

520 SERIES PALISADE FENCE

PALISADE FENCE

Formidable Long-Lasting Barrier
Against Would-Be Intruders

PRODUCT DETAIL

Features & Benefits

Brief Introduction

Palisade fencing systems are designed to provide a formidable long-lasting barrier against would-be intruders. One of the main pros of palisade fencing is its intimidating appearance.

At SKYHALL® Fence, palisade fences with W or D section pales are classical. You may find an ideal design for the pale top from a variety of choices. For example round, single, or triple pointed, etc.

Complying with BS 1722-12:2006 fence standards, our palisade fences are very popular with customers from the UK, US, Australia, New Zealand, Ireland, Uganda, and the Middle East.

Protection Level

Applications

Functionalities

VARIETY

Currently, palisade fences with popular W and D pales are normal products at SKYHALL® Fence, and each type of pale can be matched with round, single or triple-pointed heads as per the requests of different projects.

VERSATILE

This type of palisade fence could be widely applied in many places for either residential or commercial use, and the value-added point is it can be used for a variety of terrains.

ANTI-THEFT

Palisade fences are distinguished by their intimidating appearance, which can effectively prevent any scaling or intruding, thus making your property totally secure.

AVAILABLE COLORS

All colors are available here for the palisade fence, however, we recommend the following three colors since they are quite popular among our customers.
