ACCESSIBLE LUXURY

Tanya Solomon, founder of Living Inspired Interiors, is passionate about beautiful spaces and considered gifting. She is driven by a love of all things beautiful and a desire to share her range with fellow aesthetes.

Tanya recognised the need for an online store that gives South Africans access to pieces that aren't readily available locally. With a myriad of design tastes and styles in mind, Tanya personally designs or sources quality crafted pieces from select local suppliers and manufacturers.

Living Inspired Interiors Design Studio - We believe in using the power of design to transform ordinary places into sophisticated spaces. Tanya Solomon creates interiors that are bold, elegant and urban, designing exactly a tailored space unique to each of our client's requirements and needs. Sophistication, elegance and functionality being key. We believe interior design is a journey of discovery to marry the client's vision with the designer's ability to bring that vision to life.

Welcome to Living Inspired Interiors Studio as well as my carefully curated interior collection. Ready to be bought, gifted or added to a personal registry. Each item is hand-selected and will make a special statement in your home.

Every individual has different needs, be it finding the perfect finishing touches to a new project or refreshing their current space. Tanya's focus on a living tailored solution is reflected in the online store. The Living Inspired Interiors team keeps the collection fresh by continuously sourcing new items - moving with the seasons and the trends, while keeping an eye on the classics.

CURATED SOUTH AFRICAN ART

Our focus is to promote and support print making of super creative local artists and its allied outreach programmes to build capacity of people to reach self-actualisation and make a difference in society. In collaboration with these artists and their passion for art, our curated art is founded on a sense of shared humanity whereby people of talent and passion can reach for excellence in art making and their lives.

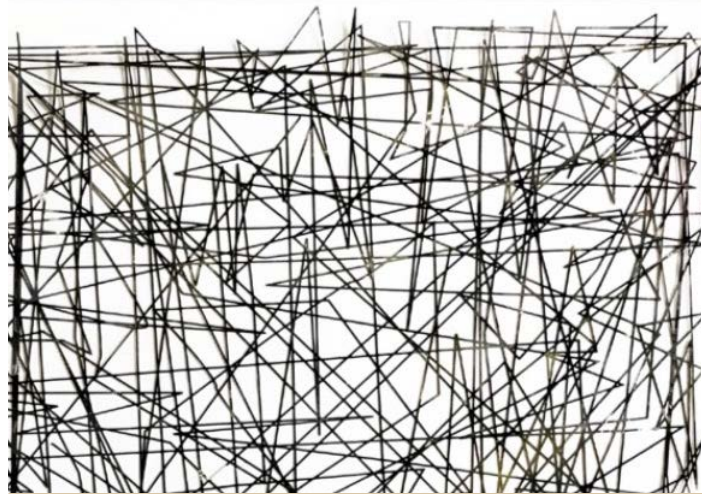

NELSON MAKAMO
TIME MAGAZINE 2019
OPTIMISM ISSUE

"Makamo says he no longer thinks of himself as "an African artist," as he did when starting out. He's invited to an ever-increasing number of international art fairs in Europe and the U.S., where artists from all corners of the world are shown side by side. And, with the rise of Instagram - which he updates frequently - Makamo can show his work to anyone he wants, at any time. "That's one of the exciting developments I've seen in the art world since I started," he says. "There's no longer really that line between the South American Artist, the European Artist, the African Artist."
