ANGEL
SHACK

Business is changing. Life is changing.
We mix personal and professional.
Speed is everything. And internet is accelerating the pace of change.
Yet one part of work remains stuck in the past.
Office furniture. It's expensive. It's inflexible. It's dull.

So we asked people what they needed to do their jobs better.
They said office furniture should look great and be clever.
Make work easier, more pleasant and more productive.
Without being complex or costing a fortune.

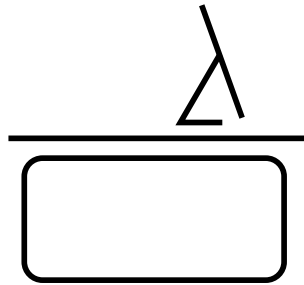

So we decided to change the game. Challenge convention.
Create innovative and high quality furniture that works the way we do today.
Make it easy to plan and buy.
Make it affordable for more companies and organisations.

We asked a leading German designer to develop great-looking office furniture.
We put together a world-class team to make it.
And built a state-of-the-art factory here, in South Africa.

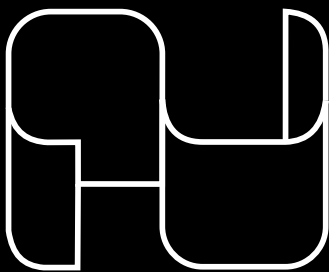

Result: smart, contemporary, award-winning office furniture.
Inspiring and practical design that you can afford.

ANGEL
SHACK
and a little workstation

7Up

7Up is an all-in-one workstation catering to the needs and demands made on the worker today. Whilst 7Up inspires your day at work, others will be inspired by 7Up's good looks. Elegant and understated, 7Up enables you to build a workstation that works for your style as well as the task you are needing to perform.

7Up and its accessories are available in a wide range of colours and finishes. The recessed centre leg on the bench application is both space efficient and a conduit for vertical cable management.

High capacity cable trays provide for horizontal cable management, with frontal screens that attach to the substructure of the workstation.

Available with an aluminium or wooden finish to the legs.

7UP DESK

The signature “7” connector provides a common aesthetic across this desking range.

TEX desk and bench applications offer a light, refined aesthetic with floating tops, recessed legs and discreet cable distribution. TEX's flexible design adapts easily as business needs change.

TEX

With its signature aluminium casting, TEX offers a unique design aesthetic on both the bench and single workstation applications.

GAME CHANGER™ | NOW

An elegant entry level desking system with a welded steel substructure. The looped frame option provides a sophisticated design aesthetic at a budget price. NOW has its own design of frontal screen created to support the activities that would be carried out at the workstation.

GAME CHANGER™ | KIS

Keep it simple. One of the smartest sayings we know.
The inspiration for GameChanger KIS. Straight forward yet
stylish desks that are easy to mix, match and combine.

KEEP IT SIMPLE

For teamwork and task-oriented work, sitting and standing. The KIS system enables you to be private when necessary, public when wanted. And it comes with oodles of optional accessories.

Super-easy to assemble

GameChanger KIS has a lightweight frame that is strong and easy to assemble, disassemble, reconfigure and move as your business grows and changes.

Design based on people

GameChanger designer Stefan Brodbeck believes great design begins with 'design based on people.' Result: GameChanger KIS delivers a great working experience that means work will never be the same again.

GAME CHANGER™ | NXT

NXT by name, next by nature. GameChanger NXT is the high-end workstation solution for situations that demand maximum performance and functionality.

THE NEXT LEVEL

The ingenious high-back ladder frame design combines clean lines with clever ideas, environmental responsibility and a range of accessories to make work easier, more pleasant and more productive.

Design based on people

GameChanger designer Stefan Brodbeck believes great design begins with 'design based on people' and NXT reflects that philosophy. Adapt it and customise it for team work and task work to create an all-round great working experience.

Ladder frame

GameChanger NXT's ladder frame construction makes it possible to enjoy a variety of work-enhancing features. These include an effective privacy screen, optional integrated lighting and additional storage.

Configuration options

GameChanger NXT's frame is lightweight, strong and easy to assemble in open plan, cubicle or workbench configurations. It's low weight also makes it easy to disassemble, reconfigure and move with your business.

