COLEFAX AND FOWLER

AUTUMN 2024

MARQUIS

This autumn, Colefax and Fowler presents a striking collection infused with a richly layered aesthetic and global inspiration. Exceptional craftsmanship shines through in this collection of distinctive prints, layered embroideries, multi-faceted weaves, plains and passementerie.

Drawing from diverse influences with a leaning toward Persian references, the collection features intricate paisleys, antique Suzani motifs and detailed rug inspired prints, evoking a lavish and opulent atmosphere. These designs are complemented by delicate florals in bold and confident colours including Chinoise-inspired peonies to wisteria-laden branches and delicate ferny fronds. The different styles in the collection build to create the unique Colefax and Fowler look, combining contrasting references which when combined create a worldly and historical aesthetic.

Sandford's decorative weaves, velvets and stripes enrich the collection with vibrant colours and opulent texture. Two striking velvets introduce a luxurious touch while patterned stripes offer bold contrasts using chenille, marled and flamé yarns.

Bampton, featuring a smart collection of luxurious textural plains and versatile smaller patterns adds character and unique charm to complement decorative designs.

Flynn linen brings an elegantly understated look to the Colefax and Fowler collection with a 'settled-in' appearance due to its beautifully antiqued surface, available in an extensive range of attractive colours.

Adding the final touch of elegance is our new Lansdowne trimmings collection offering a comprehensive range of Passementerie in a broad range of colours, designed to coordinate with all Colefax and Fowler textiles. Generous bullion fringe and cut ruche offer a classical touch whilst a colourful caterpillar braid and a distinctive oak leaf pattern embroidered tape have a contemporary appeal.
