Adhesive Products

PRODUCT NAME	GRIPiTe® V10 Pressure-Sensitive Adhesive	GRIPiTe® V20 Carpet Adhesive	GRIPiTe® V30 Vinyl Flooring Adhesive
Flooring Type	Backed Carpet Tiles	Unbacked Broadloom or Tiles	Homogenous or Heterogenous Vinyl
Cementitious Substrate	Yes	Yes	Yes
Other Substrate	Yes (on steel)	Talk to us	Talk to us
Pack Size	20 Litre	20 Litre	20 Litre
Usage	8m ² /1 litre	3m ² /1 litre	4m ² /1 litre
Trowel size	Flat trowel/Mohair roller	B1	A2
Flash Off Time (Atmosphere-dependent)	1 to 2 hours	10 - 20 minutes	10 - 15 minutes
Open time	2 hours +	30 - 45 minutes	30 minutes
Curing Time	Indefinite, Permanently Tacky	72 Hours	72 Hours
Temperature Range	10 - 30°C	10 - 30°C	10 - 30°C
VOCs	Zero	Zero	Zero

PRODUCT NAME	GRIPiTe® V30SD Static Dissipative Flooring Adhesive	GRIPiTe® V50 High-Performance LVT adhesive	GRIPiTe® C60 Contact Adhesive	GRIPiTe® C60SD Static Conductive Contact Adhesive	GRIPiTe® H80 Hybrid Adhesive
Flooring Type	Static Dissipative Flooring	LVTs	All flooring types	Static Dissipative	Outdoor Synthetic Grass, Rubber Sports and Engineered Wood
Cementitious Substrate	Yes	Yes	Yes	Yes	Yes
Other Substrate	Talk to us	Talk to us	Talk to us	Talk to us	Yes on Waterproofing
Pack Size	20 Litre	5 & 20 Litre	5 & 20 Litre	20 Litre	15kg
Usage	4m ² /1 litre	4m ² /1 litre	4m ² /1 litre (2 sides)	4m ² /1 litre	0.4-1kg/m ²
Trowel size	A2	A2	Mohair roller	Mohair roller	Application dependent
Flash Off Time (Atmosphere-dependent)	10 - 15 minutes	10 - 15 minutes	15 - 30 minutes when clear	15 - 30 minutes when clear	Wet Stick
Open time	30 minutes	40 minutes	2 hours	2 hours	30 Minutes/moisture- dependent
Curing Time	72 Hours	12 - 24 Hours	72 Hours	72 Hours	12 Hours
Temperature Range	10 - 30°C	10 - 30°C	10 - 30°C	10 - 30°C	10 - 30°C
VOCs	Zero	Zero	Zero	Zero	Zero

Skim-coating Products

PRODUCT NAME	DURALiTe® D50 Cement-based finishing skim coat
Application	Residential/Commercial
Application examples	Durable external and internal finishing compound for walls.
Open Time/Working Time	30 minutes at 20°C
Usage Rate	1.4 kg/3 mm/m ²
Pack Size	35kg
Water per Bag	14 Litres
Thickness	3-10mm
Mixing Time	3 minutes
Moisture Resistance	Good
VOCs	Zero

WET SYSTEM

> 3% Screed Moisture Content

NB: Application of each layer of each component must be started only when the previously applied layer is completely dry.

The secret is to apply thin coats. Avoid ponding or small pockets where small holes have accumulated excess material. Brush out the excess with a brush to obtain a thin film in the divot.

Moisture level >6%, do test area. If successful after 48 hours proceed as below. If not, wait for substrate to dry sufficiently.

If screed moisture below 6% (and above 3%) proceed as below:

1. Apply first coat of **VAPORiTe +PLUS** with a flat trowel, followed by rolling with a mohair roller which will speed up the drying process. Allow to dry.
2. When dry, apply the second coat as the first and allow to dry.
3. When dry, apply a thin film of **iTe SLURRY** with a lamb's wool roller. Allow to dry.
4. When dry, apply the required thickness of **LEVELiTe** as per the specifications set out in our data sheets.

