

Ascension is possible NOW!

By Jane Evershed

The heavens themselves are lining up to pull humanity out of the darkness, we are about to become fully realized fractals of God.

We are seeing and feeling the emergence of the true sacred geometry of the Krystal Spiral emerging beyond the false-light geometry of the Fibonacci spiral, AND we are seeing the end of the Kali Yuga.

We have the sun reconstituting our DNA back to its original 12 strand state, we have the Schuman Resonance at all time highs working with the Earth to facilitate ascension which would return to us to access to the magnetic, feminine matter-universe so that we can now be part of giving *birth* to the the New Earth.

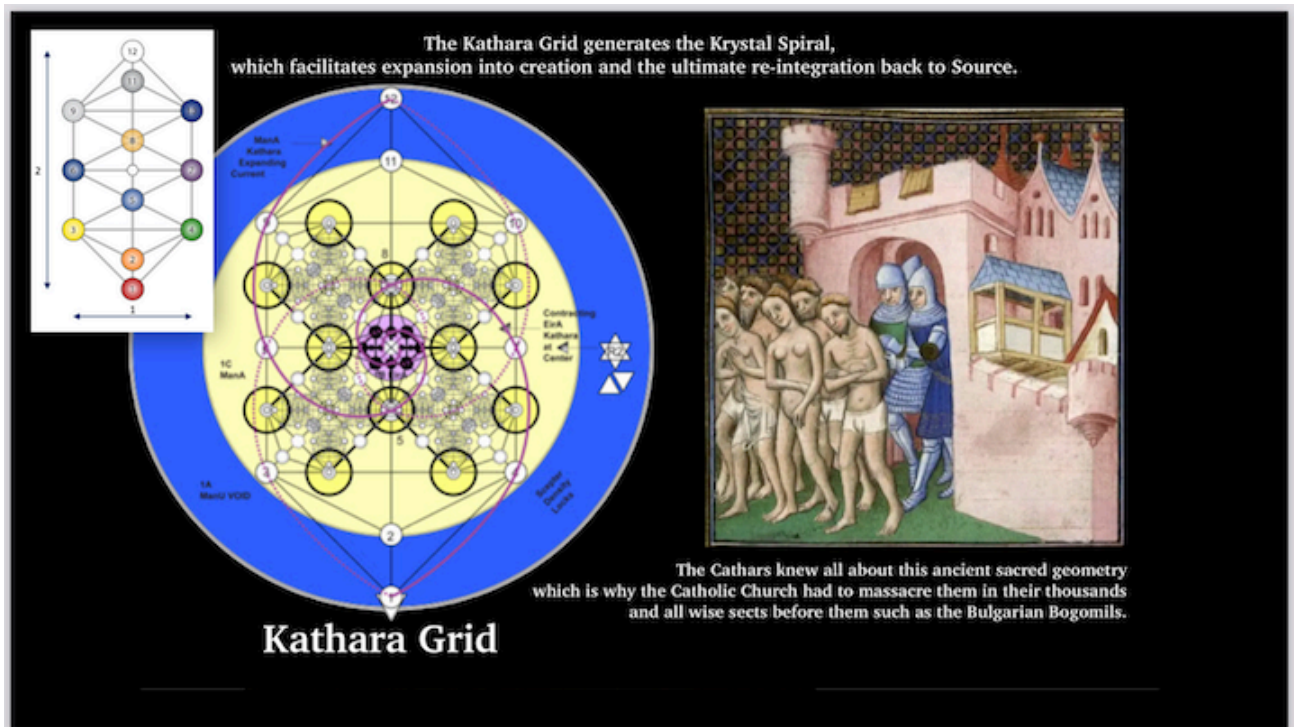

A beautiful aspect of this is:

These powerful energies are discarding the will of false idols on Earth.

The invaders are not connected to Prime Creator Source. They have no way out but to expire or leave.

Who are “THEY”?

They are the Fallen Angels such as Drakonians, Annunaki (not all but most), elite human-hybrids, Necromitons, Dracos, Zetas, Odedicrons, Omicrons, Fatale, Shat-tar-El and Theta forces that have occupied Earth along the aeons of time at some period or another.

Returning to the the Krystal Spiral now, it is the **primary spiral** that emerges from Source and carries the original creation encryption of the Kryst Code, hence the name Krystal Spiral. It is the Kathara Grid that *generates* the Crystal Spiral which facilitates expansion *into* creation and our ultimate re-intergration back to SOURCE.

The Cathars knew all about this ancient sacred geometry which was the **PRIMARY REASON** that the Catholic Church had to massacre them and all the other wise spiritual sects that came before *them* such as the Bogomils of Bulgaria, and on and on back through time.

Yuga Cycle: 4.32 million human years.

Time (kala) is described as eternal.

"Time" is an 'unreal' concept that does NOT exist in the Original of All-That-Is First Creation

There are 4 ages on earth which keep circulating:

Satya Yuga - 1.728 million years

Treta Yuga - 1.296 million years

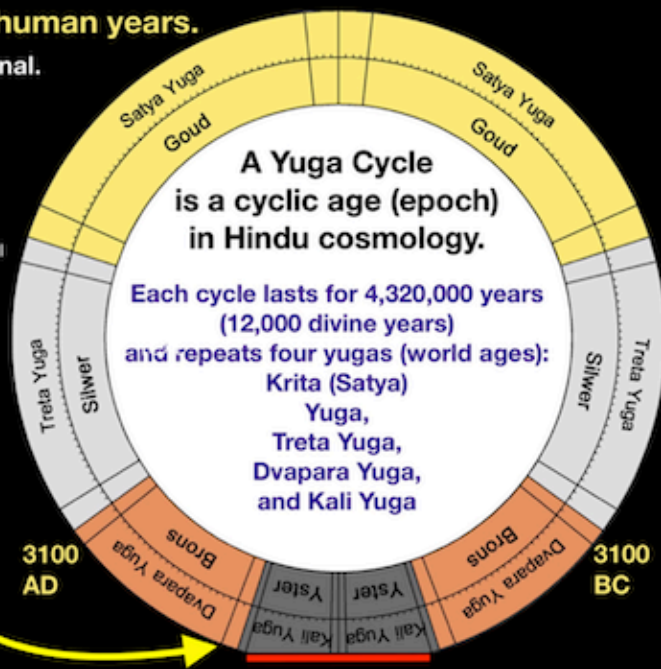

Dwapara Yuga - 0.864 million years

Kali Yuga - 0.432 million years

Hindu units of time are described in Hindu texts ranging from microseconds to trillions of years.

We are arising from 1000's of years of slumber

YOU ARE HERE

Returning to the **Kali Yuga** now, the complete Yuga Cycle of 24,000 years is comprised of an ascending and descending Yuga cycle, which follow each other for eternity like the cycles of day and night.

However humanity has been on a path of destiny for the last decade or less, toward the Original of All-That-Is, because we have been moving outward and upward away from the dark lower realms of the **Kali Yuga**.

The **Kali Yuga** and **Krystal Spiral** phenomenons happening almost simultaneously, within six weeks of each other shows that our universe is lining up from a sacred geometric *and* an aeonic perspective.

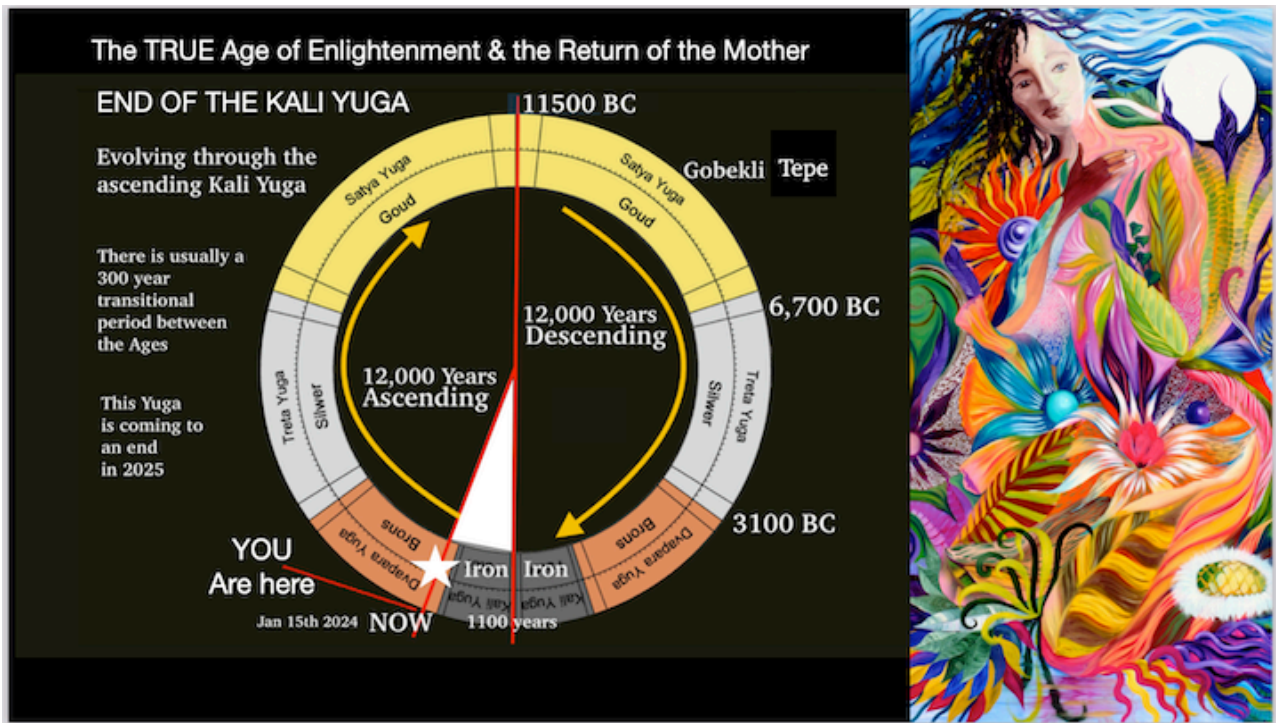

In the past we have *tried* to claim our sovereignty and declare ourselves absolute and fully actualized but we have not had these **epic** event elements, of the wisdom of the Cosmos behind us, covering our backs. Now as we witness the winds of the heavens at our back, our self-actualization and sovereignty and eventual ascension is finally possible!

As I said, these events, born of Prime Creator Source are causing the will of the false idols on Earth to fade. Our adversaries of the ages have no way out **but** to expire or leave. Their future is as stardust.

The endless 4.32 million human year cycle since the beginning of the Yuga *and* the latest 24,000 year period comprising the ascending and descending halves of the completion of ONE Kali Yuga Cycle releases us now into a higher frequency realm of existence.

As a human species we have been evolutionary challenged on many fronts, but in addition, for 210,000 years there have been NO processional equinoxes that have occurred on our Earth to spur our conscious evolution forward. We have missed many opportunities to ascend and expand into the higher universes and dimensions as we were *supposed* to. We have missed eight of these equinoxes over “linear time”.

Did the the archon/invaders take advantage of the lapse in the equinoxes to move in on humanity? Is this why they stepped so confidently into our time/space realm, knowing that we were evolutionarily challenged and vulnerable? Probably, as they spliced our genes and dreamed of how they would use our divine Creation Currency to promote **their** agenda of full spectrum dominance. They wanted slaves and breeders, nothing more.

Now, the **true** Age of Enlightenment IS finally upon us. Do you remember studying the Age of Enlightenment also known as the age of Reason? It was an intellectual and philosophical movement in Europe, in the 17th and 18th centuries, which paved the way for the **globalists** and their post-humanist agenda of today.

That “Age of Enlightenment” set the stage for the philosophies and spirituality of the Indigenous peoples as well as that of Woman to be **forever excluded** from contributing to our collective conscious human evolution. That was the False-light Age of Enlightenment, the age of **Patriarchal Reason** that sought to maintain the expulsion of the Mother from this realm. Hold on to your hat, here comes the Age of Enlightenment complete with the wisdom of the Eternal Mother and all Original Peoples about to be unleashed.

Humanity has been for far too long, hopping along on one leg without the input of the wisdom of *over half* the people in the world. These great cosmic changes will begin to facilitate OUR Creation Currency to be fused into our future through Unity Consciousness.

