PART CHAIR. ALL HUMAN.

FILO T.01

Comfort throughout the day

Filo is the office chair that wears its credentials on the outside. Contemporary urban design with a tech look and feel. Adjust the seat height, angle, depth, backrest tension and more. Sink into the memory foam padding. Flick the synchro setting that moves seat and back together. *And smile. Because you're set.*

Material

Upholstery back
Mesh back

Mesh and Upholstery colours

Any colour - you choose - have fun!

The chair for office warriors

If you're working day only starts after eight hours in the office, you need Filo. As an authentic office warrior, you work hard. And then you work harder. So you need the best. Filo delivers. Sitting in Filo is like being in the cockpit of a fighter plane: it's all well-defined curves, bold angles, perfectly positioned controls and the feeling of everything falling into place. *Because life is beautiful.*

Optional Adjustable lumbar support

Filo's back is molded to support you exactly the way a well-designed ergonomic chair should. It also offers additional lumbar support to promote proper alignment of the lower back and relieve stress on the muscles. Good news for everyone who spends most of their working day at a desk. That's you, isn't it?

Full synch mechanism

Filo's synchronous mechanism (synchro tilt) maintains your ideal back/seat angle when you change tilt of your chair. The back moves more than the seat so you continue to sit comfortably.

Under seat mechanism

1. Seat height adjustment
2. Back locking function & travel limiter
3. Seat depth adjustment
4. Back tension adjustment

Happiness by design

The happier you are the more beautiful you become

It's time to lighten up a bit. No, check that, to lighten up a lot. Banish ugly and uncomfortable office chairs to the scrapheap of history. To replace them with beauty, comfort, brightness and joy. So we invented ChairClub: German design meets South African engineering and production. Boom! Beautiful chairs and big smiles.

German quality and style

First we asked award-winning German designer Stefan Brodbeck to create office chairs that would throw out the office-chair rulebook. Youthful, happy and no-compromises comfortable. He got it.

Proudly made in South Africa

Then we asked our team in South Africa - product development, manufacturing, marketing, logistics, quality control and many others - to build our chairs to the highest global standards. They do.