DRY SYSTEM

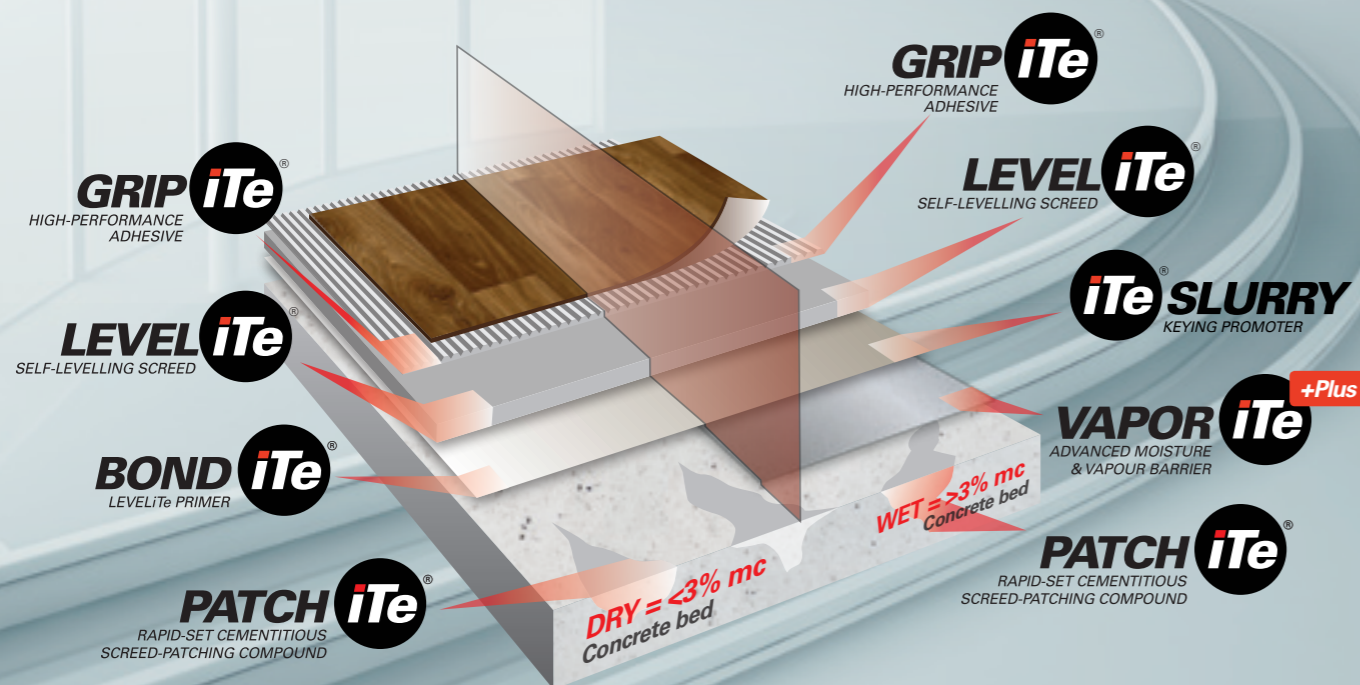

< 3% Screed Moisture Content

NB: Application of each layer of each component must be started only when the previously applied layer is completely dry.

The secret is to apply thin coats. Avoid ponding or small pockets where small holes have accumulated excess material. Brush out the excess with a brush to obtain a thin film in the divot.

Proceed as below:

1. Apply a thin coat of **BONDiTe** primer with a mohair roller. Allow to dry.
2. When dry, apply the required thickness of **LEVELiTe** as per our specifications as set out in our data sheets.

CATALOGUE OVERVIEW

It's said that a workman is as good as his tools, and this is just as true in the case of flooring preparation and installation.

iTe PRODUCTS recognises the need for applicators and installers to have the right tools to perform their specialised work. To this end, we have partnered with ROMUS in compiling this tool catalogue for both the basic installer as well as the craftsman who specialises in most aspects of flooring installation.

This catalogue includes tools, machines and equipment needed for everything from screed preparation to joint welding gear for vinyl flooring installation. It includes every day tools as well as tools used for special work that is carried out only periodically.

Motorized machines need to be backed up by a reliable repair and maintenance infrastructure, with specialised training in their use, supported by a national distribution network. This highly specialised business is best handled using tools and equipment manufactured by experts in the field.

