shared at WallaceandWalaceFH.com

Peggy Smailes

Peggy Marie Madison Smailes, 69, of Lewisburg, formerly of Marlinton, passed away Thursday, September 26, 2024, at Peyton Hospice House in Fairlea.

Born July 18, 1955, in Marlinton, she was a daughter of the late Russell and Bertha Tipton Madison.

Peggy was a beloved mother and grandmother. She attended and was baptized at Huntersville Baptist Church. She also attended Edgewood Presbyterian Church. She worked as a CNA for 16 years.

In addition to her parents, she was preceded in death by a son, Travis Loudermilk; brothers, Preston and Edmond Madison; and sister, Brenda Cogar.

She is survived by her life partner, Charles M. Waugh; son, Chawn Loudermilk, and wife, Amanda; daughters, Charlie Marie Waugh and Cristy Keiser, and husband, Jack; grandchildren, Maxine Puffenbarger, Baily Peters, Ariel Murphy, Cecelia Loudermilk, Cadyn Loudermilk, Dawson Loudermilk, Baylen Loudermilk, Blayton Loudermilk and Cole Loudermilk; two great-grandchildren; a brother, James Madison; and several nieces and nephews.

In keeping with her wishes the body was cremated and there will be no service.

Online condolences may be made at Lantzfuneralhome.com

Sunday Movie Agitated Again

At the Town Council on Monday night, all unknown to us all, the proposition was put up to the Council to allow the showing of Sunday moving pictures in this town.

The mayor and one councilman being absent, definite action was postponed until Monday night, October 11, at 7 o'clock.

Here is urging all church people and right-thinking people in general to appear before the council next Monday night in a demonstration in force to ask our council not to further commercialize the Sabbath day. Surely six

days a week ought to be sufficient for any business to get along. It is impossible for me to put theatres in the list of necessary things.

Hometown News

Lobelia – Beginning this week, considerable work is being done and planned for Emanuel Cemetery on Bruffey's Creek. This consists of cleaning out the brush and briars, new fence and the like. All the neighbors who can should lend a hand. Those at a distance who have

interest may send money. An important matter is the marking of graves. Many are already unknown; while there is time, please get a marker, if only a board. Address all inquiries to Mrs. D. R. Vaughan, Hillsboro, W. Va.

Greenbank – The all-day song service at Wesley Chapel on Sunday proved an outstanding success. The congregation numbered 600 or better; the singers were at their best; and a bountiful basket dinner was served. A generous offering was made to the building fund of the recently completed Methodist parsonage at Greenbank. The decision was made to make this song service an annual affair.

NEW INDUSTRY

A really big and worthwhile industry is being built in the Gauley Mountain country up from Slaty Fork around Sharp Knob, Laurel Run and the drainage are of Tea Creek.

I refer to the big coal development of the Maust Coal and Coke Company. It is a long-time operation – beginning with strip mining, to be followed by drift mines. The president of the Company is

Mr. Maust of New York.

Shipment will be made over the Baltimore and Ohio Railway, but the main operation is in the parts of Pocahontas and Randolph counties, much nearer to Marlinton than to Richwood, Cowen or Webster Springs.

The company has built much road in its approach from the west to the development site.

Exit to the east will require a road of less than four miles. For almost the entire distance a well-graded, abandoned railroad bed is available.

The Pocahontas Telephone Company is building a metallic circuit line into the Sharp Knob office of the company. The Monongahela Power company will furnish the electricity. Already a good number of men from this side have found employment there.

100-Years-Ago in The Pocahontas Times

Calvin W. Price, Editor

Thursday, October 2, 1924

Did you ever think that the farmer's art lies exposed to the critic's eye? Either a public road or a railroad lay bare all of his work to discriminating observers. And his immediate neighbors watch him like a hawk and note his progress through the changing seasons. They keep him up to the mark. Never is a furrow plowed wet but what a shudder runs through the community.

Corn is up and cattle are down. That means that we have to winter a lot of stock this year. It sometimes happens that a year in profits is blotted out. Cattle are kept a year and then the vagaries of the market indicate that they are not worth any more per head than they were a year back. That is the case this year, generally speaking.

All over the country the corn has been under the average and that forces a lot of livestock on the market... It has been a queer year

anyway. It was marked with a March which for killing weather has seldom been equaled. There are fewer mice, fewer birds, fewer small squirrels, fewer hornets, fewer wasps, and fewer moles than there have been for years. In all my wanderings, I have seen but one large hornet's nest, and that was in a brush pile on Jerico. There are a few, far too few, bumblebees. I think that the unusual March caught all of these small friendly pests and that few survived.

TARIFF HURTS FARMERS

Republicans' partisans who point to the tariff as a boon to farmers and a blessing to labor are read a good lecture in an editorial in the Milwaukee Journal a few days ago.

"Under the system of price-fixing, fostered by the Fordney-McCumber tariff," says the Journal, "the average farmer has no chance to save money long. For the tariff enters into nearly

everything he does not produce on his own land; and as farm prices go up, other prices keep a leap ahead."

