

Find your perfect window styling!

Luxaflex®

Designed by Luxaflex®. Inspired by you.

Ultimate operating comfort:
Silhouette® Shades with PowerRise®

Silhouette® Shades

Gentle translucency for an endless variety of moods

With the ingenious construction of Silhouette® Shades you are choosing soft fabric vanes that seem to float between sheer facings. They allow you to subtly filter the incoming light in your home and determine the degree of privacy.

“Silhouette® Shades give my living room a luxurious feeling”

Twist[®] Roller Blinds

Distinctive ambiance and privacy control in one

Two sliding layers of fabric with sheer horizontal strips. This is the hallmark of Twist[®] Roller Blinds. It's an amazingly simple and effective method for choosing just the right amount of incoming light and privacy.

You can opt for refined voiles or a silky fabric with a lovely luxurious feel in the open strips. Alternatively you can choose the Symphony with segments in three different shades. Whatever you decide, the quality will be outstanding.

Roller Blinds

Even more choice with the new collection

Luxaflex® adds a new dimension to the traditional roller blind. The collection includes striking fabrics in modern style colours, textures and transparencies.

Luxaflex® responds to the larger windows which are being applied more and more frequently in modern architecture. Greater widths are spanned effortlessly, and thanks to sophisticated systems, these blinds are easy to operate and to install.

“We chose a beautiful, sleek design roller blind to compliment our great view”

Duette® Shades

An extensive choice of fabrics to control light and privacy as desired

New Operating Systems:

The Luxaflex® LiteRise® cordless operation system allows the user to raise and lower your blind with just a touch of the hand. Simply place your hand on the bottom bar handle and either push up or pull down to lower. Your shade stays right where you want it without any springing up or dropping down. Not only does the proprietary design hold the shade securely in any desired position but the elimination of lift cords gives the blind a clean, uncluttered look and provides increased safety for children and pets.

The second new system, called Luxaflex® SmartCord®, is a revolutionary new operating system that uses a retractable cord mechanism to raise and lower the blind. With just a single stroke of the cord, this incredible new system allows the user to lower the blind to the required position and the constant cord length means there are never any long, dangling cords to detract from the appearance of the shade.

Wood Blinds

Nature's warmth and beauty, in your home

With its natural beauty, wood has long been an inspiration and delight. Its calming and reassuringly solid presence provides a welcome contrast to the hustle and bustle of modern daily life. Luxaflex® Wood Blinds bring all these qualities home to you.

Classic Shutters

Combining Elegance with Durability

Luxaflex® Classic Shutters transform ordinary windows into inspiring highlights of the home. Combining elegance with durability, they are perfect for windows everywhere. Choose between the classic styling of tilt rods to control the angle of your louvres or hidden tilt rods which offer a clean appearance when the shutters are closed. Select one of three louvre sizes to match the design of your room.

For truly exceptional, fully **customised** and reliable window coverings, Luxaflex® is the perfect choice.

With over 60 years' experience, Luxaflex® is committed to providing you with an **unrivalled** selection of products, fabrics, materials and colours for your **comfort** and **pleasure**. All covered by a **five-year guarantee**.

Designed by Luxaflex®. Inspired by you.

To ensure that your experience with Luxaflex® is the very best it can be, our products are sold by professionally trained dealers. Our experts will answer your questions, provide home measuring and fitting services, and configure your custom product to your exact specifications.
