

# 415 SERIES DELINATOR

## DELINATOR

PE Body, Rubber Base, Bright Reflective Sticker, Rebound After Impact.

### PRODUCT DETAIL

#### Features & Benefits

##### Brief Introduction

Traffic delineators are also narrowly known as bar barriers. They are an excellent way to mark the edge of any roadway or path. Traffic delineators are usually installed to ensure vehicles and traffic stay within designated areas.

Traffic delineators from SKYHALL® Fence are made of high-density PE plastic. They are paired with reflective tape, a retractable belt mount, and a black rubber base.

With high quality, our delineators can return to their upright position and proper shape after being run over by a car. And the vibrant colors make them highly visible.

#### Protection Level

#### Applications

#### Functionalities

## MUTCD COMPLIANT

Our flexible traffic delineators are excellent in directing traffic and all of them are MUTCD compliant. If your goal is to delineate or guide traffic through a work zone area, then these traffic delineators are a good choice.

## IMPACT RESISTANT

Made of high-density polyethylene, our traffic delineators are 100% impact resistant. And the quality rubber base can also withstand crushing from cars.

## REUSABLE

These traffic delineators are reusable due to the flexible character and reliable quality. They can be removed and applied to other areas for traffic channelizing once the current environment doesn't need them anymore.

## WARNING FUNCTION

In the daytime, the color is striking but not dazzling. At night, the lattice membrane can reflect bright light, reminding the driver to pay attention, and reducing the accident rate.

## AVAILABLE COLORS

All vibrant colors are available here for the traffic delineators, however, we recommend orange and Cream White of RAL9001 as the reference colors since they are quite popular with most of our customers.

### DELINATOR

POST HEIGHT	POST SIZE	POST MATERIAL	BASE SIZE	BASE MATERIAL	RESILIENCE OF IMPACT
1000	60	PE PVC	145	RUBBER	AVAILABLE
1000	70		200	RUBBER	

**CUSTOMIZED** specifications acceptable.