The editorial then declares that "labor, too, is told that the tariff has maintained good wages and upheld the standard of living." And then points out that "all the time, large employers were bringing thousands of foreigners into this country."

In "Mother Goose in Politics," a number of rhymes are given, of which this is a sample:

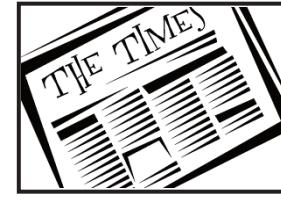

"Little Tommie Tucker pines for his supper –

But what can he eat? He can't afford butter –

And how can he slice bread without any knife?

This Republican tariff has blasted his life!"

cook the other day. After a season diligently searching, they found a cook and they thought they were very fortunate. They looked forward to her staying with them from year to year for an indefinite length of time, but on the third day, she said: "I forgot to tell you when I came, I can only stay three or four days," and so they lost her.

DURBIN

We are having some fine rains and fall pasture is looking better.

The other night the quiet people of Durbin were awakened from their beauty sleep by a party of young men going home at a late hour. The young men were suffering from a superabundance of spirits. They insisted on the Durbin people getting up, but the quiet burghers decided that it was too much trouble. Just outside the city limits, however, they passed a gypsy camp which did rouse up and they sailed forth on the boys, throwing stones and yelling like Indians. The boys fell back to the city and armed themselves with Winchesters and went through the camp and home. Next morning, the boys came back, but the gypsies had folded their tents and silently stolen away.

Kansas Weeping for her Girls

Kansas towns are in the throes of a servant girl famine. Five hundred servant girls of Topeka and vicinity have gone during the past thirty days to Chicago, where they say they can get \$5 per week. They have been induced to flock to Chicago by circulars sent out offering the wages named. Lawrence, Leavenworth, Atchison and Fort Scott also complain that servant girls are going to Chicago.

If Solomon had occupied a more humble position in society, he would have included in the Proverbs: "A good cook is to be chosen rather than great riches." A family in Marlinton had a unique experience with a

Apples ~ a gift that keeps giving

Melody Phillips
Staff Writer

"Eat an apple on going to bed, and you'll keep the doctor from earning his bread."
Pembroshire - 1866

"Anyone can count the seeds in an apple, but only my God can count the apples in a seed." *Author Unknown*

"A word fitly spoken is like apples of gold in pictures of silver" *Proverbs*

Apples are a very basic food source around the world and can be used in many dishes.

Between fresh, canned, frozen, dried and the juice, the USDA reported that, in

2021, Americans consumed more than 26 pounds of apples per person. Nearly 15 pounds of that was in juice form.

With that being said, it's harvest time –

We love apples – apple pie, apple bread, apple sauce, apple cider, sliced apples, apple fruit leathers, etc. But

there are four main ways we use apples: pie filling, dried, cider and sauce. This is a brief description of what I do with apples, not a how-to for canning.

Each form of processed apple has specific harvest requirements. When making sliced apples for drying or

canning, I prefer handpicking the prettiest, most well-formed, non-blemished ones. Green and yellow varieties are preferred for pie filling while reds and yellows are best for dried snacks.

Pretty, well-formed fruit runs smoothly through the apple peeler. Since this is the pickiest batch, I set up everything I will need for processing this group first and then I harvest the apples. Being set up prior to harvesting means the apples are fresh and without bruising.

The apples are cleaned, placed into the strainer, and then put through the apple peeler. The peel and cores

can be saved and used for multiple applications, including jelly, making pectin, or feeding to the chickens.

The prettiest apples are sliced into whole or half rings for dehydrating and freeze drying. They are placed into a diluted pineapple juice bath to prevent them from browning – citric acid, lemon juice, honey,

vinegar or salt can also be used. The ones chosen for freeze drying are spread out on trays, which are then placed into the freezer. The following day, the frozen trays are processed through the freeze drier. Freeze dried apples absorb moisture from

the air very easily so as soon as they are completed, they are quickly moved into vacuum sealed containers. Apples for the dehydrator are added to the trays as they are cut and soaked. The dehydrator is turned on when the first tray that is filled; more trays are added throughout the day.

Any apples that need spots cut out are cut into quarters for pie filling. The pieces are immediately placed into the diluted pineapple juice bath while they wait for the filling base to be made. Once the filling base is made, the apple pieces are thoroughly mixed into the base and then

transferred into jars for canning.

Cold pressed cider is the next batch of apples I process. These apples do not need to be perfect and can be of any variety. The only requisite is that they are hand-picked from the tree and not off the ground. Even though the apples are washed prior to processing them, it's an extra precaution I like to take to help prevent certain molds and bacteria from getting into the cider. The easiest time I have had with cold pressing apples was to first run them through the food

see Apples pg 9

BOE, from page 2

school safety policies and asked that parents be given more specific information when threats take place.

"I would ask that these policies be reviewed and perhaps revised with input from parents, teachers, guidance counselors, law enforcement, etc., to allow parents to make the best decisions regarding the safety of their children when there is an extenuating circumstance," she said.

