Attention: Mr. Rick Day, P.E., Vice President
Rick.Day@stantec.com

Reference: **Phase I Environmental Site Assessment**
I-526 Corridor Improvements
Charleston County, South Carolina
S&ME Project No. 1413-15-112

Dear Mr. Day:

S&ME, Inc. has completed a Phase I Environmental Site Assessment for the referenced project. The attached report presents the findings of S&ME's Phase I Environmental Site Assessment which was performed in general accordance with ASTM E 1527-13 and as authorized by Stantec. Based on the findings of the Environmental Site Assessment conducted on I-526 Corridor Improvements, we identified recognized environmental conditions per ASTM E 1527-13.

S&ME appreciates the opportunity to provide this Phase I Environmental Site Assessment for this project. Please contact us at your convenience if there are questions regarding the information contained in this report.

Sincerely,

S&ME, Inc.

Norvin C. Duncan
Environmental Professional

Executive Summary

S&ME, Inc. (S&ME) has completed a Phase I Environmental Site Assessment (ESA), in general accordance with American Society for Testing and Materials (ASTM) E 1527-13 for the site described herein as I-526 Corridor Improvements, or the subject property. Our services were authorized by Mr. Rick Day of Stantec Consulting. This summary is intended as an overview of the Phase I ESA, for the convenience of the reader. The complete report must be reviewed in its entirety prior to making decisions regarding this site.

The subject property is the expanded rights-of-way of portions of Interstate 526 (I-526), portions of Interstate 26 (I-26), and portions of certain intersecting roads and approaches. The subject property includes a portion of Paul Cantrell Boulevard near Tobias Gadsen Boulevard to an area west of Charlie Hall Boulevard. Additional improvements along I-526 are planned at the connections with I-26, Rivers Avenue, North Rhett Avenue, Virginia Avenue, and at the interchanges of International Boulevard, West Montague Avenue, Dorchester Road, and Leeds Avenue. Improvements along I-26 extend from an area southeast of West Montague Avenue northward to an area near the Eagle Drive overpass. The length of the subject property along I-526 is approximately 10 miles. The width of the subject property varies.

S&ME previously performed a Phase I ESA on a portion of the subject property in a report delivered to Stantec dated September 8, 2017. Modifications and additions to the areas of the subject property have been made since the September 8, 2017 was submitted.

S&ME contracted Environmental Data Resources, Inc. (EDR) to conduct an environmental database search of the subject property and the surrounding area. Portions of the subject property area were listed in the databases reviewed. Numerous off-site facilities were also listed on the environmental databases reviewed within the specified search distances.

We have performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E 1527-13 for I-526 Corridor Improvements, the subject property. Any exceptions to, or deletions from this practice are described in Section 10 of this report. This Phase I ESA has revealed no evidence of recognized environmental conditions in connection with the subject property, except for the following:

1. Based on its proximity to the subject property and past documented contamination, the LS Starrett (Evans Rule Division) site at 6555 Fain Street which is subject to Voluntary Cleanup Contract (VCC) #11-5732-NRP is considered a recognized environmental condition.
2. Based on its proximity to the subject property and past petroleum release that was issued a Conditional No Further Action (CNFA), the property located at 6549 Fain Street, Montague Industrial, is considered a recognized environmental condition.
3. Based on its proximity to the subject property, the North Charleston Post Office (built on a former landfill) located at 6401 Rivers Avenue is considered a recognized environmental condition.
4. Based on current use of underground storage tanks (USTs) and previous release of petroleum products currently under investigation by the South Carolina Department of Health and Environmental Control (SCDHEC), the property located at 6355 Fain Boulevard, South Carolina Department of Transportation (SCDOT) District 6 Lab, Sign Shop, and Maintenance Facility is considered a recognized environmental condition.
5. Based on its proximity to the subject property, the former Westvaco Landfill located west of Fain Boulevard is considered a recognized environmental condition.

6. Based on its proximity to the subject property, past petroleum release, and current use as a retail petroleum outlet, the Fast Point 53 located at 5995 Rivers Avenue is considered a recognized environmental condition.
7. Because of its proximity to the subject property and past petroleum releases, one of which was issued a CNFA, the former Amoco retail petroleum outlet located at 6001 Rivers Avenue is considered a recognized environmental condition.
8. Based on its proximity to the subject property, past petroleum releases, and current use as a retail petroleum outlet, Mizzell's Exxon located at 5998 Rivers Avenue is considered a recognized environmental condition.
9. Based on its proximity to the subject property and past petroleum release that was issued a CNFA, the property located at 2353 Aviation Avenue, former El Cheapo's retail petroleum outlet, is considered a recognized environmental condition.
10. Based on its proximity to the subject property, the Rivers Refuel, LLC site at 5830 Rivers Avenue which still has an active petroleum release under assessment, is considered a recognized environmental condition.
11. Because it appears to be within the boundaries of the subject property and auto repairs are performed at the business, Jones Ford Auto Dealership located at 5757 Rivers Avenue is considered a recognized environmental condition.
12. Because of proximity to the subject property and current use (JD Byrider used cars) that includes auto repairs, the North Boland Circle Site located at 2930 North Boland Circle (also known as 5689 Rivers Avenue) is considered a recognized environmental condition.
13. The former Credit Cars of Charleston UST site, also located at 5689 Rivers Avenue, which had a past petroleum release that was issued a CNFA, is considered a recognized environmental condition.
14. Because of its proximity to the subject property and a CNFA that was issued for a past petroleum release, the N Boland Circle Site located at the southwest corner of Rivers Avenue and North Boland Circle at the Gas Light Square shopping center is considered a recognized environmental condition.
15. Based on its location, current use of USTs and previous release of petroleum products currently under investigation by SCDHEC, the 7-Eleven / Rivers Place Holdings site located at 5710 Rivers Avenue is considered a recognized environmental condition.
16. Based on its proximity to the subject property and unknown regulatory status, the former Altman Dodge car dealership at 2049 Remount Road that has been assessed under a VCC with the SCDHEC is considered a recognized environmental condition.
17. Based on its location and regulatory status, the former Dryclean USA /Garrett Dry Cleaning facility site at 5634 Rivers Avenue is considered a recognized environmental condition.
18. Based on its proximity to the subject property and past petroleum releases that are still under assessment, the former Circle K 270882 at 5154 North Rhett Avenue is considered a recognized environmental condition.
19. Although no release was noted for the fuel aboveground storage tank (AST) of the emergency generator of the sewer transfer station located at 5251 Virginia Avenue, it is located within the boundaries of the subject property and represents a potential threat. Therefore, it is considered a recognized environmental condition.
20. Although a suspected petroleum release from a UST was issued a no further action (NFA) in 2017 for Quality Transport located at 1003 Lincoln Avenue, it is also a petroleum product transportation service and based on its proximity to the subject property, it is considered a recognized environmental condition.
21. Based on its proximity to the subject property, the Kinder Morgan bulk petroleum storage/refining facility located at 5165 Virginia Avenue is considered a recognized environmental condition.
22. Based on its proximity to the subject property, the Buckeye Terminals bulk petroleum storage/refining facility (and former fertilizer manufacturing plant site) located at 5150 Virginia Avenue is considered a recognized environmental condition.
23. Based on its proximity to the subject property and its regulatory history, the Westvaco (Kapstone) paper mill located at 5600 Virginia Avenue is considered a recognized environmental condition.

24. Based on its location, the Annex to Charleston Naval Complex site that is still under assessment for chlorinated solvent and degradation byproduct groundwater contamination that is migrating northeast toward I-26 is considered a recognized environmental condition.
25. Based on its proximity to the subject property and past petroleum release that was issued a CNFA, General Battery listed at 2416 Air Park Road is considered a recognized environmental condition.
26. Based on its proximity to the subject property and past petroleum release that was issued a CNFA, the Circle K 2723691 located at 5302 Rivers Avenue, which is an active retail petroleum outlet, is considered a recognized environmental condition.
27. Based on its location and past releases, the Circle K 27233354 located at 5255 Rivers Avenue, which is still an active retail petroleum outlet, is considered a recognized environmental condition.
28. Based on its proximity to the subject property and operation of USTs and ASTs, the Sander's Brothers site located at 1990 Harley Street is considered a recognized environmental condition.
29. Because it appears to be within the boundaries of the subject property, the former Charleston Boat Center located at 5133 Rivers Avenue, which is subject to VCC 10-5864-NRP and has recorded groundwater and land use restrictions, is considered a controlled recognized environmental condition.
30. Based on its proximity to the subject property and past petroleum release that was issued a CNFA, the Buchanan Volkswagen site listed at 5130 Rivers Avenue is considered a recognized environmental condition.
31. Based on its proximity to the subject property, current operation as a petroleum storage facility, and an active petroleum release that is under assessment by the SCDHEC, the CEL Oil Products and Dutton Storage, LLC site located at 5402 Dutton Avenue is considered a recognized environmental condition.
32. Based on its location, the Sander's Brothers site listed at 4970 Lacross Road that has four abandoned USTs and an active petroleum release that is under assessment is considered a recognized environmental condition.
33. Based on its location, the Coburg Dairy / Borden Dairy facility at 5001 Lacross Road, a handler of toxic chemicals, is considered a recognized environmental condition.
34. Based on its location and past petroleum release that was issued a CNFA, the former Kwik Fill at 2988 W Montague Avenue is considered a recognized environmental condition.
35. Based on its location, Blue Water 7 located at 2941 W Montague Avenue, which is an active retail petroleum outlet, is considered a recognized environmental condition.
36. Based on its location, Circle K at 2957 W Montague Avenue, which is an active retail petroleum outlet, is considered a recognized environmental condition.
37. Based on current use of USTs and previous release of petroleum products, Sunoco at 3564 W Montague Avenue, an active retail petroleum outlet, is considered a recognized environmental condition.
38. Based its location and current use of a UST, Rivers Edge Marina located at 4354 Bridge View Drive is considered a recognized environmental condition.
39. Based on its proximity to the subject property, Classic Dry Cleaners at 2177 Ashley River Road is considered a recognized environmental condition.
40. Based on its proximity to the subject property, use of ASTs, and past documented polychlorinated biphenyl (PCB) soil and groundwater contamination, the SCE&G Crew Quarters Site (Dominion Energy) at 900 Savage Road is considered a recognized environmental condition.
41. Based on its proximity to the subject property, Costco located at 3050 Ashley Town Center Drive, which is an active retail petroleum outlet and auto repair facility, is considered a recognized environmental condition.
42. The US Defense Fuel Support Pipeline that delivers aircraft fuel to the Charleston Air Force Base via underground pipelines that route nearby and under portions of the subject property is considered a recognized environmental condition.
43. Because trash and unknown waste could be encountered during any planned excavations, the former unpermitted landfill along Ashley Town Center Road is considered a recognized environmental condition.

44. Because buried asbestos waste could be encountered during any planned excavations, the unpermitted landfill areas located under I-526 near the Virginia Avenue exit is considered a recognized environmental condition.

Current chain-of-title, environmental lien, and/or activity and use limitations information were not provided by the user. This data gap is considered significant and is therefore considered a recognized environmental condition.

It should be noted that the above listed sites with confirmed or potential releases of hazardous substances and/or petroleum products might also represent a vapor encroachment condition by vapor migration through the subsurface. However, we understand that there are no plans to develop any inhabited building structures on the subject property that would represent a potential for exposure to vapors in an enclosed space.

1.0 Introduction

S&ME, Inc. (S&ME) conducted a Phase I Environmental Site Assessment (ESA) of the property described as Interstate 526 (I-526) Corridor Improvements in Charleston County, South Carolina. The subject property includes property located within and adjacent to the right-of-way of I-526, Interstate 26 (I-26), Rivers Avenue, Aviation Avenue, Remount Road, North Rhett Avenue, Virginia Avenue, International Boulevard, West Montague Avenue, Dorchester Road, Leeds Avenue, and Paul Cantrell Boulevard. The length of the subject property along I-526 is approximately 10 miles. The width of the subject property varies.

The Phase I ESA was conducted using the American Society for Testing and Materials (ASTM) E 1527-13, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process and as authorized by Stantec.

1.1 Purpose

The purpose of the Phase I ESA is to identify, pursuant to ASTM E 1527-13, recognized environmental conditions and controlled recognized environmental conditions in connection with the subject property.

ASTM 1527-13 defines the term recognized environmental condition ("REC") as the presence or likely presence of hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.

ASTM 1527-13 defines the term controlled recognized environmental condition ("CREC") as "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)".

ASTM 1527-13 defines the term historical recognized environmental condition ("HREC") as a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls).

The terms do not include de minimis conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be de minimis conditions are not recognized environmental conditions nor controlled recognized environmental conditions.

1.2 Detailed Scope of Services

1.2.1 *ASTM E 1527-13*

S&ME's approach to performing this ESA consisted of four major tasks in accordance with ASTM Standard Practice E 1527-13.

1. Task 1 - A review of reasonably ascertainable public records for the property and the immediate vicinity was conducted. This review was performed to characterize environmental features of the site and to identify past and present land use activities, on or in the vicinity of the site, which may indicate a potential for recognized environmental conditions. The review of the reasonable ascertainable public records included:
 - A. Examination of federal, state, tribal and reasonably ascertainable local public records for the *property* and immediate vicinity.
 - B. Examination of one or more of the following standard sources: aerial photographs, fire insurance maps, tax files, building department records, zoning/land use records, street directories and topographic maps of the site and vicinity for evidence suggesting past uses that might have involved hazardous substances or petroleum products.
2. Task 2 - A site reconnaissance was performed to identify visual signs of past or existing contamination on or adjacent to the *property*. This reconnaissance was also performed to evaluate evidence found in our public record review that might indicate activities resulting in hazardous substances or petroleum products being used or deposited on the *property*. The site reconnaissance included the following activities:
 - A. A reconnaissance of the *property* and adjacent properties was performed to look for evidence of current and past property uses, signs of spills, stressed vegetation, buried waste, underground or above ground storage tanks, subsidence, transformers, or unusual soil discoloration which may indicate the possible presence of contaminants on the properties. Photographs are provided to document these conditions.
 - B. The exterior reconnaissance involved a viewing of the periphery of the *property* and a walk-through of accessible areas was performed of the site interior.
3. Task 3 - Interviews with past and present property owners, operators and occupants and adjacent property owners, operators and occupants, as well as with appropriate local officials were attempted to consider any local knowledge of hazardous substances or petroleum products on the property or on adjacent properties.
4. Task 4 - Report preparation and review.

1.2.2 *Exclusions from and Additions to Scope of Services*

Unless specifically authorized as an addition to the Phase I ESA work scope, the scope did not include any assessment of environmental conditions not specifically included in ASTM E 1527-13 including, but not limited to sampling of materials (i.e., soil, surface water, groundwater or air), or the assessment of business risk issues such

as wetlands, lead in drinking water, asbestos containing materials, mold, fungi or bacteria in on-site buildings, regulatory compliance, cultural/historic risks, industrial hygiene, health/safety, ecological resources, endangered species, indoor air quality (including an evaluation of vapor intrusion), radon, or high voltage power lines.

1.3 Significant Assumptions

The groundwater within the local geologic province is typically contained in an unconfined (water table) aquifer. The slope of the water table under static conditions (no pumping interference) often approximates the land surface topography. Thus, the interpreted groundwater flow direction is assumed to be approximately the same as the slope of the ground surface. Perennial surface waters (creeks, rivers, marshes, lagoons, etc.) are assumed to act as a discharge point for groundwater flow.

1.4 Limitations and Exceptions of Assessment

This Phase I ESA was conducted using ASTM E 1527-13. The findings of this report are applicable, and representative of conditions encountered at the subject property on the date of this assessment and may not represent conditions at a later date. The review of public records was limited to that information which was available to S&ME at the time this report was prepared. Interviews with local and state government authorities were limited to those people whom S&ME was able to contact during the preparation of this report. Information was derived from "reasonably ascertainable" and "practically reviewable" sources in compliance with our understanding of the standards set forth by ASTM E 1527-13. Specific limitations to this assessment were that portions of the subject property are developed with structures, pavement, or covered with vegetation preventing the observation of the underlying surface in those areas. The review of aerial photographs was limited by the scale and clarity of the individual photographs, and some historical documents were not available in five-year intervals back to its first developed use, or back to 1940, whichever is earlier. At the request of the user, interviews with property owners were not conducted. Chain-of-title and a search for Environmental Lien or Activity and Use Limitations information was not provided by the user. The client did not complete a User Questionnaire.

1.5 Special Terms and Conditions

This Phase I ESA was authorized by Stantec and performed in general accordance with ASTM E 1527-13.

1.6 User Reliance

The resulting report is provided for the sole use of Stantec, the South Carolina Department of Transportation (SCDOT), and SCDOT Assignees. Use of this report by any third parties will be at such party's sole risk except when granted under written permission by S&ME. Any such authorized use or reliance by third parties will be subject to the same Agreement, under which the work was conducted for Stantec and SCDOT.

The additional party's use and reliance on the report will be subject to the same rights, obligations, and limitations imposed on the client by our Agreement. However, the total liability of S&ME to all parties of the Phase I ESA shall be limited to the remedies and amounts as provided in the Agreement as a single contract. The additional party's use and reliance on the report shall signify the additional party's agreement to be bound by the proposal and contract that make up the Agreement between S&ME and Stantec.

According to standards set forth by ASTM E 1527-13, certain components of the Phase I ESA will expire 180 days from the date of initiation of that component and will therefore require updating if the date of use exceeds this time period. The following table lists the dates of initiation for pertinent components:

Table 1-1 – Dates of Initiation for Phase I ESA Components

Component	Date of Initiation
Environmental Database Search	March 5, 2020
Site Reconnaissance	March 10, 2020
Interviews	March 13, 2020
Environmental Lien Search	Not Provided by the user
Environmental Professional Declaration	Date of Report

2.0 Site Description

2.1 Site Location

The subject property comprises portions of I-526 and I-26, and portions of certain intersecting roads and approaches in Charleston County, South Carolina. Figures depicting the approximate boundaries of the subject property and the identified recognized environmental conditions (RECs) are included in Appendix I.

2.2 Site and Vicinity Characteristics

The subject property is a portion of a public highway system that routes through portions of the City of North Charleston and the City of Charleston in Charleston County, South Carolina. Developed properties in the vicinity of the subject property are generally used for commercial and residential purposes.

2.3 Current Uses of the Property

The subject property is currently used for travel by public motorists.

2.4 Site Improvements (Description of Roads, Other Improvements on the Site)

The subject property is primarily developed with paved roadways and bridges associated with I-526 and I-26 and utility rights-of-way. Some commercial and residential properties located along the roadways appear to be within the boundaries of the subject property.

2.5 Current Uses of Adjoining Properties

Adjoining and surrounding properties primarily consist of commercial and residential development that include single and multi-unit buildings. Existing businesses in the immediate vicinity of the subject property include shopping centers, retail petroleum stations, restaurants, auto repair businesses, drycleaners, medical facilities, various retail stores, bulk petroleum storage/refining facilities, and multi-purpose office buildings.

3.0 User Provided Information

This section is provided to summarize information provided by the user that may help in identifying recognized environmental conditions. As indicated in the ASTM standard, the environmental professional does not typically generate this information.

3.1 Title Records

The user did not provide property title records.

3.2 Environmental Liens or Activity Use Limitations

A search for environmental liens or activity use limitation information on the subject property was not provided by the user.

3.3 Specialized Knowledge

No specialized knowledge was provided by the user.

3.4 Commonly Known or Reasonably Ascertainable Information

The user provided no commonly known or reasonably ascertainable information that is material to recognized environmental conditions in connection with the subject property.

3.5 Valuation Reduction for Environmental Issues

The user did not indicate that there was a valuation reduction for any environmental issues.

3.6 Owner, Property Manager and Occupant Information

Property owner, property manager, and/or property occupant information was not provided by the user.

3.7 Reason for Performing the Phase I ESA

The purpose of this ESA was to identify, pursuant to ASTM E 1527-13, recognized environmental conditions in connection with the subject property.

3.8 Other

The user provided an aerial photograph depicting the approximate boundaries of the subject property.

4.0 Records Review

4.1 Standard Environmental Record Sources

S&ME contracted Environmental Data Resources, Inc. (“EDR”) to prepare a report compiling federal and state environmental database information from the regulatory records of the United States Environmental Protection Agency (“USEPA”) and the State of South Carolina. The purpose of the EDR Radius Map™ Report was to identify environmental sites and activities within a radius of potential concern from the *property*, as outlined by ASTM E 1527-13. The following table lists databases included in the search. The EDR report, including detailed descriptions of all databases, is included in Appendix II.

Table 4-1 – Federal Environmental Record Sources

Database	Approximate Search Distance
National Priority List (NPL)	1 mile
Proposed NPL	1 mile
DELISTED NPL	1 mile
NPL LIENS	Target Property (TP)
SEMS (formerly CERCLIS)	0.5 mile
SEMS Archive	0.5 mile
CORRACTS	1 mile
RCRA-TSDF	0.5 mile
RCRA-LQG/SQG/CESQG	0.25 mile
RCRA-NonGen	0.25 mile
US ENG CONTROLS	0.5 mile
US INST CONTROLS	0.5 mile
Emergency Release Notification System (ERNS)	TP
CONSENT	1 mile
US BROWNFIELDS	0.5 mile
Department of Defense (DOD)	1 mile
Records of Decision (ROD)	1 mile
Toxic Chemical Release Inventory System (TRIS)	TP
Toxic Substances Control Act (TSCA)	TP
Fed Insecticide, Fungicide, & Rodenticide (FTTS)	TP
PCB Activity Database (PADS)	TP
Material Licensing Tracking System (MLTS)	TP
Facility Index System (FINDS)	TP

Table 4-2 – State Environmental Records Sources

Database	Approximate Search Distance
State Hazardous Waste Site (SWHS)	1 mile
Landfills (SWF/LF)	0.5 mile
Groundwater Contamination Inventory (GWCI)	0.5 miles
Solid Waste Recycling Facilities (SWRCY)	0.5 miles
NPDES	TP
Drycleaners	0.25 miles
ALLSITES	0.5 miles
UIC	TP
Registry of Conditional Remedies (RCR)	0.5 miles
Underground Storage Tank (UST)	0.25 mile
Leaking Underground Storage Tank (LUST)	0.5 mile
Aboveground Storage Tank (AST)	0.25 mile
Activity and Use Limitations (AUL)	0.5 mile
Voluntary Cleanup Program (VCP)	0.5 mile
SC BROWNFIELDS	0.5 mile
Spills	TP

Sites within the boundaries of the subject property and numerous additional sites were identified on the environmental databases within the specified search distances. S&ME reviewed the information and locations of the database listed sites in the EDR report. Based on the review of the information in the EDR report and from information obtained from the SCDHEC and EPA websites, the sites listed in the following table were considered to have a potential to affect the environmental regime of the subject property based on their proximity, operations, and regulatory status. The table notes their location, the regulatory database on which they are listed, and comments regarding the sites. Information in the comments section were obtained from the EDR report, the SCDHEC and EPA websites, or previous environmental assessment reports performed or obtained by S&ME. The EDR report with details of all searched databases and listed sites is located in Appendix II.

