

# COSMIC REBIRTH OF THE NEW EARTH

## A Global Crucifixion and Resurrection

*“Beloved, these are times when every man must be awake and at his post, for none can tell the hour nor the day when man shall be revealed.*

*“The self and greed and doubt will rage into a fever heat, and then, because of me, (Christ) the earth will be baptized in human blood. But right is king, and when the smoke is cleared away the nations will learn war no more; the Prince of Peace will come to reign.”*

Humanity is undergoing a global crucifixion in order for a great divine collective resurrection to take place. Yeshua, Jesus, came not to create peace but to first stir up strife and we are in the midst of the living and experiencing of the zenith of that strife now. Our Age, the Aquarian Age, is pre-eminently a spiritual age, when the great lessons and message that Yeshua gave to the world may now be comprehended by multitudes of people, for many are now coming into an advanced stage of spiritual consciousness. I speak not of the Jesus or Christ of any religion, for he created no church or religion, but was the true Mystical Christ.

It was foreseen and foretold by Yeshua that “demons will be stirred up, and nations, cities, and families would be at war within themselves. The five that have been dwelling in a home of peace will be divided now and two shall war with three. The son will stand against his sire, the mother and the daughter will contend. Yea, strife will reign in every home.” As we move into the Aquarian Age, which is destined to be pre-eminently a spiritual age, the spiritual side of the great lessons that Yeshua gave to the world may now be comprehended by multitudes, certainly by those who now are indeed coming into greater states of enlightening awareness.

There are those who have oceans traversed, oceans of time and the seas of destiny, to prepare for you the new shores. They have long been laying the foundations for the new civilisations of light, the avant-garde of the new humanity, and they wave to you now from the new shores. They shine their beams from the lighthouses and broadcast across the oceans the clarion call of the new humanity.

The call is of the Holy Trinity, to be embodied within humanity. What are these three of the trinity? The God of Might, the God of Wisdom, and the God of Love - the sceptres of Might, of Wisdom and of Love. These are the qualities to be embodied in the second coming of Christ by all those who wish to be the bearers of the waters of the new consciousness of the birthing age. Divine Might, Divine Intelligence and Divine Love are not the characteristics of the faint-hearted but the work of uncovering, discovering, the Prince of Peace within, always doing the right (divine) thing, in order to become truly a king.

Love is the guiding light of the universe. It is the central column of light in the trinity, the heart of Universal Law. It is our divine essence, our divine heritage and our divine right. Source, Creator, Great Spirit, God, Goddess, in purest form is just Love. Love is all there is. The rest is a lie – an illusion you are enslaved to because you have forgotten. You have been asleep for more than a hundred thousand years and the divine prince who has come to awaken you from your deadly slumber is the Precession of the Equinox. The old paradigm is dead – wake up! God’s Will is being done! Wake up and live Love now or it will be the end for the slumbering ones!

What is Might? It is the life-force of The Divine – the breath of life that ignites the flame of the spirit, fills the vessel of the soul; that roars through gale-force winds and kisses you on the cheek in the breeze; it is the lapping of the waves that lap on the shores of golden sands and the force that crashes through waves to beat rock to sand. It parts the waters for those who seek sacred lands and quakes the earth when we have let go of God's hand. It is the knife that comes with love, weaver of wonder and the majestic architect of miracles.

And what is Divine Intelligence but the wisdom of initiation and illumination, of light and loss, the comprehension of karma and the integration of higher knowing, lessons learnt and loves grieved, letting go of attachments and accepting greater mysteries. It is the knowing that fear and excitement are but two sides of the same coin, that flip from hope and flop to disappointment, and hunger to greed. Divine Intelligence knows 'to be' is not to be attached, because all that exists is the I Am, that what is best to do might be not to do, and that we are here to be He – He who lived to show the possibilities of man, who said, 'What I have done all men can do, and what I am all men shall be. Intelligence is not the brain. As Stephen Hawking said, "the brain is a computer which will stop working when its components fail. There is no heaven or afterlife for broken down computers; that is a fairy story for people afraid of the dark."

Right now, the Collective is learning to walk blindfold in the dark, in the shoes of Yeshua, along the bed of an ocean, of which we have to part the waves. It is the Ocean of Consciousness, the ocean that connects who we have been with who we are here to be; with what we have been to what we are here to be, and how we have been to how we are here to be. We are all in this ocean right now, the ocean that connects the contents of old worlds with new, worn-out cultures with new inspired divine ways of being.

Are you swimming through rough seas or stranded on some remote shore on your knees? Are you floating on calm waters or collecting driftwood to build your new world? Is your ocean warm and turquoise, clear, rippling, sparkling droplets of golden sunlight reflected in a million droplets of condensed pools of sunlight, or the stormy cold of the North Sea? Are you treading water wondering where to place your feet, surfing great Hawaiian salty waves or being gently rocked to a lulling shore of softly rippling baby white horses? Are you basking on a bountiful shore or swimming without a mask in the dark depths of deep sea praying for the light of dawn?

The ocean is the beginning of the earth - the birth of everything and the nascence of the new era. It moves in many mysterious ways, hides its depths and laps on shallows, opens its arms to take you where you need to go or swallow the old self's ego to wash you anew. Your emotional world is your ocean and the ocean within is your world - this ocean is all life for without it there is no life, no world. This ocean is the mirror of your world and when you sink within way, way, down into its depths, you find the essence of your soul.

This is the time of the great oceanic rebirth. So before you once more walk around this world take this time to rest on your ocean floor or float where the waters carry your life-force, open your eyes to the salty tears of Mother Earth and let the stinging purify your heart, and when the salt no longer burns, when the light can be seen from the immersion of your cradle lake, you will see where it is that your future beckons and know where to turn.

We are being asked to be still within amidst the storms. You may let the waves carry you to new shores, or need to swim with all fours. Let the ocean currents carry you, for they know where it is you need to go and how to get you there. Learn how to breathe under water and let go of all that does not matter. Only through the ocean within can you reach the new reality of golden shores.

This is the great planetary baptism. We, the entire human race, are being taken to the river of life that leads to the ocean of consciousness to be re-baptised – to be submerged under the waters of our souls and have our etheric bodies and fields washed clean. The original baptism as performed by John two thousand years ago was a ritual in which the protagonist was fully immersed three times in a rapid, full under-water dunking where they were held for three seconds because he knew that the rite performed in this way cleared the aura of energies and attachments. The baptismal rites of the church performed today of a few water droplets being symbolically dropped on the forehead are an empty and meaningless gesture, void of any semblance of real, energetic or spiritual effect - a mere theatrical performance whose symbolism is completely lost on the poor parishioners of the church's dioceses.

However, in this age of Aquarius, the water-bearer, the Feminine Christ is baptising humanity and the earth to clear the dregs of our his-story. The impurities of our being, the mud-ridden cloaks of the ages and papier mâché masks of the darkness of the past are being washed clean to be re-filled with the glorious light of the Divine Christ. John, the great harbinger of Yeshua two millennia ago, is come again as the messenger of truth and light come to pre-prepare us for the second wave of the Christ.

We are in the seasons when the sky and the moon exponentially determine the waters of our soul, revealing what is in our own ocean's depths and electro-magnetically, intuitively, revealing to us what lies within our own inner seas and how our soul is destined to be, when unmasked, liberated, free.

What has long been masked is fear of death. This fear is the huge, unconscious fear of death of the body and the ego. What goes hand in hand with the fear of death is loss (or fear of loss) because of the level of the human attachments that we form and the importance we attach to form. So, we grieve when someone dies, because they are lost to us. We don't want to experience loss but really the unbearable loss is of the connection to Spirit/God/Creator/Source/The Divine within. When we have that, we do not perceive loss in the same way; there may be grief, but ultimately there is just acceptance, understanding, compassion for others and self. As humans we want to stay with the people we love, and we have a great capacity to love, but we also have a great egoic capacity to 'attach' and forget our divine selves and The Divine within. The concept we need to grasp, the whole point of it, is that life is eternal. The soul existed before this life and will carry on at the end; we are not just a body.

Reincarnation is a fundamental tenet of life and its removal from the bible and religious teachings is possibly the greatest disservice ever perpetrated upon humanity. This was a gross manipulation by Christian Bishops at The Nicaean Councils in 325 and the 380's A.D, to empower the church and disempower the general populace for the purposes of manipulation and control. Every ancient spiritual tradition, from the Incas and the Egyptians to Buddha, the Native Americans to Christ and Lao Tzu, knew and understood the process of reincarnation and the laws of karma, and this fundamental spiritual precept was the axiom of civilizations far more advanced in power and wisdom than ours. It would bode us well to revise our own spiritual culture and awaken rapidly to our own true divine birth right.