Fellow parent Tiffany Rider attended the meeting online and addressed the board with similar concerns. Rider asked the board to include the parents more when situations like threats arise and suggested a committee be organized to allow parents and the school system to work out a plan to be put in place when and if threats like this happen again.

Since both parents spoke during the hear callers' portion of the meeting, the board could not respond to what was said, but later, during the matters from the board portion of the agenda, board member Frosty McNabb said the board is working on organizing a meeting with parents, community members and law enforcement to create a committee like the one Rider suggested.

The board members said they understand the parents' concern and want to work with them to make sure the schools are safe at all times.

Also speaking of safety

Kevin Stitzinger to discuss communication and emergency protocols.

Bostic added that IT specialist Kristi Hamons attended a communication conference in Charleston and received a lot of information she will be sharing with the board office and board members.

"She said she got a lot of valuable information that she's going to share with the administrators when we meet with the principals, as well as with you all about even making our websites accessible for people who may have hearing or vision trouble, as well," Bostic said.

Bostic said Hamons asked to be the communications officer and plans to keep the school websites up to date with more information.

In updates:

Bostic also shared that the Nests Project grant has been submitted to the West Virginia School Building Authority in which the board office has asked for \$6 million for upgrades to Pocahontas County High School. The request includes electrical work, window replacement, bathroom upgrades and connecting the main building to the CTE building.

The SBA will review all project grants and will have two days of presentations in November at the office in Charleston. Bostic said she has asked board member Morgan McComb to attend the presentation with her due to his vast knowledge of the PCHS facilities.

Hillsboro Elementary School Principal Rebecca Spencer, joined by members of her staff, presented a request for a half-time physical education teacher. Spencer and staff explained that, at this time, each grade level teacher is leading physical education for their classes

and said it would better serve the students if the school returned to having an actual PE teacher.

Spencer said she did have someone who said they would take the position and that she is asking the board to create and post the position.

The board said the position could not be posted until after the next meeting because it was not on the current meeting's agenda. Board member Sam Gibson made a motion to have the position added to the next meeting's agenda and the board unanimously approved to motion.

In personnel management, the board approved the following:

- Request to transfer James D. Chestnut from custodian III at Green Bank Elementary-Middle School to ECCAT special education/classroom/bus aide at Green Bank Elementary-Middle School, effective September 16, for 175 days for the 2024-2025 school year. Term of employment shall be 200 days each year thereafter.
- Employment of Darla Huddle as mentor for Karen

Lockhart at Hillsboro Elementary School, effective for the 2024-2025 school year at a rate of \$25 per hour for 50 hours for a total of \$1,250.

- Employment of Amy Hefner as cafeteria manager for Hillsboro Elementary School, effective September 9, for 180 days for the 2024-2025 school year. Term of employment shall be 200 days each year thereafter.

- Employment of Darla Huddle as mentor for Melinda Walker at Marlinton Elementary School, effective for the 2024-2025 school year at a rate of \$25 per hour for 50 hours for a total of \$1,250.

- Employment of Jillian Lacasse as Communities in Schools site coordinator for Marlinton Elementary School, effective September 16, for 175 days for the 2024-2025 school year. Term of employment shall be 200 days each year thereafter.
- Employment of Dawn Brewster as ECCAT special education/classroom/bus aide for Marlinton Elementary School, effective September 16, for 175 days for the remainder of the 2024-

2025 school year. Term of employment shall be 200 days each year thereafter.

- Employment of Paul W. Hill as volunteer coach for seventh and eighth grade football, effective for the 2024-2025 season.

- Resignation of Kimberly Ballance as head custodian at Marlinton Middle School, effective September 5.

- Employment of Rhonda Woodruff as limited sports trainer for the 2024-2025 athletic season, at a supplement of \$3,750.
- Requested transfer of Joseph Rose from custodian III at Pocahontas County High School to custodian III at Green Bank Elementary-Middle School, effective September 20.

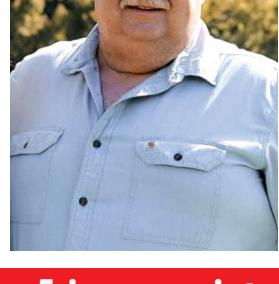

The next board meeting will be Tuesday, October 14, at 3:30 p.m. at Green Bank Elementary-Middle School, for an LSIC and strategic plan meeting, followed by the regular board meeting at 4:45 p.m.

SCREENINGS SAVE LIVES. HAVE YOU SCHEDULED YOUR ANNUAL MAMMOGRAM THIS YEAR?

Call today to schedule at 304-799-1060.

According to the American College of Radiology, mammography has helped reduce breast cancer mortality in the U.S. by nearly 40% since 1990. PMH's state-of-the-art 3-D mammography unit boasts a fast 3.7 second scan time, which means more comfort for patients; and is proven to detect 20-65% more invasive breast cancers than regular 2D.

Breakfast treats and coffee provided for all mammography patients in October to celebrate Breast Cancer Awareness Month.

