Alternate content films

If you are the rights holder to the film:

- Please deliver a copy of the film to the cinema where your event is being held
- Content must be supplied in DCP format on a USB or Hard Drive 7 working in advance
- If you are running anything in addition to the agreed content (i.e. advertisement, holding slide, short film) it should all be supplied at the same time on one device.

If you are not the rights holder: please advise of the selected film and we will contact the distributor on your behalf. Sourcing a previous title is subject to availability of the film in DCP format from the film's distributor. Film distributors generally won't approve a film screening that is less than \$800.00 in cinema hire. A \$330.00 alternate content fee is charged for freighting costs from the film distributor.

Are you supplying your own film content, screen add or holding slide? Don't Forget to:

- Save your content with a clear file name (date, group name, clearly labelled)

Technical Rehearsals

Technical Rehearsals are strongly recommended. They run for 15 to 30 minutes, and can be conducted one of two ways:

1. Deliver the film to the cinema so that testing can take place at a time convenient to the Technical Manager.
2. If you wish to be on site for the rehearsal then a time will need to be scheduled with a Technical Manager, and can only occur outside of regular screening hours. Technical rehearsals can be scheduled between 8.00am and 9.30am on a weekday only. [Fee: \$85.00 p/hour]

IMPORTANT: Rehearsals must occur strictly no later than 3 - 5 working days prior to your function. They cannot take place on the day of the booking. Please co-ordinate with either your Event coordinator or the Cinema Manager for a suitable time.

IMPORTANT: All on screen content must be supplied in DCP [Digital Cinema Package] by a reputable commercial provider. We recommend obtaining a quote as early as possible from one of the following suppliers:
