- 2 study sliding top
- 4 slide desk
- 6 height adjustable
- 8 buddy

Our compact STUDY desk is perfect for your home office space.

With two drawers it has enough storage space to house your WFH essentials.

2 study sliding

Our compact and functional STUDY desk is perfect for your home office space. With its sliding top it has enough storage space to house your WFH essentials.

3 shelf

The compact SHELF desk offers an under desk storage shelf, great for keeping all your WFH documents easily accessible.

Our SLIDE desk takes up minimal space in your home. The desk top wheels out and locks into position creating a spacious work area and then wheels back over to save space. A desk with storage that suits your home.

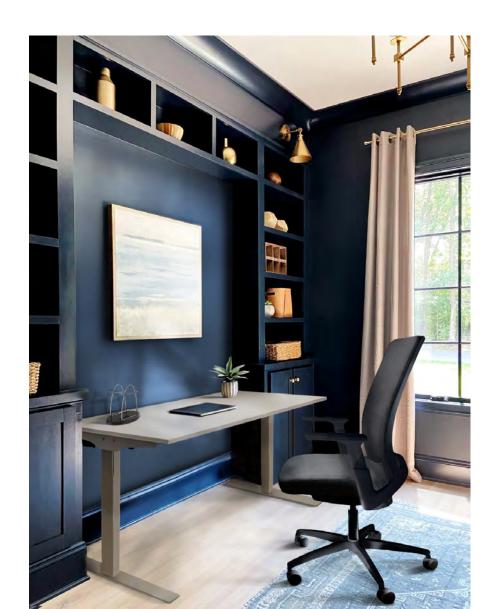

height adjustable

Optimal flexibility for you WFH space. The height-adjustable desk provides optimal flexibility and individual adjustment for activity-based work, at home or the office.

7 s'cool

S'cool is lightweight and easy to roll around. The flexible configurations offer private space for individual work, or can be rolled together for collaborative team work.

8 buddy

Buddy is designed to move about, they are light weight, playful and easy to reconfigure. You can tip, lean and swing around. A seating pod that is adaptable and affordable. With the option of fla or rounded bases, it is ideal for areas where movement and quick thinking is encouraged.

The BabyBuddy is designed for kids, the cushioned seat opens to reveal storage inside the hollow chair. Perfect for classrooms and at home.

accessories

Working from home requires furniture that not only meets ergonomic standards for your health, but offers comfort and support. The Monitor Riser raises the screen on your desk to allow you to sit more upright.

The perfect duo for WFH. The Madison chair and Laptop table.

SHELF and STUDY desks in home bedroom setting.
