

# UNIT CELL OF 5D SPACE

## EPITAHEDRON ( $E_{\pm}$ )

### Origami Net Plan for 5D Geometry

Plato calls this occult polyhedron „Figure of Marriage“

– it is a pair and you need to print out two of them  
on hard weighty paper (ca. 120-150 gram)

#### Folding Instructions

- \* Cut out the figure along the dashed lines -----
  - \* Fold the Golden triangles along the yellow lines
  - \* Close the 5 triangles-fan-shape to a pyramid
  - \* Glue the pyramid on the pentagonal basis
  - \* Take one of them and push its „nose“ inside
- Congratulations !
