## Hello BIBO

“

Simply connect the BIBO Water Bar to your water main for unlimited pure, filtered, chilled and boiling water at the touch of a button.

”

## Welcome to the future of water.

"The BIBO Water Bar is the next generation water purifier that connects to your mains water supply, providing you with an unlimited supply of the purest water, serving it perfectly chilled or boiling hot, at the touch of a button. Energy efficient and environmentally friendly – it is really the future of water."

### Pure, Healthy Water

BIBO has the two highest water accreditations in the world – Watermark from Australia and NSF from the United States.

Completely pure, clean and great tasting water – not just for drinking but also ideal for cooking.

Latest technology in water filtration – ultra-sophisticated, multistage carbon filters and UV lamp purification.

Ensures that the healthy minerals remain and only the bad elements are filtered out.

Preferred filtration as per the World Health Report – enhanced by the UV lamp purification which will eliminate any water-borne bacteria.

Easy to change – long life carbon filters only need to be changed twice a year and the UV lamp once a year.

### Energy Efficient and Environmentally Friendly

Save electricity by replacing your kettle with a BIBO. Your BIBO automatically goes to sleep after a certain amount of time of not being used.

Program your BIBO to come on and go to sleep at the times of day that suit your lifestyle.

Your BIBO won't let you waste a drop of water – no need to run the tap to get the water hot or cold for drinking or cooking.

Help save the environment by reducing CO<sub>2</sub> emissions created by hauling heavy water across the planet.

Reduce the use of plastic bottles by bottling your own water.

### Instant Chilled & Boiling Water

Endless supply, no refilling.

Instant chilled, boiling and pre-set temperatures of choice – no more waiting for water to boil or chill.

No more buying or loading drums full of filtered water.

Child lock – safe for children.

Set your favourite mug, glass or bottle sizes – also ideal for filling baby bottles to one's ideal pre-set temperature and quantity of choice by simply pressing a button.

## BIBO at the Office

### The Productive Choice

**Improve Productivity:** No need for staff to waste time waiting for the water to boil, or congregate around pause areas or kitchens.

**Avoid paying extra:** Bottle your own water at your office and avoid paying extra for drums of filtered water or having to replace burnt-out urns.

**Convenience:** Position your BIBO in your boardroom, passage, pause area or anywhere convenient for you and your staff.

**Energy efficient:** Save electricity with a BIBO. Imagine how much electricity you waste by re-boiling the same water many times per day.

**Environmentally friendly:** Help save the environment by reducing CO<sub>2</sub> emissions and minimise the use of plastic bottles.

**Water conservation:** Imagine the amount of wasted water left behind in plastic bottles or when running the tap to get the water hot or cold.

The BIBO won't let you waste a single drop.

# BIBO & Your Baby

## The healthy and extremely convenient choice

**Sterilized:** the water from your BIBO is completely pure enhanced by the UV lamp purification ensuring that it is extremely healthy for you and your baby.

**Pre-set temperatures:** set your temperature of choice enabling you to dispense the exact temperature you require for you and your baby at the touch of a button.

**Pre-set quantities:** set your quantity of choice enabling you to dispense the exact quantity you require at the touch of a button.

**Instant:** no more waiting for the water to boil and cool down. Simply press a button to dispense pure water at your desired temperature, filling the bottle to your exact quantity of choice without having to press again.

**Safe:** your BIBO is perfectly safe for children with BIBO's additional child lock option.

## Dimensions

# Installation Options

## BIBO Installer

We can install your BIBO virtually anywhere. BIBO does not need to be close to water. All we require is that there is some type of water source somewhere in the vicinity. We drill through granite, marble, caesar stone and other similar surfaces with ease. We use specialized diamond drill bits, water guides and lots of experience to make the most beautiful, little 8mm hole you have ever seen.

We install in Gauteng, the greater Cape Town region as well as Durban. Once installed our BIBO installer will customize your BIBO setup to your specific requirements. The installer will then train you on how to best use your BIBO. All our installers are highly trained and have tons of experience.

We hate seeing pipes. Our installers are passionate about hiding all pipes. It will look like your BIBO is being filled up with water without any pipes whatsoever.

## Self-Install

If you prefer, you can even install it yourself. Your BIBO comes with all the valves, fittings and a three meter long pipe needed for the installation of your BIBO. Very little plumbing experience is needed. If you feel uncomfortable installing your BIBO your local plumber would be more than qualified to do the job.

We provide you with a very useful infographic which explains step by step how to install your BIBO. We have staff on standby who would gladly talk you through the installation and setup of your BIBO.

## Gold Star Service

At BIBO you are royalty. We will stop at nothing to make you happy with your BIBO. We would love to show you the service we have become legendary for. Give us a try.

# BIBO

## In Detail

### Display

Full colour 2.8" TFT screen with pictorial information, fully programmable on-screen menu system and visual feedback. Full colour temperature and dispense indicators with a touch-screen interface.

### Precision Control

With BIBO, you can control all water temperatures to within 1°C for perfectly chilled, boiling or ambient water temperatures. One-touch operation allows you to control all BIBO functions from a central menu system – set sleep timers, on/off timers, child lock, audible feedback, language and time/date, while specially designed water dispense functions can be easily programmed for a particular mug, glass or cup.

### Water Output

Each BIBO is designed to service up to 50 people in one place. Therefore should you have 100 people in your office you would need two BIBOs.

**Boiling Water:** BIBO will produce 5 cups of boiling water instantly. It then takes a minute to regenerate the next 5 cups. This works out to roughly a cup a minute.

**Ice Cold Water:** The BIBO will produce unlimited cold water as long as your water mains are on.

### Superb Quality Water Filtration

BIBO holds the two highest water quality accreditations in the world – Watermark from Australia and NSF from the United States. BIBO carries a CE mark (Conformite Europeene) which is a manufacturer's declaration that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation. Internationally recognised, it also has a UL Mark for the United States & reaches the exacting ISI-1505 standard.

BIBO water is super pure, healthy and tastes great – thanks to the fact that it uses the latest technology to filter and purify your water. BIBO filters are designed to remove chlorine, fluoride, arsenic, hormones and other harmful elements from your water. In addition to this, BIBO leaves all the essential minerals and irons while removing odours and bad tastes. Coffee, tea and cordials taste so much better with BIBO water. Your BIBO also comes equipped with a powerful UV light. The UV light ensures that bacteria, pathogens and living micro-organisms are removed instantly. You can rest assured that you are getting the highest quality water available from your BIBO.

### Powerful But Efficient

BIBO is 230 Volts, 50 Hertz, 1,700 Watts, 16 Amps.

Instant pure and sterilised water at a pre set temperature that's perfect for baby

## **Technologically Advanced**

Latest technology in water filtration and purification

## What others say about us

"Excellent customer service from all the team and an excellent product, had it since August 2011 and wouldn't be without it."

David - June 29, 2013

"We are absolutely delighted with our Bibo which has far exceeded our expectations. The whole process of enquiring, ordering, installing and starting to use our machine has been an absolute pleasure. I will recommend Bibo to everyone."

Peter - May 08, 2013

"I love my bibo, I have had it for two weeks, I only have a small galley kitchen but my silver Bibo sits vey neatly on the side where my kettle used to be, even my husband loves it!"

Jennie - April 28, 2013

"Fantastic!!! We have had it since December 2012. Installed within 48 hours. Both installation and office staff extremely helpful and friendly. It has already saved us a fortune in filters for our old kettle. Worth every penny."

Warren - October 06, 2013