BIG WIG EVOKE

The workplace is changing. Today's leaders don't want to sit behind closed doors amid dark, graceless furniture. You're visible and connected. You have an eye for contemporary design, quality materials and real craftsmanship. So why doesn't your desk look beautiful and feature sublime tactile details? BigWig Evoke is a range of sleek, aluminium framed desks, an inspiring environment for working, meeting and dreaming.

MY SPACE

BigWig Evoke's optional space dividers create privacy and reduce distractions and noise, for comfortable open-plan working.

MULTIFUNCTIONAL SCREEN

A multipurpose screen ensures close doesn't become claustrophobic, and provides a handy locale for useful accessories.

CABLE TUBE

BigWig makes it easy to plug-in and connect while hiding power cords and cables to maintain a clean, spacious workspace.

SMART EXTRAS

BigWig Evoke's extensive range of accessories help you get organised and stay organised, and let you personalise your space.

What sort of desk do you deserve?

Your ideal desk is like a second skin. It fits you and helps you do what you do. It makes your work easier from a practical perspective and more satisfying from an aesthetic one. BigWig Evoke ticks all your boxes. And it's good in another way, too.

Man-made VOCs - volatile organic compounds - are bad for our health and environment. All BigWig laminates and coatings are therefore certified VOC-free, and our manufacturing processes meet all leading global environmental standards.

BIGWIG SIT & STAND

Get together to get it done with these elevated workbench solutions. Ideal for impromptu scrum-style meetings. Show, tell and share. Then break up and move forward.

BIGWIG BENCH

BigWig's sleek aluminium construction is practical as well as beautiful. With configurations ranging from single desks to team-focused work benches, be free to choose how you work.

BIG WIG PRESTIGE

Today's c-suite executives have moved on. You don't see an office full of dark, heavy furniture as a symbol of success. That's old school management. You're about leadership and coaching. Teamwork and agility. You would rather be out and about than behind closed doors. Your phone, your car, show that you appreciate clean, modern design and quality materials. BigWig Prestige is the perfect compliment to the contemporary c-suite office. Our executive desk is the finishing touch that says you've arrived and you are going places.

A woman with dark hair, wearing a yellow patterned top and black pants, is sitting at a modern wooden desk with a silver metal base. She is looking at a laptop. The desk is in a room with stone walls and large windows. To the left, there is a round wooden table with a glass of water and a vase of white flowers. To the right, there is a wooden cabinet with a black lamp and a red vase. A patterned rug is on the floor. The text "Designed with today's leaders in mind" is overlaid on the image.

Designed with
today's leaders
in mind

What sort of desk do you deserve?

Your ideal desk reflects your achievements and helps you take your business forward. It performs from a practical perspective and satisfies from an aesthetic one. BigWig Prestige fits the bill. It is also certified VOC-free. It contains none of the man-made volatile organic compounds that are bad for our health and environment, and our manufacturing processes meet all leading global environmental standards.

CONNECTIVITY PANEL

So many devices, so easy. BigWig Prestige makes it a breeze to plug-in and connect, or unplug and go.

COLOURS AND MATERIALS

Natural finishes, the highest quality wood and aluminium add up to pure class.

MEETING TABLE

From a quick heads-up on the latest developments to a longer, more detailed get-together, the BigWig meeting table is a great place to get things done.

BOARDROOM Comfortable and stylish, functional and inspirational, the BigWig Prestige boardroom table creates the right atmosphere for productive discussions and decision making.

HEIGHT ADJUSTABLE

With the electric height adjustable table, posture and work can be varied. Ideal for a workstation, collaboration space or project desk. The table height can be adjusted from 650mm - 1200mm, making it ideal for a multi functional work area.

WE CARE ABOUT YOUR HEALTH!

Innovation is our number one priority and as a result we are proud of our new antibacterial nano coating for work surfaces.

What is it?

An invisible coating applied to all work surfaces used in many schools, hospitals and the general workplace where it is a silent guardian working a 24 hour seven day a week shift to protect people against viruses, bacteria and mould organisms.

