

Casa LV

— CATALOGUE 2024 —

**Bespoke, handblown glassware,
made in Cape Town, South Africa.**

@CASA.LV

About us

Casa LV is the shared vision of two friends Lynne and Vilma.

Vilma has been a collector of glass for decades. Exploring the world and finding unique pieces for her now extensive collection. Her Italian heritage has always found fascination in the limitless forms and colours the glasswork can bring to life.

Lynne spent her childhood appreciating glass as she would visit her father's glass making factory. Her mother, a gifted florist, inspired Lynne's love of flowers - which find their perfect companion in the glass vessels that hold them.

Bespoke, handblown glassware, made in Cape Town, South Africa

No two are the same

Every piece is expertly crafted. These designs are brought to life by one of the worlds foremost master glass blowers - a true visionary whose global travels have led him to Cape Town, South Africa, where each piece is hand-crafted. A true artist and enigma, our master glass blower prefers to remain anonymous, earning him the loving nickname **"THE BANKSY OF GLASS"**.

Every piece is expertly hand-crafted, and no two are the same. Each is a work of entirely bespoke art. The color of the glass varies according to the shape of its design, and our pieces are solid and heavy, adding another layer of luxury and permanence to their form.

Our colours are seasonal so follow us on Instagram @casa.lv for any updates!

Vase category

The **Emily**

Dimensions:
