

A photograph of several small green seedlings with heart-shaped leaves growing in black plastic pots filled with dark soil. The image is partially obscured by a large white diagonal shape that separates the header from the main content area.

Suzano's *Sustainability* Strategy

Find out here the long-term goals that will guide our Sustainability Strategy for the next few years.

Be even more climate positive

Net removal of 40 million tons of carbon from the atmosphere¹

Mitigate income inequality

Zero people below the poverty threshold in our area of influence (~200 thousand people)

Substitute plastics and petroleum derivatives

Offer 10 million tons of renewable products

ENERGY

Increase renewable energy exports by 50%

CLIMATE CHANGE

Reduce specific emissions by 15% (scope 1 and 2)

FOREST WATER

Increase water availability in 100% of critical watersheds

INDUSTRY WATER

Reduce water withdrawal by 15%

WASTE

Reduce waste sent to landfill by 70%

DIVERSITY AND INCLUSION

Guarantee 100% accessibility and inclusive environment and zero prejudice against people with disabilities
Reach 30% minimum of women and blacks in leadership roles
Guarantee 100% inclusive environment and zero prejudice against LGBTI+

EDUCATION

Increase the Brazilian Education Index (IDEB) by 40% in our area of influence

The first three goals represent accumulated for 2030, the others are to be reached in 2030, except for Diversity and Inclusion (2025).

¹ Balance between emissions (scope 1, 2 e 3) and removals (scope 1).

Suzano supports the Sustainable Development Goals
