

PARADOR

Wall and ceiling

living performance

Parador not only prepares the ground for exclusive furnishing: our all-rounders and products making things possible for wall and ceiling are classics of customised interior design.

ClickBoard and decor panels continue our range at a high level: they turn wall and ceiling surfaces from architectural necessities into expressive elements of exclusive furnishing.

Whether used on the ceiling, for a loft extension, as a facing shell or a light partition wall: implementing home improvement ideas, renovating yourself and having fun at the same time – that is what sets the two Parador product lines apart – stylistic confidence included.

living

Living performance

is the core of the Parador brand. For us, living means appreciating beauty. Performance is precisely that. Parador combines both at the highest level – and prepares the ground for individual living spaces.

performance

Art of living meets performance

The world is changing. Increasingly complex challenges and multi-faceted impressions create surprising movements, ultimately fashioning a new dimension to the value of home living.

People who deal with forms of individual living and identify with their home in a new way turn into communities, who take care with their home surroundings.

The criteria by which the quality of life and living are re-evaluated are changing. Parador products make a sustainable contribution in this regard. In them, beauty, design and technology, worth and longevity are combined to form a perceptible and emotional basis that withstands the demands of everyday life.

In this respect, our aim is to earn the trust of our customers for everything that we do – with clear values and a clear attitude: we are genuine, innovative and ambitious. We are proud of combining valuable home living with artistic life through what we do.

Living performance.

1. Our attitude is a clear compass that points to the future.

2. Inspirations from art, architecture and society give our products character and personality.

3. The highest standards of quality “made in Germany” are the foundation and drive for our work.

4. An innovative spirit and excellent technology lead to results and awards recognised worldwide.

5. Our products promote healthy living, are low on emissions and create a pleasant living environment.

6. Sustainability is our foundation and goes hand in hand with our responsibility to preserve nature for the next generations.

Innovation hub and material workshop, trendsetter and design leader: Parador is as *versatile* as the products for which the company stands.

On these pages we show what makes our wide offer so special: a *declaration of love* to the possibilities of customised room interior design.

We at Parador have burning passion for products that inspire ourselves – and for our commitment to quality. This commitment is reflected in the fitting accuracy of the click geometry as well as in the perfectly matched accessories. Since 1977 we have been applying this passion to develop wall and ceiling claddings at our own production site in Coesfeld, where our headquarters and registered office are located.

Innovative technology is good for one thing above all: our customers. Decor panels from Parador are particularly installation-friendly. Due to the patented click mechanism or with the tongue-and-groove push-in connection they can be assembled quickly and safely – even single-handedly. And collections like Milano and RapidoClick have become renowned brand names in the meantime. ClickBoard too replaces time-consuming painting work on plasterboard walls – and the wall is complete after the installation: progress is a tradition for us.

Our products are as varied as the world in which we live. The design of our range for walls and ceilings is also impressive in optical terms: there is something fitting and inspiring for every space and every taste. Various surface textures and attractive decors, from classic to modern, perfect wood reproductions and unusual graphic patterns stand for a sense of style in interior decoration – and honour our claim to be one of the world's leading brands for interior design and architecture.

- a** The new Parador panel Polygon powder: the urban, geometric design shows off its particular sophistication through the polygon shapes with soft edges and, depending on the incidence of light, accentuates particularly vibrant contrasts.
- b** Nature constantly inspires us – and thus becomes the basis for repeatedly developing new decors.
- c** Parador ClickBoard and decor panels – amazingly simple in terms of handling, ambitious in terms of the result.

Iconics
RapidoClick

Our passion lifts the work on the product from rationality to the level of sensuality. In the product world, uniqueness is increasingly important: products with soul. We take this conviction into account with our new “Iconics” products. They are modern signs with iconographic potential – bold, extraordinary and at the same time relevant to the design of beautiful spaces with a special character.

More on Pages 28 and 29.

For anyone wanting to make *stylish unique pieces* out of walls and ceilings quickly, simply and tastefully, the Parador range for walls and ceilings is the first choice.

Essentially we distinguish between large-area ClickBoard and decor panels in different formats and with traditional as well as trendy looks.

No matter what the furnisher has a passion for – both assortments solve the challenges of modern architecture *fittingly* and with a personal touch.

ClickBoard makes designing individual sections of the room particularly easy – and supports a spacious overall impression.

Decor panels, due to their diversity, different panel widths and joint designs, underline the character of valuable home living in particular.

ClickBoard

is our collection for all those wanting to design and clad walls, sloping roofs and ceilings. With simple handling and installation-friendly formats, it allows individual areas to be deliberately accentuated – so that any place can be turned into an individual home.

Home panels

is our entry-level segment into the sophisticated world of home living. Made in Germany, the Home decor panels collection is characterised by the full coating on the edges, a tongue-and-groove push-in profile and a modest, stylish selection of decors.

Style panels

will impress all those for whom walls and ceilings are also an expression of an attitude: the line for beginners combines a variety of designs with the patented click mechanism for an effortless installation with results at a high level.

Novara panels

are our range of branded panels with a tongue-and-groove connection for all friends of the exclusive: Novara stands for extraordinary design – and for installing elements that give spaces a traditional or trend-conscious character.

RapidoClick panels

come with the patented click mechanism, which enables ambitious ideas in the home to be effortlessly turned into reality even without much previous experience. The matching accessories ensure a perfect result.

MilanoClick panels

impress, apart from the click mechanism, optically above all: as the widest panel, MilanoClick proves to be a genuine all-rounder in the room. The panel surfaces and a width that gives spaces a calm, elegant character, allow a great deal of freedom when it comes to creating ambitious interior designs.

We live for products that turn any place into a genuine home.

“Eye-catchers
with a feel-good
atmosphere.”

According to an old Japanese legend, anyone who folds 1,000 origami cranes is granted a wish by the gods. The lightness of paper and the joy of origami also conjure the impression of light and dynamic movements on the wall in the Parador Polygon Powder panel: the

new development makes walls appear three dimensional. The urban, geometric design shows off its sophistication through the polygon shapes and, depending on the incidence of light, accentuates vibrant contrasts.

Formats for ClickBoard and panels

You can find a complete product overview with all formats on Pages 34 and 35.

All the technical details are available under parador.de/en/your-floor/product-knowledge/clickboard-panels

Perfect renovation solution: With easy-to-assemble formats, the Parador wall and ceiling range is suitable for use as a facing shell, ceiling, loft extension or, with ClickBoard, even as a light partition wall.

Besides the stylish decors in extraordinary brilliance, different types of joint add to the effect: they show off the *range of formats in masterly fashion.*

Joint design

Without joint

ClickBoard

The jointless connection enables a large-scale effect without recognisable spaces.

Design joint

Panels Style / RapidoClick / MilanoClick

The design joint of the Click panels gives rooms an individual look due to delicate transitions.

0-cm joint

Panels Home / Novara

The modern 0-cm joint with all-round Softline edge emphasises every single panel and shows it off in masterly fashion.

Parador *ClickBoard* is ideally suitable for designing walls, ceilings and sloping roofs on a large scale and also for cladding them, as well as for deliberately accentuating individual areas.

To make the interior design process fast, simple and effective, ClickBoard is *ready for the home* in a few work steps – with no filling, sanding, painting or wallpapering.

Parador ClickBoard

Universal talent

The intelligent composition of Parador ClickBoard guarantees an easy installation method, stability and a long life cycle. The sturdy, water-repellent top layer made of melamine resin ensures an authentic feel and particularly effective protection.

The highly compressed, swell-resistant core board provides high dimensional stability and minimises effects from climate fluctuations and extraordinary loads. A backing and the patented click mechanism with Safe-Lock® profile complete the technical features of Parador ClickBoard.

- 1 Overlay
- 2 Decor paper
- 3 Barrier paper
- 4 HDF core board
- 5 Backing
- 6 Safe-Lock®

Parador decor panels are an excellent choice for designing spaces in a varied and individual manner.

After simple installation they contribute to a pleasant feel in the home and make walls, ceilings and whole living rooms more attractive in no time at all.

Parador decor panels

Character piece

Parador decor panels are particularly well suited for ceilings, loft extensions as well as for facing formwork. Parador offers them with two different connection systems: in the Home and Novara collections in the form of the tried-and-tested tongue-and-groove push-in connection, and in the Style, RapidoClick and

MilanoClick collections with the patented click mechanism for a particularly stable installation with simple handling. The decor layer is equipped with a protection against moisture and light mechanical loads. An HDF or MDF core board provides high dimensional stability against effects from climate fluctuations and extraordinary loads.

Mouldings for ClickBoard and panels

The mouldings that match the decor create the perfect transition, thus generating a harmonious overall impression. Their different forms give any space an individual appearance. Matching caps in aluminium look or white ensure a perfect finish to the mouldings.

parador.de/en/your-floor/product-knowledge/skirtings-clickboard-panels

Fastening aids

When purchasing Parador ClickBoard and decor panels, start thinking about the matching accessories. With our helpers, the installation process is managed in a few steps: special fastening aids such as claws and moulding clips for the panels or centre clips and screws for ClickBoard enable everything to be easily attached.

parador.de/en/services/downloads/wall-ceiling

Assembly accessories

All that is needed for assembly is a hammering block. Parador ClickBoard and panels can sometimes also be attached single-handedly. parador.de/en/services/downloads/wall-ceiling

Effortless transitions: as a *system supplier*, Parador provides the exactly matched accessories for assembly.

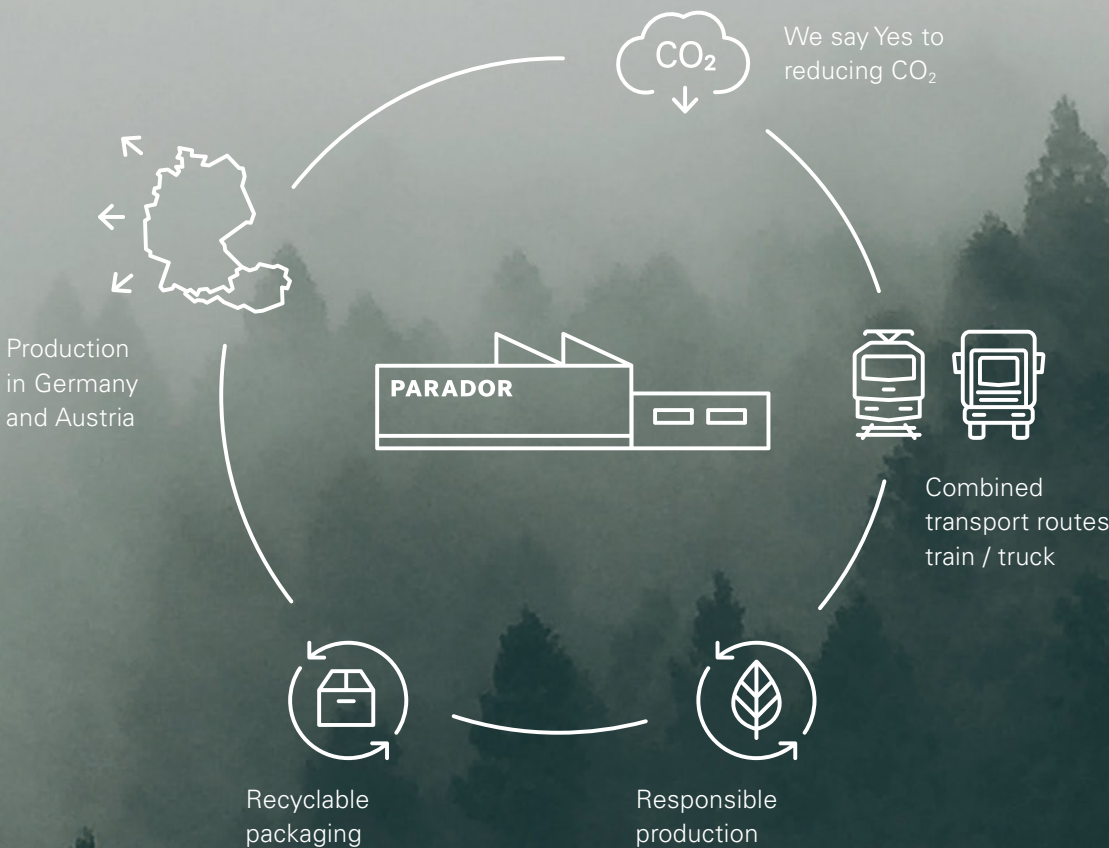

All the accessories and everything you need to fasten our ClickBoards and panels can be found here and ordered directly: parador.de/en/skirtings-accessoires

We act sustainably, take responsibility for the future and are committed to bringing the environment, social issues and responsible business practices in perfect balance.

Setting standards. Taking responsibility.

When it comes to manufacturing products that are healthy in the home, we use tested raw materials. During the manufacture of all Parador products, besides wood we use other high quality, recyclable and environmentally-friendly materials from monitored sources; engineered wood flooring is, of course, produced by us using timber from sustainably managed forests.

