JAPANDI

06

NORTHRIDING + KRAMERVILLE

FERREIRAS TILE + BATHROOM

Japandi is an interior style that works like a perfect marriage between simplicity and nature with the common interest of minimalism. Bringing the best from two different sides of the globe - Scandinavia and Japan, to one calming fusion called Japandi or Scandi-Japanese style.

A close-up image of a wood-look porcelain tile with a warm, brownish-orange hue and a natural wood grain pattern.

NORDIC BROWN

Pure, minimalist design.

Here's how you can create a Japandi style space.

Floors

The **Nordic** is our exclusive Portuguese Porcelain wood look series in 200x900mm size, available in 4 colours to suite any style, from modern to classic and in both interior and exterior finish to create a seamless look from the indoors to outside.

Charming and elegant, this wood look porcelain tile draws inspiration from the purity of nature and the serenity of Scandinavian style.

A close-up image of a wood-look porcelain tile with a light, greyish-brown hue and a natural wood grain pattern.

NORDIC GREY

What about the walls?

Tokyo is a versatile collection, the unique colours allowing distinct solutions that are simultaneously modern, elegant, and engaging, essential characteristics for any contemporary ambience. Made in Portugal in a 340x665mm size the series has various matching decors available, including the **Tokyo Decor Brown**, a decor tile that looks textured but is smooth to the touch.

A close-up image of a wall tile with a light, off-white or pale grey color and a subtle, organic pattern resembling overlapping leaves or petals.

ESSENZIALE FLORA

More texture!

Keep your colour pallet neutral and warm to re-create a Japandi style space and add tiles with texture and depth to enhance any focal points and features and give layered depth to the space, a perfect tile is our **Esenziale Flora 3D** 400x1200mm wall tiles.

A close-up image of a wall tile with a brownish-grey color and a geometric pattern of intersecting lines, creating a textured effect.

TOKYO DECOR BROWN

STYLE TIP

Make sure to check the colour undertones of your tiles, these can vary from red to blue to green. If you are wanting to create a warm atmosphere using traditionally cool coloured tiles such as white and grey, select ones that have red undertones as they will naturally have a warmer feel to them.

Still not sure about your tile pairing?

We have an in-house Design Studio with qualified Interior Designers to help you make the right choice.

ARDESIA CENERE

HAND-CRAFTED

08

NORTH RIDING + KRAMERVILLE

FERREIRAS TILE + BATHROOM

Instantly add a touch of hand crafted richness to your space.
Irregular edges, textures and colours create the perfect replication of
an exotic, hand-crafted product.

FRAMMENTI GRIGIO

Mass produced items typically equate to dull, safe products that are lacking distinctive qualities. Ensure your space does not fall into this category by adding elements that are authentic and charismatic, such as our **Frammenti** and **Zellige** small format tiles.

Both ranges are made in Italy using the latest technology to create items loaded with detail and vibrant colours.

STYLE TIP

Install our Frammenti Brick series running vertically to emulate the Kit-Kat trend of tiles, no more metro laying required. Be Bold with your grout colour selection, instead of matching the tile colour, add some contrast and use a white grout with a dark tile to further enhance the shape and pattern and allow the size and format of the tiles to stand out.

The 75x400mm size of Frammenti wall tiles add visual interest without being overpowering. Perfect for adding the soft pastel colours into intimate spaces.

From the kitchen to the bathroom and in your pool, our small format, hand-crafted appeal tiles are an effortless solution to your focal walls.

STYLE TIP

The glossy finish and visible variations of tone in the Zellige series in 100x100mm format is best installed on large surface areas to highlight the true beauty of the clearly distinguishable differences in texture and pattern of the wall tiles.

BE BOLD

10

NORTH RIDING + KRAMERVILLE

FERREIRAS TILE + BATHROOM

The time is now to express your individual style, build for the space you want and don't be garnered towards what is considered safe.
Be Bold, Be Beautiful, Be You.

