

FLAT WRAP

Upgrade Existing Fences or Concrete Walls to a Higher Security Level With Flat Wrap.

PRODUCT DETAIL

Features & Benefits

Brief Introduction

Flat wrap razor wire is a new type of razor wire fence. Unlike concertina razor wire, the flat wrap razor wire is fabricated by a single strand of razor wire but clipped to make the flat sheet in a vertical direction.

The application of high-tensile steel wire makes flat razor wires extremely sturdy. Various blades are available for the flat wrap to meet different satisfactions at Skyhall Fence.

Plan to upgrade any existing fences or concrete walls to get higher security? The economical but effective flat razor wire will be a perfect choice.

Protection Level

Applications

Functionalities

HIGH SECURITY

The flat wrap razor wires will help to improve the security of the previous traditional fences by the sharp blades. That will effectively prevent any intruders and provide expected protection to the owners inside.

VARIOUS TYPES

Flat wrap wires in different diameters are available to meet different needs, and you may also make a practical choice among various blades.

EASY INSTALLATION

It's easy to fix the flat wrap coil onto existing metal fences like palisade fences, chain link fences, or even concrete walls. Additionally, its neat appearance will balance the aesthetics and function perfectly.

SURFACE TREATMENT

The flat razor wires are pre hot dipped galvanized to fight against corrosion and provide longer service.
