

530 SERIES PEDESTRIAN GUARDRAIL

PEDESTRIAN GUARDRAIL

Protect Walkways and Create Safe Zones
to Prevent Accidents.

PRODUCT DETAIL

Features & Benefits

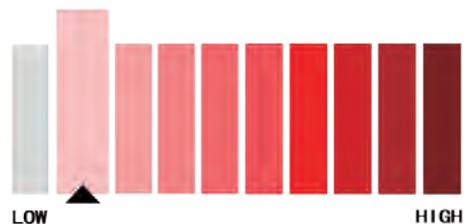

Brief Introduction

When vehicles move alongside people, pedestrian guardrails will protect walkways and create safe zones to prevent accidents.

Pedestrian guardrails from SKYHALL® Fence are welded from rectangular tubes with their surface pre hot dipped galvanized and then polyester powder coated.

Horizontal gaps designed at the top of each panel are sight gaps or vision gaps. That distinguishes our pedestrian guardrails from the normal ones.

Protection Level

Applications

Functionalities

DURABLE

All pedestrian guardrails manufactured by SKYHALL® Fence are made from mild steel, a cost effective and strong material that makes the guardrails durable.

EASY TO INSTALL

Guardrail panels can be installed to the posts fast and tightly by bolts. Coming with a full set of fittings, it will save you time and cost in installation.

SPECIALITY

The appearance is beautiful and simple, and complements the existing traffic signs to create the urban road traffic landscape. Remind drivers to pay attention to the surrounding environment, prevent pedestrians from crossing and avoid accidents.

FEATURE & BENEFITS

The pedestrian guardrails are pre hot dipped galvanized and then polyester powder coated, resistant to rust and corrosion, little maintenance is needed.

AVAILABLE COLORS

All colors are available here to make a different pedestrian guardrail, however, we recommend Silver and Cream as the reference colors since they're classical and quite popular among our customers.