This knowledge, that was a fundamental key to all spiritual practice, taught people how to take responsibility for themselves and how our lives were about spiritual evolution and consciousness. With the removal of that from the bible, we've lost the key to that education that makes the only real sense of what life is all about. When people talk about the spiritual, they are alluding to what actually is the fundamental creed of human existence and a natural

ability or consciousness that every human has the potential to access within but sadly has become something supernatural and really extraordinary. It has become polarized, but in actuality the spiritual is the real you, the real divine connection, the guru that exists inside you, inside of all of us, your Divine Intelligence.

The soul knows everything - you just have to learn to listen to it and let it tell its story then you can start to live the life of our dreams. Extraordinary healing happens all the time with diseases (dis-ease of the soul), in the cases of so many illnesses that doctors can't heal. The experience of death and dis-ease is to learn, to let go of the attachment to the physical world, connect deeply to *Spirit*/The Divine, and to come back into the knowing of oneness and that life is eternal and what happens is that when we get that enlightenment, which is really the absolute, cellular, knowing that life is eternal, there is no more need to keep reincarnating and learning lessons because you've learned *the* big lesson, got it in every cell of your being. You are eternal, and you can say to whoever/whatever, "It's okay, I love you, go, Bless you, the Divine, God is within me, I'm okay, I'll see you again, in this life or the next, see you there, I know you're there and I'm here. We are connected always through the ethers and the veil is thin once we pierce it".

The unconscious creates outside of itself and this reality we are currently experiencing has been manifested, created, because people were already living in a manifest reality of not breathing and feeling. People have long been scared to breathe. That is why they are masked, not because they want to wear a mask, but because if they breathe, they feel, and they do not want to feel. If they are not breathing, they are not getting oxygen to the brain, igniting Divine Intelligence. They not getting oxygen to the lungs which is a reflection of their inner manifestation of fear of life, but they are also not getting oxygen to the heart, Divine Love, or energizing their life-force, Divine Might. Where is the Divine Right to Live, to breathe, to think to love and to speak? Masked behind the loss of Divine Consciousness, Christ, people are living within the manifest reality of the fear that already exists within the unconscious, of separation from the Divine which results in ultimate loss of self.

This global crucible is the divine plandemic, an experience of death for us to learn, to let go of attachment to the physical, material world, connect deeply to *Spirit*, and to come back into the knowing of oneness and that life is eternal. We, as a human race, are learning to dance with fear and death, with grief, fear of loss, the grief of loss, attachments to things, people or places and realisations of what we most deeply love – all the experiences that either leave one wanting to freeze or flee, die or fight to come back to life, to live, to learn and to love. We are never alone unless we chose not to remember we are 'one' with that Christ of Divine Might, Divine Intelligence and Divine Love.

What is truly uncanny and extraordinary is the potential of healing at this level to create quantum shift in all areas of people's lives, here and now, whether you believe in past lives or simply relate to it as part of the great unconscious, the quantum soup. There are unseen masters, who can guide, heal and transform you, talk to you and show you the levels of truths and the layers of reality in different dimensions that exist beyond our reality. Those layers are actually part of our story and evolve us spiritually, giving us greater capacity to connect to high levels of truths.

We are bigger than any story and that is the greatest truth that comes home to one as one enlightens. There are layers upon layers of stories, hidden truths and meanings, and this narrative elicits in us the awakening to that journey to Truth, higher wisdom, spiritual connection and knowledge and cellular experiences, not intellectual concepts we merely pay lip-service to. This awareness, and the practice of it, takes discipline, commitment and a

willingness to drop the ego continually in order to delve more and more deeply and discover the unfathomable Great Mystery, as the Native Nations of the land now named America, call God. It is a much better name: Creator, Great Spirit, Great Mystery, God, whatever you like to call it, it is essential now to come to terms with this Universal Force, this Source, if we wish not just barely to survive, but to thrive and create a future worth living.

We are at a pivotal time when everyone on the planet is wondering what happens next. Where are we going? What can we do? How do we create a life worth living and what do we really want or need to do? Folk are wondering, have we lost the last shred of our dignity along with our true sense of intelligent spirituality? In a world that is dying because there is fear of death and true spiritual power - we have almost completely given up the essence of our humanity and, when did we?

The most devastating blows, maybe ever, to human consciousness were those perpetrated by the church when reincarnation and karma were removed from the bible. Those tenets were the essential shards of true Christic consciousness that made sense of human life, gave it real meaning and purpose and explained why we are here, who we really are and all the amazing things we can be. Yeshua said, "What I do, you too shall do and more," and now is the time every one of us is called to discover, if we don't already know, the true essence of who Yeshua was in order to know ourselves in our own true divine power and light, for the planet is now going through mass crucifixion, and we have no choice but to be transfigured through the flames of this purging pain that threatens to drive us either into self-extinction or rise up like the phoenix from the ashes of our shredded dignity into resurrection of our divine essence.

How bad does it have to get? How bad does it have to be? How stripped naked of self-respect, truth and love for our fellow human beings can we surrender to being? No striped suits and barbed wire this time - just masks and fear of death is all it has taken to strip us of our humanity. As Primo Levi, Italian author and Holocaust survivor, said, "This is not a man." We are more than this. We are divinely inspired, infinite humans with divine power beyond our imagining. And now, for the first time in history, from Lemuria to the 21st century of our known chronology, we have the opportunity to rise as a collective Christ Consciousness and claim our true divine inheritance. In our heart of hearts, in the field beyond where ego resides, there is love. Not just a pretty little heart with a temporary embrace, but a great big quantum field of unity of the soul where we can live as a conscious humanity.

Two thousand years ago the consciousness of love was robbed. It was taken from Divine Human, kidnapped and hidden in the Underworld by patriarchal rulers of various religions because of their fear, not only of Divine Power but especially of Divine Feminine Power. Why? Because they saw, and they knew, that the power of divine love in union, the power of the Divine Feminine, which is Intuition and Healing, would liberate humanity and take it out of their control.

Remember, Yeshua, (Jesus) was Jewish and deeply trained in the pure, mystical tradition of those people's even more ancient spiritual tradition, from which the Rabbinical patriarchs of

various splinter groups dethroned the Goddess Shekinah and her spiritual role and hid this fundamental spiritual gnosis and its feminine practices from their people - for fear and control. This same fear, this same power, and this same dynamic is playing out and has recycled through the timelines to align at this time for a grand reunion and the final curtain on the patriarchal limitation and control drama that has ruled humanity to culminate in these soul-crucifying times.

Very many people who are living through this experience now were here two thousand years ago. Many more carry the memory of earlier time-spaces as well as those Yeshua times in their genetic DNA, and everybody on the planet today is connected to those times by a universal thread that vibrates right through the Collective. Whether you were there two thousand years ago, you choose to believe or not to believe in reincarnation and karma, whether you are 'spiritual', a scientist or a politician, you, we, are all living out a collective drama on a world stage at its final curtain of a multi-millennial epoch.

The numerous alignments and timelines that are merging in our current planetary experience include the end of Atlantis when that civilisation destroyed itself with technology, the American war of Independence and cessation from British monarchic rule, as well as the nineteen thirties when the world was being onslaughted by dark political control, whether it be communism or fascism, from Chairman Mao, to Stalin, Adolf Hitler and the United Kingdom and the United States and Japan, all of whom were complicit in, and largely funded by, the same dark patriarchal entities. That said, maybe the most important time-space confluence is the merging of consciousness from the very beginning of the cycle we are in the culminating finale of now and that was two hundred millennia and two centuries ago.

Two-hundred-thousand-two-hundred years ago, before the time of the Land of Eden, reptilian forces invaded Earth. They swept across the planet in waves of darkness and destruction that plummeted humanity into hellish realms of lower consciousness, seeding negative codes and slashing splits through humans' RNA and DNA that to this day still exist in the basic structure of our physical matrix. These splits created a rift in three particular areas: between The Divine Masculine and Feminine, human essence and spirit essence, mind and emotion. Unconsciously or consciously, people are tangibly feeling the split now because the 'past life' (in the 3d timeline) of the old souls who were here two-hundred-thousand-two-hundred years ago is now resurrected for healing and transformation in order to move beyond that old polarity paradigm.

That is not the only timeline of which we are facing an intersection. Commensurately there is the timeline of Atlantis, when a great rift was created by technology, that allowed another flood of lower consciousness, self-serving entities onto the planet who intervened and seeded human DNA and RNA with lower negative coding.

The next main time of alien intercession in human consciousness was two thousand years ago when Yeshua became planetary Christ. At that time there was a massive wave of cosmic weaponry and possession of humans and the earth that split earthly consciousness into two repelling electro-magnetic fields, effectively blocking the ability of Yeshua and His wife, Sahra, to fulfil their joint mission of re-unifying in enough people the Divine Masculine and Divine

Feminine within. In effect their success, which was known to be a difficult challenge at that time, would have assisted ninety percent more humans to embody a true, unified Christic consciousness, not of the Church, but of the authentic mystical Yeshua Emmanuel, Christ and Sahra, Christess (Christed Feminine). The inability of enough humans two thousand years ago to accept and follow the path they seeded on earth has resulted in the extreme deterioration and descent of human consciousness into the darkness of alienation, separation and karmic abyss we see around us in the world shadow today.

Now, especially between 5th August 2020 and November of this year, we have an unprecedented opportunity to heal and transform the cellular and soul memory of these splits and negative codes in our DNA and RNA and evolve exponentially into Divine Union, living in harmony and beneficence with Yeshua and Sahra, the Seventeenth Dimensional God/Goddess of our Solar System who are guiding the planet forward into the Golden Age.

How do we heal the splits in the Collective that have forced so much fragmentation of soul and spirit, of duality between higher and lower realms of consciousness and created the wide chasms of dense space where so many are not really 'at home' and have been reduced to vacant space for migrant demonic squatters? Is there really a way?

The answer cycles back round to two millennia ago when Yeshua and John the Baptist, Sahra and Mary Magdalene incarnated together. They are the Cosmic Christic mirror of the foundational key splits in our human psyche and exist-stance, for the four of them embodied the essential aspects of Cosmic Christedness and the key areas where humanity's core DNA and RNA had become polarised. They came to Earth together at that time to be living examples of this. They were, and are, the quadruple flames that have danced the directions and elements of time space. At that time the Divine Masculine was killed and its space on the planet was fully usurped by Luciferian and Satanic forces, as was that of the Divine Feminine who had to go into hiding where She has remained for two thousand years. Now, however is the era of Aquarian Ascension that comes around every 28,600 years.

Aquarius, the air sign of the New Age, is already noted for remarkable inventions for the use of air, electricity, magnetism, etc. We navigate the air as fish do the sea, and send our thoughts spinning around the world with the speed of lightning. The word Aquarius, derives from the Latin word aqua, meaning water, however Aquarius is the *water bearer*, and the symbol of the sign is a man carrying in his right hand a pitcher of water. Yeshua referred to the beginning of the Aquarian Age saying, "And then the person who bears the pitcher will walk forth across an arc of heaven; the sign and signet of the Son of Man will stand forth in the eastern sky. The wise will then lift up their heads and know that the redemption of the earth is near." (Aquarian Gospel\* 157: 29, 30.)

The Aquarian Age is pre-eminently a spiritual age, wherein the spiritual side of the great lessons that Jesus gave to the world may now be comprehended by multitudes of people, for many are now coming into an advanced stage of spiritual consciousness. Yeshua, John, Sahra and Mary came to Earth two thousand and twenty (approximately, but significantly symbolic) years ago to seed these four pillars of light into human consciousness and the earth. These four pillars are the two + two, symbolised by eleven-eleven (11/11).

Little has been known about John's life to date, however much more will be known in the coming years when secrets of his life are told that are revelatory in terms of a gnostic synthesis of the energetic symbiosis between these four. Some of the secrets of Yeshua and his secret wife are revealed in *The Sacrifice of the Golden Rose, Book 1 of the quartet, "The Book of Sahra, Jesus' Secret Wife,"*\* where we begin to see the relationship and the cosmic play between

Yeshua, Sahra and Mary Magdalene. More about John, who is here in the physical now, which is highly significant, is revealed later in the series.

Supremely relevant here and now, although Yeshua and John were Jewish they were not simply Jews. They knew that religion (etymology: Latin, re-law!) was the driving force that created the wedge of separation between humanity and The Divine. They were educated and initiated in the temples of Egypt and India, the Druids in Cornwall, Scotland and Gaul, by the Magi of Persia and mystics across continents from the Hebrides to Nepal, as were Mary and Sahra Magdalene who were Greek gnostic priestesses. The consciousness of The Divine that they imbued was seeded in a releasing of their immense spiritual osmosis across a large part of the world which lives on in the ethers, surrounding us in an invisible but tangible etheric emanation of Christ Consciousness. When one opens up to inner knowing, higher knowing, inner self, Higher Self, one's awareness expands into a merging with this love-light and this field becomes part of us and we become part of it.

In 1945, as the second (recorded in modern history) world war ended, a synchronistic and not insignificant fact in itself, a collection of sacred scrolls were discovered by a shepherd looking for a lost sheep at Nag Hammadi in Israeli mountain desert caves, where they had been placed by The Essenes for safe-keeping from the Romans. In these documents were teachings recorded directly by men and women who had been close to Yeshua during His life. We know them as the Gnostic Gospels.