We are continuously certified by independent institutions. Production, materials and products from Parador go beyond statutory requirements when it comes to meeting the value standards of a brand with responsibility. We are the first and only flooring manufacturer in Germany to be EMAS-certified since 2015: EMAS is the most demanding system worldwide for environmental management.

We are committed to our particular responsibility for the environment. Wood is sustainable and actively contributes to climate protection. Once installed, all Parador products are characterised by a long life cycle. Where we can, we use materials that can be easily reused in terms of energy and material.

Plant-for-the-Planet. Since 2011 Parador has been a partner of the “Plant-for-the-Planet” foundation, which campaigns worldwide for reforestation and climate justice. We support the initiative with tree-planting campaigns, as a result of which almost 200,000 trees have been planted by Parador alone.

Émissions dans l'air intérieur (Klasse A+)
This national classification valid in France indicates the quality of the indoor air.

Émissions dans l'air intérieur (Klasse A)
This national classification valid in France indicates the quality of indoor air.

PEFC™
This trademark is awarded to products that meet the requirements of the certification system for the documentation and improvement of sustainable forest management with regard to economic, ecological and social standards.

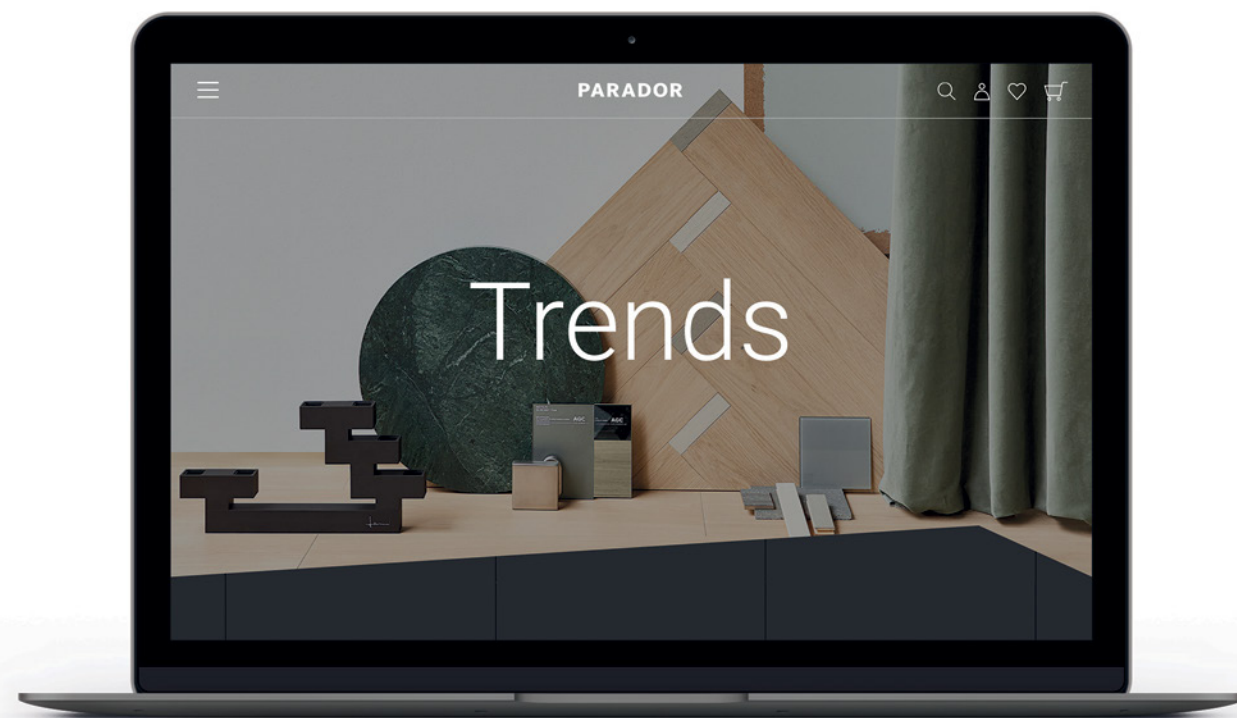

TÜV Rheinland
The TÜV test mark confirms independent monitoring of the quality, production and functionality of the Parador products.

Der Blaue Engel (The Blue Angel)
“Der Blaue Engel” certifies that Parador products are low on emissions based on the current award principles.
