

SINTERED SURFACES

STONE RE-IMAGINED

STONE
RE-IMAGINED

Supreme Engineered Surfaces
For interior and exterior use

INTRODUCTION

In the dynamic world of interior design and construction, a game-changing material is swiftly gaining traction—sintered stone.

This innovative material is born of natural minerals and meticulously crafted through high-pressure and high-temperature manufacturing processes. It epitomizes the perfect blend of durability, versatility and aesthetic allure. Sintered stone offers a rich spectrum of colors, textures and finishes, providing a vast canvas to seamlessly translate your visions into reality.

These slabs boast impressive dimensions and typically measure 3200mm x 1600mm, making them ideal for a wide range of applications, both indoor and outdoor. Their size allows for minimal grout lines, resulting in a seamless and uninterrupted surface that exudes sophistication.

Embrace the future of interior design with sintered stone—the unequivocal epitome of elegance and resilience. Welcome a lasting legacy of sophistication and practicality with sintered stone, where enduring beauty meets sustainability.

BENEFITS OF SINTERED STONE

- Quality raw materials
- Easy maintenance
- Environmentally friendly
- Variety of colours & textures
- Stain & scratch resistant
- Non-porous (Doesnt harbour bacteria)
- Heat resistant & UV resistant
- Versatility in Application
- Seamless

CALACATTA BORGHINI

The golden texture radiates a sense of opulent sophistication with a rich array of tones.