Self-referral screening mammograms are accepted by appointment; diagnostic mammograms and ultrasounds require provider referral.

Alive, from page 1

formed by the Bing Brothers and Jake Krack from 7 to 9 p.m.

The evening will conclude with a Ghost Walk tour of Huntersville's historic sites, leaving from the schoolhouse at 9:15 p.m.

On Saturday, from 10 a.m. to 4 p.m., there will be demonstrations of old-time crafts and skills such as blacksmithing, apple cider making, broom making, a quilt show, pumpkin carving and more.

Throughout the day there will be guided tours of the schoolhouse, the old jail, the restored clerk's office and the historical museum.

The Order of the Confederate Rose will conduct a memorial ceremony at the Civil War cemetery.

Renowned white oak basket weaver and heritage apple expert Clyde Jenkins will be happy to talk about the history of our heritage apples and identify any apples you bring to him.

In the schoolhouse, Joyce Mullens portrays the "school marm" and shares stories of the good ol' days.

In the old jail (Pocahontas County's first jailhouse) and the Huntersville Historical Traditions Museum, guests will be entertained with stories from history by knowledgeable volunteers.

There's no need to worry about how to get around to all the historical sites, or back and forth from the parking area.

Visitors will enjoy riding in old-fashioned style in both a horse drawn wagon and a wagon pulled by a tractor, which will carry them from the parking area to all the festival locations and back again throughout the day.

Guests may partake of homemade "vittles" including beans cooked over an open fire served with fresh cornbread, pork sandwiches, coffee and, of course, lots of homemade apple cider.

Old-time mountain music

will be performed all day by local bands including Mud Hole Control, The Viney Mountain Boys, the Hefner family and the Stony Mountain Bluegrass band.

The Appalachia Cloggers and their famous caller, Lou Maiuri, will be joined by Juanita Fireball and the Continental Drifters, who will provide music for the dancers.

Pocahontas County has long been known for its salt risen bread and some of the best cornbread to be found this side, or maybe, any side of the Allegheny Mountains.

Here's a chance for local bakers to prove themselves.

The public is invited to take part in the Huntersville Traditions Days bread contests.

There's a salt risen bread contest and a cornbread contest, each offering a \$100 first prize and a \$75 second prize. For further information about bread contest rules and how to enter, contact Jean McClure at 304-799-4486.

There is no charge to attend events on Friday evening or Saturday.

"We just want everyone to come and enjoy themselves here among the historic sites of Huntersville," Tim Wade explained.

"It's a lot of work, but we look forward to doing it. It's a real labor of love."

"We really appreciate the friendship of the people of Pocahontas County and the visitors who come to Huntersville Traditions Days every year."

"We couldn't do this without their support," he added.

The festival is held on the grounds of the old Huntersville School on Schoolhouse Lane in Huntersville and on several sites in the surrounding area.

Look for this writer. I'll be there on Friday evening and all-day Saturday.

As a proud member of Huntersville Historical Traditions, I'll be wearing period dress, enjoying time with old friends and making new friends, too.

Apples, from page 8

processor with the smallest shredding plate. This creates more surface area for the juices to start flowing. Chopping them in a mixer will also work, the finer the better. I even saw one video where a guy bought a brand-new garbage disposal for this very purpose and it worked great.

I press all the apples for cider before I start to can them, even if there will be multiple batches to process. This mixes all the apple varieties and flavors into a single

batch and allows me to know how much sugar to add, if any, to the batch. This year's apples were juicy and sweet, so I only needed to add about a half cup of sugar to four gallons of cider. Prior to canning, I pulled off some for us to drink fresh. The rest was heated for canning.

The last group of apples, the ones for sauce, can be picked from the tree or picked up off the ground. Since the sauce is cooked, the probability of contaminants surviving the process is very low. Even so, all the apples are thoroughly washed and any bad spots removed. This process is

great for gleaned apples.

Depending on the size of the apples, they are cut into quarters. The peels and cores are used when making sauce; yes, I even leave in the seeds. All the cut apples are placed into a very large pot, or slow cooker, with about one to two quarts of water added. I use as little water as possible since it is only needed to keep the apples from sticking or burning when they first start to cook.

As the apples heat up, they begin to release their own natural juices. Adding too much water could result in a very thin apple sauce. The apples are slowly cooked until they

are very soft and mushy. The apple mush is run through a sieve or mill of some sort. This removes the peels, stems and seeds. I add sugar, if needed, to the whole batch after it is milled. From there, the sauce is ready to can.

There is usually a large pile of peelings and cores left over once all of this is finished. These can be simmered and strained for making jelly or pectin. Lastly, all the apple remnants make their way to the chickens, that give us an abundance of eggs in exchange, or to the compost pile, which feeds the garden the following year.

Open Letter to Pocahontas County Voters

On Tuesday, September 24, the Democratic Party of Pocahontas County held a Meet the Candidates event at the Opera House in Marlinton. Below are my remarks, revised to make sense as an open letter.

