VERTICAL BLINDS COLLECTION

Modern Flair to a Reliable Classic

Our huge range of Vertical Blinds come in a variety of colours, patterns and styles.

Vertical blinds are frequently considered to be an office type blind, however, these window blinds have become more popular in recent years as they offer an interesting, clean cut, soft layered look to many new contemporary style homes.

ECLIPSE / ZEBRA BLIND COLLECTION

Luxurious and Breathtakingly Beautiful

Our Sheer shades are composed of innovative and revolutionary lines that offer the best of the best to our customers!

The Sheer shades are designed for multi-functionality. They maintain the look of a shade when closed, but can control light like a blind.

The delicate, yet luxurious fabrics and the multiple varying functions of our sheer shades, makes them one of our most popular products and a worthy investment.

VERSATILE

This simple solution can be left alone for a finished look, or dressed up to compliment any décor theme

Life Just Got Easier

Motorised blinds are an affordable luxury.

Giving you the option of having beautiful blinds that will open and close at the touch of a button.

Motorised blinds not only put the finishing touch to a room through style and design but they also bring with them a range of benefits and a more convenient, safe and stylish way to dress your home.

With just a touch of a button you have total control over your blinds installed in even the most hard to reach areas.

SHUTTERS COLLECTION

Classic and Picturesque

Shutters enhance the lasting architectural quality of windows, and increase the value of your property.

They're also a smart choice for light control, energy efficiency and noise insulation. There is a style for every window size, shape and configuration.

Classic and Picturesque, choose from our range of Aluminium, PVC or Basswood. They come in a variety of wood, stains and colour finishes.

ALUMINIUM

PVC

BASSWOOD

Aluminium Shutters

Breaking a window or door is easy, however breaking through aluminium reinforced shutters takes time and creates noise.

This makes the aluminium adjustable louver shutters a useful deterrent to intruders who are looking for an easy way to gain entrance to your home or business. Security shutters are locked into place, no one on the outside will be able to see into the comfort and privacy of your home.

The adjustable louvers are reinforced with steel rods running through the core of each louver, extending into the aluminium framework, to ensure an extremely robust, yet attractive alternative to steel gates and burglar bars. These shutters are securely locked by means of a spring loaded bolt system and unique sliding locking bolt mechanism.

Aluminium shutters are maintenance free and are particularly well suited to harsh conditions in the coastal areas. They can be powder coated in a wide selection of standard or custom colours to suit your décor.

PVC Shutters

Our New PVC Shutters are more than a practical window covering, they offer a classic, timeless look that enhances any style home.

They are water resistant, fire retardant and provide greater insulating power (3x more than wooden shutters) and offers excellent UV protection. PVC Shutters are a great investment when buying a home.

They look like wooden shutters, but come with a better price tag and longer life span. PVC shutters are the preferred choice when you have to consider things like humidity, durability and price.

Our extremely durable PVC range has aluminium cores with UV inhibitors and will not absorb moisture, delaminate, split or crack, and are excellent for kitchens and bathroom and are impervious to damp and easy to clean.

This means the shutter will not sag, deform or creep over time. Our PVC shutters are designed to compliment and match our Basswood shutters profiles.

CLASSIC AND PICTURESQUE

Contact **INSPIRED DÉCOR** on 066 291 8764 for a free quotation

Basswood Shutters

Basswood is one of the strongest quality hardwood species available on the international market, it is solid and not porous making it resistant to wood borer (unlike other types of hardwoods which are available in the South African market) and is known for its stability, strength and hardness.

Basswood shutters can be designed to match your decor, flooring and furniture as we offer a choice of 10 standard colours, as well as custom-made solid colours and stains.
