

## 2020 GRAND PRIX RACE RULES & REGULATIONS

1. Race Car Block/Wheels/Axles: Must be wood purchased from SCC for this specific event and have never been raced prior.
2. Race Day Curator: 50% or more of car should be child's creativity and construction.
3. Race Car Dimensions: 7" long max, 1.75" min to 2.75" max in width, 3" high.
4. Race Car Weight: Maximum of 5.5 ounces.
5. Race Car Wheels: Can be polished but not cut down. "Awana" must be legible on wheels.
6. Race Car Wheel Base: 3.75" (as is on the Stonebriar wood block without change.)
7. Race Car Ground Clearance: 3/8" of an inch so car doesn't drag on track.
8. Race Car #: Must be visible from back of car. # will be emailed to participants after registration closes and before turn in.

### Race Car Submission Deadline, Sunday, July 19th

Details on where and when to be emailed to registrants.

Your car must be officially turned in to our "Pit Crew" and will be checked to ensure your car meets all regulations.

#### Disqualifications include but not limited to . . .

1. Dimensions that exceed measurements above.
2. Weight greater than 5.5 ounces
3. Use of spacers, wheel bearings, bushings, washers, and springs on wheels are not permitted.  
(No objects can be between the original block of wood and the wheels or axles.)
4. Use of starting devices and/or lubricants that leave a residue. (use graphite only)