My name is Jay Miller and I'm running for County Commissioner because I want to restore sanity to the county commission's budget and spending process. We should not be spending money we don't have on things we don't need. On the other hand, we should spend wisely on services that county government provides so that voters can go about their daily business without worrying about what the county commission is up to.

I don't think we need a new courthouse annex building although I agree that the magistrate courts need improved security, the county clerk needs additional capacity for records storage, and the historic jail building's interior should be refurbished for use as office space for deputy sheriffs.

I don't think the county commission should borrow \$5 million to build a 911/EMS center when a smaller facility can be built with existing funds (primarily left over from federal Covid relief).

Collecting and disposing of garbage is an essential service of county government that should be managed as a local issue but the county's current landfill will close within two years - and there is no credible plan or budget to change the current business model to one that involves hauling garbage to another county's landfill.

I think the county commission should take an active role in helping the Solid Waste Authority to manage its affairs in anticipation of the landfill closing - so the State does not take over the SWA as it has in Nicholas and Tucker counties. Pocahontas County should be the master of its own fate but the SWA is currently on a path that will lead to its demise next year - unless action is taken soon.

I need your vote on November 5. I need the support of Democrats, Republicans and unaffiliated voters who want a county commissioner who knows how to solve problems.

Proven Principled Ready

VOTE FOR GLENN ELLIOTT - NOVEMBER 5TH

FOR U.S. SENATE

Glenn Elliott is a 7th generation West Virginian, a proud father and husband, and a former two-term mayor of his hometown of Wheeling,

WV. He began his career as a legislative assistant to longtime Senator Robert C. Byrd. As seen during his two terms as mayor, Glenn has a proven record of forging compromise to achieve results.

Young Warriors clawed by Wildcats

Mitchell B. Koerber
Student Sports Journalist

For most people, football is all about cheering for your team, making some noise, and, most importantly, winning, but the Young Warriors care about the fun of the sport.

Although they lost, 42 – 6 against the Pendleton Wildcats, all the Young Warriors said it was a very fun game.

"I'd take that score over

any other, because I know the other team had to work their butts off for it," head coach Kyle Graae said.

Though the score may not reflect it, this game for the Pocahontas County Middle School Football Team is considered, by the team itself, to be the best one by far.

Pendleton would rush to an early and big lead – most of their points were gained in the first half. However, after

half-time the defense would

step up. Exploding off the defensive line, eighth grader, #50 Mitchell "Nightmare"

Koerber was a force to be reckoned with – an earthquake in his enemies' way. Koerber achieved a total of five tackles, including a sack, limiting the number of touchdowns Pendleton would achieve in the second half. He led the defense, delivering unbridled blows to the opponents.

The Young Warriors' lone

SIXTH GRADER, #3 Brayden "Mighty Mouse" Matheny rounds the corner for a good gain against the Pendleton County Wildcats Wednesday night. K. Moyers photo

score came from RB, eighth grade running back, #45 Noah Foe, after running more than half the field, around the left side for a long

touchdown. He would break many tackles, proving himself as a star on the offense.

The Young Warriors have

a bye week this week, but will square off against Webster County Wednesday October 9, at 6 p.m. The address is 1 Highlander Drive in Uppergrande.

School Menus

October 7 – 11

Monday, 7: French toast sticks with syrup and fruit. Pizza, garden salad with romaine lettuce and dressing, corn, applesauce and milk.

Tuesday, 8: Sausage and cheese biscuit and fruit. Diced chicken nachos with corn, tortillas, salsa and sour

cream, marinated black beans, red bell pepper strips, fruit and milk.

Wednesday, 9: Home-made cinnamon rolls, cheese stick and fruit. Salisbury steak, mashed potatoes with gravy, whole grain roll, California blend vegetables, frozen fruit cup and milk.

Thursday, 10: Fruit strudel with fruit cup. Chicken patty on whole grain bun with lettuce and tomato, sweet potato fries, roasted broccoli, fruit and milk.

Friday, 11: Breakfast smoothie and fruit. Ham, cornbread, macaroni salad, pinto beans, whole grain cookie, fruit and milk.

SWA, from page 2

Asked what he would do with the buildings, McComb said he would crush them and dispose of them in the landfill. Member David McLaughlin suggested that they first place advertisements to attempt to sell the buildings. McLaughlin made a motion to that effect which passed. The motion also says if the buildings don't sell, they will be demolished.

There was also a discussion about placing a gate by the cattleguard at the actual entrance to the landfill. Locking that gate when the landfill is closed would not only serve as an extra security measure to keep vehicles out of the landfill after closing but would also reduce or eliminate the need for landfill workers to clean out the cattleguard. No action was taken on this because the purchase of the landfill is still not a definite deal.

They also took no action

on the potential purchase of the landfill by the county commission for the same reason.

SWA Chairman Ed Riley said the recent landfill inspection turned up four violations, which have all been addressed and fixed.

