

EURO FENCE

Elegant and Practical Fencing Solution for Field Protection.

PRODUCT DETAIL

Features & Benefits

Brief Introduction

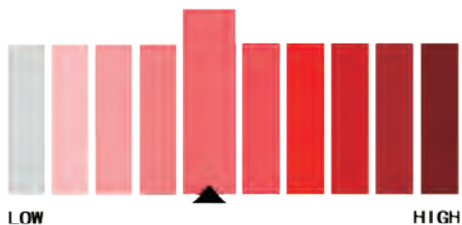

Euro fence is also known as Holland fence or welded rolls. It is highly praised for its wide applicability due to its economical and practical features.

SKYHALL® Fence uses low carbon steel wire as the fence wire. The fence surface is pre hot dipped galvanized and then PVC coated. That makes fences durable enough to fight against the harsh environment of bad weather, UV radiation and assures you of long-term use.

Apart from that, the soft roll mesh is welded by wave-shaped wires. This special treatment makes the fence firmer and more beautiful. Soft fence panels are connected to the post by "C" type metal clips, making the fence quite easy to be erected.

Protection Level

Applications

Functionalities

ATTRACTIVE DESIGN

The horizontal wires of the Euro fence are wave-shaped, which on one hand increases the sturdiness of the fence, and on the other hand, makes it appear more beautiful.

COST-EFFECTIVE

If you need a large number of fences but with a limited budget, then Euro fence is the priority. Its economical feature will definitely meet your needs for low cost but still keep the high level of a project.

WIDE RANGE OF APPLICATIONS

It is mainly used as the protective belt on both sides of breeding farms, highways, railways, and bridges; Isolation and protection of parks, lawns, zoos, lakes, roads, and residential areas; Protection and decoration of hotels, supermarkets, and entertainment places.

EASY TO INSTALL

Nothing could offer peace of mind than getting the easy-to-install fence when your project is approaching the deadline. Euro fence is just that kind. You just need to install the post, connect the fence roll to the post by using the included clips and tools, then come to the end of the story.

AVAILABLE COLORS

All colors are available here for the Euro fence, however, we recommend the Dark Green of RAL6005 as a reference because many customers pick it for project orders.