Our role at **iTe PRODUCTS** is to identify and make these products available to the industry, to help the contracting industry source these products.

Naturally, many of these products are sourced from international manufacturers, and **iTe PRODUCTS** carries this stock. We do our best to ensure that all such items are readily available, but should demand exceed our expectations, please note that lead times are typically six to eight weeks.

In addition, in order to keep these tools readily available and affordable, **iTe PRODUCTS** operates with low mark-ups, so the list prices do not allow for discounts.

If there are tools that have not been included in this catalogue, please contact us and give us your suggestion. We aspire to be fully comprehensive when it comes to our offerings.

PREPARATION

Our range of preparation products begins with scrapers and strippers to remove old floor coverings prior to the installation of a new covering. It includes tools and equipment used for the testing of moisture in screeds, machines, mixers and application tools for the application of self-levelling compounds.

Our strategy is to offer contractors equipment on two levels. Firstly, we provide economically priced tools to satisfy installers who need the most affordable tools.

The second level consists of superior alternatives that may be more expensive, but offer improved performance and durability.

When providing moisture testing equipment, it must be as accurate as possible, as easy to use as possible and affordable so that ultimately all estimators and installers can have them readily at hand.

It is important to be assured that flooring manufacturers are satisfied that their chosen equipment is reliable from a perspective of providing consistent results.

Using the best mixers combined with the most effective stirrers is also of importance. Air entrapment in a self-levelling compound mixture is not desirable, while mixing at too high speeds can cause separation in the mix.

Experience has enabled us to offer the best solution for all of the above applications.

With labour costs escalating, we urge contractors to source equipment which improves productivity and is user friendly.

This is all part of our quest.

MOISTURE TESTERS

ROM-93270

Romus Screed Moisture Tester V1-D4

Screed moisture tester of concrete screeds. Measures to 40mm deep. - 4 Settings Can read through ceramic tiles.

ROM-93250

Protimeter Mini Moisture Tester

Electronic Reader to 20mm depth. Readings in WME%. Can be used with probes to reach 70mm depth.

ROM-93252

Protimeter Probes

Probes to test in 5,5mm 50mm deep holes.

ROM-93274

TH-100 IR Thermo-Hygrometer

With its IR (infrared) sensors, it measures: 1. air temperature, 2. surface temperature, 3. relative humidity, 4. and automatically calculates dew point. In option kit for measuring ground moisture using a hygrometric probe Ref. 93269. Supplied with two 1.5V AA batteries and a protective cover. Backlit monochrome display.

SCRAPERS

ROM-94300

Long Handled Floor Scraper

Removes old flooring and adhesive residues from screed.

- 1.1m wooden handle

Product Code	Range
ROM-94301	Spare Blades for ROM-94300 x 1

ROM-94345

Heavy Ball Scraper

For removing old flooring and adhesive.

- Length 30cm
- Blade width 10cm

Product Code	Range
ROM-92520	Spare Blades for ROM-94345 normal x10
ROM-92560	Spare Blades for ROM-94345 HD x10

ROM-94340

Hit Scraper

For removing old flooring and adhesive.

- Length 30cm
- Blade width 10cm

Product Code	Range
ROM-92545	Spare Blades for 94340 x1

ROM-94317

Pro Scraper

3 screws retain the blade. Steel tube handle with anti-slip comfort grip. Zinc head. Elastomer grip. Steel tube.
- Length : 30cm.
- Blade width : 10cm.

Product Code	Range
ROM-92520	Spare Blades for ROM-94317 normal x10
ROM-92560	Spare Blades for ROM-94317 HD x10

Product Code	Range
BLA/BS/10B	OLFA SCRAPER Blades x10
BLA/BSF/6B	OLFA SCRAPER Blades EXTRA HEAVY Duty x6
ROM-92520	Universal Scraper Blades x10
ROM-92560	Universal Blades HD x10

ROM-94330

Rectangular grinding stone

2 different sanding grits (36 and 60).
Dimensions : h.35 x w. 90 x L. 180mm.

ROM-194019

ROMIX MR 1900W MIXER

Economy Variable speed mixer for self-levelling compound.