Riley also said that the Tucker County Solid Waste Authority solved their financial difficulties, caused by a shortage of trash disposal at their landfill which created a shortage of tipping fees. He said they did so by striking a deal with the Region 8 Solid Waste Authority. Under this deal, the Tucker County Solid Waste will pay the cost of transporting Region 8's

Visit, from page 2

In attendance:

Steve Williams is the Democratic nominee for Governor of West Virginia. Proud of his service as Huntington's mayor, Williams has deep West Virginia roots – both of his grandfathers were coal miners.

Thornton Cooper, running for the office of West Virginia Secretary of State, a South Charleston attorney with nearly three decades of experience in several state agencies.

Teresa Toriseva, having served nine terms as Special Assistant Attorney General for West Virginia is running to be West Virginia's first female Attorney General. She had a last-minute conflict and could not make the meeting. Campaign manager, Steve McElroy spoke on her behalf.

Deborah Stiles, family farmer with a passion for

West Virginia farming and experience as an agricultural researcher, is the Democratic candidate for West Virginia Commissioner of Agriculture.

Glenn Elliott, candidate for Sen. Joe Manchin's U.S. Senate seat – and endorsed by Manchin – two term Mayor of Wheeling, began his political career as legislative assistant to Sen. Robert C. Byrd.

Mary Ann Clayton, running for West Virginia Auditor, has 22 years' experience auditing in the state auditor's office.

Mandy Smith Weirich, candidate for West Virginia State Senate, District 11, whose first career as a police officer was followed by 15 years as a West Virginia social worker.

Paul Detch, running for West Virginia's House of Delegates in the 46th District, (which includes southern Pocahontas and eastern Greenbrier counties) has practiced law for 50 years and taught medical law at

WV School of Osteopathic Medicine for 18 years.

This fall, Pocahontas countians will elect a new sheriff, a new county commissioner and a new prosecuting attorney and all three Democratic candidates for those offices were present and spoke at the meeting:

Troy McCoy, candidate for Sheriff of Pocahontas County, is a lifelong Pocahontas County resident and has 35 years of law enforcement experience in the Sheriff's Department.

Laura Finch Kershner, local Pocahontas County attorney running for Prosecuting Attorney of Pocahontas County.

Jay Miller, Hillsboro resident and candidate for Pocahontas County Commissioner.

Dawn Baldwin Barrett, resident of Bartow and candidate for the northern district seat on Pocahontas County's Board of Education was also present at the meeting.

WARRIOR SPORTS

Pocahontas County High School sophomore, #34 Austin Price, makes mincemeat of the Richwood Lumberjacks Saturday. The Warriors would rout the Lumberjacks 47-6. Photo courtesy of David J. Cooney, Nicholas Chronicle

Warriors win big

Mitchell B. Koerber
Student Sports Journalist

It was truly a remarkable redemption for the Pocahontas County High School Warriors when they came up with a huge win against the Richwood Lumberjacks in Nicholas County Saturday afternoon in the

“Battle of the Axe.”

The final score of the game was 47-6.

Pocahontas County scored early and never looked back.

More importantly, the Warriors would score often in its complete one-sided victory as the team dominated both sides of the ball.

Sophomore, #1 Logan

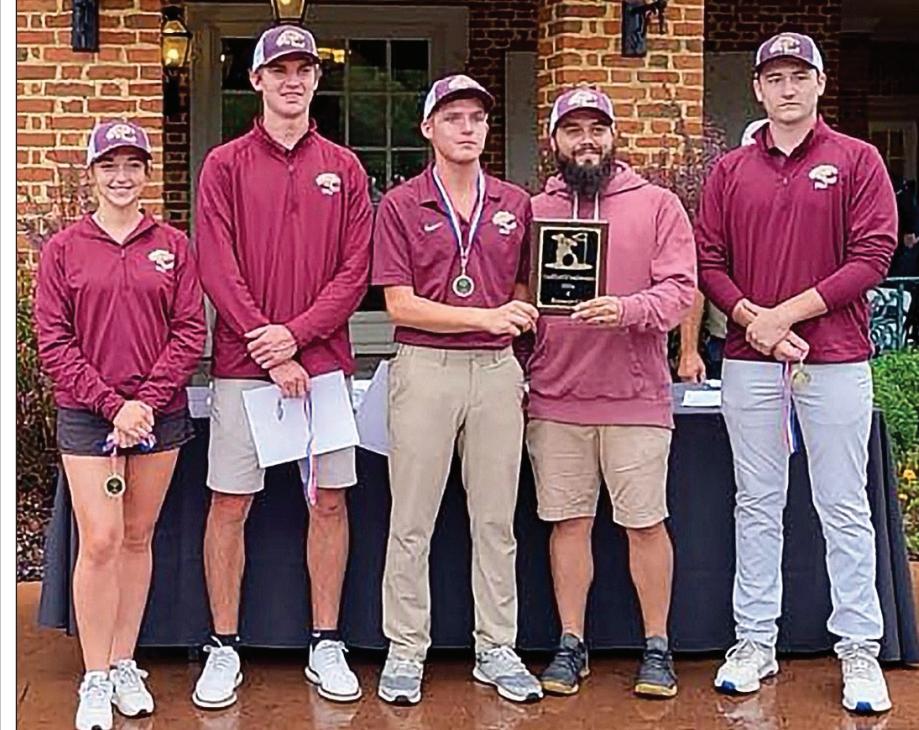

Keatley once again put on a stunning performance. Keatley would find the end zone a whopping four times during the game. The Lumberjacks had no answer for him when he ran the ball up the middle. On a crucial fourth down with two yards to go,

see Win pg 17

HEAD COACH DOUG Burns, instructs the PCHS Warrior Varsity Football Team to enjoy the win but to focus on getting better and get ready for next week. M. Koerber photo

Given under my hand this 15th day of September, 2024.

Jeffrey P. Barlow, Pocahontas County Sheriff

ADMINISTRATION TO CREDITORS, DISTRIBUTEES & LEGATEES

Notice is hereby given that the following estate(s) have been opened for probate in the Pocahontas County Clerk's Office at P. O. Box 209, 900 Tenth Avenue, Suite C, Marlinton, WV 24954-0209. Any person seeking to impeach or establish a will must make a complaint in accordance with the provisions of West Virginia Code 41-5-11 through 13. Any interested person objecting to the qualifications of the personal representative or the venue or jurisdiction of the court, shall file written notice of an objection with the County Commission within 60 days after the date of the first publication or within 30 days of the service of the notice, whichever is later.

If an objection is not filed timely, the objection is forever barred. Any claims against an estate must be filed within 60 days of the first publication of this notice in accordance with West Virginia Code 44-2 and 44-3A.

Settlement of the estate(s) of the following named decedent(s) will proceed without reference to a fiduciary commissioner unless within 60 days from the first publication of this notice a reference is requested by a party of interest or an unpaid creditor files a claim and good cause is shown to support reference to a fiduciary commission.

First Publication Date: Thursday, September 26, 2024

POCAHONTAS COUNTY SHERIFF'S DEPARTMENT NOTICE OF CIVIL SERVICE EXAMINATION

The Pocahontas County Deputy Sheriff's Civil Service Commission will be conducting competitive examination testing for entry level Deputy Sheriff position(s).

The written test will be given at the Pocahontas County Courthouse Friday, October 25, 2024, at 2:00 p.m..

Applicants must be citizens of the United States and be between age 18 and 45. Applicants must have a high school diploma or GED. Successful applicants shall become a resident of Pocahontas County within (6) months of their hire date.

Deputy Sheriffs are full-time benefited positions, including retirement, medical insurance, vacation, and sick leave. Initial annual uncertified officer salary is \$40,000, increased to \$42,500 upon completion of Academy and increased to \$45,000 after twelve months of Academy Certification. WV Certified Officers in good standing start at \$42,500 and increased to \$45,000 upon completion of a twelve-month probationary period.

Applications may be obtained from the Pocahontas County Clerk's Office or the Pocahontas County Sheriff's Office.

Applications must be received by the County Clerk's Office no later than the close of business Monday, October 21, 2024.

Rodeo, from page 3

vention and Visitors Bureau, Workman was able to compete at Wyoming with two of her horses, Gus and Sweetpea.

"They're pretty seasoned," she said. "They're both fifteen so they've done the trip a few times. I've had Gus since my seventh-grade year and then Sweetpea, I've been riding her for about a year."

In addition to competing, Workman has taken her role as president of the WVHSRA seriously. She is always open to talking about rodeo and eager to recruit new members to the association.

"We are doing a lot of fundraisers, and we have a lot of new kids that are trying to join," she said. "We have get-togethers a lot. I couldn't help with it, but [one weekend] we had a special Olympics rodeo, so they did barrels and poles and stuff with some of the special needs kids."

Events are often held at the arena on Second Avenue in Marlinton.

Anyone interested in learning more about the rodeo association or who want to join may reach out to Workman at school or online. She's ready to welcome other rodeo enthusiasts into the fold.

She also encourages anyone who can travel to Wyoming to do so.

"It was awesome," she said. "If anybody gets the opportunity, I'd tell them to go, because it's a different kind of pretty than West Virginia – but it's so pretty."

Win, from page 11

Keatley, from under center, would keep the ball and clamber for 22 yards. Then, on the next play, sophomore QB, #9 Gavin Delair would connect with Keatley over the middle, for a 34-yard touchdown strike.

"I wouldn't have been able to make those touchdowns without the help of my teammates," Keatley said. "Our coaches have worked with us at practice to make the plays possible. They have shown us they believe in us and given me the confidence to play my best."

"Even though Haydon wasn't able to play, he was on the sidelines with us, giving us a positive mood for the game, and cheering us on!"

Not only did Keatley shine on Saturday, the whole team delivered a complete game.

The offense put up 310 yards and a staggering seven touchdowns, with the defense totally shutting down the Lumberjacks. In regard to the team's overall performance, Keatley went on to say: "We all played well together. We need some improvement in some areas, but overall, we all played a great game. We had guys that really stepped-up."

