

Business is changing. Life is changing.

We mix personal and professional.

Speed is everything. And internet is accelerating the pace of change.

Yet one part of work remains stuck in the past.

Office furniture. It's expensive. It's inflexible. It's dull.

So we asked people what they needed to do their jobs better.

They said office furniture should look great and be clever.

Make work easier, more pleasant and more productive.

Without being complex or costing a fortune.

So we decided to change the game. Challenge convention.

Create innovative and high quality furniture that works the way we do today.

Make it easy to plan and buy.

Make it affordable for more companies and organisations.

We asked a leading German designer to develop great-looking office furniture.

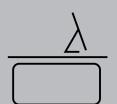

We put together a world-class team to make it.

And built a state-of-the-art factory here, in South Africa.

Result: smart, contemporary, award-winning office furniture. Inspiring and practical design that you can afford.

# 7Úp

7Up is an all-in-one workstation catering to the needs and demands made on the worker today. Whilst 7Up inspires your day at work, others will be inspired by 7Up's good looks. Elegant and understated, 7Up enables you to build a workstation that works for your style as well as the task you are needing to perform.

**7UP BENCH** The recessed centre leg on the bench application is both space efficient and a conduit for cable management.

#### **7UP DESK**

7Up is available with an aluminium or wooden leg and coloured to your design criteria.

#### **7UP TABLE**

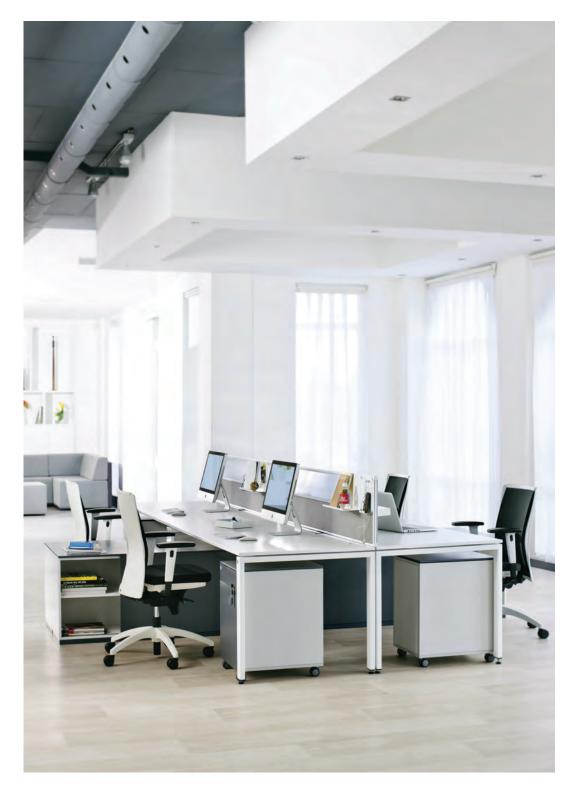

The 7Up high and narrow table are perfect for informal collaborative meetings.

# GAME CHANGER™ NOW

An elegant entry level desking system with a welded steel substructure. The looped frame option provides a sophisticated design aesthetic at a budget price. NOW has its own design of frontal screen created to support the activities that would be carried out at the workstation.

# GAME CHANGER™ KIS

Keep it simple. One of the smartest sayings we know.

The inspiration for GameChanger KIS. Straight forward yet stylish desks that are easy to mix, match and combine.