ROM-94412

Stirrer "C" M14

Stirrers for "C" type paints

ROM-94258

Spike Shoes 31mm (Set of 2)

For walking on fresh screed surfaces. Thermoformed, elastomeric material. 31 mm spikes.

ROM-94256

Spike Shoes 25mm (Set of 2)

For strapping on under shoes. Minimise marking in self-levelling compound.

ROM-94418

Polygonal Stirrer

The optimum designed spindle for self-levelling compounds.

PBG-RMB75L

75 Litre Rubber Mixing Bucket

Mixing bucket for self-levelling compound.

PBG-TBCB

Bucket Trolley

Labour saving trolley for mixing self-levelling compounds. Also for transporting bags.

ROM-94424

Stirrer "B" for LEVELiTe

The optimum designed spindle for self-levelling compounds.

FLOOR SPREADERS & RAKES

PSF-TGSB

Tri-Glide Spreader 600mm (Body only)

The triangular spacers at the ends of the spreader set the thickness of application.

Replacement Glider Set of 2

Available in the desired thickness.

Product Code	Range
PSF-RGTG3MM	Replacement Gliders 3mm for PSF-TGSB
PSF-RGTG4MM	Replacement Gliders 4mm for PSF-TGSB
PSF-RGTG5MM	Replacement Gliders 5mm for PSF-TGSB
PSF-RGTG6MM	Replacement Gliders 6mm for PSF-TGSB
PSF-RGTG8MM	Replacement Gliders 8mm for PSF-TGSB
PSF-RGTG10MM	Replacement Gliders 10mm for PSF-TGSB

ROM-94280

Floor Spreader Including Anchors

Adjustable spreader.
Enables better control of application thickness.

ROM94285

Replacement Anchor Shaped Pins

Replacement Adjusters for the Floor Spreader.

Epoxy Rake 600mm Wide

This rake will draw the mixture of material to the desired thickness. Check the "pull" thickness.

Product Code	Range
PRF-ER624	600mm Epoxy Rake Pulls 2400 microns
PRF-ER628	600mm Epoxy Rake Pulls 2800 microns
PRF-ER632	600mm Epoxy Rake Pulls 3200 microns
PRF-ER636	600mm Epoxy Rake Pulls 3600 microns
PRF-ER640	600mm Epoxy Rake Pulls 4000 microns

ROLLERS & OTHER EQUIPMENT

ROM-94246

Spiked Roller

Special for circular movements without damaging the levelling compound. Supplied with protector and metal frame.

Product Code	Range
ROM-94246	Spiked Roller 250mm Wide - 31mm Spikes
ROM-94248	Spiked Roller 500mm Wide - 31mm Spikes

AFC-CB

Blower 900W

To Accelerate drying of BondiTe and iTe Slurry.

AFC-VC60WD

Vaccum Cleaner 60 Litre

Wet and Dry

SANDING & BUFFING

ROM-94476

"Sandy 2" Sanding, Buffing Scrubbing

Disc sanding machines for sanding and grinding concrete, maintaining PVC floor coverings, carpets, tiled floors, marble, stone floors, etc.

Machine only.

Servicing, parts and spares available

ROM-94474

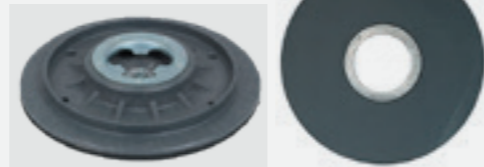

Vacuum Skirt for "Sandy 2"

ROM-94452

PVC drive disc for sand paper

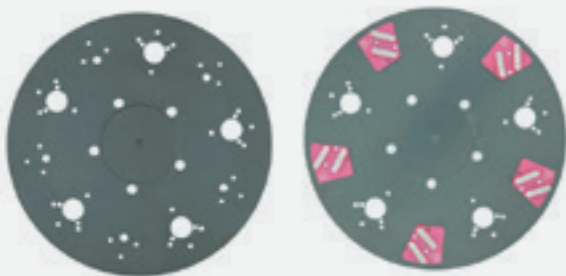

PVC drive pad for attaching sand paper.

ROM-97870

Drive Pad for Diamond Segments ROM-194772

Segments sold separately.

ROM-94471

Disc for pads ROM-94476

Disc with rigid PVC spikes for fastening maintenance pads. Fits on Sandy and Sandy 2 sanding machines.

Product Code	Range
ROM-94454	Sanding Disc double-sided 24G (420mm Radius)
ROM-94455	Sanding Disc double-sided 40G (420mm Radius)
ROM-94456	Sanding Disc double-sided 60G (420mm Radius)
ROM-94457	Sanding Disc double-sided 80G (420mm Radius)
ROM-94458	Sanding Disc double-sided 100G (420mm Radius)

ROM-194772

5 Diamond Segments 20Gr Medium

Multipurpose segment for medium hard to hard support. To be equipped on metal driving disc 97870. Pack of 5 segments. Order per pack.

ROM-94467

Wire brush Disc for "Sandy 2"

To remove all kinds of soft materials and other residual, such as foam, fibres (carpet & vinyl) ... Ø 384mm.

VINYL

The various flooring manufacturers have their preferred equipment that they recommend, which can complicate choices. Of key importance is the availability of high quality tools that will improve an artisan's performance, when used in conjunction with proper training in the use of the tool in question.

We endeavour to put together a selection of these tools that satisfy the needs of both the artisan and the manufacturers.

We often encounter resistance from the installer because the cost of the tool may be seen as excessive. Where proper training is given, however, the installer will see the benefits derived from an increase in output as well as a visible improvement in the quality of output. Less snags save hard earned money.

Trowels for the application of adhesives have been a burning issue for years, and the South African flooring industry is now at a point where standardisation has become necessary. Use of the correct notch trowel is important in respect of the type of floor covering to be installed, combined with the substrate onto which it is being installed, and the specifics of the application itself.

For the contractor, glue line starvation will result in a failure, while too much adhesive will result in messy work.

For the flooring contractor, it is important to control costs as well as how much product to send to site. The right tools in the right hands are the source of profits and respect. Poor tools result in shoddy work, weak profits and a lack of repeat business.

GROOVERS

ROM-95185

Triangular Groover

For grooving "V" shaped joints. Must be used with straight edge.

Product Code	Range
ROM-95186	Spare Blades for ROM-95185

ROM-95178

Triangular Carbide Groover

To make a «V» groove. Carbide blade.

Product Code	Range
ROM-95179	Spare Blades for ROM-95178

ROM-95175

P-Type /Rounded Groover

For grooving "U" shaped joints. Must be used with straight edge.

Product Code	Range
ROM-95176	Spare Blades for ROM-95175

ROM-95101

Linea Groover

For making a 'U' groove without a ruler, in a regular, uniform and rapid way on vinyl sheeting joints.

Product Code	Range
ROM-95176	Spare Blades for ROM-95101

ROM-95320

"Surf'in" cordless grooving machine

To groove weld seals for all types of even and uneven flexible floor coatings, linoleum, rubber and sport floors.

Product Code	Range
ROM-95009	Spare Blade for ROM-95320

ROM-95188

Turbo-Cove Groover

Special shape to groove covered flooring.

Product Code	Range
ROM-95189	Spare Blades for turbo groover

ROM-95120

Pico Groover

For optimum join grooving.

Product Code	Range
ROM-95176	Spare Blades for ROM-95120

ROM-95200

Master Turbo Groover

For optimum join grooving.

Product Code	Range
ROM-95202	Spare Blades for ROM-95200

WELDING TRIMMERS

ROM-95140

Quarter Moon Knife

For first trim of welding rod.

ROM-95150

Trimming Guide

To ensure consistency of trim height.

ROM-95130

Mozart Trimming Knife

Arguably the best welding rod trimmer.

Product Code	Range
ROM-95128	0.5mm Mozart Trimming Knife Guide x 1 for ROM-95130
ROM-95129	Mozart Spare Blade pack of 5 for ROM-95130

ROM-95160

Trimming Gouge

For trimming welding rod in corners and coves.

Product Code	Range
ROM-95161	2 Round Gouge Blade for 95160
ROM-95163	2 Flat Gouge Blade for 95160

ROM-95182

Narrow Trimmer

For trimming welding rods in hard-to-reach areas

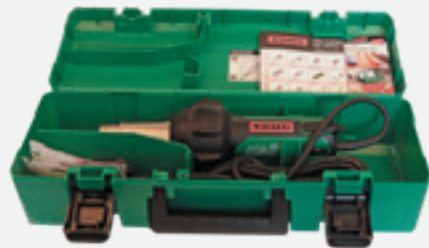

Product Code	Range
ROM-95183	Spare blade for Narrow Trimmer

WELDERS

ROM-95078

**Leister Triac Welding Gun
with Push Fit nozzle only**

ROM-97077

**Spare Element
For ROM-95078**

ROM-95195

**Nozzle Brush
For clean nozzles.**

ROM-95001

**PUR 3 Pressure
Roller**

For heat welding polyurethane
(PU) coated PVC floors.

ROM-95027

**Anti Glaze Rapid
Nozzle 4-5mm**

Speed nozzle for PUR
coated vinyls.

ROM-95028

**Coving Anti-Glaze
Rapid Nozzle 4-5mm**

Nozzle for coving.

ROM-95024

**Rapid Nozzle
4-5mm**

For homogeneous PVC and
linoleum floorings.

ROM-95050

**Turbo Roller
Welder Support**

For long accurate seam
welds, used with Triac
Welding Gun ROM-95078

ROM-94522

Weldy Heat Gun

Economical hot air gun.

ROM-95039

Angle Finishing Nozzle

Speed nozzle for Melting welding
into and around corners.
"Hot Knifing made easy"

ROM-197980

Push Fit Nozzle Holder

Fits on «Leister Triac» hot air
welding guns and equivalent.

ROM-93135

**Internal Angle
Roller**

For rolling into the internal
corners of coving.

ROM-95620

**Cold Weld Bulk Sealer
1 Litre**

1 Litre liquid for cold welds.
Used with applicator bottle.

ROM-95630

**Applicator Bottle for
Cold Weld**

1 Litre liquid for cold welds.
Used with applicator bottle.

ROM-95680

Cold Weld Tube

Tube with cold weld liquid
for heterogenous flooring
joints 60m¹.

ROLLERS & TRIMMERS

ROM-93170

Steel Roller

Hand roller for rolling joints. For butt joints of floor coverings. Does not damage the material, even fragile. Especially adapted to be used alongside skirtings. Width : 50 mm. Weight : 1kg.

ROM-93159

Press Click Roller

For rolling joints in PVC and linoleum floors. Used in particular on LVT click floors such as Creation Clic (R-Evolution), etc. Substitute for dead blow mallet (fitting 30% quicker and without noise) for greater comfort for fitters and when working on occupied job sites. Length 180 mm. Weight 1.6kg.

ROM-193164

Heavy Floor Roller

75Kg Tri-section floor roller.

ROM-19161

Light Roller

30 Kg Roller for cushion vinyl.

ROM-93155

Light Weight Rubber Roller

To roll all kinds of wall cladding. Allows to smooth with the body weight (pressure from 8 to 80 kg). Length : 1.30 m. Total width : 45 cm. Weight : 5kg.

ROM-193167

Transport wheels for heavy roller

Rustproof rollers and wheelset.

ROLLERS & TRIMMERS

ROM-95510

Provinol Edge Trimmer

For PVC and linoleum. Supplied with an adjustable Ø 40 mm round blade. Seamless cut wall to wall from 2 to 27 mm. Suitable for cutting : 2 overlapping strips, protective edges on linoleum rolls.

Product Code	Range
ROM-95512	Spare Blades x 2 for ROM-95510

ROM-95505

Edge Trimmer

To make regular linoleum edges by cutting damaged edges. Cutting width 1.5cm.

Product Code	Range
ROM-95503	Spare Blades x 5 for ROM-95505

ROM-95520

Lino-Cut Joint Trimmer

For cutting PVC and linoleum. Adjustable cutting depth. Can be used in both directions.

Product Code	Range
ROM-95521	Spare Blades x 10 for ROM-95520

CARPETING

Our range of carpeting tools is focused primarily on stretch or tufted carpeting. Items such as cutting knives, adhesive application trowels and blades are included under our vinyl flooring section. These tools have been selected under guidance from the leading experts in the field, and have been chosen to provide the best available selection.

