### Aston Martin DBX: Accessories

#### Accessories Highlights:

- **Clever accessory solutions to seamlessly incorporate DBX into all lifestyles, 11 optional lifestyle accessory packs with wide range of individual accessories**
- **Range of accessories ensure that DBX can be tailored to the lifestyle needs and pastimes, such as golf, skiing, cycling, field and adventure sports. Practical load space size and shape ensures DBX can carry luggage, equipment or pets equally**

DBX may be a luxury SUV with sports car performance, but a range of accessories have been created that will transform DBX into a car that will not only enrich the lives of its owners on the road, but in every other aspect of their everyday lives.

Set to be available at launch, 11 optional accessory packs will help tailor DBX to a broad range of pursuits and hobbies. If skiing is a passion then the Snow Pack provides a ski bag, roof-mounted ski rack – capable of carrying up to six pairs – and snow chains with an innovative ratchet system. This pack goes above and beyond the winter necessities. Reflecting the indulgence that you would expect from an Aston Martin, the Snow Pack also includes a boot warmer. In the same way that DBX's heated seats – offered as standard – are a cosy delight when climbing into the car on a cold morning, the boot warmer makes the first ski run of the day that little bit more pleasurable.

Available for grand tours or long weekends away, the Touring Pack comprises a four-piece luggage set, cabin saddle bags, lockable stowage under the front passenger seat and an emergency first aid kit. An even more extensive six-piece luggage set is also an option, with two large suitcases, two small suitcases and two holdalls, each one stitched and trimmed in the elegance of Aston Martin.

A Pet Pack includes a partition to give animals their own space in the boot of the car, keeping them from roaming inquisitively about the cabin. There is a bumper protector to keep the paintwork pristine when scrabbling paws are clambering in and out of the vehicle and in to the luxurious 632-litre boot space, which can be separated to the main cabin with a specially created dog partition. If muddy puddles have been an integral feature of a day's activities, then the portable washer - with 30 minutes of battery run time if required - is an ideal solution for keeping the countryside on the outside of the car.

If you simply wish DBX to provide a little extra cossetting on the school run or on the way to the office, then the Essentials Pack bundles together useful accessories like a centre console organiser, a rear seat entertainment holder and a heated cup which can remain to temperature through the warming pad located in the front cupholder. If the school run is likely to be particularly rowdy, then the Essentials Pack could be paired with the Interior Protection Pack, which provides seat covers, a rear bumper protector and all-weather mats throughout the car.

Of course, DBX is set to be equally adept at adapting to more social situations. The Event Pack will provide a modular picnic hamper, picnic blanket and event seating to cater for every occasion from Royal Ascot or Goodwood, to an impromptu *al fresco* lunch. Aston Martin is a British brand and naturally understands that the weather doesn't always align with the best laid plans. As such, the Event Pack also includes extra umbrella storage.

For those interested in field sports a gun cabinet and shooting stick package is also available. Crafted from the highest quality solid aluminium to ensure secure travel, the unit is fitted with an integrated lock for additional security. The shooting stick, a country classic, provides the perfect accompaniment for both shooting and walking. Crafted from high quality leather, the stick is fitted with a metal disk base to ensure a stable footing.

The options available within each of these carefully selected packages, encompass everything from exquisite details such as illuminated tread plates, polished carbon fibre tail pipe finishers and valve caps with Aston Martin wings, to larger options for carrying bicycles or surf boards on the roof. Suffice to say, Aston Martin has worked with its trusted brand partners to ensure that it is offering the best solutions to customers, whatever the usage, journey or destination.

While many options remain bundled together, Aston Martin will offer a variety of individual accessories too, including three special-edition Maxi-Cosi child and baby seats. All are recommended for use with Aston Martin's official 3wayFix ISOFIX base, trimmed in leather and are available for use with babies (45-75cm), toddlers (67-105cm) and children (15-36kg).

Aston Martin Lagonda President and Group CEO Dr. Andy Palmer said 'From the outset it was envisaged that DBX would become an integral part of customers' everyday lives. With the lifestyle packs I think we have been able to ensure that DBX is a vehicle that not only enables but also enhances experiences.'

Pricing for each of these specific optional accessory packs are available from local dealers now.
