Tile + Bathroom

FOR THE DISCERNING EYE

THE STORY OF US

NORTHRIDING + KRAMERVILLE

Since **1979** our Flagship Northriding Showroom remains the **choice destination** for all Tile + Bathroom requirements, the largest showroom in Africa, with over 2400m² of Showroom for you to shop.

Nestled in the Kramerville Design District is our brand-new Boutique Showroom, although much smaller in size than our Flagship Showroom, the variety of tiles, slabs and decors on display is unparalleled.

Apart from having over 43 years of experience and customer confidence, **we pride ourselves on having a skilled team of knowledgeable, supportive, creative and genuine Sales Consultants, Interior Designers, Architectural Consultants and Support Staff.** If you are looking for quality products, competitive prices and an informed sales force, that are not mere order takers WE are here to help YOU.

Our stronghold includes stocking Italian and Portuguese tiles and long standing relationships with our partners, allowing you to select tiles that are **ready for delivery** or select bespoke products that we will procure for your individual project.

Beautiful products, informative employees and years of practical experience, the story of us.

THE DECK

06

Live in the sunshine, breathe in the fresh air, and do it all in elegant style and peace of mind on safe non slip outdoor Wood Look porcelain tiles.

Beautiful Spring days, with our warm sun and gorgeous sunsets are best spent outdoors, preferably so on your balcony or patio overlooking a pool or garden.

Inspired by the beauty of nature and the wonders of wood are our **wood look porcelain tiles**. Our tiles are manufactured to the highest quality standards creating tiles with superb Hi-Definition prints with multiple faces mimicking the natural inspiration.

We are proud to have partnered with companies that are striving to continue working towards Eco-friendly manufacturing processes and making use of recycled materials to create sustainable products.

Our **hallmark series for a classic, timeless look** is the **Just Life**, in 160x1000mm size in an interior and exterior finish, with several colour tones to select from, our most popular the Beige Scuro in a lovely oak tone and Noce Rosso for the darker mahogany lovers.

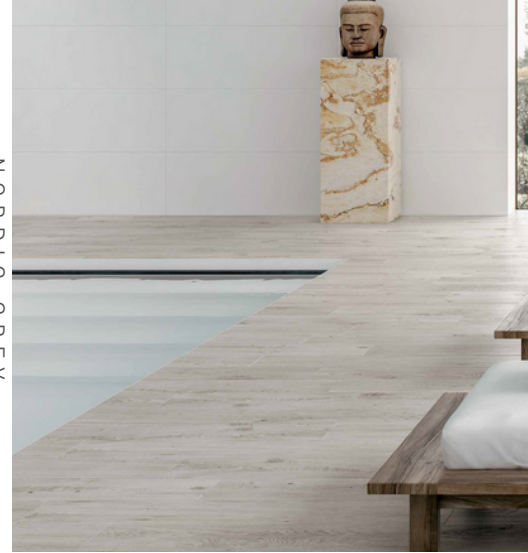

A **new decking solution is our Prodeck series**, available in three colours and two formats, the 150x600mm and 250x900mm size is modern and contemporary. Easy and affordable to install with zero maintenance required.

The **latest addition** to our wood look series is the **Nordic, for the modern minimalist** in 4 colours in 200x900mm size in interior and exterior finish.

The benefits of our porcelain wood look tiles include:

- **Colour-fast and does not change when exposed to our harsh sun**
- **Easy installation**
- **No maintenance**
- **Non-slip**

FLOWER POWER

08

A floral and plant theme: opening out onto the landscape, space is amplified, creating a thrilling, totally immersive experience.

Allow different graphic patterns and textures to **convert the walls of your home into unique and exclusive surfaces to be admired like a work of art.**

The main source of inspiration remains the greatest architect of all time, Mother Nature.

From the subtle yet distinct **Essenziale**, lightness, harmony and a geometrical dynamism combine in this wall tile collection built around a minimalist yet irresistible style. The ultra slim 400x1200mm tile has beautiful floral 3D patterns.

A strong contrast to the crisp and clean Essenziale is the **Botanical 600x1200mm decor** tile.