Our latest arrivals are bold and daring geared towards spaces that demand being showcased. The 600x1200mm format of the Italian Porcelain Tiles helps create seamless spaces, whilst still being easy to handle and install.

The **Boutique Onice Fantastico HBO 6** has a reddish base crossed by transverse veins with various colour shades: white, cream, hazelnut, brown and aqua green.

(The wide array of colour undertones allows this tile to work with a number of materials, easily complementing furniture pieces from high gloss white, to teak and oak.)

These beautiful colours make it a true work of art, unrivalled and easy to combine with the cement look. It becomes the ideal material for anyone seeking to be unique and to make their own individual mark.

Colour delights the eye and heart.

Timeline is a wide-ranging collection able to satisfy every architectural requirement.

A soft aesthetic, in both neutral and coloured tones, the large sizes allow spaces to be appreciated throughout, becoming the ideal background to make your own.

The beautiful **Timeline Botanical GCTLBOTANRJ Botanical Rett.** decoration expresses nature in its most exquisite form.

STYLE TIP

Does it break your designer heart to know that wallpaper should not be installed in permanent wet areas and areas that take a lot of wear and tear?

The solution:

The Timeline decorations series beautifully mimics fabric and tapestry allowing you to use it in bathrooms, kitchen splash backs and for the extra daring, even floors.

NEW STONE

12

FERREIRAS TILE + BATHROOM

A superb finish is just the beginning, whether your floor or wall surface, our new collection of Stone Look tiles cater for the sublime backdrop for your individual style and design.

In design, Mother Nature is our best teacher.

Inspired by different stones, the **Origini Crux Grey** is a contemporary twist on the traditional. This new Porcelain tile arrival from Italy in a square 1000x1000mm format creates striking yet simple geometries that emphasize the interior.

Ideal for large open plan homes where the true beauty of the various faces of the **Origini** series come to life

NATURAL VS. PORCELAIN

Although strikingly beautiful, natural stone products are expensive to install as they require a specialist tiler and specific adhesive, as well as sealer to protect the product post installation. Maintenance is also required every 5 years.

Porcelain tiles are more durable, are not porous and do not require any maintenance. Our porcelain tiles are manufactured with High-Definition printing ensuring the most aesthetically pleasing print and design is found on each tile.

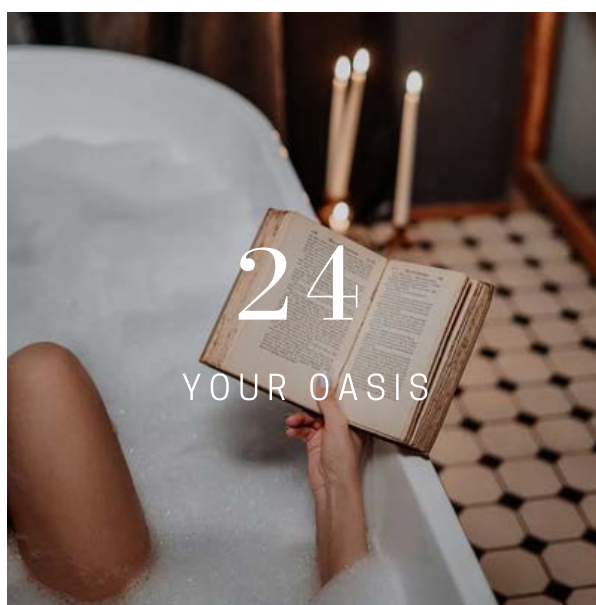

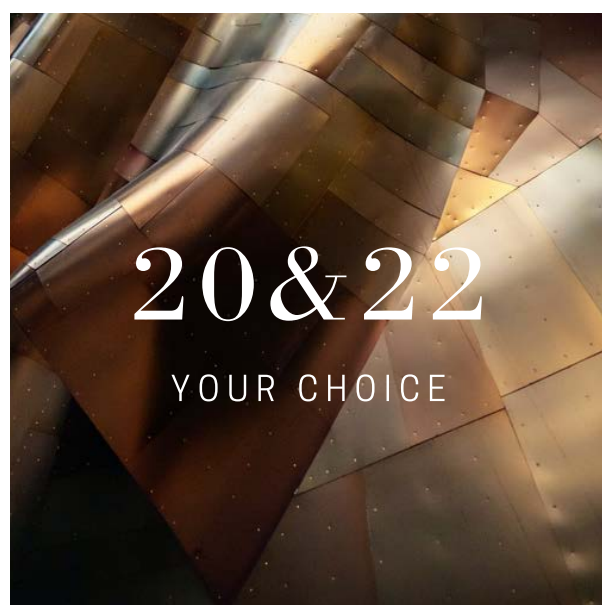

Porcelain tiles are a sustainable material, with our partners making use of recycled materials and reduced water consumption.

WATER

16

NORTH RIDING + KRAMERVILLE

FERREIRAS TILE + BATHROOM

From soothing properties to everyday cleansing essentials, the power of Water cannot be overstated. Our planet's most precious resource is one often taken for granted.

Sustainable showering indulgence and amazing usability, the power of **Hansgrohe Raindance** series that offers lustrous designed large overhead showers and hand showers for your indulgence. The versatile design of square, rounded and oval allow freedom of choice to match your desired tap selection.

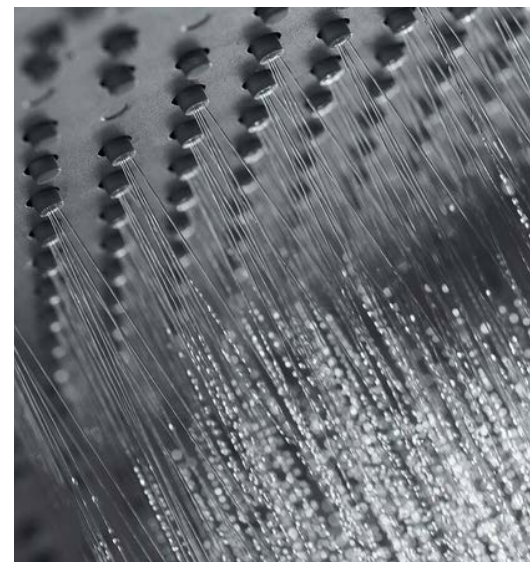

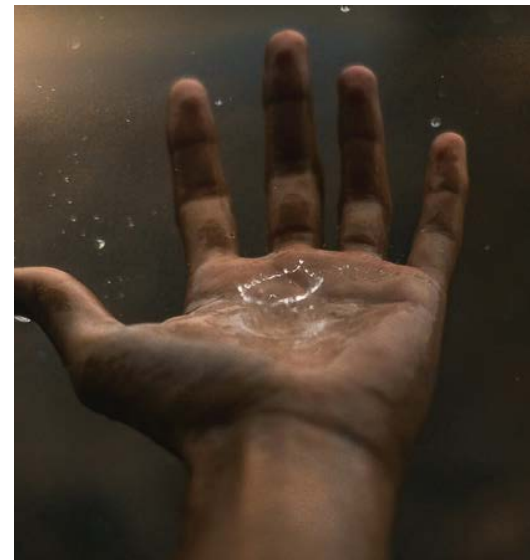

Pamper yourself with **Hansgrohe's** award winning **Rainfinity**. It has multiple functions including its PowderRain option. PowderRain is made up of very small droplets that coat your entire body in water. These fine drops also makes that the shower doesn't emit a lot of noise making it all the more relaxing.

Rainfinity has three setting **PowderRain** where the whole shower head is in full use, the intense PowderRain that only uses the middle portion of the showerhead to easily get shampoo out of your hair and finally the **RainStream** that is used as a massaging agent as it as a more consistent steam.