For teamwork and task-oriented work, sitting and standing

# LOGIC

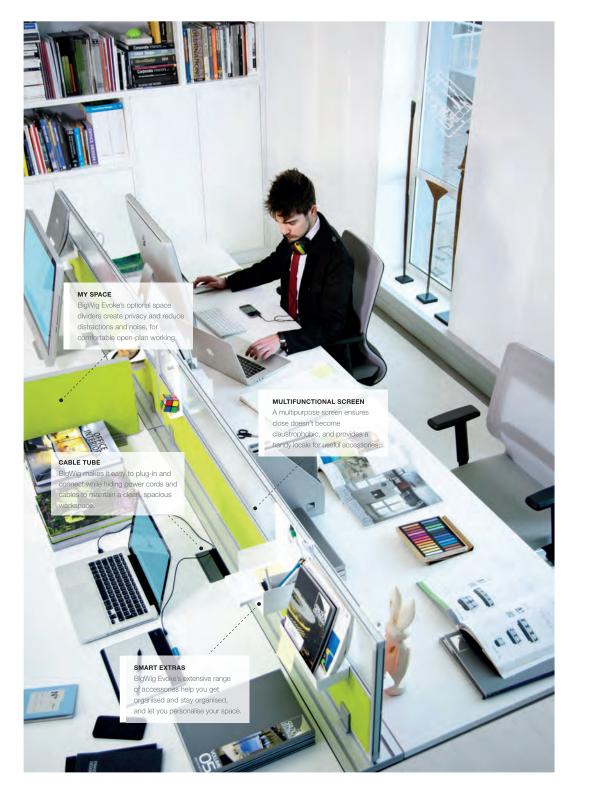

Logic is a straight forward yet stylish desk, easy to mix, match and combine. For teamwork and task-oriented work, sitting and standing

The workplace is changing. Today's leaders don't want to sit behind closed doors amid dark, graceless furniture. You're visible and connected. You have an eye for contemporary design, quality materials and real craftsmanship. So why doesn't your desk look beautiful and feature sublime tactile details? BigWig Evoke is a range of sleek, aluminium framed desks, an inspiring environment for working, meeting and dreaming.

# What sort of desk do you deserve?

Your ideal desk is like a second skin. It makes your work easier from a practical perspective and more satisfying from an aesthetic one. BigWig's sleek aluminium construction is practical as well as beautiful. With configurations ranging from single desks to team-focused work benches, be free to choose how you work. All BigWig laminates and coatings are certified VOC-free, and our manufacturing processes meet all leading global environmental standards.

#### **BIGWIG SIT & STAND**

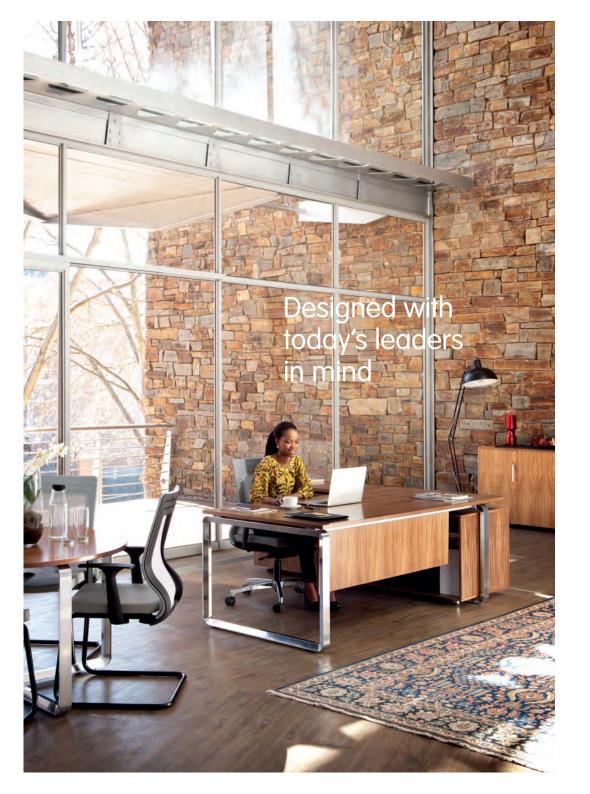

Get together to get it done with these elevated workbench solutions. Ideal for impromptu scrum-style meetings. Show, tell and share. Then break up and move forward.

Today's c-suite executives have moved on. You don't see an office full of dark, heavy furniture as a symbol of success. That's old school management. You're about leadership and coaching. Teamwork and agility. You would rather be out and about than behind closed doors. Your phone, your car, show that you appreciate clean, modern design and quality materials. BigWig Prestige is the perfect compliment to the contemporary c-suite office. Our executive desk is the finishing touch that says you've arrived and you are going places.

## What sort of desk do you deserve?

Your ideal desk reflects your achievements and helps you take your business forward. It performs from a practical perspective and satisfies from an aesthetic one. BigWig Prestige fits the bill. It is also certified VOC-free. It contains none of the man-made volatile organic compounds that are bad for our health and environment, and our manufacturing processes meet all leading global environmental standards.

#### CONNECTIVITY PANEL

So many devices, so easy. BigWig Prestige makes it a breeze to plug-in and connect, or aluminium add up to pure class. unplug and go.

**COLOURS AND MATERIALS** 

Natural finishes, the highest quality wood and

### HEIGHT ADJUSTABLE

needs as they adjust from a sitting or standing position throughout the day, helping to support good blood circulation and reduce neck and back strain.

With the electric height adjustable tables, posture and

the dual height adjustable tables are ideal for a workstation, collaboration space or project desk. The table height can be adjusted from 650mm - 1200mm, making it ideal for a multi functional work area.

### **BOARDROOM TABLES**

We are able to design bespoke boardroom tables for your office meeting spaces.

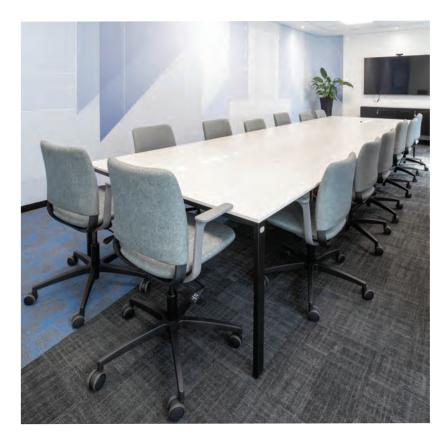

#### **BIGWIG MEETING TABLE**

From a quick heads-up on the latest developments to a longer, more detailed get-together, the BigWig meeting table is a great place to get things done.

**BIGWIG BOARDROOM** Comfortable and stylish, functional and inspirational, the BigWig Prestige boardroom table creates the right atmosphere for productive discussions and decision making.

KIS MEETING TABLE

Straight forward yet stylish meeting tables that are easy to mix, match and combine.

#### **7UP MEETING TABLE**

The elegant and understated 7Up meeting table enables you to collaborate in style. 7Up is available with an aluminium or wooden leg and coloured to your design criteria.

## **CAFÉ TABLES**

#### **BISTRO COCKTAIL**

The Bistro cocktail table is a hardy table suitable for areas where you do not want furniture to be re-arranged.

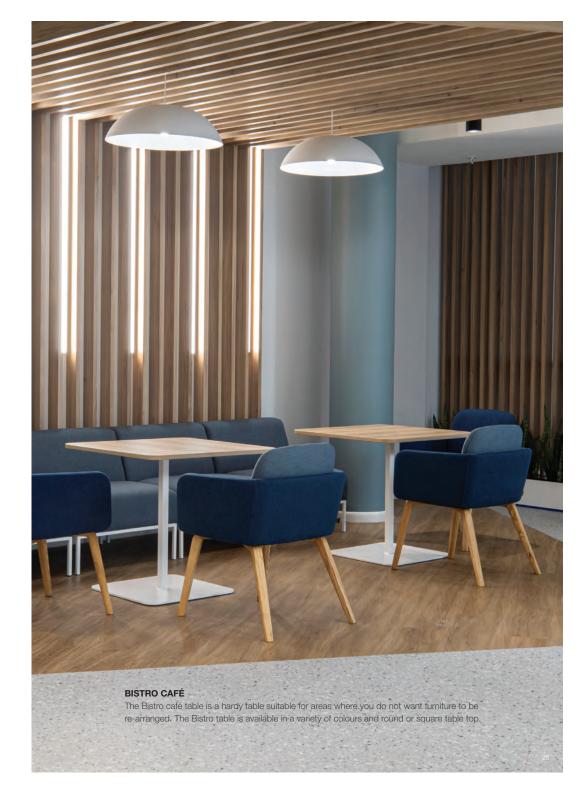

#### **7UP CAFÉ**

Elegant and understated, 7Up café is available with an aluminium or wooden leg and coloured to your design criteria.

#### RIBBON CAFÉ

The ribbon café table, with its elegant and modern leg design, is lightweight and easy to move around.

### **HIGH TABLES**

High tables allow choice to work where and how they want, according to the task. Transform meeting spaces into a collaborative team experience that's simple to use, deploy, and manage.

**7UP HIGH** 

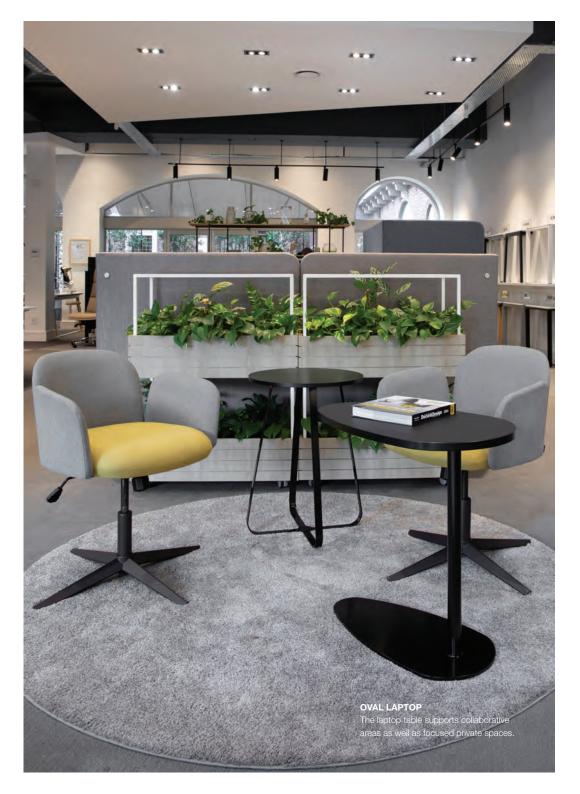

7Up high and narrow table is perfect for informal collaborative meetings.

#### **BIGWIG HIGH**

Get together to get it done with this elevated workbench solution.

### **SIDE TABLES**

#### LAPTOP

The perfect table for the nomadic worker. The laptop table supports collaborative areas such as the NEST, as well as focused private spaces, giving users a work surface for their laptops or tablets.

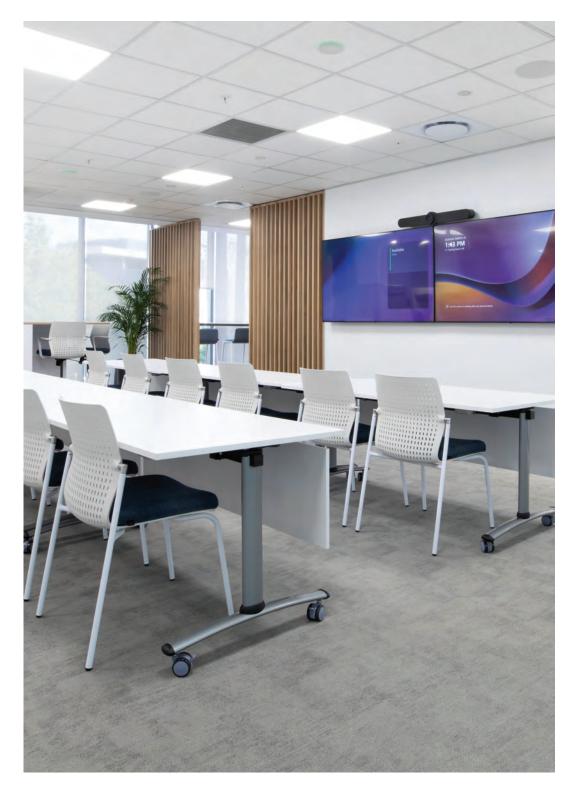

#### ROUND

This unique design features a concrete block supporting the round table top, giving a decorative feel to any space.