Table 4-3 – Database Listings

Facility	Location	Database	Comments
Roadway Express	450 feet northwest 2243 Wren Street N Charleston, SC (cross-gradient)	UST, LUST	Facility ID: 01412. One UST removed in 1996. Suspected petroleum release reported 8/28/96 received an NFA on 8/30/96.
LS Starrett (Evans Rule Division)	200 feet southwest 6555 Fain Blvd. N Charleston, SC (cross-gradient)	SHWS, Allsites, Brownfields, VCP, RCRA NonGen	Former manufacturer of precision tools and electronic gages. Site contamination included volatile organic compounds and metals. VCC 11-5732-NRP.

Facility	Location	Database	Comments
North Charleston Post Office	Adjacent to the east 6401 Rivers Avenue N Charleston, SC Cross-gradient	UST, LUST, SHWS, Docket HWC	Facility has a vehicle maintenance shop. Former unpermitted landfill site and UST facility (Facility ID:10263). Four USTs removed in 1995. Petroleum release reported 2/1/95 received NFA on 4/1/05.
Montague Industrial	Adjacent to the west 6549 Fain Street N. Charleston, SC (cross-gradient)	UST, LUST, GWCI, RCR, Financial Assurance	Facility ID: 18348. Two USTs closed in-place 12/1/98. Petroleum release reported 4/7/99 received a CNFA on 9/25/12.
Hertz Equipment Rental	Adjacent to the west 6445 Fain Street N Charleston, SC (cross-gradient)	UST, LUST	Facility ID: 10056. Five USTs removed in 2007. Petroleum release 1/24/94 received NFA on 8/31/95. Release reported 2/21/07 received an NFA on 8/20/07.
Hawthorne Corporation	60 feet west 6543 Fain Street N Charleston, SC (cross-gradient)	UST, LUST	Facility ID: 11300. One UST removed 4/6/92. Petroleum release reported on 6/1/92 received an NFA on 5/5/93.
SCDOT District 6 Lab, Sign Shop, Maintenance Facility	300 feet northwest 6355 Fain Blvd. N Charleston, SC (Up-gradient)	RCRA-CESQG, UST, LUST, GWCI, FINDS, ECHO	Facility ID: 01078 Release #1: 12/30/91 NFA*: 4/16/04 Release #2: 1/20/97 NFA: 4/21/98 Release #3: 7/13/2006 (active) Groundwater Flow Direction: Northwest Six abandoned USTs. Two active USTs
Westvaco Landfill	950 feet northwest West of Fain Blvd. N Charleston, SC (Up-gradient)	SHWS, VCP, RCR, SC Brownfields, ALLSITES, AUL	Former industrial solid waste landfill. Site is capped with restricted land use. Monitored for methane.
One Hour Clean Craft Site	1,030 feet northeast 5900 Rivers Ave N Charleston, SC (cross-gradient)	SHWS, ALLSITES, Spills, VCP, RCR, AUL	Former dry-cleaning facility. VCC 02-5470-NRP. Deed restrictions were placed, on-site contamination was assessed, a certificate of completion was issued in 2002, and no further action is planned.
Southern Bell	1,030 feet northeast 5900 Rivers Ave N Charleston, SC (cross-gradient)	UST, LUST, RCR	Within Shopping center site. Facility ID: 01543 Release #1: 10/28/93 NFA: 5/12/95 Two abandoned USTs.

Costco	215 feet west 3350 Ashley Town Center Drive Charleston, SC cross-gradient	RCRA-LQG, UST	Retail petroleum outlet and auto repairs. Facility ID: 18628 Four active USTs. No petroleum releases reported.

- (1) NFA – No Further Action status issued by the South Carolina Department of Health and Environmental Control (“SCDHEC”).
- (2) CNFA – Conditional No Further Action indicates the site received a no further action letter, but that contaminants at the site are still above applicable regulatory limits. Sites with CNFA status generally have land and groundwater use restrictions.

A number of unmapped (orphan) sites were listed in the EDR Report. S&ME reviewed the information and determined the locations of the orphan sites. None of the sites on the orphan list appear to be within a

distance of concern to the subject property. Based upon their location and S&ME's area reconnaissance, the orphan sites are not considered recognized environmental conditions in connection with the subject property.

4.2 Additional Environmental Record Sources

A search of the USEPA Envirofacts database was conducted. A review of the Envirofacts database resulted in the identification of no additional facilities of potential concern in the immediate vicinity of the subject property.

S&ME reviewed the SCDHEC UST registry database online. No additional UST sites within a distance of concern were identified.

S&ME reviewed the SCDHEC Drycleaning Facility Restoration Trust Fund (DFRTF) facilities database. No additional dry-cleaning facility sites within a distance of potential concern were identified.

Based on assessments S&ME has performed in the area, S&ME is aware of another environmental concern, the US Defense Fuel Support Pipeline located at 5862 North Rhett Avenue in Hanahan, South Carolina. This jet fuel storage facility delivers aircraft fuel to the Charleston Air Force Base via underground pipelines. The pipeline runs south in line with North Rhett Avenue, then west in line with Remount Road, crossing I-26 and continuing onto the Air Force Base property. The pipeline is marked above ground at road crossings and other locations.

S&ME is also aware of a former landfill area to the west of I-526 adjacent to the Dominion Energy (formerly SCE&G) facility on Savage Road. The landfill area is located between the Dominion Energy facility and the Abberly at West Ashley Apartments along Ashley Town Center Drive. This was a former unpermitted landfill that accepted primarily domestic waste. It was not listed on any current environmental database. However, it does represent an environmental concern if excavations are planned in that area.

S&ME is aware of another unpermitted landfill area under portions of I-526 near the Virginia Avenue exit. Previous assessments in this area revealed that a former asbestos manufacturer (Raybestos-Manhattan) disposed of asbestos waste in the marsh and other areas near this location. This area was not listed on any environmental database. However, it does represent an environmental concern if excavations are planned in this area.

4.2.1 Tribal Record Sources

A search of available tribal record databases by EDR, Inc. revealed no sites within the specified search distances. The tribal databases searched are listed below.

Table 4-4 – Tribal Records

Database	Active Date	Approximate Search Distance	Search Results (number of sites)
Indian Reservations	1/10/17	1.0 mile	0
Indian LUST	2/10/2020	1.0 mile	0
Indian UST	2/10/2020	1.0-mile	0

4.3 Physical Setting Sources

The areas of the subject property are visible on the USGS 7.5-minute series Topographic Quadrangle Maps titled Ladson, SC, Johns Island, SC, and North Charleston, SC. The topography in the areas varies but is generally flat.

S&ME reviewed the Charleston County Soil Survey and the USDA Natural Resources Conservation Services (NRCS) Web Soil Survey (<http://www.nrcs.usda.gov/wps/portal/nrcs/main/soils/survey>), which depict the soil types underlying the subject property and the surrounding area. These sources depicted the subject property as being generally underlain by sandy and sandy loam soils.

According to the Geology of the Carolinas, (Horton, Jr. J. Wright and Zullo A. Victor, University of Tennessee Press, 1991), the subject property is located in the Atlantic Coastal Plain Physiographic Province of South Carolina. The Coastal Plain consists of unconsolidated sands, silts, and clays of the Pleistocene epoch. During this time, the ocean retreated over the land and left formations and terraces indicating former shorelines. The parent material of most of the soils is marine or fluvial deposits. The sedimentary beds of the Coastal Plain overlap each other in the sequence they were laid down and slope gently to the coast.

In the Coastal Plain Province, the soils typically have moderate to rapid permeability; thus, readily transmitting groundwater. The movement of groundwater through the sands and clays is strongly influenced by topography which generally controls the location of recharge and discharge zones. Groundwater within the Coastal Plain generally moves from topographically high areas (recharge zones) to topographically low areas within and along stream valleys (discharge areas).

4.4 Historical Use Information on the Property

4.4.1 Aerial Photographs

S&ME reviewed available aerial photographs to observe previous conditions and development of the subject property and immediately adjacent properties. These photographs were obtained from EDR, Charleston County GIS, and Google Earth. The aerial photographs were reviewed on a computer with a limited level of resolution.

The earliest available aerial photographs obtained were dated 1938/39. In the 1938/39 aerial photographs, most areas of the subject property are in a rural setting with woodlands, farmland, and scattered residential development. Some primary public roads are visible including Rivers Avenue (Highway 52), Dorchester Road, and Virginia Avenue (formerly Cosgrove Avenue).

In the 1954 and 1958 photographs, I-26 and I-526 are not yet constructed. Property along the areas of the subject property generally comprise undeveloped land, farmland, and residential sites. Some commercial development appears to be present along major public roads. The Charleston Air Force Base is visible to the west of Rivers Avenue and present-day Aviation Avenue. An area used as an annex by the Air Force and the U.S. Navy is visible to the north and south of the west end of Remount Road. A large agricultural area known as Faber Place is visible near the Ashley River in the vicinity of present-day Leeds Avenue. The area of the subject property south of the Ashley River primarily comprises woodlands, farmland and scattered residential sites. Numerous industrial sites including bulk petroleum storage/refinery facilities are visible along Virginia Avenue near the Cooper River. Although not visible in the aerial photographs, the Westrock (formerly Westvaco) papermill site is located nearby to the northeast of Virginia Avenue and the subject property.

In the 1961 aerial photographs, I-26 can be seen under construction extending to an area past Remount Road at this time. Goodrich Road (present-day West Montague Avenue) is visible. More commercial and industrial development may have occurred near portions of the subject property particularly along Rivers Avenue, Remount Road, and Virginia Avenue.

In the 1968 aerial photographs, the construction of I-26 and Aviation Avenue appears complete. More commercial development is evident near the subject property on Rivers Avenue, Remount Road, Montague Avenue, Dorchester Road, and in the Faber Place area. More residential development is also occurring near areas of the subject property.

In the 1977 aerial photographs, no significant changes are visible other than an increase in residential and commercial development in some areas.

In the 1983 aerial photographs, I-526 is under construction from near Dorchester Road to an area near Savannah Highway (US Highway 17). Clearing for another portion of I-526 may have begun near West Montague Avenue. South Aviation Avenue has been built or is under construction. More residential and commercial development is evident in the vicinity of the subject property.

In the 1989/90 aerial photographs, construction of I-526 appears to be complete from Savannah Highway to about Rivers Avenue. Construction of the I-526 is continuing eastward toward the Cooper River and the Town of Mount Pleasant, South Carolina. More commercial and residential development is evident in the area.

In the 1994/95 aerial photographs, construction of I-526 appears to be complete. Most existing roads intersecting and approaching the subject property appear to be present. Portions of Paul Cantrell Boulevard are still under construction. More development has occurred in other areas near the subject property.

In the 1999 aerial photographs, all existing roads intersecting and approaching the subject property are visible. Construction of Paul Cantrell Boulevard is complete. More residential and commercial development is evident along and nearby areas of the subject property.

In the 2006 aerial photographs, conditions at the subject property generally appear similar to those in the 1999 aerial photographs.

In the 2009 aerial photographs, improvements appear to be in progress to I-26 between I-526 and Aviation Avenue.

In the 2013 and 2017 aerial photographs, the subject property and surrounding areas appear similar to existing conditions.

The scales and clarity of the reviewed aerial photographs limited our ability to identify specific conditions indicative of releases or threatened releases of hazardous substances on or in the vicinity of the property. Copies of the aerial photographs are located in Appendix III.

4.4.2 Topographic Maps

S&ME reviewed available historical topographic maps (Ladson, SC, Johns Island, SC, and North Charleston, SC Quadrangles) to observe previous conditions and development of the subject property as well as immediately adjacent properties.

On the 1919 topographic maps, the areas of the subject property appear mostly rural in nature comprising woodlands, agricultural fields, and scattered residential sites. The main roadways in the vicinity of the subject property are Rivers Avenue, Dorchester Road, Ashley River Road, and Virginia Avenue. Some industrial sites are evident along the Cooper River near Virginia Avenue.

On the 1943-44 topographic maps, more residential development is depicted near the subject property. The Charleston Military Airport (future Charleston Air Force Base) is depicted nearby to the west of Rivers Avenue. Remount Road is depicted. Some commercial development has likely occurred along major roads in the area.

On the 1958 topographic maps, much more residential and commercial development is evident near major roads and the subject property. Some former borrow pits and phosphate strip mines are depicted in some areas on and adjacent to the subject property. Petroleum storage facilities are depicted near the Cooper River off Virginia Avenue.

On the 1971 topographic maps, I-26 has been constructed and more residential and commercial development is evident in most areas near the subject property.

On the 1979 topographic maps, no significant changes are noted other than an increase in residential and commercial development in some areas.

On the 1988 topographic maps, the section of I-526 west of interstate 26 appears complete. The portion of I-526 east of I-26 is still under construction.

The scales and clarity of the reviewed topographic maps limited our ability to identify specific conditions indicative of releases or threatened releases of hazardous substances on or in the vicinity of the subject property. Copies of the historic topographic maps are included in Appendix III.

4.5 Historical Use Information on Adjoining Properties

Based upon the review of available historical sources, adjoining properties were historically comprised of woodlands, agricultural land, and residential sites until significant residential and commercial development began in the 1950s to the present resulting in most areas becoming heavily developed urban areas. Commercial development in the area has included retail petroleum outlets, auto repair businesses, restaurants, hotels, office buildings, shopping centers, and drycleaners. Some strip mining (soil borrow pits and phosphate mining) occurred in the vicinity of the subject property in years past. These past mining activities typically don't represent an environmental concern, but sometimes resulted in the creation of wetland areas and unstable soil conditions.

5.0 Site Reconnaissance

A site reconnaissance was conducted during the week of March 9, 2020 by Norvin Duncan of S&ME, to observe the current conditions of the subject property, immediately adjoining properties, and nearby properties in the surrounding area. Photographs were taken of various portions of the subject property. Copies of the photographs are included in Appendix IV.

5.1 Methodology and Limiting Conditions

The subject property was observed by vehicular and pedestrian survey and adjacent properties were viewed from public rights-of-way. The majority of the subject property is developed with pavement and structures preventing the observation of the underlying surface.

5.2 General Site Setting

The subject property is located within primarily commercial and residential areas of Charleston County, South Carolina.

5.2.1 *Current Use(s) of the Property*

The primary use of the subject property is for public transportation.

5.2.2 *Past Use(s) of the Property*

Previous uses of the subject property were not evident from observations made during the site reconnaissance.

5.2.3 *Current Use(s) of Adjoining and Surrounding Properties*

Adjoining and surrounding properties primarily consist of commercial and residential development that include single and multi-unit buildings. Existing businesses adjoining or within the boundaries of the subject property include shopping centers, retail petroleum outlets, auto repair shops, drycleaners, restaurants, medical facilities, retail stores, multi-purpose office buildings, and bulk petroleum storage facilities.

5.2.4 *Past Use(s) of Adjoining and Surrounding Properties*

Site observations did not reveal previous uses of adjoining properties that are different from their current uses.

5.2.5 *Geologic, Hydrogeologic, Hydrologic, and Topographic Conditions*

The areas of the subject property are situated within a region comprising soils that are primarily sand and sandy loam. These soils have moderate permeability. Several local creeks are within or near the boundaries of the subject property. I-526 crosses the Ashley River and the Cooper River. Stormwater drains, ditches, and retention/detention ponds were observed on or adjacent to portions of the subject property. The topography and groundwater flow direction along the route of the subject property varies. Area hydrogeologic conditions were not confirmed during the site reconnaissance. No confirmation of groundwater conditions was made during the site visit.

5.2.6 *Description of Structures and Roads*

I-526, I-26, numerous intersecting roads, and railroad tracks are located within the boundaries of the subject property. Signs, parking lots, and some structures of businesses located along the roadways are also located within the boundaries of the subject property. The boundary of the subject property was not clearly marked in the field and was approximated. USTs associated with commercial petroleum retailers may also be located within the boundaries of the subject property.

5.2.7 *Potable Water Supply and Sewage Disposal Systems*

Potable water and sewage disposal services in the area of the subject property are provided by the Charleston Water System and the North Charleston Sewer District.

5.3 Exterior Observations

The site reconnaissance began along I-26 near the Eagle Drive overpass, continuing southward approximately ½ mile past its interchange with West Montague Avenue. The site reconnaissance continued along I-526 from its intersection with I-26 eastward to Virginia Avenue and from I-526 at I-26 southward to the end of the project area approximately 1-mile south of the Paul Cantrell Boulevard interchange. The site reconnaissance was performed over several days and included observing properties along I-26, I-526 and portions of Rivers Avenue, Aviation Avenue, Remount Road, International Boulevard, West Montague Avenue, Dorchester Road, Leeds Avenue, Paul Cantrell Boulevard, Virginia Avenue, and other secondary roads that are included within the boundaries of the subject property. Photographs taken during the site reconnaissance are included in Appendix IV.

Much of the land adjacent to the subject property is developed. Some areas comprise wooded and undeveloped land. Residential and commercial properties including retail petroleum stations, automobile repair businesses, restaurants, retail shopping centers, hotels, banks, offices, restaurants, and current and former drycleaner sites were observed nearby or within the boundaries of the subject property. Areas with the most significant commercial development adjoining and within the boundaries of the subject property are located at the interchange of I-26 and Aviation Avenue, the interchange of I-26 and Remount Road, the interchange of I-526 and Rivers Avenue, the interchanges at I-26 and I-526 and I-26 and Montague Avenue, the interchange of I-526 and Dorchester Road, the interchange at I-526 and Virginia Avenue, and areas along Paul Cantrell Boulevard.

Stormwater drains, drainage ditches, and stormwater retention ponds were observed on or adjacent to portions of the subject property. Several creeks route near or through portions of the subject property (i.e. Turkey Creek, Filbin Creek, and Bulls Creek). Low-lying wet areas exist along portions of the subject property, especially near the creeks and the Ashley and Cooper Rivers.

Railroad tracks are located adjoining to, or routing through portions of the subject property boundaries. These areas include I-526 near the I-26 interchange, I-26 near Woodbine Avenue, I-526 between Rivers Avenue and the exit to Virginia Avenue, and I-526 near the Dorchester Road interchange.

Pole-mounted and pad-mounted electrical transformers were observed adjacent and within the boundaries of portions of the subject property. Most of the transformers appear to be owned by Dominion Energy. Most transformers appeared to be labeled as not containing PCBs. All of the transformers appeared to be in good condition and no leaks were observed. Overhead power lines and high voltage electrical transmission lines are also located adjacent to or within portions of the boundaries of the subject property.

Underground natural gas lines (also owned by Dominion Energy) were observed to route adjacent to or within portions of the subject property. The locations of these natural gas lines appear to be substantially marked in most areas. Other underground utilities such as fiber optic cables, electrical, phone, and sewer and water lines are located adjacent and within the boundaries of the subject property.

Businesses observed during the site reconnaissance that may use hazardous substances and that may be regulated by State or Federal agencies such as retail petroleum outlets, car repair businesses, and dry cleaners were noted and compared to the sites identified in the EDR environmental database report.

During the site reconnaissance, there were no obvious signs of any current hazardous chemical spills, leaking aboveground storage tanks, or unusual films or sheens on the surface of water bodies within or adjacent to the subject property boundaries.

5.4 Interior Observations

Interior spaces of structures within the subject property boundaries were not included as part of the subject property observations.

6.0 Interviews

6.1 Interview with Past and Present Owners

At the request of the user, property owner interviews were not conducted.

6.2 Interview with Key Site Manager

There was not a key site manager.

6.3 Interview with Occupants

At the request of the user, occupant interviews were not conducted.

6.4 Interview with Local Officials

S&ME submitted a Freedom of Information request to the City of Charleston and City of North Charleston Fire Departments to inquire if there were records of any significant environmental incidents along the subject property. The fire departments did not have any records of any significant hazmat responses along the area of the subject property that were of a serious environmental concern.

S&ME contacted Mr. Konstantine Akhvlediani with the SCDHEC Drycleaners section of the SCDHEC in Columbia, South Carolina concerning the former Lenz / Tip Top Cleaners at 5647 Rivers Avenue in North Charleston and the former Classic Dry Cleaners at 2177 Ashley River Road in Charleston. According to information provided by Mr. Akhvlediani, the former Lenz / Tip Top Cleaners dry-cleaning business performed dry-cleaning on-site from 1956 to 1990 using tetrachloroethylene (PCE) and petroleum-based solvents. An Expanded Initial Assessment (EIA) was performed at the former Lenz / Tip Top Cleaners in March 2009. Based on the results of the assessment (minimal exposure to impacted on-site soil and low levels of dry-cleaning compounds in the shallow groundwater), the SCDHEC decided to issue an NFA for the site. Mr. Akhvlediani did not have any information regarding the former Classic Dry Cleaners located at 2177 Ashley River Road except that the facility had opted out of participating in the SC Dry Cleaning Restoration Fund Program. The former Dryclean USA/Garrett Dry Cleaning facility at 5634 Rivers Avenue had some recent assessment work done in 2016 and no significant impact was found, but an NFA has not yet been issued. No additional work is scheduled at this time unless new evidence of contamination is discovered.

S&ME had previously contacted Ms. Angie Jones with the SCDHEC regarding the former One Hour Clean Craft Site at 5900 Rivers Avenue at the North Charleston Center shopping center. According to Ms. Jones, assessments regarding contamination at this site were completed and no further action is planned at this former dry-cleaning facility site.

6.5 Interview with Others

No additional interviews were conducted.

7.0 Findings

- ◆ The property located at 2243 Wren Street, Roadway Express, had a suspected petroleum release from a UST that was removed in 1996. The SCDHEC issued an NFA status for the suspected release on 8/30/96.
- ◆ The property at 6555 Fain Street, LS Starrett (Evans Rule Division), had site contamination including volatile organic compounds and metals. The property is under VCC 11-5732-NRP with the SCDHEC.
- ◆ Montague Industrial at 6549 Fain Street abandoned two petroleum USTs in-place in 1998. A petroleum release from the USTs system was reported on 4/7/99. The release was issued a CNFA on 9/25/12.
- ◆ Hertz Equipment Rental at 6445 Fain Street removed five petroleum USTs in 2007. Two separate releases from the UST system were issued an NFA on 8/31/95 and 8/20/07.
- ◆ Hawthorne Corporation at 6543 Fain Street removed a petroleum UST in 1992. A release associated with the UST was issued an NFA on 5/5/93.
- ◆ The property located at 6355 Fain Boulevard, SCDOT District 6 Lab, Sign Shop, and Maintenance Facility performs vehicle maintenance and also operates two petroleum USTs. The facility had two previous petroleum releases that received an NFA status and a third release (release reported 7/13/06) that is currently under investigation by the SCDHEC).
- ◆ The North Charleston Post Office at 6401 Rivers Avenue was built on top of a former unpermitted landfill. The facility also has a vehicle maintenance shop. Four USTs were removed at the facility in 1995. A petroleum release from the UST system received an NFA on 4/1/05.
- ◆ The former Westvaco Landfill located west of Fain Boulevard is a former industrial solid waste landfill that has been capped with land use restrictions.
- ◆ The former One Hour Clean Craft Site (former dry cleaner) at 5900 Rivers Avenue in the North Charleston Center shopping center was listed on the SHWS, ALLSITES, Spills, RCR, AUL, and VCP databases in the EDR report. Following assessments, the SCDHEC issued a certificate of completion in 2002 with deed restrictions, and no further action at the site is planned.
- ◆ Southern Bell listed at 5900 Rivers Avenue in the North Charleston Center shopping center was a tenant at the same location as the One Hour Clean Craft Site. Southern Bell is listed at this location on the UST, LUST, and RCR databases. A petroleum release occurred at this location on 10/28/93. The release received an NFA from the SCDHEC on 5/12/95.
- ◆ The U Haul Center located at 2155 Credit Union Lane is listed on the UST and LUST databases. The site has four abandoned USTs. One petroleum release was assessed by the SCDHEC at this site and issued an NFA on 5/9/00.
- ◆ Fast Point 53, a retail petroleum outlet located at 5995 Rivers Avenue has four abandoned USTs and two active USTs. One petroleum release was assessed by the SCDHEC at this site and issued a Conditional No Further Action (CNFA) on 5/15/06. Groundwater flow direction at this site is reported to the west.
- ◆ A former Amoco retail petroleum outlet located at 6001 Rivers Avenue had two petroleum releases. Release #2 received an NFA. Release #1 was issued a CNFA. Groundwater flow direction at this site is reported to the east.
- ◆ Mizzell's Exxon located at 5998 Rivers Avenue has eleven abandoned USTs and three active USTs. The site has had two past petroleum releases. One release was issued an NFA. Release # 1 was issued a CNFA.
- ◆ The property located at 2353 Aviation Avenue is the former location of a retail petroleum outlet (El Cheapo's). The site has six abandoned USTs and one documented petroleum release. The release was issued a CNFA on 2/19/08. Groundwater flow direction at this site is reported to the northeast.
- ◆ Circle K located at 2421 Aviation Avenue is a retail petroleum outlet with four abandoned USTs and two active USTs. One petroleum release documented at the site received an NFA on 4/3/07.

- ◆ Rivers Refuel, LLC at 5830 Rivers Avenue removed four petroleum USTs in 2016. The site had a petroleum release in 1996 that was issued a CNFA on 1/11/13. The site still has an active petroleum release that was reported on 10/10/16, apparently discovered during the UST removal operations.
- ◆ Jones Ford located at 5757 Rivers Avenue is an automobile dealership that performs auto repairs.
- ◆ Former Popeye's Restaurant located at 5711 Rivers Avenue and adjacent to Jones Ford was once the location of a retail petroleum outlet. The site has two abandoned USTs and one reported petroleum release. The release was issued an NFA on 12/21/95.
- ◆ The former Lenz / Tip Top Cleaners located at the Gas Light Square shopping center at 5647 Rivers Avenue was a dry-cleaning facility that is no longer in operation. The site was issued an NFA by the SCDHEC in March 2009 and no further funded activity is planned at this site.
- ◆ The North Boland Circle Site located at 2930 North Boland Circle is listed on the SHWS, ALLSITES, SC Brownfields, and VCP databases. The site is also known as 5689 Rivers Avenue. The site was also previously the location of a retail petroleum outlet. The site is currently developed as JD Byrider, a used car dealership and auto repair facility.
- ◆ Credit Cars of Charleston located at 5689 Rivers Avenue was the location of a former automotive business with one abandoned UST and part of the above noted site. A documented petroleum release at the site received a CNFA on 7-20-09. Groundwater flow direction at this site is reported to the northwest.
- ◆ The N Boland Circle Site located at the southwest corner of Rivers Avenue and North Boland Circle at the Gas Light Square shopping center was the location of a former retail petroleum outlet. The site had two abandoned USTs and one documented petroleum release. The release was issued a CNFA on 7/31/00.
- ◆ 7-Eleven (Sunoco) / Riverplace Holdings located at 5710 Rivers Avenue is a retail petroleum outlet. The facility has three active USTs and four abandoned USTs with two active petroleum releases currently being assessed under the direction of the SCDHEC.
- ◆ The Lube Station / Kerr site located at 2059 Remount Road is currently in operation as an auto lubrication business (Take 5 Oil Change). The site has three abandoned USTs with no reported releases.
- ◆ The former Altman Dodge car dealership at 2049 Remount Road is currently redeveloped with a used car lot. The site had two abandoned USTs with one reported petroleum release that was issued an NFA on 1/15/01. However, the new owner entered into a voluntary cleanup contract (VCC) with the SCDHEC to address potential contamination on-site due to past car repair operations on the site. A certificate of completion was issued 7-14-17, but land use restrictions have not yet been listed.
- ◆ The former Dryclean USA /Garrett Dry Cleaning facility at 5634 Rivers Avenue is ranked low priority with no funding or assessment activity planned but has not received an NFA.
- ◆ The former Circle K 270882 at 5154 North Rhett Avenue had three petroleum USTs removed in 2017. Two releases, one reported on 3/1/93 and the other reported on 9/18/06 are still under assessment.
- ◆ The former Circle K 8092 at 5270 Attaway Street had two petroleum USTs removed in 1991. A release from the UST system reported in 1992 received an NFA on 8/22/08. This site is now vacant and the location of a stormwater pond.
- ◆ The site listed as SAK Construction is the location of a sewer transfer station at 5251 Virginia Avenue. The facility has an emergency generator unit with an internal diesel fuel tank (AST). No releases are noted.
- ◆ Southern Bulk Haulers, a trucking business that hauled cement and other products, was listed on the AST database at 1069 Lincoln Avenue. This facility is no longer at this location and no spills are noted.
- ◆ Coastal Concrete at 1067 Lincoln Avenue is a typical concrete batch plant. A 10,000-gal AST listed (type not specified). No spills noted. Currently operating as Thomas Concrete.

- ◆ Quality Transport at 1003 Lincoln Avenue, currently operating as Port City Transportation, is listed with one active petroleum UST. A suspected release from the UST system reported on 10/31/17 received an NFA on 11/16/17.
- ◆ Kinder Morgan at 5165 Virginia Avenue is a bulk petroleum storage/refining facility with multiple ASTs and past incidents of spills. The facility also removed a small petroleum UST in 1993 and a release from the UST was documented at that time. An NFA for the UST release was issued on 3/15/10.
- ◆ Buckeye Terminals at 5150 Virginia Avenue is a bulk petroleum storage/refining facility with multiple ASTs. This is also the site of a former historic fertilizer manufacturing plant.
- ◆ The Westvaco Paper Mill at 5600 Virginia Avenue is currently operating as Kapstone (a subsidiary of Westrock) and is located adjoining to the northeast of the subject property at the Cooper River. The facility has a history of regulatory violations and issues of soil and groundwater contamination.
- ◆ Annex to Charleston Naval Complex located at Vector / Command Street was formerly the site of naval and air force auxiliary facilities. The site is still under assessment for chlorinated solvent and degradation byproduct groundwater contamination that is migrating northeast toward I-26.
- ◆ Charleston Coin Center listed at 2399 Air Park Road had two abandoned USTs with one documented petroleum release. The release received an NFA on 4/14/95.
- ◆ General Battery listed at 2416 Air Park Road has one abandoned UST and one documented petroleum release. The release received a CNFA on 10/16/12. Groundwater flow direction at this site is reported to the southeast.
- ◆ Circle K 2723691 at 5302 Rivers Avenue is an active retail petroleum outlet. The site has three abandoned USTs and two active USTs. A petroleum release reported on 2/21/91 received a CNFA on 9/30/16. The groundwater flow direction at this site is reported to the west.
- ◆ Circle K 27233354 at 5255 Rivers Avenue is an active retail petroleum outlet. The site has two abandoned USTs and four active USTs. One petroleum release reported at this received a CNFA on 11/20/09. The groundwater flow direction at the site is reported to the south.
- ◆ The former Harper's 66 Service Station listed at 5331 Rivers Avenue has four abandoned USTs. Two reported petroleum releases at this site both received an NFA on 12/27/00. The site was last occupied by Tires for Hire.
- ◆ The former Sherwin Williams Paint Store / Western Auto Store at 5350 Rivers Avenue has one abandoned UST and one documented petroleum release. The release was issued an NFA on 7/6/98.
- ◆ Sander's Brothers at 1990 Harley Street is the location of a construction company and asphalt plant. The site has two active USTs and two active ASTs. No releases are reported.
- ◆ Former Charleston Boat Center located at 5133 Rivers Avenue is redeveloped with a health care facility. The site had one abandoned UST and one documented petroleum release. The release was issued an NFA on 10/13/14. The property is also subject to VCC 10-5864-NRP and has recorded groundwater and land use restrictions. The groundwater flow direction at the site is to the north.
- ◆ Buchanan Volkswagen listed at 5130 Rivers Avenue was the location of a former car dealership. The site had three abandoned USTs and one documented petroleum release. The release was issued a CNFA on 5/25/10. The groundwater flow direction at the site is reported to the east. This site was last occupied by Fleet Pride (truck and trailer parts).
- ◆ CEL Oil Products and Dutton Storage, LLC located at 5402 Dutton Avenue is the location of a petroleum storage facility. The site has multiple ASTs and one abandoned UST. The site has an active petroleum release (UST) that is under assessment. The groundwater flow direction at the site is reported to the southwest.

- ◆ A Fuel Spill was listed at the intersection of I-526 and Rivers Avenue. The spill occurred on 10/23/02 and involved 10-gallons of oil that was apparently cleaned up appropriately.
- ◆ Sander's Brothers listed at 4970 Lacross Road has four abandoned USTs and an active petroleum release that is under assessment. The groundwater flow direction at the site is reported to be radial. This site is currently a reclamation facility for construction materials including asphalt and concrete.
- ◆ Coburg Dairy / Borden Dairy at 5001 Lacross Road is a dairy production facility listed on the FINDS, ECHO, RMP, and TRIS databases. The facility is noted to handle toxic chemicals and the facility may also be permitted for issues such as air emissions.
- ◆ Former Kwik Fill at 2988 W Montague Avenue is the location of a former retail petroleum outlet. The site had eleven abandoned USTs and one documented petroleum release. The release was issued a CNFA on 7-12-02. The site is currently developed with a McDonald's Restaurant. The groundwater flow direction at the site is reported to the north.
- ◆ Blue Water 7 located at 2941 W Montague Avenue is an active retail petroleum outlet. The site has seven abandoned USTs and three active USTs with one documented petroleum release. The release was issued an NFA on 7/28/04. Groundwater flow direction at the site is to the north.
- ◆ Circle K at 2957 W Montague Avenue is an active retail petroleum outlet. The site has seven abandoned USTs and three active USTs with one documented petroleum release. The release was issued an NFA on 7/12/07. Groundwater flow direction at the site is reported to the northwest.
- ◆ SC Research Authority (former) at 5300 International Boulevard is currently the location of the Boeing aircraft manufacturing facility. The property is under a VCC with the SCDHEC.
- ◆ Charleston County Aviation Authority at 5275 International Boulevard is the site of a proposed future development and is under a VCC with the SCDHEC. A certificate of completion was issued by the SCDHEC on 3/3/16.
- ◆ 7-Eleven (Sunoco) at 3564 W Montague Avenue is an active retail petroleum outlet. The site has four active USTs and one documented petroleum release. The release was issued a CNFA on 1/21/10. The groundwater flow direction at the site is reported to the northwest.
- ◆ Golden Strip Transfer at 3340A Buffalo Street has one abandoned UST and one documented petroleum release. The release was issued an NFA on 11/9/99.
- ◆ U Haul Center at 4788 Dorchester Road has two abandoned USTs and one documented petroleum release. The release was issued an NFA on 6/8/00.
- ◆ Rivers Edge Marina at 4354 Bridge View Drive has one active UST and no reported petroleum releases. This site was formerly the location of Duncan Boat Harbor.
- ◆ Classic Dry Cleaners, a former dry-cleaning facility (closed 2017), is located at 2177 Ashley River Road near I-526. This dry cleaner was not a participant in the SC Dry Cleaning Restoration Fund Program.
- ◆ SCE&G at 900 Savage Road is listed on the SHWS, ALLSITES, UST, AST, and VCP databases. The site had one abandoned UST and a petroleum release that was issued an NFA on 6/4/93. The site is also noted to have an AST. PCB soil and groundwater contamination from the storage of transformers on-site is noted, and SCE&G is under a VCC with the SCDHEC.
- ◆ Costco at 3050 Ashley Town Center Drive is an active retail petroleum outlet. The site has four active USTs with no petroleum releases. The facility also performs auto repairs and is listed on the RCRA-LQG database.
- ◆ The US Defense Fuel Support Pipeline is located at 5862 North Rhett Avenue in Hanahan, South Carolina. This jet fuel storage facility delivers aircraft fuel to the Charleston Air Force Base via underground

pipelines. The pipeline runs south in line with North Rhetts Avenue, then west in line with Remount Road, crossing I-26 and continuing onto the Air Force Base property.

- ◆ A former unpermitted landfill that accepted primarily domestic waste is located between an SCE&G facility on Savage Road and the Abberly at West Ashley Apartments along Ashley Town Center Road.
- ◆ Electrical transformers are located adjoining and within the boundaries of portions of the subject property. The transformers appeared to be in good condition. Most of the transformers are labeled Non-PCB and are owned by SCE&G.

8.0 Opinion

- ◆ Because the UST at the Roadway Express site at 2243 Wren Street was removed and an associated petroleum release received an NFA, it is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Based on its proximity to the subject property and past documented contamination, the LS Starrett (Evans Rule Division) site at 6555 Fain Street subject to VCC 11-5732-NRP is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property and past petroleum release that was issued a CNFA, the property located at 6549 Fain Street, Montague Industrial, is considered a recognized environmental condition.
- ◆ Because the USTs at the Hertz Equipment Rental site at 6445 Fain Street were removed and associated petroleum releases received an NFA, it is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Because the UST at the Hawthorne Corporation site at 6543 Fain Street was removed and an associated petroleum release received an NFA, it is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Based on current use of USTs and previous release of petroleum products currently under investigation by the SCDHEC, the property located at 6355 Fain Boulevard, SCDOT District 6 Lab, Sign Shop, and Maintenance Facility is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property, the North Charleston Post Office (built on a former landfill) located at 6401 Rivers Avenue is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property, the former Westvaco Landfill located west of Fain Boulevard is considered a recognized environmental condition.
- ◆ Because a certificate of completion was issued and no further action is planned, the former One Hour Clean Craft Site located at 5900 Rivers Avenue in the North Charleston Center shopping center is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Because a petroleum release at the Southern Bell UST site at 5900 Rivers Avenue in the North Charleston Center shopping center received an NFA from the SCDHEC, it is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Because the USTs were abandoned and the release received an NFA, the U Haul Center located at 2155 Credit Union Lane is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Based on its proximity to the subject property, past petroleum release, and current use as a retail petroleum outlet, the Fast Point 53 located at 5995 Rivers Avenue is considered a recognized environmental condition.

- ◆ Because of its proximity to the subject property and past petroleum releases, one of which was issued a conditional no further action status (CNFA), the former Amoco retail petroleum outlet located at 6001 Rivers Avenue is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property, past petroleum releases, and current use as a retail petroleum outlet, Mizzell's Exxon located at 5998 Rivers Avenue is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property and past petroleum release that was issued a CNFA, the property located at 2353 Aviation Avenue, former El Cheapo's retail petroleum outlet, is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property (down-gradient) and NFA for a past release, the Circle K retail petroleum outlet located at 2421 Aviation Avenue is not considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property, the Rivers Refuel, LLC site at 5830 Rivers Avenue which still has an active petroleum release under assessment, is considered a recognized environmental condition.
- ◆ Because it appears to be within the boundaries of the subject property and auto repairs are performed at the business, Jones Ford Auto Dealership located at 5757 Rivers Avenue is considered a recognized environmental condition.
- ◆ Because the USTs were abandoned and a past release was issued an NFA, the Former Popeye's Restaurant located at 5711 Rivers Avenue is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Because dry-cleaning operations have not been conducted at this site since 1990 and the SCDHEC issued an NFA, the former Lenz / Tip Top Cleaners located at the Gas Light Square shopping center at 5647 Rivers Avenue is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Because of proximity to the subject property and current use (JD Byrider used cars) that includes auto repairs, the North Boland Circle Site located at 2930 North Boland Circle (also known as 5689 Rivers Avenue) is considered a recognized environmental condition.
- ◆ The former Credit Cars of Charleston UST site, also located at 5689 Rivers Avenue, which had a past petroleum release that was issued a CNFA, is considered a recognized environmental condition.
- ◆ Because of its proximity to the subject property and a CNFA that was issued for a past petroleum release, the N Boland Circle Site located at the southwest corner of Rivers Avenue and North Boland Circle at the Gas Light Square shopping center is considered a recognized environmental condition.
- ◆ Based on its location, current use of USTs and previous release of petroleum products currently under investigation by SCDHEC, the 7-Eleven / Rivers Place Holdings site located at 5710 Rivers Avenue is considered a recognized environmental condition.
- ◆ Based on its location and regulatory status, The Lube Station / Kerr site located at 2059 Remount Road with abandoned USTs and no reported releases, is not considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property and unknown regulatory status, the former Altman Dodge car dealership at 2049 Remount Road that was assessed under a voluntary cleanup contract with the SCDHEC is considered a recognized environmental condition.
- ◆ Based on its location and regulatory status, the former Dryclean USA /Garrett Dry Cleaning facility site at 5634 Rivers Avenue is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property and past petroleum releases that are still under assessment, the former Circle K 270882 at 5154 North Rhett Avenue is considered a recognized environmental condition.

- ◆ Because the USTs of the former Circle K 8092 at 5270 Attaway Street were removed and an associated petroleum release received an NFA, it is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Although no release was noted for the fuel tank (AST) of the emergency generator of the sewer transfer station located at 5251 Virginia Avenue, it is located within the boundaries of the subject property and represents a potential threat. Therefore, it is considered a recognized environmental condition.
- ◆ Because no releases were noted and the business is no longer located at this address, the former Southern Bulk Haulers at 1069 Lincoln Avenue is not considered a recognized environmental condition.
- ◆ Because no spills were noted for an AST listed at the Coastal Concrete facility (currently Thomas Concrete) at 1067 Lincoln Avenue, it is not considered a recognized environmental condition.
- ◆ Although a suspected petroleum release from a UST was issued an NFA in 2017 for Quality Transport located at 1003 Lincoln Avenue, it is also a petroleum product transportation service and based on its proximity to the subject property, it is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property, the Kinder Morgan bulk petroleum storage/refining facility located at 5165 Virginia Avenue is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property, the Buckeye Terminals bulk petroleum storage/refining facility (and former fertilizer manufacturing plant site) located at 5150 Virginia Avenue is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property and its regulatory history, the Westvaco (Kapstone) paper mill located at 5600 Virginia Avenue is considered a recognized environmental condition.
- ◆ Based on its location, the Annex to Charleston Naval Complex site that is still under assessment for chlorinated solvent and degradation byproduct groundwater contamination that was migrating northeast toward I-26 is considered a recognized environmental condition.
- ◆ Because the USTs were abandoned and a past release was issued an NFA, the Charleston Coin Center listed at 2399 Air Park Road is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Based on its proximity to the subject property and past petroleum release that was issued a CNFA, General Battery listed at 2416 Air Park Road is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property and past petroleum release that was issued a CNFA, the Circle K 2723691 located at 5302 Rivers Avenue, which is an active retail petroleum outlet, is considered a recognized environmental condition.
- ◆ Based on its location and past releases, the Circle K 27233354 located at 5255 Rivers Avenue, which is still an active retail petroleum outlet, is considered a recognized environmental condition.
- ◆ Because the USTs were abandoned and past releases were issued an NFA, the former Harper's 66 Service Station listed at 5331 Rivers Avenue is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Because the UST was abandoned and a past release was issued an NFA, the former Sherwin Williams Paint Store / Western Auto Store at 5350 Rivers Avenue is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Based on its proximity to the subject property and operation of USTs and ASTs, the Sander's Brothers site located at 1990 Harley Street is considered a recognized environmental condition.
- ◆ Because it appears to be within the boundaries the subject property, the former Charleston Boat Center located at 5133 Rivers Avenue, which is subject to VCC 10-5864-NRP and has recorded groundwater and land use restrictions, is considered a controlled recognized environmental condition.

- ◆ Based on its proximity to the subject property and past petroleum release that was issued a CNFA, the Buchanan Volkswagen site listed at 5130 Rivers Avenue is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property, current operation as a petroleum storage facility, and an active petroleum release that is under assessment by the SCDHEC, the CEL Oil Products and Dutton Storage, LLC site located at 5402 Dutton Avenue is considered a recognized environmental condition.
- ◆ A Fuel Spill of approximately 10 gallons of oil at the intersection of I-526 and Rivers Avenue that was apparently cleaned up appropriately is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Based on its location, the Sander's Brothers site listed at 4970 Lacross Road that has four abandoned USTs and an active petroleum release that is under assessment is considered a recognized environmental condition.
- ◆ Based on its location, the Coburg Dairy / Borden Dairy facility at 5001 Lacross Road, a handler of toxic chemicals, is considered a recognized environmental condition.
- ◆ Based on its location and past petroleum release that was issued a CNFA, the former Kwik Fill at 2988 W Montague Avenue is considered a recognized environmental condition.
- ◆ Based on its location, Blue Water 7 located at 2941 W Montague Avenue, which is an active retail petroleum outlet, is considered a recognized environmental condition.
- ◆ Based on its location, Circle K at 2957 W Montague Avenue, which is an active retail petroleum outlet, is considered a recognized environmental condition.
- ◆ Based on its location, the SC Research Authority (former) at 5300 International Boulevard, currently the location of the Boeing aircraft manufacturing facility, is not considered a recognized environmental condition.
- ◆ Based on its location, the Charleston County Aviation Authority site at 5275 International Boulevard (proposed future development) is not considered a recognized environmental condition.
- ◆ Based on current use of USTs and previous release of petroleum products, Sunoco at 3564 W Montague Avenue, an active retail petroleum outlet, is considered a recognized environmental condition.
- ◆ Because the UST was abandoned and a past release was issued an NFA, Golden Strip Transfer at 3340A Buffalo Street is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Because the USTs were abandoned and a past release was issued an NFA, U Haul Center at 4788 Dorchester Road is considered a historic recognized environmental condition and not a recognized environmental condition.
- ◆ Based its location and current use of a UST, Rivers Edge Marina located at 4354 Bridge View Drive is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property, the former Classic Dry Cleaners at 2177 Ashley River Road is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property, use of ASTs, and past documented PCB soil and groundwater contamination, the SCE&G Crew Quarters Site at 900 Savage Road is considered a recognized environmental condition.
- ◆ Based on its proximity to the subject property, Costco located at 3050 Ashley Town Center Drive, which is an active retail petroleum outlet and auto repair facility, is considered a recognized environmental condition.

- ◆ The US Defense Fuel Support Pipeline that delivers aircraft fuel to the Charleston Air Force Base via underground pipelines that route nearby and under portions of the subject property is considered a recognized environmental condition.
- ◆ Because trash and unknown waste could be encountered during any planned excavations, the former unpermitted landfill along Ashley Town Center Road is considered a recognized environmental condition.

Utility companies are usually responsible for the maintenance and cleanup of any spills from their electrical transformers. Based on this fact and their apparent good condition, the electrical transformers observed along the subject property are not considered a recognized environmental condition.

It should be noted that the above listed sites with confirmed or potential releases of hazardous substances and/or petroleum products might also represent a vapor encroachment condition by vapor migration through the subsurface. However, we understand that there are no plans to develop any inhabited building structures on the subject property that would represent a potential for exposure to vapors in an enclosed space.

8.1 Data Gaps and Data Failure

- ◆ The operational history of the subject property could not be documented at approximately five-year intervals or prior to development due to the lack of historical source information readily available. Due to information gathered during interviews and from the available historical sources this data gap is not considered significant and is not considered a recognized environmental condition.
- ◆ Current chain-of-title, environmental lien, and/or activity and use limitations information were not provided by the user. This data gap is considered significant and is therefore considered a recognized environmental condition.
- ◆ Interviews with past and current property owners were not permitted by the user. This data gap is considered significant and is therefore considered a recognized environmental condition.
- ◆ A regulatory file review was not conducted as part of this assessment. Due to the information obtained during historical records review and interviews with local government officials, it is the opinion of the environmental professional performing this assessment the lack of regulatory file review is not considered significant and is not considered a recognized environmental condition.

9.0 Conclusions

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM E 1527-13 for the subject property identified as I-526 Corridor Improvements in Charleston County, South Carolina. Any exceptions to, or deletions from, this practice are described in Section 1.4 of this report. This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property, except for the following:

1. Based on its proximity to the subject property and past documented contamination, the LS Starrett (Evans Rule Division) site at 6555 Fain Street which is subject to Voluntary Cleanup Contract (VCC) #11-5732-NRP is considered a recognized environmental condition.
2. Based on its proximity to the subject property and past petroleum release that was issued a Conditional No Further Action (CNFA), the property located at 6549 Fain Street, Montague Industrial, is considered a recognized environmental condition.
3. Based on its proximity to the subject property, the North Charleston Post Office (built on a former landfill) located at 6401 Rivers Avenue is considered a recognized environmental condition.
4. Based on current use of underground storage tanks (USTs) and previous release of petroleum products currently under investigation by the South Carolina Department of Health and Environmental Control (SCDHEC), the property located at 6355 Fain Boulevard, South Carolina Department of Transportation (SCDOT) District 6 Lab, Sign Shop, and Maintenance Facility is considered a recognized environmental condition.
5. Based on its proximity to the subject property, the former Westvaco Landfill located west of Fain Boulevard is considered a recognized environmental condition.
6. Based on its proximity to the subject property, past petroleum release, and current use as a retail petroleum outlet, the Fast Point 53 located at 5995 Rivers Avenue is considered a recognized environmental condition.
7. Because of its proximity to the subject property and past petroleum releases, one of which was issued a CNFA, the former Amoco retail petroleum outlet located at 6001 Rivers Avenue is considered a recognized environmental condition.
8. Based on its proximity to the subject property, past petroleum releases, and current use as a retail petroleum outlet, Mizzell's Exxon located at 5998 Rivers Avenue is considered a recognized environmental condition.
9. Based on its proximity to the subject property and past petroleum release that was issued a CNFA, the property located at 2353 Aviation Avenue, former El Cheapo's retail petroleum outlet, is considered a recognized environmental condition.
10. Based on its proximity to the subject property, the Rivers Refuel, LLC site at 5830 Rivers Avenue which still has an active petroleum release under assessment, is considered a recognized environmental condition.
11. Because it appears to be within the boundaries of the subject property and auto repairs are performed at the business, Jones Ford Auto Dealership located at 5757 Rivers Avenue is considered a recognized environmental condition.
12. Because of proximity to the subject property and current use (JD Byrider used cars) that includes auto repairs, the North Boland Circle Site located at 2930 North Boland Circle (also known as 5689 Rivers Avenue) is considered a recognized environmental condition.
13. The former Credit Cars of Charleston UST site, also located at 5689 Rivers Avenue, which had a past petroleum release that was issued a CNFA, is considered a recognized environmental condition.
14. Because of its proximity to the subject property and a CNFA that was issued for a past petroleum release, the N Boland Circle Site located at the southwest corner of Rivers Avenue and North Boland Circle at the Gas Light Square shopping center is considered a recognized environmental condition.

15. Based on its location, current use of USTs and previous release of petroleum products currently under investigation by SCDHEC, the 7-Eleven / Rivers Place Holdings site located at 5710 Rivers Avenue is considered a recognized environmental condition.
16. Based on its proximity to the subject property and unknown regulatory status, the former Altman Dodge car dealership at 2049 Remount Road that has been assessed under a VCC with the SCDHEC is considered a recognized environmental condition.
17. Based on its location and regulatory status, the former Dryclean USA /Garrett Dry Cleaning facility site at 5634 Rivers Avenue is considered a recognized environmental condition.
18. Based on its proximity to the subject property and past petroleum releases that are still under assessment, the former Circle K 270882 at 5154 North Rhett Avenue is considered a recognized environmental condition.
19. Although no release was noted for the fuel aboveground storage tank (AST) of the emergency generator of the sewer transfer station located at 5251 Virginia Avenue, it is located within the boundaries of the subject property and represents a potential threat. Therefore, it is considered a recognized environmental condition.
20. Although a suspected petroleum release from a UST was issued a no further action (NFA) in 2017 for Quality Transport located at 1003 Lincoln Avenue, it is also a petroleum product transportation service and based on its proximity to the subject property, it is considered a recognized environmental condition.
21. Based on its proximity to the subject property, the Kinder Morgan bulk petroleum storage/refining facility located at 5165 Virginia Avenue is considered a recognized environmental condition.
22. Based on its proximity to the subject property, the Buckeye Terminals bulk petroleum storage/refining facility (and former fertilizer manufacturing plant site) located at 5150 Virginia Avenue is considered a recognized environmental condition.
23. Based on its proximity to the subject property and its regulatory history, the Westvaco (Kapstone) paper mill located at 5600 Virginia Avenue is considered a recognized environmental condition.
24. Based on its location, the Annex to Charleston Naval Complex site that is still under assessment for chlorinated solvent and degradation byproduct groundwater contamination that is migrating northeast toward I-26 is considered a recognized environmental condition.
25. Based on its proximity to the subject property and past petroleum release that was issued a CNFA, General Battery listed at 2416 Air Park Road is considered a recognized environmental condition.
26. Based on its proximity to the subject property and past petroleum release that was issued a CNFA, the Circle K 2723691 located at 5302 Rivers Avenue, which is an active retail petroleum outlet, is considered a recognized environmental condition.
27. Based on its location and past releases, the Circle K 27233354 located at 5255 Rivers Avenue, which is still an active retail petroleum outlet, is considered a recognized environmental condition.
28. Based on its proximity to the subject property and operation of USTs and ASTs, the Sander's Brothers site located at 1990 Harley Street is considered a recognized environmental condition.
29. Because it appears to be within the boundaries of the subject property, the former Charleston Boat Center located at 5133 Rivers Avenue, which is subject to VCC 10-5864-NRP and has recorded groundwater and land use restrictions, is considered a controlled recognized environmental condition.
30. Based on its proximity to the subject property and past petroleum release that was issued a CNFA, the Buchanan Volkswagen site listed at 5130 Rivers Avenue is considered a recognized environmental condition.
31. Based on its proximity to the subject property, current operation as a petroleum storage facility, and an active petroleum release that is under assessment by the SCDHEC, the CEL Oil Products and Dutton Storage, LLC site located at 5402 Dutton Avenue is considered a recognized environmental condition.
32. Based on its location, the Sander's Brothers site listed at 4970 Lacross Road that has four abandoned USTs and an active petroleum release that is under assessment is considered a recognized environmental condition.

33. Based on its location, the Coburg Dairy / Borden Dairy facility at 5001 Lacross Road, a handler of toxic chemicals, is considered a recognized environmental condition.
 34. Based on its location and past petroleum release that was issued a CNFA, the former Kwik Fill at 2988 W Montague Avenue is considered a recognized environmental condition.
 35. Based on its location, Blue Water 7 located at 2941 W Montague Avenue, which is an active retail petroleum outlet, is considered a recognized environmental condition.
 36. Based on its location, Circle K at 2957 W Montague Avenue, which is an active retail petroleum outlet, is considered a recognized environmental condition.
 37. Based on current use of USTs and previous release of petroleum products, Sunoco at 3564 W Montague Avenue, an active retail petroleum outlet, is considered a recognized environmental condition.
 38. Based its location and current use of a UST, Rivers Edge Marina located at 4354 Bridge View Drive is considered a recognized environmental condition.
 39. Based on its proximity to the subject property, Classic Dry Cleaners at 2177 Ashley River Road is considered a recognized environmental condition.
 40. Based on its proximity to the subject property, use of ASTs, and past documented polychlorinated biphenyl (PCB) soil and groundwater contamination, the SCE&G Crew Quarters Site (Dominion Energy) at 900 Savage Road is considered a recognized environmental condition.
 41. Based on its proximity to the subject property, Costco located at 3050 Ashley Town Center Drive, which is an active retail petroleum outlet and auto repair facility, is considered a recognized environmental condition.
 42. The US Defense Fuel Support Pipeline that delivers aircraft fuel to the Charleston Air Force Base via underground pipelines that route nearby and under portions of the subject property is considered a recognized environmental condition.
 43. Because trash and unknown waste could be encountered during any planned excavations, the former unpermitted landfill along Ashley Town Center Road is considered a recognized environmental condition.
 44. Because buried asbestos waste could be encountered during any planned excavations, the unpermitted landfill areas located under I-526 near the Virginia Avenue exit is considered a recognized environmental condition.
- ◆ Current chain-of-title, environmental lien, and/or activity and use limitations information were not provided by the user. This data gap is considered significant and is therefore considered a recognized environmental condition.

10.0 Deviations

S&ME has endeavored to perform this Phase I ESA in substantial conformance with the scope and limitations of ASTM Standard Practice E1527-13 without significant deviation. Because of the limited availability of data, the operational history of the subject property was not documented at intervals of approximately 5 years or prior to development, and environmental lien or activity and use limitations information was not provided by the user. In addition, interviews with past and current property owners were not allowed by the user. No other deviations to ASTM Practice E 1527-13 were made in the completion of this Environmental Site Assessment.

11.0 Additional Services

No additional services were provided during this assessment.

13.0 Signatures of Environmental Professionals

We declare that, to the best of our professional knowledge and belief, that we meet the definition of Environmental Professional as defined in § 312.10 of 40 CFR 312.

We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Norvin C. Duncan
Environmental Professional

Chuck Black, P.E., LEED AP
Principal Engineer, V.P.

