ON TAP: A BRIEF HISTORY

1990

On Tap Plumbing and Bathrooms was established in Pietermaritzburg in 1990 during a period that was described by our bank manager at the time as the worst recession in South Africa since the 1930s.

1996

On Tap's first franchise outlet opened in Durban, creating a window of opportunity for the organisation to grow into a well-established and trusted franchise within the plumbing retail industry.

1998

On Tap's second franchise outlet in Cape Town opened, making it a national affair. This paved the way for the subsequent opening of several franchises thereafter, enabling the organisation to achieve a national footprint with a precedent of successful owner-managed stores across South Africa.

2004

With the Franchise having gained traction, the On Tap brand was becoming firmly established. The vision to create a clear, identifiable brand that is synonymous within the plumbing retail industry for outstanding service and performance was realised. On Tap is now known as 'the home of beautiful bathrooms and kitchens' with an extensive product portfolio featuring industry-leading and well-known local and international brands. Through serving our clients with integrity, we have become the preferred supplier to both trade and retail customers offering a comprehensive range of premium quality bathroom, kitchen and plumbing products paired with expert advice and fast, friendly and efficient service.

2023

Now a firm industry leader and household name, we continue to strive to be at the forefront whilst maintaining our brand's integrity and vision. Through the established relationships we have with our partners and suppliers, we are able to offer our customers an extensive and premium quality product portfolio that includes Sanitaryware, Baths and Basins, Vanities and Cabinets, Shower Enclosures, Bathroom Accessories, Bathroom Mirrors, Taps and Mixers, Kitchen Sinks, Hot Water Systems and Valves, General Plumbing Products, Plumbing Hardware, Stainless Steel Plumbware, Copper and PVC Pipes and Fittings, Gutters and Pipes, Cast Iron products as well as supporting services.

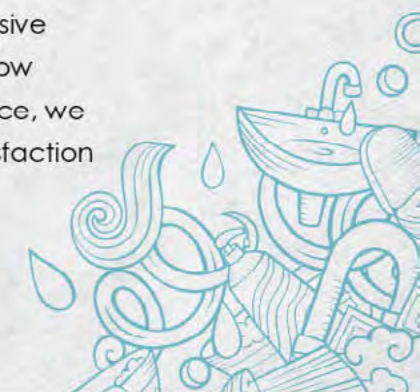

On Tap Jeffrey's Bay showcasing our established brand equity and vision.

WHY CHOOSE ON TAP?

At On Tap, we pride ourselves on the comprehensive range of premium quality bathroom, kitchen and plumbing products we offer from industry-leading and well-known local and international brands, paired with the outstanding service provided by our teams of knowledgeable professionals.

We employ a total dedication to personal and fast, friendly and efficient service paired with expert advice, supported by professional personnel to assist both our trade and retail clients. Our customers trust us as the home of beautiful bathrooms and kitchens to help them make well informed product selections from our premium quality and exclusive ranges to best suit their needs. By understanding our products, how they work and how they will add value to a customer's experience, we ensure a unique and exceptional shopping experience with satisfaction guaranteed.

uPVC Soil and Vent Systems

Marley soil and vent plastic pipes and fittings make up a certified uPVC system for above ground sanitation, conveying soil and waste water into underground drainage systems.

uPVC Waste Systems

Marley's waste system can be used in conjunction with the soil and vent system for a complete above ground sanitation system that provides a quick, hygienic removal method for sanitary waste water.

uPVC Underground Drainage Systems

The Marley sewer and drainage underground system incorporates Solid-Wall plastic pipes and fittings conforming to the relevant SANS standards.

REDI Large-bore Underground Systems

REDI PVC Large-bore moulded underground fittings are totally compatible with SABS 791 (solid wall) and SADS 1601 (foam wall PVC pipes) boast high strength to weight ratio and exceptional resistance to corrosion.

Accessories

In addition to a comprehensive selection of plastic pipes and fittings, Marley also offers a range of useful accessories to provide an overall solution to your plumbing and construction needs.

Pro-fit Hot and Cold Water System

A comprehensive solution for both residential and commercial installations. The system is JASWIC approved and has been tested and rated in accordance with SANS ISO22391 for hot and cold water supply systems.