In the Gnostic Gospels, Logion 22 of The Gospel of Thomas Yeshua said, "When you (plur.) are able to make two become one, the inside like the outside and the outside like the inside, the higher like the lower, so that a man is no longer male and a woman female, but male and female become a single whole; when you are able to fashion an eye to replace an eye, and form a hand in place of a hand, or a foot for a foot, making one image supersede another—then you will enter into the kingdom." He is speaking of the Divine Marriage, Divine Union within. We are dualistic beings until we make fully conscious, heal and transform separation to come into unity within. What is happening in the world right now is the mirror of our own collective soul. In the disconnection from others, our true essence and Nature, we see the mirror of all we have lost within.

The saying, "As above, so below, as within, so without, as the universe, so the soul..." attributed to Hermes Trismegistus in the Emerald Tablets, has never been more apposite than in the urgent requirements of our times. Yeshua taught us that the kingdom is inside of us, and it is outside of us. When we come to know ourselves, then we will become known, and we will realize that it is we who are the sons of the living father. But if we will not know ourselves, we dwell in poverty and it is we who are that poverty."

"Recognize what is in your sight, and that which is hidden from you will become plain to you. For there is nothing hidden which will not become manifest. Do not tell lies, and do not do what you hate, for all things are plain in the sight of heaven. For nothing hidden will not

become manifest, and nothing covered will remain without being uncovered." Nothing can any more remain hidden and must be uncovered! It is written in sacred law.

These were prophetic teachings. Yeshua knew that the Age he was sowing the seeds for could not flourish two thousand years ago because, in the precessional cycle he was here to usher humanity through the rites of passage of its underworld (per the Piscean split of the two fishes swimming in opposite directions) in order to be resurrected and merge, becoming the fountain of life that pours forth the waters of temperance in the Aquarian age. That time is now.

Everyone, every single living human being, has within them the memory of all life that has ever existed on the planet for in the space time continuum we are all one. Beyond the confines of third dimensional, lateral-time reality, all-time is now. We exist within a quantum soup that is a melting pot of many civilisations of humanity and other worlds. In the soul memory, and in cellular memory, resides the still-living story of destruction of planets, falls of empires, earlier nuclear civilisations that ended in disaster, sacrifice of the spirit, crucifixion of the beloved, persecution of women, and enslavement of man. Now is the time when the coalescing of lives and times creates exponentially heightened awareness and soul memory of the sacred sciences.

One of the most important spiritual sciences to reclaim the use of at this time is numerology. Those in the secret corridors of power know this and use it to their advantage and it is paramount that those working for the light reclaim these sacred pathways through the space time continuum and re-embed in them the way of divine light. The sacred science of numerology is the secret language of the Universe. The numbers are hidden pathways that open doors of consciousness and time - they enable awareness to take giant leaps into an expanded experience of vast, metaphysical power that palpably vibrates through faster timelines.

We are collectively being reborn in 2020 because of an unparalleled divine alignment – a predestined time of the great cosmic rebirth of humanity. We are exactly at the end of the seventh full cycle of thirteen two-thousand-two-hundred-year zodiacal cycle of the precession of the equinox right now, two-hundred-thousand-two-hundred (200,200) years. The thirteenth sign of the zodiac was removed from sacred science teachings by the Vatican who were masters of these mystery school teachings but highly polarised into ego and wished to dominate through egoic power and rule over humankind. They removed the sign of the spider, which was the symbol and sign of psychic consciousness, intuitive powers, the weaving of webs with silver threads of light and the Great Mother. They usurped the medicinal teachings of the spider and its etheric field of consciousness was removed from the ethers of the earth and gradually eroded from human DNA.

The number twelve has been knowingly interwoven into spiritual teachings and human consciousness overshadowing the more significant number thirteen. Thirteen is a key number in the Golden Mean, golden ratio sequence. Thirteen, three plus one, becomes four, represented by the mighty incarnations two thousand years ago of John, Jesus, Sahra and Mary, and, moreover, thirteen was the actual number of disciples. Thirteen is also the most sacred number of Mayan cosmology, whose astonishingly advanced knowledge was based on the awareness of thirteen heavens layered in dimensions above the earth which hover above

the back of a giant reptilian monster floating on the ocean, with nine layers of underworld beneath the earth. In numerology nine is the number of karmic completion so humans have to be initiated through the nine realms of the underworld in order to ascend and become Christ, and there are nine faces, or aspects, of Christ\*.

The numerology of 2020 is also 4! Many of the problems of these seven cycles of thirteen ages could possibly not actually have been fixed until our year 2020 at the beginning of a new Ascent into the Aquarian Age. Numbers are the numerical corridors of the universe and the maps of how humans can navigate cosmic gateways. We are currently at the zenith of a major cycle in the time-space continuum when, in the spiral of the ages, the completion of the seven cycles of thirteen zodiacal ages is culminating this year, 2020. In 2020 the seven cycles of thirteen are a precise numerical gateway of alignment from the beginning of this cycle in time, exactly two-hundred-thousand-two-hundred years ago, when the reptilian forces known to the Mayans did in fact sweep across the earth super-imposing lower-density coding through human DNA.

If we look at the Pythagorean Skein (A=1, B=2, C=3 etc.) which applies particularly to the languages of English (the language of our age) ancient Hebrew and ancient Greek, we see confirmation that the numbers two four and eight have a particular resonant frequency that is reverberating through our times with a wave of divine consciousness and alignment that can change the course of our story through all time, infinity.

The number eight is the number of God ( $7+15+4/26/8$ ), Trust ( $20+18+21+19+20=98/17/8$ ), Faith ( $6+1+9+20+8=44/8$ ) and Karma ( $11+1+18+13+1=44/8$ ). Everywhere we look we see these numbers, two, four, eight because these are the numbers of the alignment corridors through the spacetime continuum into the New Golden Age. Everything that is taking place on earth right now is karma.

Yeshua and Sahra are now the seventeenth dimensional God & Goddess of the Aquarian age and humanity is completing the karmic lessons from Yeshua and Sahra's time. Seventeen is the highest sacred number on the planet today because it is the frequency of their dimension and their union, a sacred highway into their vibratory energy – 1, a new beginning and 7 spirituality ( $1+7=8$ ). Interestingly in Proverbs 17:17 “A friend loves at all times, and a brother is born for adversity”, which is largely the drama of our times.

Whereas eleven-eleven was the numerical corridor of the last twenty years of the last millennium and the first eleven years of this current one that awakened and activated lightworkers, seventeen is now the activation, alignment and attunement number of the Christed Feminine age. We are entering the quantum field of Christed Feminine frequencies. The Christed Feminine of the new era has never before been fully incarnated on planet earth. it has never been possible. Until now. Her frequencies, necessary for the ascension of both masculine and feminine, manifest when the individual is ready, in the form of a thousand suns which are eventually experienced through the full rising of the kundalini, from toe to head and right through the body, glitteringly lit up by a blinding golden light that bursts through the physical and subtle bodies, illuminated by thousands of brilliant golden suns.

In the true teachings of kundalini, there are seven streams of energy, not three. Again, this has been drastically reduced by false intervention in the sacred sciences. The full kundalini

rising of the Sacred Feminine in full union with the Sacred Masculine manifests in seven types of flame that rise up through and around the feet and the top of the head, not just the base to the crown.

On August 5<sup>th</sup> 2020, (August =  $8 + 5 = 13$ ,  $+2+2= 17$ ) the doorway to clear karma of the past two-hundred-thousand-two-hundred-year age was closed. On that date new laws of karma were made manifest by Yeshua and Sahra and programmed into the earth and human consciousness. These are 'The 17 Edicts of the New Laws of Karma' that over-ride previous karmic laws, which have been abused and corrupted by means of black magic and satanic rites into false permissions, and determine the consciousness that has to be aligned to and prevail as we stand on the threshold of the new Golden Age. In the corridor of space-time between 5<sup>th</sup> August and the 11<sup>th</sup> November 2020 ( $11+11+2+2=8$ ) there is a massive spring-cleaning of old karma, a revealing of negative karmic stories, encompassed in a great burst of Divine Love, Intelligence & Might that is the breath of divine life blowing away the cobwebs of dark control and literally breathing a new life flame into the human race.

There are four dates in 2020 when we have the exponential relationship energy of the twos. The first two (4) were in February (2<sup>nd</sup> February and 20<sup>th</sup> February) when this prevailing darkness was globally unleashed into our world. The second two (4) are on 2<sup>nd</sup> and 11<sup>th</sup> November. The 2<sup>nd</sup> and 11<sup>th</sup> November are the final rescinding of old karmic legacies, cycles and patterns. By the 22<sup>nd</sup> November ( $22+11+2+2=10/1$ ) we will be in the manifest new beginning of the rapid implementation of the 17 New Laws of Karma and the potential dissolution of the low-density off-planet energies that have been controlling the general population of humanity. Between 2020 and 2022 we will have the clearing out of these self-serving forces and their replacement with the Christic Feminine and Masculine Consciousness of the 17<sup>th</sup> Dimension.

