Silver Metal

Stone flex is a flexible alternative to solid natural stone. Stone flex has a 100% natural stone surface and is laminated with a high strength polymer backing.

Due to its greatly reduced weight and flexibility stone flex is a very versatile material, suitable for walls, facades, ceilings, furniture, decoration and doors. Being natural stone, it is also suitable for both indoors and outdoor spaces. Stone flex can also be bonded to multiple surfaces such as, concrete, metal, plastic, wood, fibre board, glass and many other surfaces.

Stone flex is also available in slate, quartzite, marble, limestone and sandstone.

# SPECIFICATIONS

Each sheet of STONE FLEX has its own unique veining structure, surface texture and colouration, from the natural stone from which it is processed. The face of the sheet is carefully split from the natural stone slab, extracted from the quarry.

Installation is simply applying the approved adhesive to the back of the slabs and rolling the sheet into place using a normal point roller to extract any air, trapped behind the sheet. Cutting is done with a pair of industrial scissors or a craft knife.

Sheets can be butt jointed but we advise a minimal 1mm joint be used and grouted with normal tile grout or Keralastic T adhesive. Sealing of the slabs is recommended to enhance colours and facilitate maintenance. S.Q.T. Sealer is recommended.

MATERIAL	100% Real natural stone surface. Fibre polymer backing.			
THICKNESS	1.5 mm to 2.5 mm			
WEIGHT	±1.5 kg/m <sup>2</sup>			
SIZES	2440 x 1220 mm & 1200 x 600 mm			
RECOMMENDED ADHESIVE	Mapei Keralastic T adhesive			
RECOMMENDED SEALER	S.Q.T. Textures stone sealer (if enhanced colour or gloss finish is desired) S.Q.T. Sealer (For a matt finish)			
<b>AVAILABLE MATERIALS</b>				
Slate	Quartzite	Marble	Limestone	Sandstone
<b>SUITABLE USES</b>				
Interior Walls	Exterior Walls	Ceiling	Furniture	
Bathroom	Kitchen Cabinets	Exhibition Decoration	Door Skins	
<b>SUITABLE SURFACES FOR APPLICATION</b>				
Metal	Wood	Plastic	Concrete	
Fibre Board	Glass	Any other solid surface