Rainfinity makes for a very modern design with its separate concealed controls, shelves, hand shower and showerhead. Users can also intuitively switch between jet types with Select. It is also available in all of Hansgrohe's colour ranges found in **FinishPlus**.

DON'T FORGET:

If your shower has two shower heads it is advised that you also install two RainDrains. Even though the drains are long they still drain the same amount of water a normal drain does. If you only have one RainDrain for two showerheads your shower will start to over flow.

MOOD

18

NORTH RIDING + KRAMERVILLE

FERREIRAS TILE + BATHROOM

Lighting can change the atmosphere and mood in any space, including your bathroom. Elevate your bathroom far beyond a functional room that we wash into a space that you can relax and unwind.

The power of lighting and the mood it can create

Bathrooms do not always have the best natural lighting available due to the smaller sized windows that are often made from frosted glass for privacy.

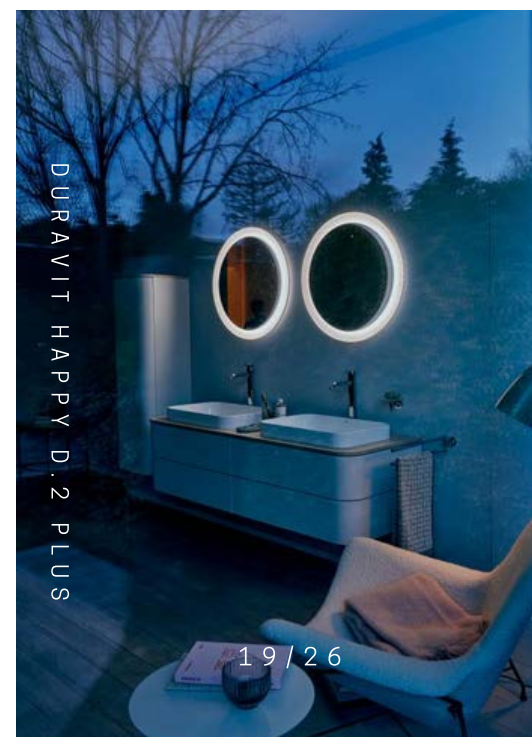

This is why it is important to install proper lighting and add mirrors with built in lighting that not only aid in tasks such as applying makeup or shaving, but have added features such as defogging to remove steam on mirrors, dimming and colour changing functions to change from bright white task lighting to soft, warm light for long luxurious soaks in the bath.

BATHROOM LIGHTS

Not all lights are suitable for bathroom application due to the humidity and moisture content in the space. Make sure you purchase a light or lit mirror with bathroom compliant electrical connections. Be more sustainable and ensure that they are LED.

Did you know our **Duravit Happy D.2 Plus** range has a set of round mirrors that function simultaneously? The LED-Lighting can be individually configured using the contactless sensor control. Switch one on or off, dim the lights or change the lighting from warm to cool and the second mirror will match the setting. The pairing works for a distance of up to 3 meters.

Inspired by nature and geometric shapes is our refined **Jee-0 Bloom** series. The inspiration is reflected in the smooth transition from facet to round shapes in the design of all the elements for a complete bathroom including the mirror, basin, taps as well as baths, freestanding shower, and matching accessories.

YOUR CHOICE

20

NORTHRIDING + KRAMERVILLE

FERREIRAS TILE + BATHROOM

Colour adds personality to your design - do not settle for the ordinary.
Elevate your bathroom by adding rich and luxurious colours on your
tapware and accessories.

When creating your dream space no one wants to limit their vision and settle for an ordinary product.

Hansgrohe FinishPlus offers you 5 different colours that you can match to your aesthetic.