Consumable products such as heatbond tape and grippers are an integral part of the installation process, and although it may not be apparent on the surface, cheaper, poor quality products can lead to poor results and great frustration. For example, cheaper tapes do not work well in conjunction with under-carpet heating, or in situations where heat results from direct sunlight.

Grippers that break or pull loose under strain make the installer's life difficult and unproductive. What seems to be a saving can result in significant loss of productivity and may cost more than the initial saving.

Equipment such as the heatbond iron can be a frustrating source of productivity loss, when inconsistent temperature can result in pile flattening, or even having to drive back to the office or showroom when it fails.

High quality products such as stretchers will last for many fruitful years when cared for, while poor quality products have much shorter lifespans.

CARPET TOOLS

ROM-93841

Bolster/Stair Tool 9cm

Used to fix carpet behind the gripper after trimming. Polished chromium plated steel.

CCC-CST

Curved Stair Tool

For pushing carpet into gripper nails.

ROM-93860

Clawbar/Tack Lifter

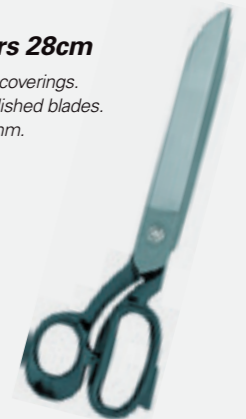

Used to lift gripper and nails.

ROM-91340

Bent Handle Shears 28cm

For cutting carpets and floor coverings. Lacquered steel handles, polished blades. Right handed. Length : 280mm.

ROM-93870

Napping Shears

To cut off excess fibres. Length : 150mm.

ROM-91380

Stainless Steel Shears 26cm

Stainless steel blades. Plastic rings. Length : 260mm.

CARPET TOOLS

CPC-SCPS

Single Case Power Stretcher

Case containing power stretcher and extension tubes.

CPC-DCPS

Double Case Power Stretcher

Case containing power stretcher and extension tubes.

CHC-HBI

Heatbond Iron

High quality iron for heating heatbond tape.

Product Code	Range
CRA-ELE	Spare Element for CHC-HBI

ROM-93930

Romus Heatbond Iron

Temperature control. Voltage : 220 V. Power : 750 W. Thermostat with 4 temperature selections. Supplied in a metal case with iron rest.

CRA-AKK

Crain Adjustable Knee Kicker

For stretching carpet during installation.

ROM-93800

Romus Extendable Knee Kicker

For stretching carpet during installation. From 44 to 52 cm. Head with 2 types of teeth : fixed teeth and 16 height adjustable pins (by turning the knob). Supplied assembled with protective cap.

CRA-CLC

Crain Cushion Lock Cutter

For seam cutting cushion back carpeting.

ROM-91655

Romus Loop Pile Cutter

For Looped Pile and Patterned carpets.

Product Code	Range
ROM-92105	Spare Blades x 10 for ROM-91655

CRA-ELE

Crain 1920 - Avement

Spare heating element

CRA-SC516

Crain Springclip

Spare Springclip

CRA-LPC

Crain Loop Pile Cutter

Cutter for good carpet joins.

CRA-SB308C

Crain 308C Slotblade for Cushion lock cutter

for CRA-CLC
for CRA-LPC

CARPET TOOLS

CRA-BFR

Big Foot Roller

For rolling carpet seams on loop pile carpets

ROM-93916

Romus Seam Roller 110mm

15 Roller Teeth

For rolling carpet seams on cut-pile carpets

CKF-PCK

Pro Carpet Knife

CKF-CK

Carpet Knife Orange

ROM-93940

Heatbond Tape 20m

High quality carpet joining tape - 20m¹ per roll.

CGC-CG

Carpet Gripper

High quality carpet gripper 122m¹ per box.

CONSUMABLES & SUNDRY TOOLS

The various flooring manufacturers have their preferred equipment that they recommend, which can complicate choices. Of key importance is the availability of high quality tools that will improve an artisan's performance, when used in conjunction with proper training in the use of the tool in question.

We endeavour to put together a selection of these tools that satisfy the needs of both the artisan and the manufacturers.

We often encounter resistance from the installer because the cost of the tool may be seen as excessive. Where proper training is given, however, the installer will see the benefits derived from an increase in output as well as a visible improvement in the quality of output. Less snags save hard earned money.