The antimicrobial properties last for the lifetime of the coating, as long as the coating is complete and coherent.

How does it work?

- It prevents the bacteria's access to nutrients so they starve and die.
- It has a bacterial kill rate of 99.9% over a 24 hour period.
- It remains effective for the life of the coating because of its inherently low water solubility.

What bacteria does it work against?

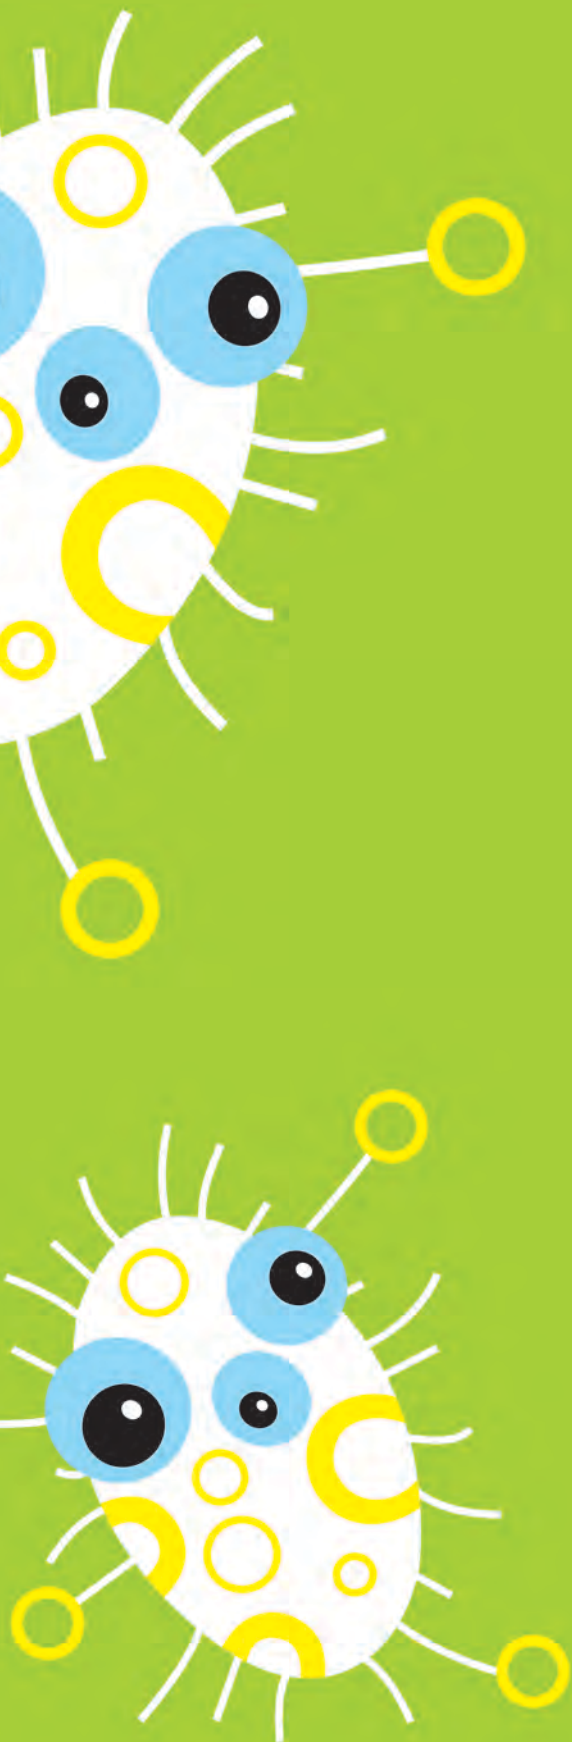

Coatings have been tested against the following bacteria:

- staphylococcus aureus Methicillin-Resistant Strain (MRSA)
- listeria monocytogenes
- staphylococcus aureus
- salmonella enteritidis
- klebsiella pneumoniae
- aspergillus niger
- pseudomonas aeruginosa
- bacillus cereus
- saccharomyces cerevisiae
- escherichia coli

What viruses has it been tested against?

