Welcome to the Department of Physics & Astronomy. Here is some information that you might find helpful about the MS Physics with Teaching Emphasis (MPTE) program and what & how to register for classes.

HOW TO ACCESS DEGREEWORKS

Below are the instructions for accessing the DegreeWorks screen in myLeo:

DegreeWorks

Degree Works is where your degree plan is managed. It will display:

- Degree requirements
- Courses you’ve taken and final grades (R=registered so there isn’t a grade yet)
- GPA
- Advisor
- Earned hours
- Academic standing, etc.
You can locate your faculty (academic) advisor in DegreeWorks. Under Student View there is a heading called ‘Advisors’. There you will see two names:
- Louis Lufkin (is the graduate enrollment specialist for the CS program)
- The second name will be the physics faculty who is your Academic Advisor for the MS Physics with Teaching Emphasis program