#### RIBBON

The ribbon side table, with its elegant and modern leg design, fits perfectly with any setting.

### TRAINING TABLES

Flexible training and teaming with everything at hand. Whether it's a large group training session, small group learning or peer-to-peer education, learning spaces should be able to adjust on demand.

The mobile training table can be easily rolled into various configurations. Modular furniture like chairs and tables on wheels offer office flexibility, allowing employees to move around, accommodate and create a comfortable working space.

#### **CLIP OFF**

The Clip off leg table is a practical table system for office, training and conference purposes. The table leg has a quick release mechanism, making the tables easy to store and transport.

#### FLIP TOP

The Flip top table is an intelligent space saving folding desk system. Elegant design for offices, training and conference purposes

Innovation is our number one priority and as a result we are proud of our new antibacterial nano coating for work surfaces.

#### What is it?

An invisible coating applied to all work surfaces used in many schools, hospitals and the general workplace where it is a silent guardian working a 24 hour seven day a week shift to protect people against viruses, bacteria and mould organisms.

The antimicrobial properties last for the lifetime of the coating, as long as the coating is complete and coherent.

#### How does it work?

- It prevents the bacteria's access to nutrients so they starve and die.
- It has a bacterial kill rate of 99.9% over a 24 hour
- It remains effective for the life of the coating because of its inherently low water solubility.

#### What bacteria does it work against?

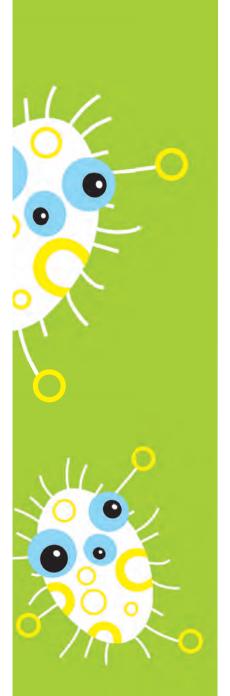

Coatings have been tested against the following bacteria:

- staphylococcus aureus Methicillin-Resistant Strain (MRSA)
- listeria monocytogenes
- staphylococcus aureus
- salmonella enteriditis
- klebsiella pneumoniae
- · aspergillus niger
- pseudomonas aeruginosa
- bacillus cereus
- saccharmyces cerevisiae
- escherichia coli

#### What viruses has it been tested against?

The active ingredient has been shown to be effective against:

- influenza A H1N1
- H3N2
- SARS virus
- · herpes simplex virus
- · many similar viruses

The Focus Booth and Phone Booth are designed for individuals who need a private space for confidential conversations or focused work. Equipped with acoustic foam, the booths offer excellent sound insulation. Their full-length glass doors, internal lighting, and temperature control create a comfortable, private space. The Booths are more than just a place to sit; they are sanctuary for quiet focus or small conference, offering a refreshing change of pace.

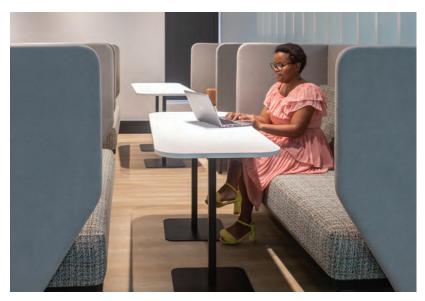

The fully enclosed SOLO privacy pod offers individuals solitude in a busy work environment. Perfect for those private conversations, virtual meetings and space to focus. SOLO has electronically controlled ventilation and lighting and air-con is optional. SOLO is also available with various technology upgrades and packages to suit your requirements. Choose from a range of colours and fabrics that suit you and your environment.

# HIVE

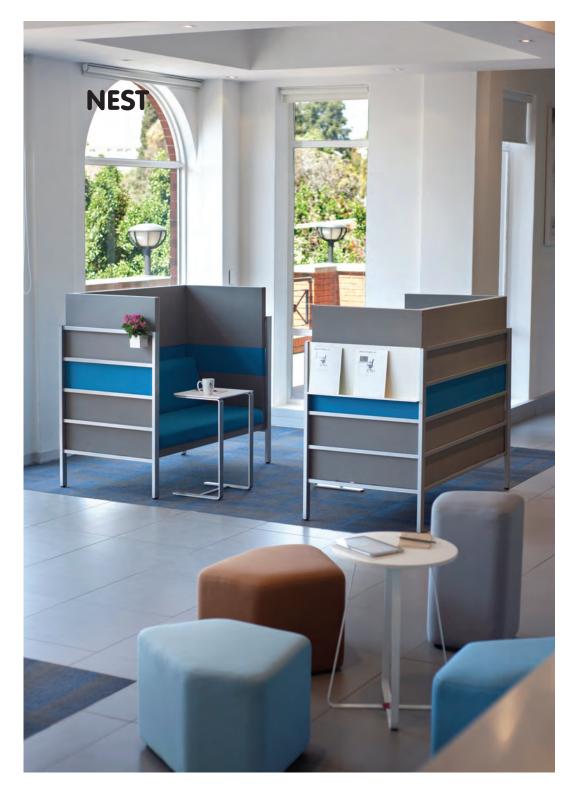

Concentration meets inspiration. Hive is more than just a chair or a desk; it's a fully-integrated solution that caters to the need for privacy and focus in bustling work environments. Designed for both individual work and collaboration, the Hive provides a unique blend of comfort, functionality, and privacy. Hive has what you need: a large comfy seat, multi-adjustable table, reading lamp, power outlets and lockable storage.

The NEST is an informal meeting area equipped with data points and charging stations for your smart devices. Our laptop table makes working comfortable and productive. To reduce voice and ambient sound intrusion the entire acoustic area is upholstered in hard wearing fabrics of your choice.

The NEST comes with options of power and data links for your smart devices. Now your power hungry equipment will remain fully charged throughout your meeting.

The task bars on the side frames of the NEST can accommodate plant holders, magazine racks and brochure stands. The NEST is a peaceful but productive space.

### **PERCH**

Standing gatherings are proven to be 45% faster than seated gatherings. With this in mind the BigWig up and over with perches is ideal for collaborative meetings. Perches are designed to provide a sit-stand solution for the users.