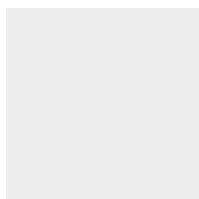

The active ingredient has been shown to be effective against:

- influenza A H1N1
- H3N2
- SARS virus
- herpes simplex virus
- many similar viruses

BOLTCHAIR 

Time means money

The BOLT chair is all about efficiency. Why waste time on waiting for furniture orders and repairs? We understand that business must continue which is why our chair is readily available and made for reliability. This is made possible through our quick assembly and delivery production line – right here, in South Africa.

We know and understand that your time at work needs to be as pleasant and productive as possible. That's why BOLT's ergonomic back design is shaped to support the lumbar region and is made of mesh upholstery, providing all-day comfort with style, while the height adjustable arms provide support and flexibility.

POPCHAIR

This chair will
make you happy*

* **Meet our new POP chair.**

It will make your back (and your wallet) feel great.

WINNER OF:

Athenaeum Award
for Good Design
2015

How can we make the perfect office chair?

Why is it that comfortable office chairs are so ugly, and beautiful office chairs so uncomfortable (and expensive)? Come on, it's the 21st century. So we set out to do better. To make a beautiful looking task-oriented chair that provides total support through a long day at the office. At a fair and affordable price.

1

Refined German design

We began by asking acclaimed German industrial designer Stefan Brodbeck to work with us on creating an office chair that would rewrite the office chair rules. It should be great looking yet comfortable, and solid yet fun.

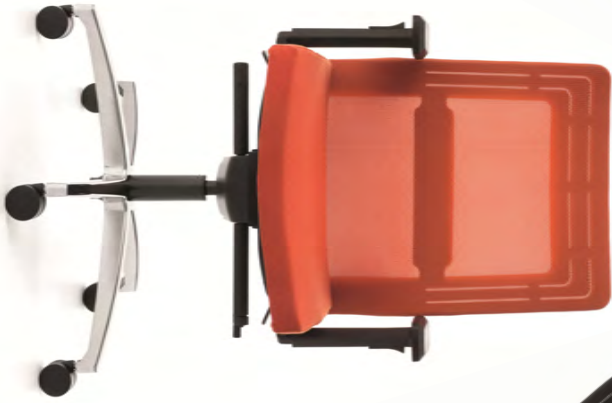

2

Made with love in South Africa

Then we asked our world-class team here in South Africa; product development, manufacturing, marketing, logistics, quality control, environmental standards and everyone else involved to manufacture it to the highest international standards.

POPCHAIR

FIT IN ANY OFFICE

With its wide range of available colours, the POP chair complements and adds to the look & feel of every office environment. Choose one colour for all your chairs. Or go playful and mix them up.

GUARANTEED TO LAST

Bitma certified.

WIDE RANGE OF BACK COLOURS

SLIDING OR STATIC SEAT

2D, 3D, 4D ARMS WITH WIDTH ADJUSTMENT

FULL SYNCRO OR SENSE MECHANISMS

ALUMINIUM OR PP BASE

EASY SLIDING

Smooth running, hard or soft castors for controlled movement over any floor.

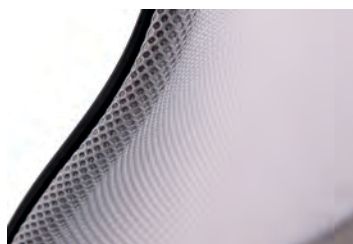

LUMBER SUPPORT

For a comfortable, ergonomic position and spine support.

ADJUSTABLE ARMRESTS

Height adjustable, angle adjustable, width adjustable, reach adjustable... this is Comfort with a capital C.

STRONG AND FLEXIBLE MESH

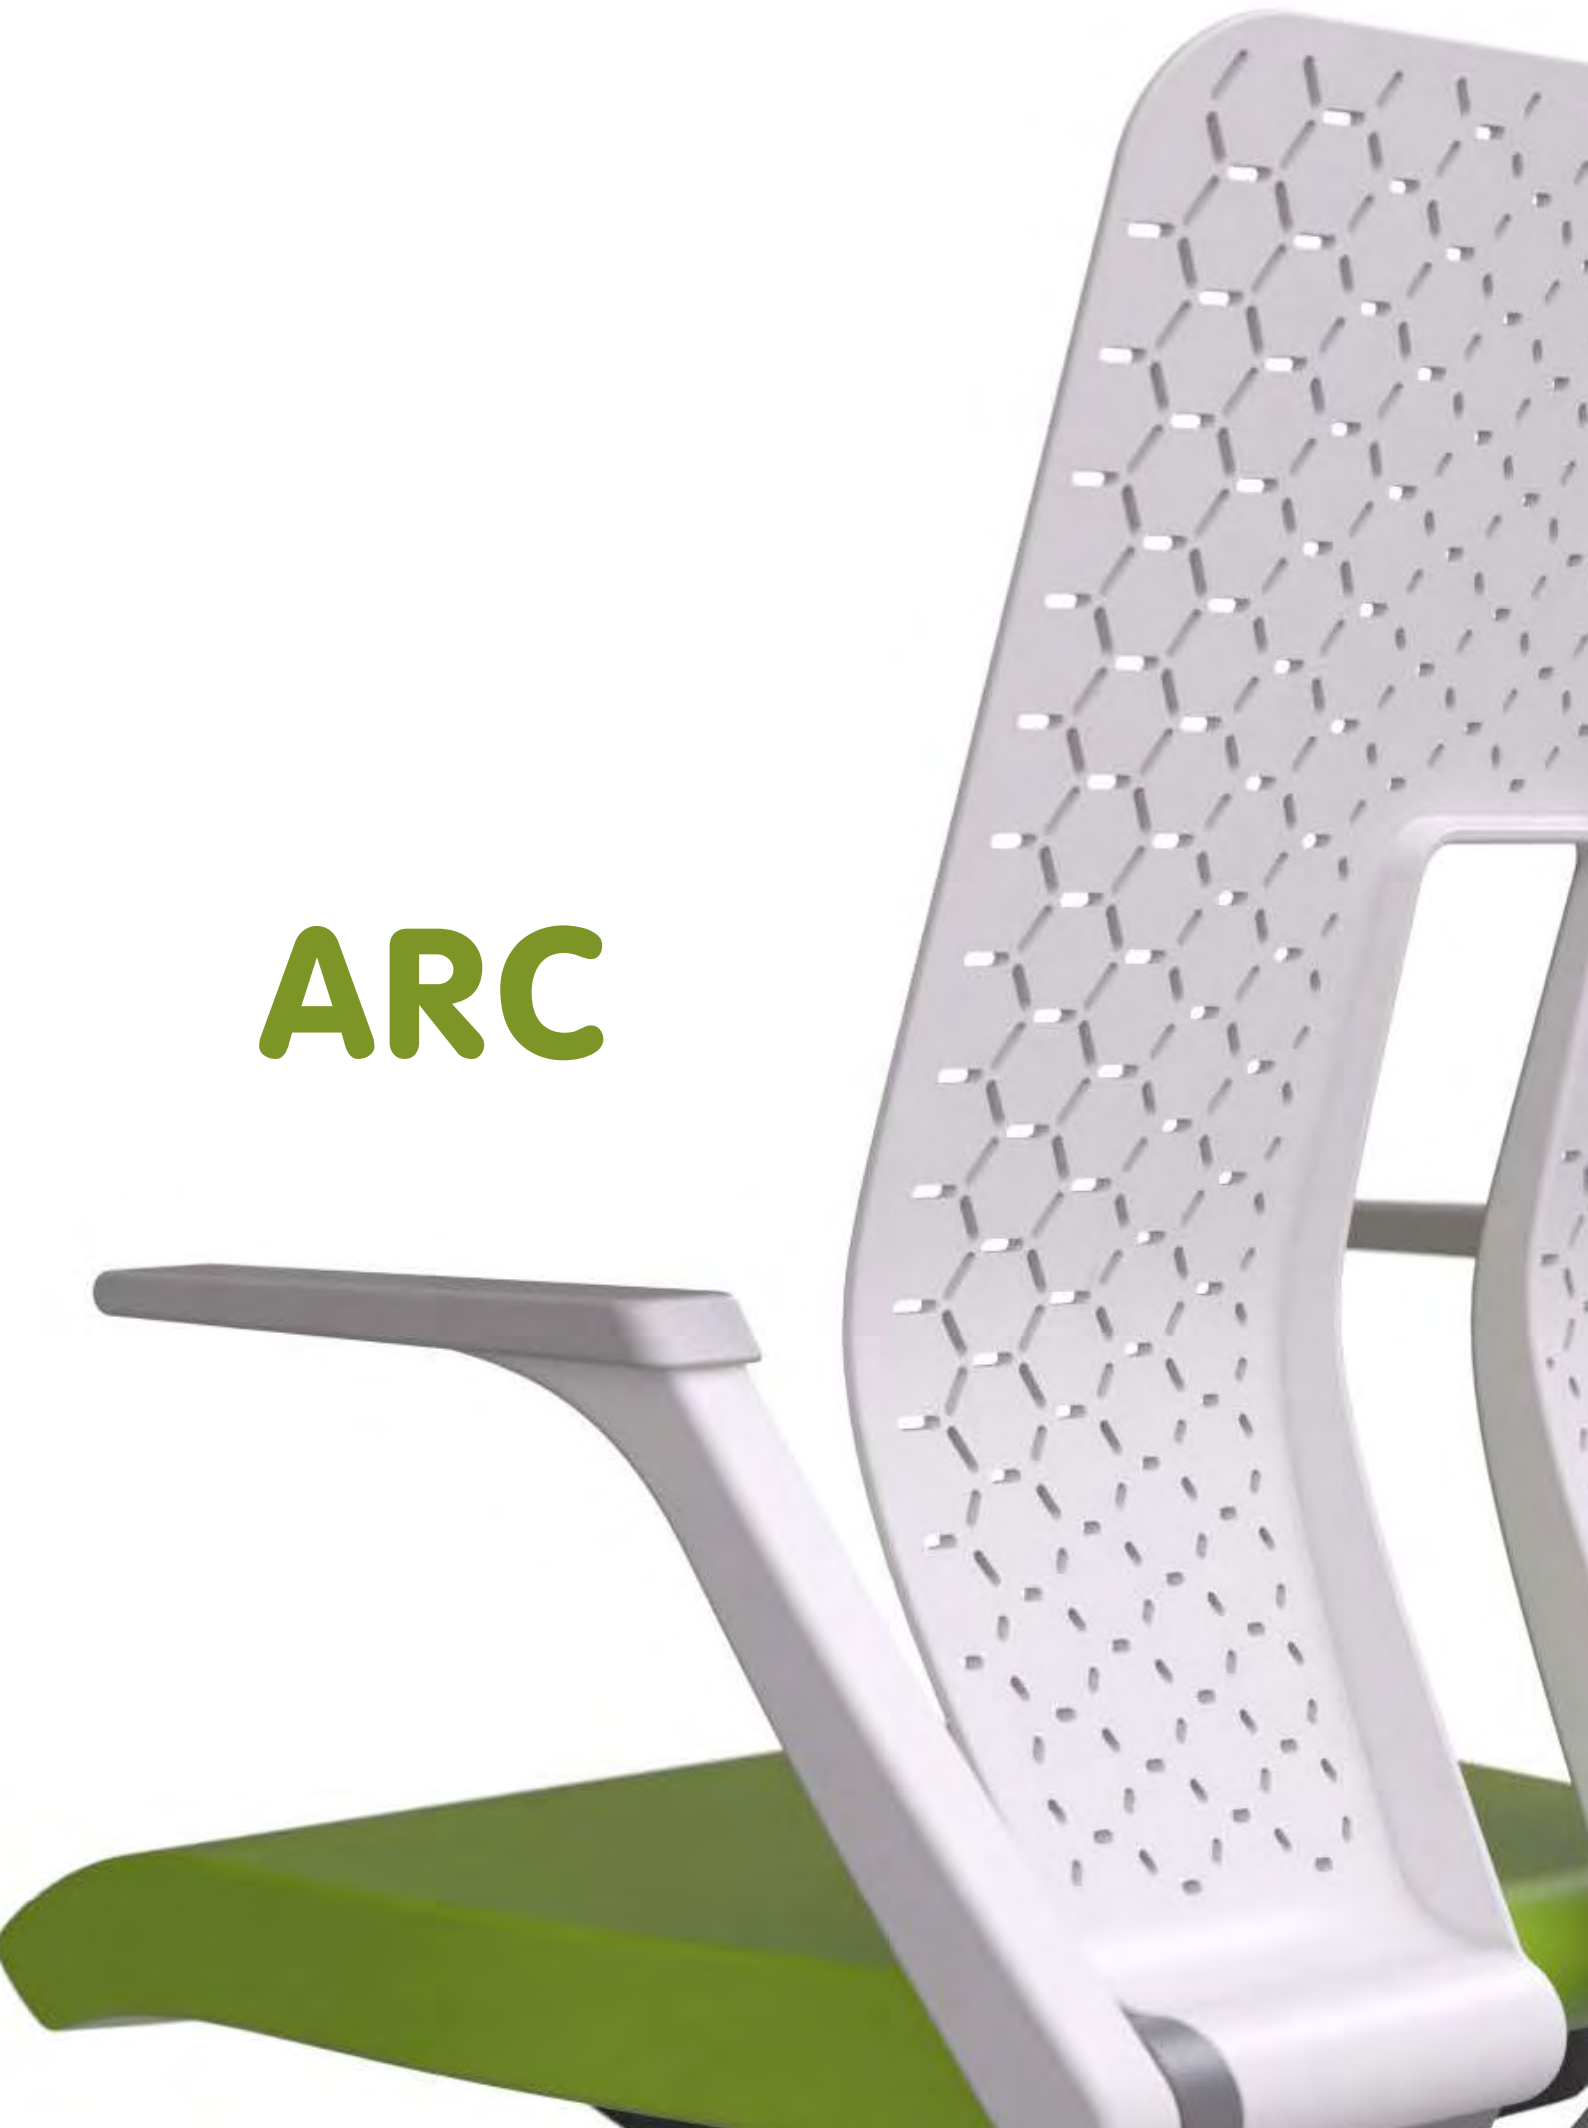

POP's simple yet comfortable meshed back is strong and flexible to provide supreme comfort.

INTUITIVE DESIGN

Seat height, tilt, swivel and all other controls fall easily to hand for fast, intuitive adjustment.

ARC

ARC is one of the newest additions to our seating range. This is a high performance task chair that offers the full range of ergonomic features and benefits.

ARC is highly customisable to ensure complete comfort to the user. The position and movement of the armrests allow the user complete freedom of movement and dedication to the task at hand.

Think of the cockpit of a fighter jet or a Formula 1 racing car for example. Everything about the seating in these environments is designed for top performance. Form closely follows function to ensure