

CONCERTINA RAZOR WIRE

Upgrade Your Metal Fences to a Higher Security Level With Concertina Razor Wires.

PRODUCT DETAIL

Features & Benefits

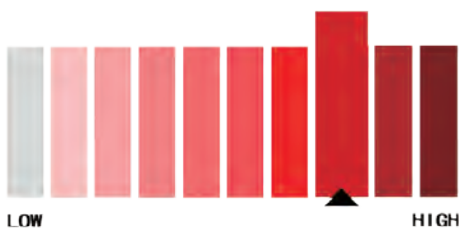

Brief Introduction

The concertina razor wire from SKYHALL® Fence is a type of jagged wire produced from steel wire of high tensile strength.

It is manufactured in large coils which can be expanded like an accordion. The concertina razor wires are characterized by the razors around the main wires.

A variety of razors are available at SKYHALL® Fence to meet different customers' requirements for different projects. You may also check our security wire series for other razor wire choices.

Protection Level

Applications

Functionalities

HIGH SECURITY

The concertina razor wire is characterized by its galvanized accordion coil and the razors on it. The sharp edges largely increase razor wire's defensive performance, making it difficult for intruders to pass through or make any damage.

SUITABLE FOR VARIOUS FENCES

Concertina razor wires could be combined with various fences like chain link fences, palisade fences, welded wire fences to become a high security fence system.

DIVERSE RAZORS

SKYHALL® Fence provides quality concertina razor wires with various types of razors to satisfy different projects' requirements.

SURFACE TREATMENT

Concertina razor wires are pre hot dipped galvanized to fight against corrosion and provide longer service.