Trowels for the application of adhesives have been a burning issue for years, and the South African flooring industry is now at a point where standardisation has become necessary. Use of the correct notch trowel is important in respect of the type of floor covering to be installed, combined with the substrate onto which it is being installed, and the specifics of the application itself.

For the contractor, glue line starvation will result in a failure, while too much adhesive will produce an untidy result.

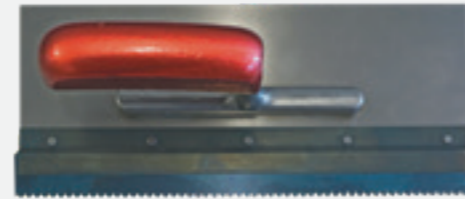

For the flooring contractor, it is important to control costs as well as how much product to send to site. The right tools in the right hands are the source of profits and respect. Poor tools result in shoddy work, weak profits and a lack of repeat business.

TROWELS AND BLADES

ROM-ATBH

Adhesive Trowel Blade Holder

Wooden handle trowel with slot for replacement blades, VTP-ATB

BLADES AND KNIVES

ROM-92126

Straight Blades x100

ROM-92226

Hooked Blades x100

ROM-92250

Super Hooked Blades Titanium x10

ROM-92300

Concave Blades x10

ROM-91150

Delphin Knife

High quality cutting knife. Quick blade changing. Shaped for comfortable handling. Supplied with Holster.

ROM-91101

Red Painted Knife

Red paint finish. Made of injected zamak under pressure. High precision blade holding device with safety studs.

ROM-91102

Polished Knife

Finely polished, shiny finish.

ROM-93355

Combi Scriber

To mark straight joints ready for cutting with hooked blade.

Product Code	Range
ROM-93356	Spare Blades for 93355 x 6
ROM-93357	Spare Pins for ROM-93355 x 25

GENERAL

ROM-194808

Anti-cut Handling Gloves Level 4

Seamless, knitted glove with elastane in 100% high density polyethylene filament and 100% grey texturised polyamide thread, grey PU coating on the palm and fingertips, elasticated wrist

ROM-91539

Stainless Steel Convex Ruler Set

Set of 1 x 600mm, 1 x 2100mm, 1 x box, height 80mm, Diam 200mm

PRM-RSS

Rubber Sealing Strip

10mm x 10mm x 5metre

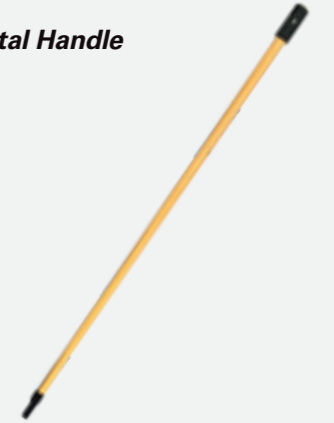

To prevent overflow of self leveller.

PTB-TMH

Telescopic Metal Handle

Extending handle.

ROM-91665

Hardcap Knee Pads

To protect against knee damage. Anti-slip rubber outer surface. Inner side lined with very comfortable 18 mm thick rubber foam. New elastic straps with holes for adjustment.

ROM-91660

Knee Pads

To protect against knee damage. Anti-slip rubber outer surface. Inner side lined with very comfortable 18 mm thick rubber foam. New elastic straps with holes for adjustment.

ROM-94964

Anti Bounce Mallet

For assembling LVT click-together planks. Shocks absorbed. Does not leave marks. Weight : 750 g.

ROM-91571

T Square Convex Ruler

For 90° scribing and cutting. Supplied in plastic ring. Spring loaded stainless steel convex ruler of 4.05 m (width 8 cm) + T-square of 60 cm (width 40 x 6 mm).

ROM-93293

10M Magnetic Measuring Tape

Unbreakable bi-material case (ABS with rubber protection), with triple locking system, belt clip and automatic return with brake. Yellow plated steel tape with two magnets. Wrist strap.

ROM-93253

RLM-30 mini laser meter

Small and light to carry, handy and easy to use. Quick measurement of areas, volumes, Pythagoras and continuous measurement. Switches off automatically if not used for 3 minutes. Backlit display. Supplied with batteries.