long-term ergonomic comfort for a specific type of activity. We have always adopted the same approach in the design of our high performance seating solutions.

ARC is available with a patterned backrest and a wide selection of upholstery finishes. It is also available as a high-back or a mid-back operator chair.

ALLY

Ally is a versatile operator chair. Available with a mesh or upholstered backrest, this is one chair that can fit any aesthetic.

Ally incorporates all of the ergonomic features one would expect of a high performance task chair. Ally will not look out of place in meeting rooms either, allowing a common corporate identity to be maintained throughout the work place.

FIN

FIN is the multipurpose chair designed to fit into all environments. With its one piece seat shell, FIN can be offered in upholstered, partly upholstered and un-upholstered variations. FIN is available on 4-legs, an integral sleigh base, a conference chair base and as a bar stool.

Use FIN to bring variation to your collaborative, canteen and meeting spaces whilst at the same time preserving a common corporate identity.

3rd
base

igloo

AN OUT OF OFFICE EXPERIENCE

The simple, yet elegant, system gives you the freedom to work where and how you want. Igloo is the ingenious alternative workspace solution that can be configured by you to suit your unique requirements.

The Igloo system starts with a single lightweight panel clad in your choice of fabric. By adding additional panels your desired configuration is quickly and simply achieved.

Build linked desking, meeting rooms, utility areas or informal discussion areas. Your imagination is your only limit.

