All Natural
Timber Stains & Sealers

Earth - Friendly
Wood & Wall Finishes

Non-Toxic
Clean & Care Products

In the nineties, well before the concern for organic/green/sustainable built environments had entered the mainstream discourse, Greenhaus Architects researched and attempted sourcing ecologically sound building materials. Toxins and volatiles in paints and varnishes presented some of the biggest challenges. Trained in the science and design of 'conventional' polymer paints, experienced in manufacturing, and with a proven track record in commerce, ProNature appeared at that time, as if sent. Finally, a company with vision, ready to break new ground and get on the right side of history. Over 22 years, ProNature has shown willingness to take on every challenge we put to them. Having readily available, durable, ecologically sound finishes for exteriors, interiors, furniture and floors - along with fantastic follow-up service and meticulous client care allows us, wherever possible, to specify ProNature - and nothing else.

Etienne Bruwer, Greenhaus Architects

ALL NATURAL TIMBER TREATMENTS

ProNature Outdoor:

a penetrating timber oil in an extensive colour range, leaving your timber with a natural, beautifully matte finish. It's water repellent, UV protective, easy to apply and fast drying. Hassle free maintenance: you can spot repair. General maintenance: every 1-2 years, no need to sand! Simply clean & re-apply.

ProNature Indoor:

The perfect food-safe treatment and protection of all your wooden floors, parquet, railings and staircases, furniture, kitchen utensils, toys and more.

ProNature Oil Colour Concentrate:

High-pigmented oil, which can be used to create your own customized colour by mixing it into Outdoor or Indoor Natural Clear. Also used undiluted for intensive staining of your exterior or interior wood.

**All-Natural products
of highest quality
locally manufactured
to European Standards.**

Nature gave us this wonderful material and we can make timber look the way you prefer. Seal and stain all your timber with our interior & exterior oil-based sealers, nourish it with our care oil or waxes, keep it clean and maintain it with our effective cleaners. Find your colour in our extensive range and if you don't - we'll make it for you. For the Love of Your Wood.

Outdoor Wood Sealer

Protection for your timber against all the elements available in an extensive colour range.

ProNature Outdoor, specially formulated to keep your outdoor wood furnishings, decks, pergolas, jungle gyms and Wendy houses looking beautiful for years to come. Easy maintenance - no more sanding!

- ✿ **Matte finish**
- ✿ **UV resistant**
- ✿ **Water Repellent**

Package Sizes - 500 ml, 1 litre, 5 litre

Coverage:
Approx 20-30 m² / litre per single application, depending on the type of wood.

IMPORTANT! Hassle-free & easy application!