The floral and plant theme is heavily present in the Botanical decor from our **Timeline** series, rich in vibrant colour and texture the warm hues are inviting and the fine detail on the print and subtle texture are sure to garner a wandering eye.

The **latest trend from our Italian partners** is turning the walls of your home into spectacular backdrops that make the imagination travel to far-away destinations, and the floral theme remains the dominant print as seen in the **Gioia** series from Gardenia.

STYLE TIP

The power of the Wallpaper effect and showstopping prints is to be used on large surfaces. Do not break up the area that you wish to showcase, rather tile an entire wall in your decor tile, and use a subdued tile for the rest of the floor and walls.

SPLISH, SPLASH

10

Relax, unwind, enjoy, entertain or exercise, the many joys and benefits of your pool.

Make your pool stand out and use tiles and mosaics to **create a masterful oasis**.

THE NITTY-GRITTY FACTS

- To ensure a successful pool material installation is important to note the following about your pool:
- What is the base of the pool, is it concrete or fiberglass?
- Will it be saltwater, chlorine, or a natural pool?
- Are the tiles or mosaics that you are installing, porcelain, glass, or ceramic?

Depending on the information above a detailed specification document will be created for your pool to ensure the proper installation and adhesion of your products.

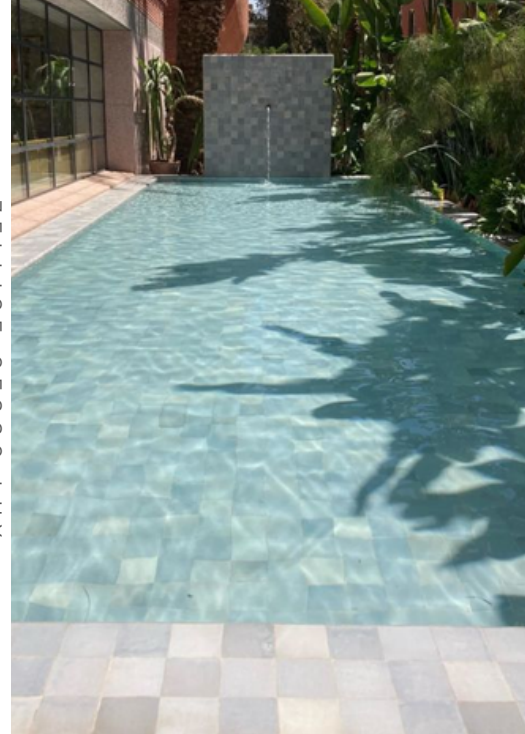

This is one of the value added services you will receive at Ferreiras.

The hand-crafted look tiles in the **Zellige** 100x100mm series are produced with glossy finish and visible variations in tone. Random installation creates a blending effect, in which the colours vibrate strongly. Perfect for creating a sparkling pool atmosphere.

A new addition to the opulent Versace series is the new Icons Tresor De La Mer, the name means "**sea treasures**" and we are taken by the beautiful print and aquatic theme and cannot think of a better application than in a tranquil pool.

A bold choice for pools is shades of green such as the **Lume** in a modern slim rectangular format that works wonderfully in a herringbone layout, as seen on our cover and bottom right image. Variations in colour and patterning create interplays of light which add vibrancy to spaces for that sparkling pool effect.

CONCRETE

12

Find beauty in the raw, uncomplicated design of concrete with our
Cement Look porcelain tiles.

Make - a versaTILE material.

This versatile, dynamic product allows your space to take shape. Available in stock in Corda, for the love of warmer tones, Bianco, for the neutral white, Ash for the soft greys, and Grigio Corten, for the darker rustic pallet.

Contemporary textures are the main characters of the scene, with the concrete effect coming to life in the practical tile installation.

The tile is best displayed in large format, square shapes, and available in 800x800mm and 1000x1000mm sizes.

Allow your spaces to be defined by their unique sophistication and detailed style with this **Italian made**, Make series of porcelain tiles, as the perfect backdrop to your life.

The perfect balance of function and aesthetics.