22 is the master number of building reality, or partnership, of healing separation and division and of learning, and coming into divine unity. The Logion of Thomas 22 so beautifully and significantly depicts this. This is the age of unity of the splits and Divine Union of the two. It is no coincidence that in 2020 we are in various planetary alignments of 22 degrees. What is happening now in the governing consciousness of our Collective, is that the secret governing powers of the planet know this. This ancient hermetic knowledge has been removed from the mainstream, but it lies in the vaults of the Vatican and the palaces of The Masons, Secret Governments, Kings and Queens, and they use it, as must we. We can determine the fate of our reality if we navigate the corridors of numerology for the higher good and turn back the wave of darkness that wants to engulf humanity.

The more people that share the truth the more we spread the light and the more we spread the light the more these numerical highways cannot be hijacked, allowing more and more people to turn back to the light. This is the way through. As we unravel the truth of what has prevailed through our world for millennia, memory that lies buried deep in the unconscious is triggered. We have been the darkness and we have been the light. As we have come to the time when the past is to be buried, and with it the lessons, the pain and the playback of old karma, we are called to go deeper and deeper into our own unconscious, where we are connected by millions of golden threads, to the Collective Planetary Consciousness, to heal, once and for all, the pain of duality and separation.

Yeshua said, "If I tell you one of the things which he told me, you will pick up stones and throw them at me; a fire will come out of the stones and burn you up." That fire is coming in the cosmic breath of the new earth re-birth.

"Tell us how our end will be," they asked Yeshua. He replied, "Have you discovered, then, the beginning, that you look for the end? For where the beginning is, there will the end be. Blessed is he who will take his place in the beginning; he will know the end and will not experience death."

The beginning for some was maybe Atlantis, perhaps the nineteen-thirties and forties, or possibly even twenty-twenty. We face the final doorway of the choice between living in an old dualistic patriarchal reality or stepping into the divine light of eternity. For those who know not what you do, this is the last call for you to wake up to the reality of your world and rise up to create the world you want it to be.

The Divine Feminine within is being recognised and honoured and is now called upon to speak up from the essential core of all our divine being. The feminine is the key. Yeshua is not returning in the physical this time. The Christ of this Aquarian age is a She. The Divine Feminine is leading the way now, Yeshua, Christ of the past age at Her side. Women in this lifetime are here to learn and transform the lessons of the throat chakra, men the heart. It is the union of these two within, the male and the female, the voice and the heart, the left brain and the right brain and the divine self and the human. As above, so below. 'As within so without,' Logion of Thomas 22.

Each person must wake up to their innate spiritual intelligence which guides every one through their soul evolution. When people realise they have the potential and the power deep in their own psyches, their our intuition, their deep inner knowing, their body's intelligence and their spirit's connection to Source to heal any dis-ease, and that any imbalance in their physical body's life is merely a symptom of a forgotten part of their consciousness, they are no longer held sway by the prevailing medical paradigm of disease.

This time is a calling for attention to remedy a situation that needs massively re-balancing, to transform the lesson of collective dis-ease and his-story into the greatest gift of love. Reincarnation, as the fundamental tenet of all ancient spiritual religions and traditions, including Christianity, is of the most paramount and essential import because it teaches eternal life and divine love.

When eleven thousand (11,000) people have attained a great enough level of Christ/Christess Consciousness, they can manifest the full potency of Divine Love, Divine Intelligence and Divine Might to contain the demonic, Luciferian, Satanic forces who will simply implode in the face of this divine might love-light.

John, Jesus, Mary and Sahra, in some form, are here with us now. All the secrets of their mastery and our reality are hidden deep in the fabric of our unconscious. Everything we are, ever have been or can ever be is waiting in our unconscious or higher consciousness to be unleashed, waiting to blossom through our life, body and soul into the incredible, unimaginable embodied experience of divine reality, divine connection, divine guidance and divine love of the divine human. This is our innate divine inheritance, just waiting for each one of us to move beyond limitation, step into our divine reality and bask in the ocean of Divine Consciousness. The ocean is the beginning of the earth. It is time now for our great cosmic rebirth and the Cosmic Rebirth of the New Earth.
