DESIGN

CELEBRATE YOUR HOME

Peter Schönhofen & Jürgen Reiter,
Founders, owners and CEOs

In recent times a lot has changed in our world. In many cases the kitchen table has become our home office, and we invite guests to meals in our own dining room rather than at a restaurant. Perhaps we even spend our holidays in the living room, with wellness on the comfortable family sofa included. Today furnishing the home means more than ever before. We at KARE want our audience to feel good when they walk into the front door. Our new HOME COUTURE Lookbook serves inspiration for your four walls with new styles, complete Shop-The-Look themes and how interior can become even more attractive, cosy and functional. In our eyes, furniture is not something to dispose of lightly, because a sideboard made of real wood represents new, sustainable values. We offer new favourite pieces that have the makings of a lifelong friendship, not to mention lots of decorating ideas that put the new fun in furnishing. As the founders of our company we go the extra mile to inspire with interior design ideas for a changing world. We invite you to explore our stories and unique furnishing ideas now: tables which raise dining to a new level, carpeting treasures for the floor and everything that a stylish home office requires. Or perhaps a cosy sofa which will add a further touch of comfort to your living room?

LET'S CELEBRATE YOUR HOME!