BIG TILE SMALL SPACE

One of our most frequently asked questions we get is regarding the practicality of using large format tiles in a smaller space, such as a bathroom. Our advice is not to shy away from using a large tile, as the larger the tile the less grout lines and spaces you will have which will create the illusion of a larger overall space. What is important to note is that with larger tiles you will have more waste as you cannot re-use cut pieces and therefore you will require more waste to be added to your total square meters purchased, we recommend between 15-20% for large tiles, whereas smaller tiles only require 10% waste.

IN BLOOM

16

Together with the well-known Dutch interior designer Edward van Vliet, JEE-O has designed a stylish bathroom collection: the Bloom series.

This refined collection was inspired by nature and geometry.

The designer, Van Vliet's, love of nature and geometrical shapes is reflected in the smooth transition from facet to round shapes in the design of the baths and basins, and in the hexagonal-shaped faucet heads and handles.

A sunflower served as inspiration for the shower head. The timeless Bloom collection includes all the elements for optimum bathroom enjoyment: a bath, top mounted and freestanding basins, a ceiling shower and wall shower, and accessories. Designed with care and vision, they are all eye-catchers with international allure to suit any bathroom.

PHYSICAL VAPOUR DEVELOPMENT - PVD

PVD is a process used to produce a metal vapour that can be deposited on electrically conductive materials as a thin, highly adhered pure metal or alloy coating. The process is carried out in a vacuum chamber at high vacuum. The stunning Gunmetal finish is applied to the Stainless Steel 304R base material using the PVD method.

Who is JEE-O?

JEE-O is refreshing and ambitious, exclusive and extrovert, tough and bold. All product lines are characterized by robust and powerful design, always distinctive in its simplicity.

A look that speaks for itself, JEE-O represents a personal, conscious choice in the modern interpretation of free time.

Responding to an increasing need for self-development and more than distinctive in design.

Pure aesthetic enjoyment.

The entire Bloom series is on display in our Boutique Kramerville Showroom.

ZEN

18

Zencha - Ceremony of Zen

A new addition to the impressive Duravit range of series is the Zencha.

With Zencha, the German based Sebastian Herkner was **inspired by traditional Japanese rituals and craftsmanship** and has created a well-thought-out bathroom series that combines unusual above counter basins with purist furniture. The most striking design feature of the basin and bathtub is the rounded shape, which ends in a graceful, softly curved outward edge.

Nowadays, the bathroom is considered a place of retreat and rituals. With balanced shapes and colours, Zencha appeals to the senses. Countertops, furniture, and bathtubs of the Zencha series create a feel-good ambiance in the bathroom.

Purist furniture with its straight lines and plenty of storage space creates a harmonious contrast to the organically curved sanitary products. Herkner has also designed a separate mirror that replicates the contour of the round basins. The organic shape is accentuated by an all-around LED strip, while the light can be controlled either with a sensor on the bottom of the mirror or by using the smart App.

SHOULD YOU MIX AND MATCH?

All our product ranges are well rounded with matching basins, taps and even mirrors, should you use the same range throughout, or should you shake things up?

There is no simple yes / no answer to this question and the solution lies in personal preference, what is a definite must is that a cohesive ambience is created and all items flow together well, if you are not sure about your selections we have an In-House Design Studio for any design related queries.

#DOGSHOWER

20

Fur baby, soul mate, the only one that truly understand you, the list of adjectives for your pet are endless, so give them what they deserve a #DogShower

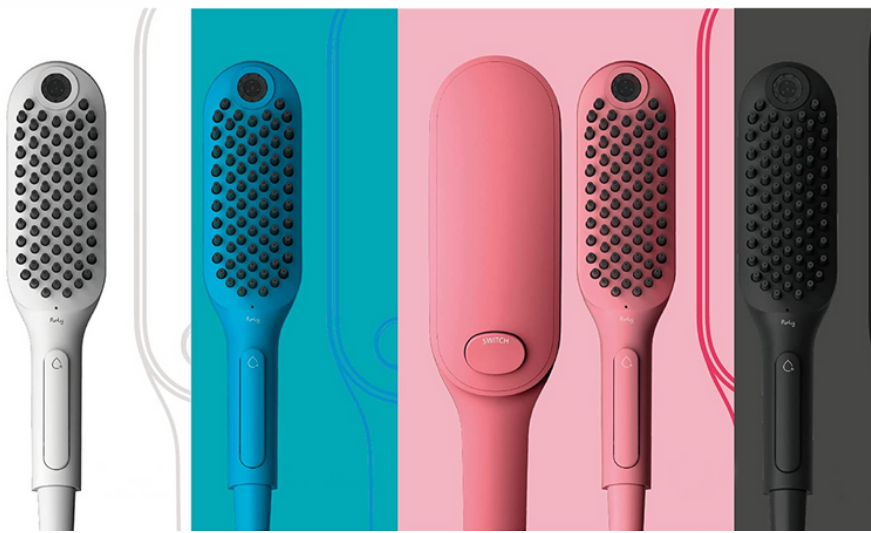

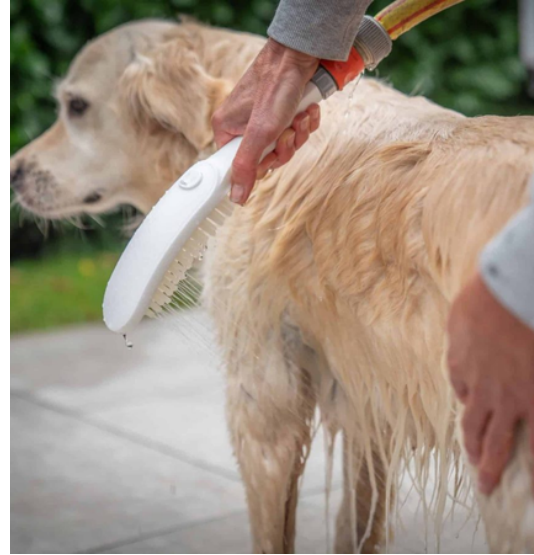

20 / 24

Showering your dog becomes a spa experience for your furry friend aka your dog with the **Hansgrohe #DogShower**.

Does washing your dog in the bathroom always result in chaos? And has your beloved pet declared war on the garden hose? The hansgrohe DogShower, also known as the Furlly DogShower, has been developed in collaboration with dog experts and psychologists. The massage effect of the sprays makes your dog feel like their back is being stroked, but they are actually enjoying a relaxed shower.

The benefits of the hansgrohe DogShower:

- **Relaxation.** The gentle, quiet water and massage sprays reduce the stress of showering.
- **Easy to switch between three jet types.** Single-handedly with the Select push button for shower sessions with a harmonious flow. It's all comfortable and convenient – just like hansgrohe showers for humans.
- **Cleans efficiently:** The amount of water can be increased to 9 l/min at the touch of a button.
- **Ergonomics:** The shape of the spray disc suits dogs' bodies. And the ergonomic handle is nice to hold.
- **Easy to install.** The DogShower fits on the standard connection for the hand shower.

THE GREAT OUTDOORS

22

Exude the luxurious appeal of the best five star game lodges with an outdoor shower, but did you know that not all tapware is created equal?

Bring the beach front atmosphere and five star game lodge appeal with a **JEE-O's outdoor shower** to your home in the city.

Spring is upon us, start off the new season with a luxurious outdoor shower. Not only is it a statement outdoor fixture but is also one of the best ways to cool down and wash away any residual salty water, for the coastal lucky, to the chlorine from that sparkling pool.

JEE-O's freestanding outdoor showers combine sustainable design with luxury and functionality. They make an ideal garden feature that provide essential hygiene for users of your swimming pool or sauna. A hot shower is also the perfect way to rinse off after relaxing in an outdoor hot tub in the winter.

It is important to note that your outdoor shower should be manufactured with the correct materials. At Ferreiras we offer only the best outdoor showers made from stainless steel to withstand our harsh sun conditions. Chrome products are only suitable indoors and will get damaged by the UV rays. Just like we have to protect ourselves from the sun we should also ensure that we invest in the proper outdoor equipment.

STYLE TIP

Elevate your outdoor experience by adding your choice of an outdoor shower. Add character to your space by installing Jee-o's Hammercoated black textured finish. This will result in a rustic look and feel to your space. Additionally you could go a different direction by using their Brushed stainless steel finish to get a clean cut design.