Use Igloo to create a purpose built utility area. Igloo is easily configured into a tidy, comfortable, low noise environment to house photocopiers, printers, binders, paper, ink and all those supplies that an efficient office needs. The notoriously scruffy utility area is now well contained, efficient, quiet, and completely out of sight.

Our latest addition to the Igloo meeting area is the innovative meeting pod. The digital pod allows for up to six data inputs simultaneously, so that laptops and smart devices can connect and display images or data on the HD monitor at the flick of a switch. No more fumbling for cables and connectors.

THE NEST

INFORMAL MEETING AREA

The NEST is an informal meeting area equipped with data points and charging stations for your smart devices. Our laptop table makes working comfortable and productive. To reduce voice and ambient sound intrusion the entire acoustic area is upholstered in hard wearing fabrics of your choice.

The NEST comes with options of power and data links for your smart devices. Now your power hungry equipment will remain fully charged throughout your meeting.

The task bars on the side frames of the NEST can accommodate plant holders, magazine racks and brochure stands. The NEST is a peaceful but productive space.

SPEAK EASY BOOTH

The Speak Easy Booth offers total privacy for those important phone calls in the office. You don't have to walk around the office to find a quiet space to take your call. Now your conversations are exclusively between the two of you. Acoustic foam ensures that the booth is completely sound proof and private. The Speak Easy Booth has a full length glass door and internal lighting. There is a shelf for pencils and note books. So go ahead and make your calls in peace and quiet.

Great ideas aren't created in boardrooms. Spontaneous interactions are where great ideas are generated. Staff need space where they can meet their colleagues and chat about new ideas. Our informal multi-shaped Rocks bring casual seating to the office environment. Rocks come in different heights and colours and combine beautifully with the elegant ribbon table.

buddy

Buddy chairs are designed to move about, they are light, playful and easy to reconfigure. You can tip, lean and swing around. A chair that is adaptable and affordable.

Buddy is ideal for that extra seat needed at a desk, meeting space or around the coffee area. With the option of a flat or rounded base, it is ideal for areas where movement and quick thinking is encouraged. Communicate your brand and culture by branding or choosing colours for Buddy.

perch

Standing gatherings are proven to be 45% faster than seated gatherings. With this in mind the BigWig up and over with perches is ideal for collaborative meetings. Perches are designed to provide a sit-stand solution for the users.

The best ideas
come when
you least
expect them

A red-tinted photograph of a desk setup. On the right side, there is a printer with a stack of papers on top. To the left of the printer, there are more stacks of papers and a notebook. The background shows a desk surface and a chair. The overall scene is a workspace for productivity.

storage & accessories

NOVUS

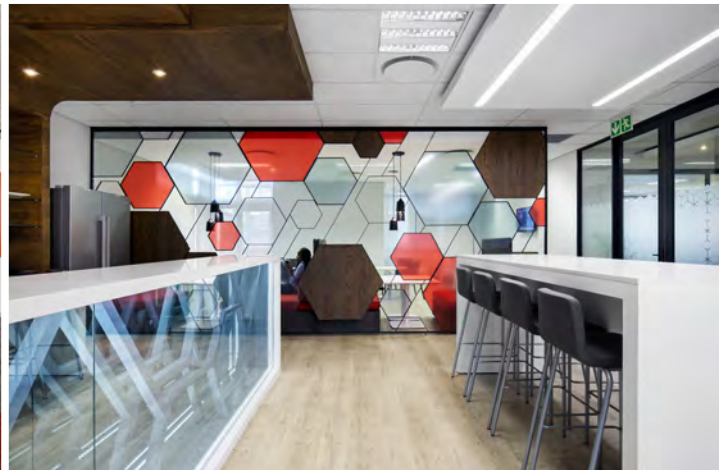

Improve the ergonomics of your workstation with the NOVUS monitor arm range. These simple and elegant solutions will enhance the work environment, streamline your workstation and improve efficiency. Correctly selected and utilised monitor arms will have the effect of shrinking a workstation, thereby optimising the real estate.

signature spaces

An organisation's furniture is a tool for communicating their individual brand and culture. We pride ourselves on providing signature spaces that do exactly this.
