

I-526 LCC EAST MAINTENANCE ACTIVITIES

What's happening with the Wando Bridge?

- ▶ Additional strengthening and water sealing to both bridges has been completed
- ▶ Numerous improvements made internal to the structure
- ▶ New technology installed to provide 24/7 monitoring of both Bridges
- ▶ Repairs to known deterioration will be completed this year (2020)
- ▶ All remaining activities should be completed during night time lane closures only
- ▶ For updates and lane closures, visit www.scdot.org/travel/travel-wando-closure.aspx

Why does SCDOT perform Vegetative Management?

- ▶ Cutting and maintaining vegetation in Clear Zones to improve safety
- ▶ Clear Zones along pavement edges help motorists stay safe when vehicles leave the road
- ▶ Improving ditch drainage and access to ditch line and fencing for maintenance

DID YOU KNOW?
The majority of fatal crashes in SC involved contact with a fixed object

Brush Management for Interstate Routes