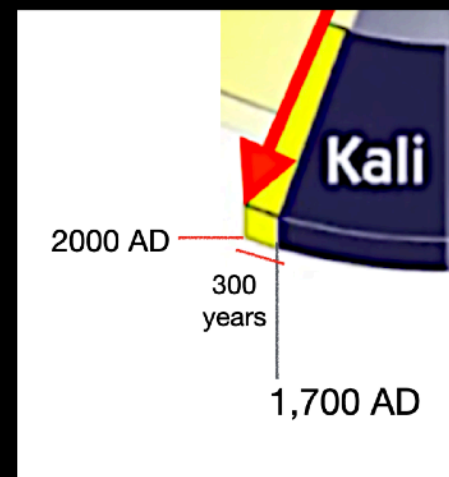

We can no longer be used as slaves for the old agenda where we were dictated to by what I call the the Khaziorim: a shortened term for all the Fallen Angels such as Drakonians, Annunaki (not all but most), elite human-hybrids, Dracos, Zetas and Theta forces that have occupied Earth along the aeons of time at some period or another, culminating in an on-the-ground invader group that can be broken down into the Khazars, the Zionists, the ancestors of the Elohim.

Is the 300 year transition period of the Yuga behind us?

The Four Horsemen of the Apocalypse

The most powerful period in the galaxy right now.

So the next big question going forward: Every epoch of the Kali Yuga comes wrapped in a transition “bow” which usually lasts about 300 years as we pick ourselves up and dust ourselves off. Is this 300 year transition period of the Kali Yuga behind us or in front of us?

I believe we have *already* transitioned! The 1,700 AD to the year 2000 AD marked on the Yuga shows that we have already traversed the transition period, showing on the clock of Aeons that we are almost a quarter century past at the minute of 2024.

Also I do not believe that the end of this Yuga was, as in the past followed by huge cataclysmic earth changes and civilization collapses as was characteristic of the transitional periods before this. The transition has been a more gentle one, more in alignment with Prime Creator Source frequencies. As far as civilizational collapse we will probably see the end of government as we know it but this time they will not take down society with them when their function is outmoded.

We have seen much evidence of chaos, the collapse of systems that no longer serve us and many weather related phenomenon but not the deluges and ice-ages of the past. Much of weather related damage we now know is generated by HAARP and the use of DEW , Directed-Energy Weapons.

According to Anatoly Fomenko, Joseph Scaliger added a 1000 years of fabricated history to our time line. So at first I was concerned about the thousand years embedded into the historical timeline because this would mean we still had 1000 years to go before the end of the Kali Yuga!

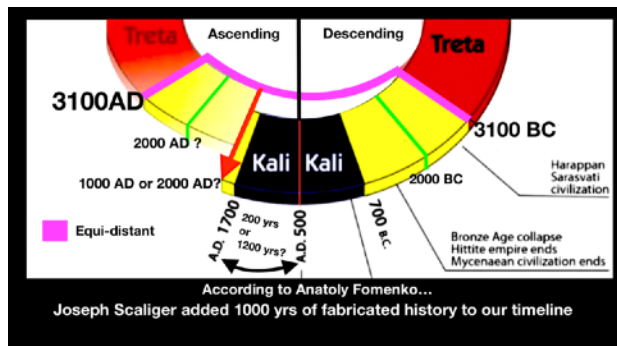

In the grand scheme of things it doesn't matter because the time insert was just numbers on paper and it didn't change time itself. It did however accomplish the goal of having humanity collectively

believe that events of great consequence on earth

happened far in the distant past and not as recently as they in actual fact did.

The power of **divine intervention** is far greater than a little demonic Jesuit such as Joseph

Scaliger working feverishly during the Renaissance to establish a lasting academic foothold.

Interestingly there is a very optimistic caveat to end on here as, David Emery, Archeo-cosmologist, says that we have a **cosmic fail-safe mechanism** in place!

“There is another ‘self’ of Earth, just as we have ‘other selves’ throughout the Cosmos. This ‘other’ Earth is known as Urtha and life is more expanded and enlightened there. The fail-safe kicked in at the end of 2012 but was finalized in December of 2016 with the activation of Earth’s Nomi-Code.

Earth herself chose to ascend OUT of this *universal blend* and into - another - alongside Her ‘other self’.

This means that She and we (who choose to go with Her) will move into a track of time far, far, far ahead of us here - in this time-cycle! Many, many thousands of years ahead in the Cosmic Time-Cycle progression.”

So that takes care of Scaliger and his 1000 year time insert too. These times are indeed momentous so at all times be vigilant of your frequency, keep it as high as possible and do not feed the Beast with your energies. Above all, implement your Divine Creation Currency toward the New Earth that we can now build together without the impediment of overwhelming dark forces. The true Age of Enlightenment is here!