Don't settle for the normal chrome taps, go for a **Brushed Bronze Chrome** or **Polished Gold Optic** look, these colour ranges elevate your bathroom to feel luxurious. If you are looking for a rich earthy feel to your space go for the **Brushed Bronze** selection. The brushed appearance gives it a face-lifted appearance and it does not look dated like normal bronze taps. FinishPlus also offer **Matt White** and **Matt Black**, with these two colours you can play around with contrasting colours, making your tapware stand out against the vanity or wall colour it was paired with.

Each colour range offers a comprehensive accessory selection to match, no need to try to mix and match, all you could need you would find in the FinishPlus range.

FinisPlus were made to stand out above the rest, just like your dream bathroom!

Why Hansgrohe?

Hansgrohe has been providing brand quality, sparkling ideas about water and traditional expertise since 1901, with award-winning products and innovations bringing more design, convenience, value and emotion to homes around the world.

CLEANING TIP

Do not use any ammoniac based cleaning products on your tapware as it eats away at the metal causing it to fade and possibly rust. Use a damp cloth to wipe away any dust and dirt, no harsh cleaning tools are needed to clean your tapware.

YOUR CHOICE

22

NORTHRIDING + KRAMERVILLE

FERREIRAS TILE + BATHROOM

Geberit offers you even more design freedom by having customizable flush plates, from marble to wood looks on your flush plate and pairing with your tapware with edges in gold, black, chrome and many other colours.

It's not just any bathroom, it's your bathroom.

Geberit Actuator Plates are the defining luxury finishing touch for any bathroom. Combining visual elegance with innovative functions and a range of sumptuous finishes, they are an essential reflection of individual style.

