DESIGNER LIGHTWEIGHT PLANTERS

WHY USE A JAPI PLANTER

New in SA, Japi designer planters are stylish and easy to work with. The convenient lightweight aspect allows anyone to carry the even the largest sizes up stairs with relative ease. They are highly durable carrying a 10 year factory warranty on the material. There is a large range of contemporary and classic styles and the colour choices are ideal for current design trends.

SHOP ONLINE

The Japi by Hingham online store enables designers to see the latest styles available , with measurements and colours for each. Shipping is free countrywide for purchases over R2500.00. Available stock ships in under 5 days or one can book stock ahead as containers arrive every few weeks.

The exciting Japi range
is available to you now...

Cache pot

Cache pots are decorative containers, for indoor plants, that do not have drainage holes. ***Do not plant directly into a cache pot*** - plant into a plastic pot, and then set that pot inside the decorative container.

A few Japi planters are specifically designed as cache pots, however, all Japi planters have the option of being bought with or without drainage holes, therefore they may all be used as cache pots if required for indoor/patio use.

Gota Wall Panel Planter	Burnt Cement	JVGT35CQ	350mm	510mm	180mm

Gota ("Drop" in portuguese) bears the name of its inspiration, the drops of rainwater.

The Gota symmetry enables the creation of different forms, free or organised, adapting to each environment and making it unique. It provides an endless number of layouts.

5 FEATURES OF JAPI POTTERY

ALL WEATHER RESISTANT

1. Japi planters are all weather proof and do not chip or crack when exposed to diverse weather conditions.

UV PROTECTED

2. The raw material of Japi planters has a UV additive to protect the planter colour against fading

10 YEARS WARRANTY

3. Japi planters have a factory guarantee for 10 years on the material providing that cleaning instructions are adhered to.

RECYCLABLE AND BPA FREE

4. All Japi Planters are made of 100% recyclable material, contributing to a greener and happier world. The raw material of the planters is BPA free, keeping your family safe and healthy

5. Japi planters do not come with drainage holes in the bottom, giving you the choice between using them as a planter or a cachepot

Cleaning instructions:

Do not use chemicals or abrasive equipment. Clean with sunlight and a SOFT brush or high pressure hose.

TIP: A little black boot polish makes the lead pots look brand new while clear automotive polish can also be used.