"Senior, #4 Devon Burgess would also excel, as usual, adding a 1-yard touchdown of his own. The defense had a lot to

prove during the game, and they didn't disappoint their fans.

Sophomore kicker and linebacker, #2 Griffin Taylor stunned the crowd when the Lumberjacks were on the 50-yard line.

Taylor, at linebacker, took his initial read-step, then noticed the running back sneaking out of the backfield. He immediately dropped back and positioned himself to intercept the pass and return it 50-yards for the Warriors first pick-six of the season.

"The whole team played really great together," Taylor said. "I happened to get a chance at an interception, and I knew I had to run and ended up with my first ever

pick-six."

Taylor also added five points to the overall score by successfully kicking five extra points.

The game also highlighted some new talent.

Sophomore, #11 Camden Gregory, starting at safety for the injured Moore, also made his first interception.

"It's a really cool thing to have that offensive chance while playing defense and do something you don't usually get to do while on D," Gregory said.

The 2-3 East Hardy Cougars travel to Pocahontas County this Friday, October 4, to face the Warriors at Warrior Field.

Kickoff is at 7:30 p.m.

Library, from page 3

network systems, we access other catalogs until we find the exact version in our library, then simply import the data.

That works because we've added metadata to tell the computer which sets of markings are the author and which sets the title and so forth. Without metadata, webpages are just meaning-

less markings to a computer.

The original source for metadata is the book's publisher. Everyone else either pulls the information directly from the publisher or pulls it from a catalog that pulled it from the publisher.

That's why, when you look up a specific book on Amazon or Barnes & Noble or Libby, you'll find exactly the same description at each place. Those descriptions were written by the publisher and imported automatically.

And that's how it all happens.

Thanks to those who wrote in with questions this week. I always love getting feedback—and especially love follow-up questions! (Providing information is, after all, one of the main functions of a library!)

If there's a topic you'd like to see covered or if you have follow-up questions about a column, drop me a line at joe@pocahontastimes.org

grown up around a good sized seng stock. Digging in, it was found the stalks all had sprung from the bud and a big root. I have known of a big seng root putting up two and sometimes three stalks in good growing years, but 50 or more is a freak which does best all.

My young friend Leslie J. Akers left some chestnut burrs at this office last week. He gathered them on Clover Creek, from green limbs on

trees more than half dead from the blight. For the good of the cause, these were sent on to the experimental farm at Morgantown.

BIRTHS

Born to Mr. and Mrs. Kenneth McGurk, a son, Kenneth Michael.

Born to Mr. and Mrs. Ray Bennett, of Cass, a daughter, Sandra Eugenia.

Born to M. and Mrs. Max Peterson, of Cass, A son.

bridged over...

WEDDINGS

An unostentatious and pleasant society event took place at the home of Mr. and Mrs. William McNeill, on Dry Branch of Swago, on September 28, at 4 p.m. when their daughter, Miss Nebraska Joanna and Othello Hunter Kee were joined in the holy estate of matrimony by Rev. W. T. Price, an elegant ring being used in the ceremony,

The bride is a well-known teacher in public school. The groom, eldest son of Aaron Kee, has been for some years, attached as a guard at the Weston Hospital. An inviting repast enjoyed by twenty or more guests, was served at the home of the bride, and a reception was tendered at the home of Mr. and Mrs. Aaron Kee on Friday.

Mr. and Mrs. Kee departed for Weston Monday, which will be their home for the time being.

A society event was solemnized at the home of the bride near Glade Hill

Wednesday, September 27, 1899, at 9 a.m. when F. H. Warwick and Miss Bertie Nottingham were united in holy wedlock. The bride is a daughter of Mrs. Harvey Nottingham, and the groom is a son of P. J. Warwick. At 10 a.m., Mr. and Mrs. Warwick left on a bridal tour to Washington.

Miss Nora Boblett and Mr. Seymour Gladwell were married at Marvin Chapel September 27, 1899. This church was decorated with autumn flowers. A large number of friends witnessed the ceremony. Miss Nora is an excellent young lady and Mr. Gladwell is a young man of promise. We wish them both great prosperity.

of Marlinton, widow of James A. Burgess. Born at Woodrow, a daughter of the late John W. and Margaret Barlow.

BIT OF HUMOR

Adolescence is a period of rapid changes. Between 12 and 17, for example, a parent ages as much as 20 years.

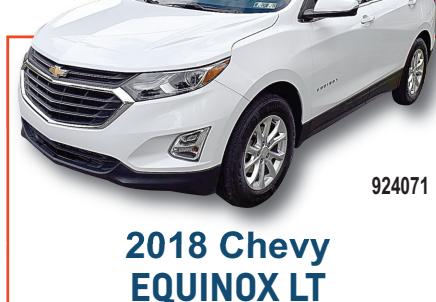

Maybe grandma had more time to cook because she didn't have to spend so much time reading the ingredients on the label.

The doctor told my friend he needed more leafy greens in his diet, so he switched from martinis to mint juleps.

Poverty is a condition we try to conceal at the time, and then brag about it later in our memoir.
