Creating a statement with neutrality

Matteo Thun & Antonio Rodriguez is an award-winning architecture and design studio headquartered in Milan, with a subsidiary office in Shanghai. Founded in 1984 by Matteo Thun, the company operates internationally in the hospitality, healthcare, residential, office and retail sectors, as well as product design.

In partnership with Spanish designer Antonio Rodriguez since 2003, this highly acclaimed firm believes in an approach they call 'Zero design' - a rejection of design as an issue of taste, and the adoption of timeless simplicity as their strategy. They always search for the 'iconic form' and create things that people can understand intuitively.

For Jaquar Laguna, their overall vision was to design, for a global audience, a collection that makes a neutral, timeless, style statement - to ensure aesthetic durability and offer a long product lifespan.

A collaboration built on a shared passion for quality

The coming together of Matteo Thun & Antonio Rodriguez with a global brand like Jaquar Group is a meeting of congruent mindsets and complementary expertise.

Both companies are built on a vision of uncompromising excellence. According to Matteo Thun, "The strength of Jaquar is high quality - quality of design, quality of materials and the quality to implement an all-over design-vision." Jaquar's technical expertise and state-of-the-art manufacturing ability meant that there was absolutely no compromise on any aspect of Laguna's design. "They translated and realised the entire design concept to a hundred percent. We are very happy to collaborate with a brand of excellence. We trust them and they trust us!" adds Antonio Rodriguez.

An iconic form with timeless simplicity

What happens when one of the fastest growing bath brands in the world entrusts an award-winning Italian design house to create a product line that can stand the test of time?

The answer is Laguna – a timeless and classic design that reduces familiar shapes into a beautifully simple, perfectly styled silhouette that transcends fashion. And yet, is a holistic collection with every opportunity for customisation and individual expression. Jaquar Laguna is available in variety of single tone and dual colours.

The versatility of Laguna. Material, form, colour and combinations

"The complexity of simplicity", as Matteo Thun defines it, is the search for a design solution like the Laguna - enduring simplicity of form, in a cohesive collection of materials, colours and combinations that create wonderful opportunities for magnificently finished spaces.

The moods of Laguna

A selection of bathroom colour palette suggestions based on products from the Laguna collection.

URBANOASIS

Urban Oasis is all about high-end simplicity, elegance and sophistication.

COLOUR CHARISMA

Colour Charisma brings a fresh breeze of Mediterranean flair to the bathroom.

LUXURY ALLURE

Luxury Allure brings together fine textures, and the tactile pleasures of quality materials.

WOOD HAVEN

Wood Haven creates harmony through subtle, natural material combinations.

Urban Oasis

Urban Oasis is an island of tranquility that stands out from the hustle and bustle, the pulse and the speed of the city. The fine mix of materials and the neutral colour palette of this range easily correspond to concepts of restrained aesthetics, be it in private or public baths. Urban Oasis is all about high-end simplicity, elegance and sophistication.

If you wish to place orders for the different colour finishes of this range shown above, just replace the colour code in the middle of the product code with the colour code of your choice. For instance, in the product code LAG-CHR-91011B, 'CHR' notes Chrome Finish. If you wish to order the same product in Graphite finish, replace 'CHR' with 'GRF'. Thus the product code will be LAG-GRF-91011B.

Note: The finishes depicted here are only indicative and may differ from that on the actual product.