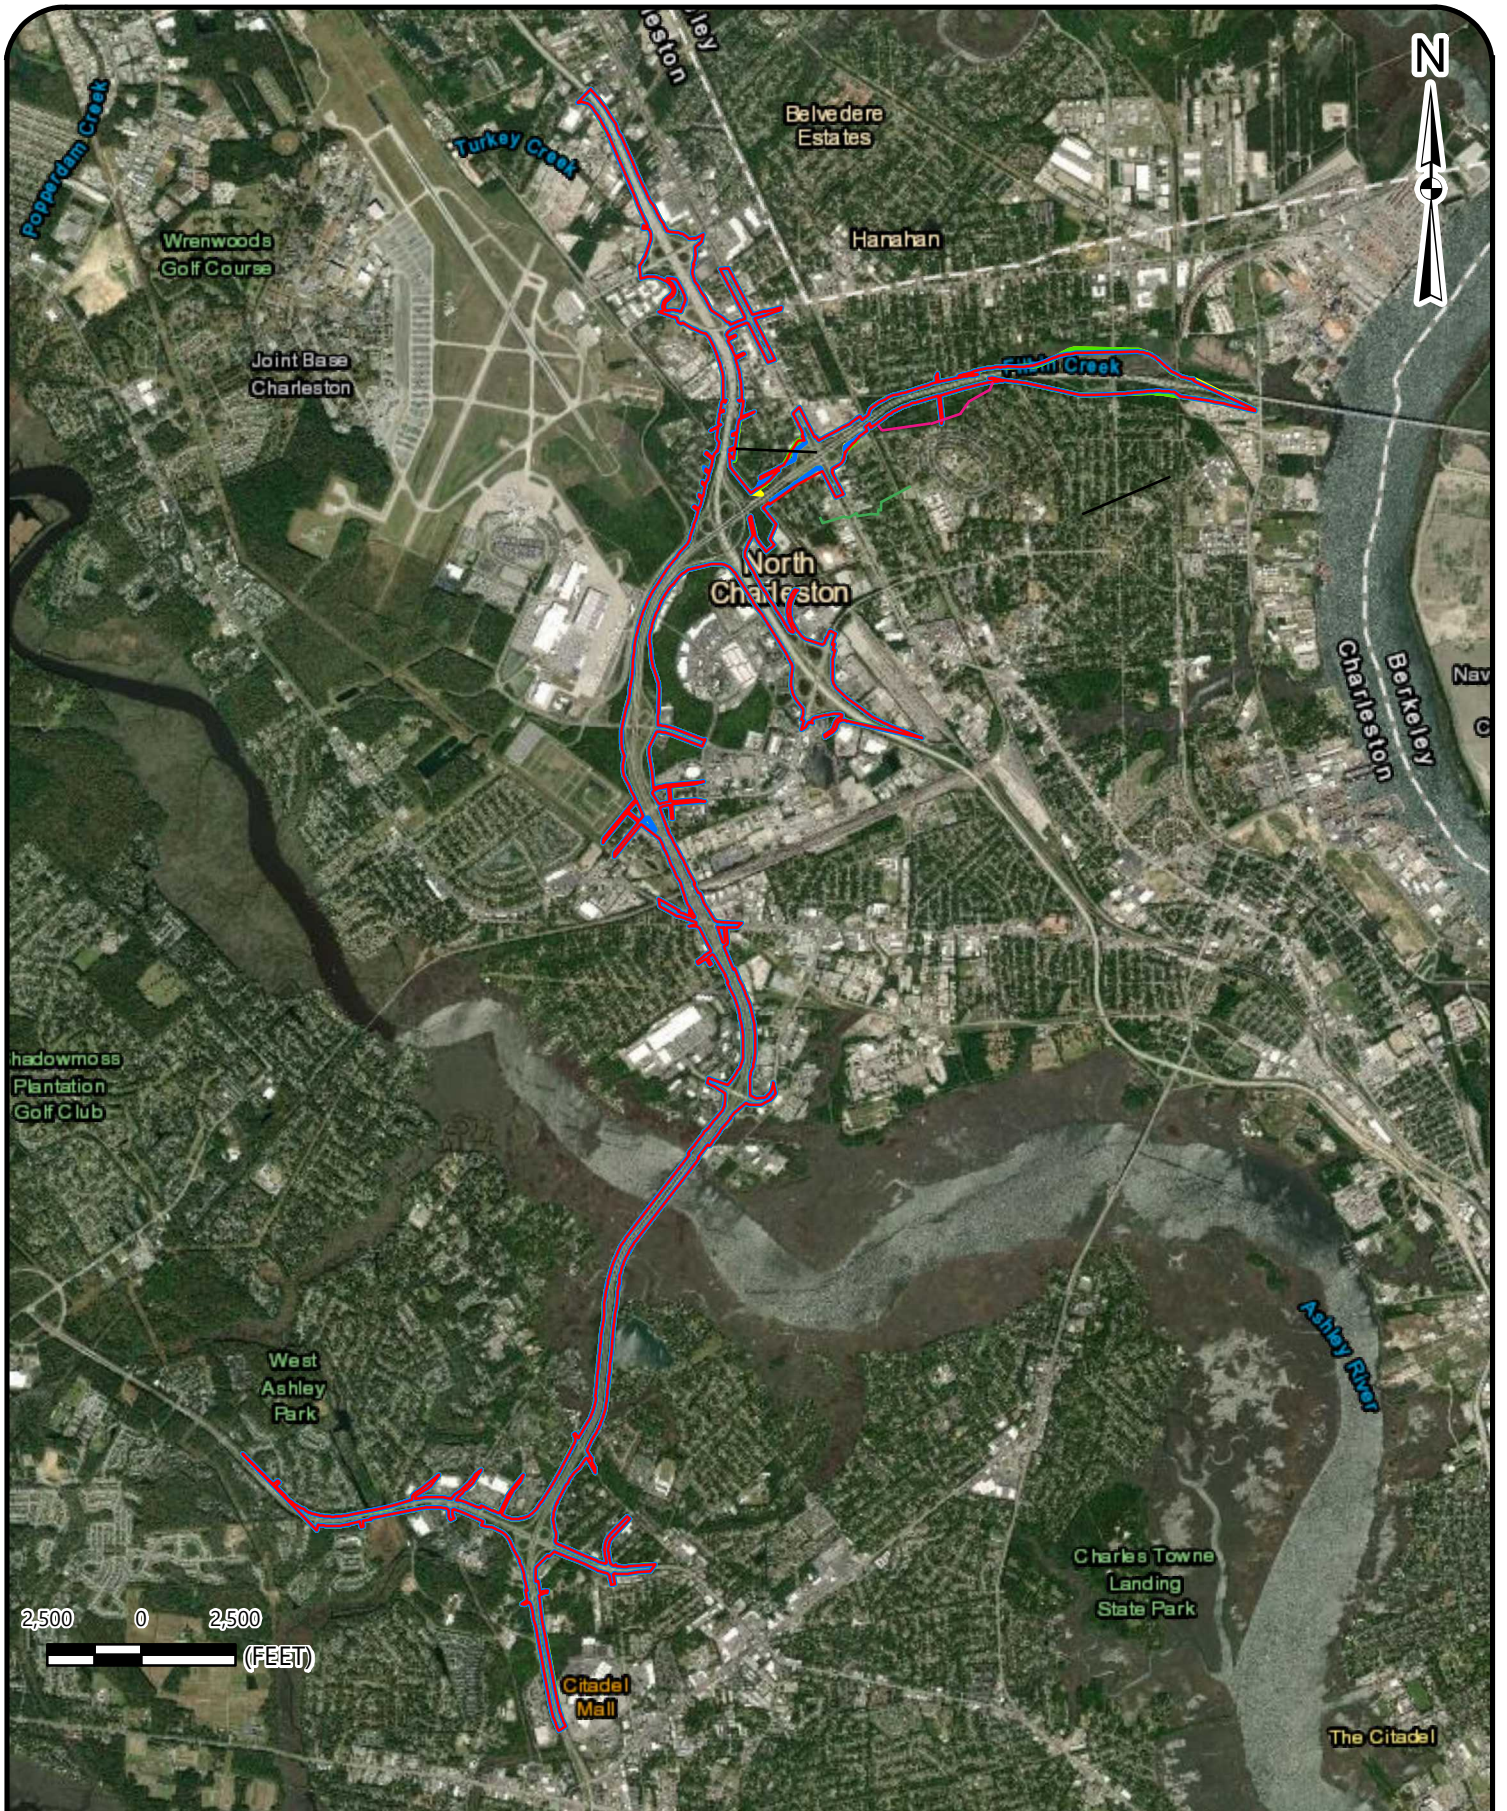

14.0 Qualifications of Environmental Professionals

The environmental professionals for this project are Mr. Norvin C. Duncan and Mr. Chuck Black. Mr. Duncan has over 40 years' experience in construction inspection and environmental consulting and has performed numerous Phase I Environmental Site Assessments. Mr. Black has over 28 years of environmental consulting experience. Resumes of the environmental professionals are included in Appendix V.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Environmental Interest/Information System:
 SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

SUPERFUND (NON-NPL)
 ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110002255309

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:
SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

FINDS:

Registry ID: 110004943410
 Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110004943410

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110002197694

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004. RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FINDS:

Registry ID: 110002255265
Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110002255265

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Property Description:

The property was previously used as the City Hall for the City of North Charleston. The site is developed with a fuel dispensing system that is currently in use by the City. After moving to another property, the City has leased the building to other entities. In early 2012, a division of Amazon, CreateSpace expressed interest in leasing the property, but required a Phase I ESA be completed.

Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110054625697

Environmental Interest/Information System:

US EPA Assessment, Cleanup and Redevelopment Exchange System (ACRES) is a federal online database for Brownfields Grantees to electronically submit data directly to EPA.

Registry ID: 110056424533
Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110056424533

Environmental Interest/Information System:

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004. RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Registry ID: 110044796986
Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110044796986

Environmental Interest/Information System:

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

AIR MINOR

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004. RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

and Maine joined their system in 2004.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

- Waste code: D001
- Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
- Amount (Lbs): 1931

- Waste code: D002
- Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
- Amount (Lbs): 71

- Waste code: P001
- Waste name: 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%
- Amount (Lbs): 15

- Waste code: P075
- Waste name: NICOTINE, & SALTS
- Amount (Lbs): 11

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004. RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004. RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110002258690

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.
 RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

<p>Media affected Bluiding Material: Media affected indoor air: Building material media cleaned up: Indoor air media cleaned up: Unknown media cleaned up: Past Use: Multistory Property Description:</p>	<p>Not reported Not reported Not reported Not reported Not reported Not reported The Property has been owned by the Amerada Hess Corporation since 1969. Prior to Hess, the site was owned by Hewitt Oil Terminal. The southern portion of the property contains a bulk fuel storage terminal, which was not included as part of the ESA. The ESA covered the northern portion of the property, which is currently developed with a gravel parking area and boat ramp. This portion of the property is leased to the Charleston Fishing Club. The Phase I ESA identified a former fertilizer plant in the northern portions of the Property. A Phase II ESA was recommended; however, the owner would not allow access to complete the assessment.</p>

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

FINDS:

Registry ID: 110001675848
Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail_disp_program_facility?p_registry_id=110001675848

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

Waste code:	D001
Waste name:	IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
Amount (Lbs):	78
Waste code:	D002
Waste name:	A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
Amount (Lbs):	5
Waste code:	D005

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

- Waste code: D002
- Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Handler Activities Summary:

U.S. importer of hazardous waste: No
Mixed waste (haz. and radioactive): No
Recycler of hazardous waste: No
Transporter of hazardous waste: No
Treater, storer or disposer of HW: No
Underground injection activity: No
On-site burner exemption: No
Furnace exemption: No
Used oil fuel burner: No
Used oil processor: No
User oil refiner: No
Used oil fuel marketer to burner: No
Used oil Specification marketer: No
Used oil transfer facility: No
Used oil transporter: No

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

- Waste code: D001
- Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
- Amount (Lbs): 904
- Waste code: D002
- Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
- Amount (Lbs): 1087
- Waste code: D005

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

Environmental Interest/Information System:

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

- . Waste code: F001
- . Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS USED IN DEGREASING: TETRACHLOROETHYLENE, TRICHLOROETHYLENE, METHYLENE CHLORIDE, 1,1,1-TRICHLOROETHANE, CARBON TETRACHLORIDE AND CHLORINATED FLUOROCARBONS; ALL SPENT SOLVENT MIXTURES/BLENDS USED IN DEGREASING CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

- . Waste code: F002
- . Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

- . Waste code: F003
- . Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

- . Waste code: F005
- . Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

- . Waste code: F006
- . Waste name: WASTEWATER TREATMENT SLUDGES FROM ELECTROPLATING OPERATIONS, EXCEPT FROM THE FOLLOWING PROCESSES: (1) SULFURIC ACID ANODIZING OF ALUMINUM; (2) TIN PLATING ON CARBON STEEL; (3) ZINC PLATING (SEGREGATED BASIS) ON CARBON STEEL; (4) ALUMINUM OR ZINC-ALUMINUM PLATING ON CARBON STEEL; (5) CLEANING/STRIPPING ASSOCIATED WITH TIN, ZINC, AND ALUMINUM PLATING ON CARBON STEEL; AND (6) CHEMICAL ETCHING AND MILLING OF ALUMINUM.

- . Waste code: F007
- . Waste name: SPENT CYANIDE PLATING BATH SOLUTIONS FROM ELECTROPLATING OPERATIONS.

- . Waste code: F008
- . Waste name: PLATING BATH RESIDUES FROM THE BOTTOM OF PLATING BATHS FROM ELECTROPLATING OPERATIONS IN WHICH CYANIDES ARE USED IN THE PROCESS.