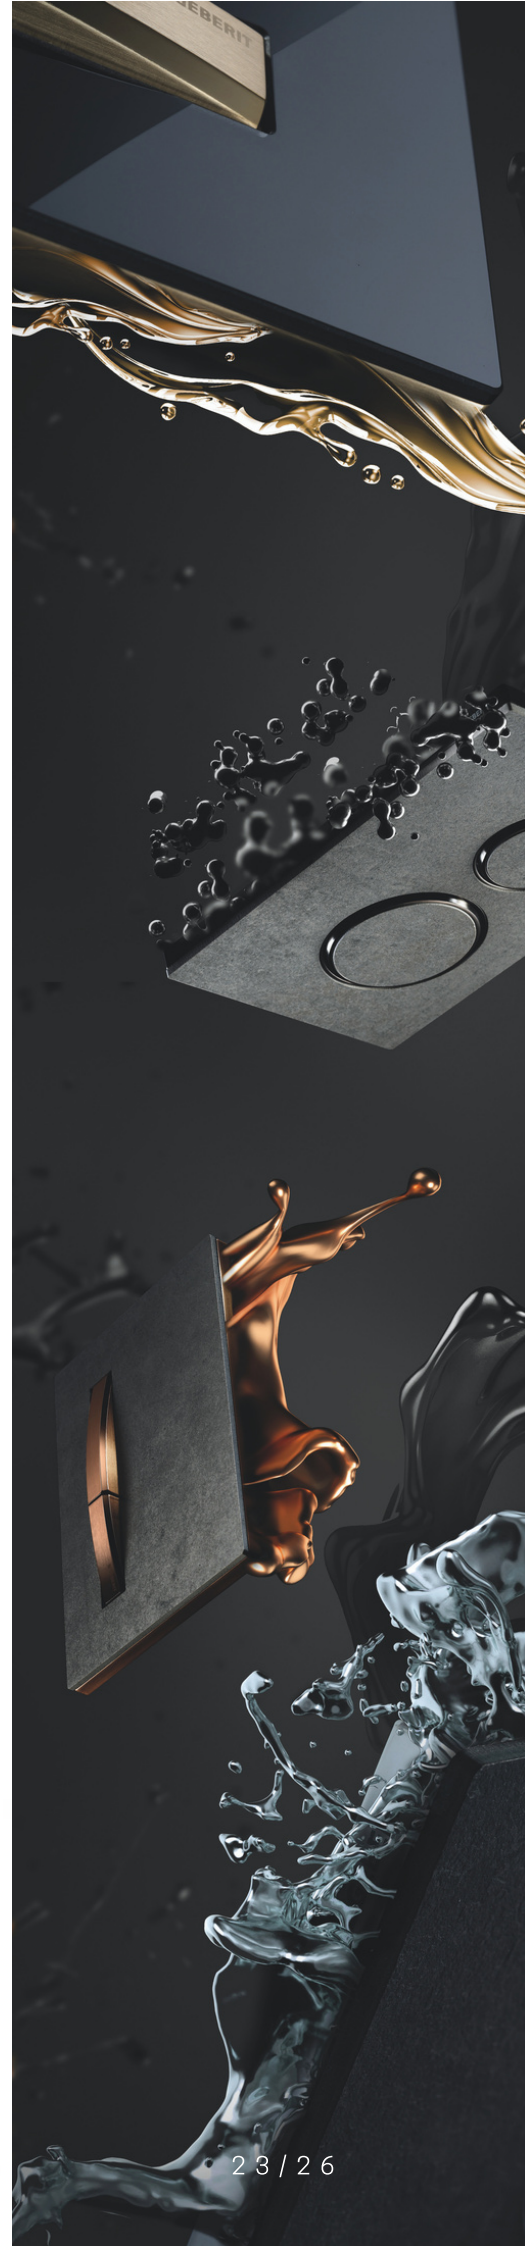

The trend towards individualisation also brings with it increasing demands for design options in the bathroom that are as diverse as possible. These are often nuances that have to be perfectly coordinated. Actuator plates in new, trendy metal colours can make a small yet significant difference here.

The Geberit series comprises of the **Alpha**, **Sigma** and **Omega** range of concealed cisterns with accompanying matching flush plates, that are available for a wide variety of budgets, applications in terms of drywall and mortar installation as well as height solutions for low lying windows, form follows function with the elegant selection of actuator plates.

WHAT IS FIRST FIX?

First fix items are plumbing fixtures that are installed early in the build process and fixed into the structure of the building, it is important to ensure correct products are specified as they cannot be changed without chopping into the walls and floors which results in unnecessary expenses and time delays.

First fit items include your Geberit Concealed Cisterns for toilets, basic sets and iBoxes for bath and shower mixers, as well as any wall mounted tap, shower drains and certain freestanding baths that do not have plumbers gaps.

YOUR OASIS

NORTHRIDING + KRAMERVILLE

24

FERREIRAS TILE + BATHROOM

With the perfect bath, you can make your bathroom your unique oasis. Escape from your day to day by indulging in a freestanding bath without compromising on any design element.

Most of us use the bath to have a **relaxing experience**, to lay in the warm bubble bath escaping from your everyday troubles. The various shapes and designs of freestanding baths makes it possible for you to select a bath that is the most comfortable, depending on your bathing preference, whether you prefer to lounge in the bath or sit up right and read a good book, do not be shy to get in our baths in our showrooms to ensure they suite your individual preference.

A freestanding bathtub is an investment piece that stands out, creating a focal point in your bathroom that will always be in style. Not only does it give you more freedom of choice but can be used in both large and small bathrooms, thanks to the **Petite** series found in the **Livingstone Baths collection**. Sure, a built-in bath gives you a few options but with freestanding baths you can select between different shapes, depths, and sizes, as well as having the option of selecting a custom colour to truly let your individual style shine through.

Our wide selection of Stone and DuraSolid baths from **Duravit, Livingstone Baths and DADOquartz** have many benefits including retaining heat better, scratch resistance, easy to clean as well as a natural finish that is luxurious to the touch.

STYLE TIPS:

Always ensure your bathtub and sinks, tapware and other fixture are similar and that their forms create a cohesive aesthetic. If you chose an oval bath stay with fixtures that is either also oval or has rounded edges.
