GENERATOR
ANNEM

G E N E

R A T O R

The generator table was inspired by big family gatherings. We thought the name 'the generator' was quite apt, as it has the ability to generate a good time spent with family and friends, sitting around a communal table enjoying good food and conversation. Our biggest Generator table is 4m in length and 1.5m wide.

Created from solid wood tops, and featuring a mild steel frame and legs.
Finishes: Oil or polyurethane on wood, powder coated mild steel legs/frame.
