SHAW'S

ENGLAND

Handcrafted
for life

– 120 YEARS –

IN THE MAKING

Our founder, Arthur Shaw, established Shaws of Darwen with a typically Lancastrian blend of vision and pragmatism.

As manager of the Darwen Colliery, he noticed that the clay brought up from the mine was of extraordinary quality. His vision – to make the finest handcrafted fireclay sinks in the whole of England – arose from a desire to turn a wasted by-product into something of beauty and value.

Today, over 120 years on, that vision has been more than realised. Shaws now enjoys not only a national, but a worldwide reputation for the beauty, quality, craftsmanship and sheer practicality of our unique artisan products.

Shaws sinks continue to be handcrafted at our premises in the same quiet corner of North West England as they were when Arthur Shaw first started out on Valentine's Day 1897.

The techniques lovingly used by our craftsmen haven't changed in all those years. Every handmade Shaws sink still carries an impression on its base of the name of the master craftsman who created it. This, along with a Shaws Certificate of Authenticity, is our assurance that your investment has been handcrafted for life.

CONTEMPORARY COLLECTION
