

FARM FENCE

Stop Animal Attacks Meanwhile
Manage Animals Effectively.

PRODUCT DETAIL

Features & Benefits

Brief Introduction

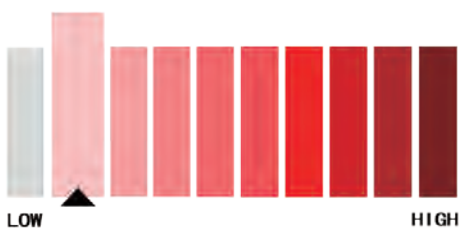

Farm fence, also called field fence, is woven by high tension steel wire and low carbon steel wire. It's strong enough to withstand pressure from animals.

The woven mesh adopts wave rolling technology, which enhances its elasticity and cushioning function so that it will not be deformed due to cold and heat.

Farm fences from SKYHALL® Fence are usually woven with fixed knots or hinge joint knots, subject to our customer's requirements.

Installing a farm fence is quite easy, what you need to do is just fix the meshes to the T posts with the help of accessories.

Protection Level

Applications

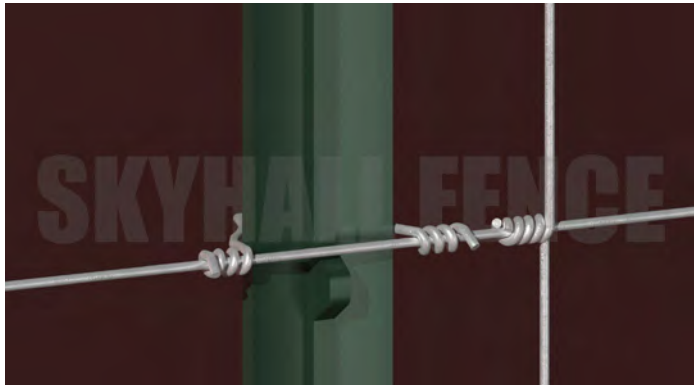

Functionalities

ECONOMICAL

Unlike welded mesh fences, the production of farm fences is less complicated therefore reducing the cost largely and making it one of the economical fences preferred by farm or pasture owners.

DURABLE

Processed in a rolling way, the farm fences are characterized by high elasticity and buffering function, enabling the fence to keep a tight state whatever the temperature is.

DENSITY DIFFERENCE

Spacing between the horizontal wires increases gradually from the bottom to the top of mesh panels. The density difference is designed to prevent the little rodents or animals from getting through.

EXCELLENT PERFORMANCE

Even if it is cut partially, the farm fence will not get loose and deformed easily. And the installation is quite easy to be finished by connecting fences to the T posts.

SURFACE TREATMENT

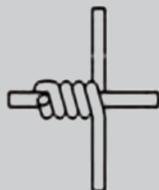

Farm fences are pre hot dipped galvanized to fight against corrosion and provide longer service.

FARM FENCE

STRENGTH SECTION	WIRE SECTION	SELVEDGE WIRE	TENSILE STRENGTH	LINE WIRE	TENSILE STRENGTH	STAY WIRE	TENSILE STRENGTH
LOW TENSILE	LIGHT	2.5	600	1.9	600	1.9	400
	MEDIUM	3.0	600	2.5	600	2.5	350
	HEAVY	3.7	550	3.0	600	3.0	350
HIGH TENSILE	LIGHT	2.0	1050	1.6	1050	1.6	600
	MEDIUM	2.5	1050	2.0	1050	2.0	600
	HEAVY	3.0	1050	2.5	1050	2.5	600

FARM FENCE

HEIGHT RANGE FROM 530-2200

HEIGHT	ROLL LENGTH	VERTICAL WIRE SPACING	TWIST JOINT TYPE	SURFACE TREATMENT
530 ~ 2200	50 M	150	 WOVEN HINGED JOINT	HOD DIPPED GALVANIZED WIRE GALFAN WIRE
	100 M	300		
	150 M	450		
	200 M	600		

CUSTOMIZED specifications acceptable.