The best ideas
come when
you least
expect them

### **BUDDY**

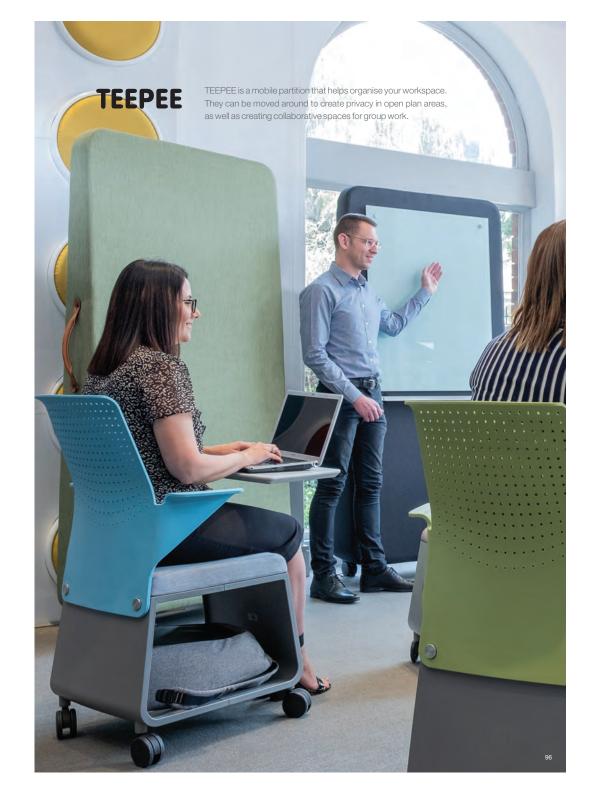

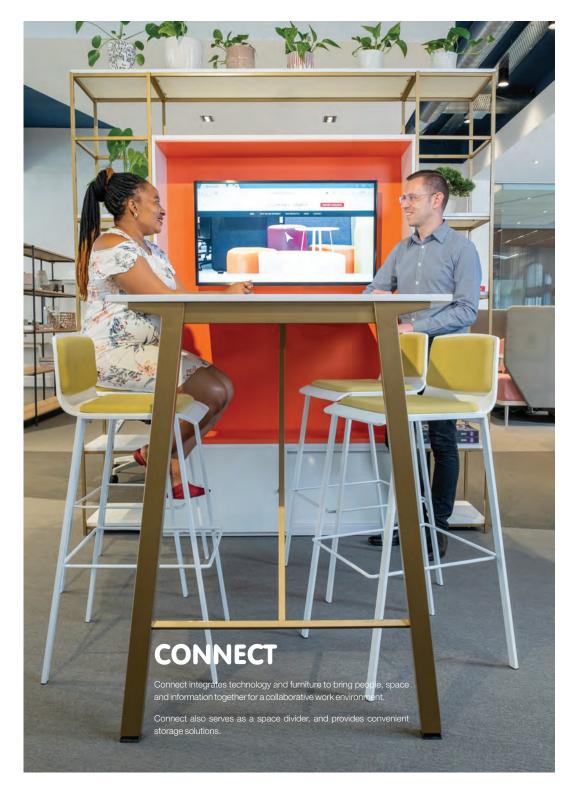

Buddy chairs are designed to move about, they are light, playful and easy to reconfigure. You can tip, lean and swing around. A chair that is adaptable and affordable.

Buddy is ideal for that extra seat needed at a desk, meeting space or around the coffee area. With the option of a flat or rounded base, it is ideal for areas where movement and quick thinking is encouraged. Communicate your brand and culture by branding or choosing colours for Buddy.

# WHAT NOT

Our WHAT NOT bookshelves offer partitioning that effortlessly separates areas in your workspace. A flexible tool for organising your space. And it looks beautiful too.

# **PLANTERS**

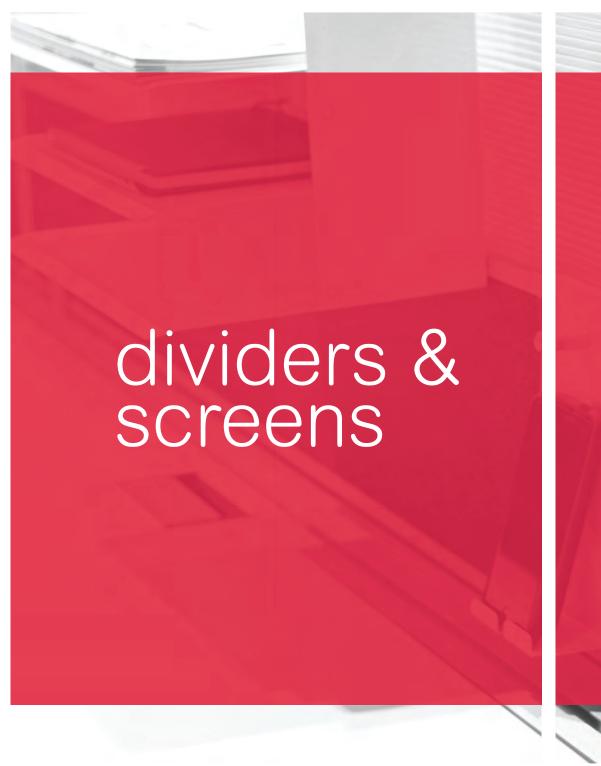

Planter boxes are some of the most adaptable and common additions to modern offices. They can transform your office space into stylish and vibrant workspaces. Studies have proven that by introducing elements of nature into the workplace, staff productivity, creativity, morale and workplace wellbeing have all increased.

# **LOCK UP**

Lockers provide personal storage, privacy and space division. Perfectly suited for shared spaces, our LOCK UP lockers are great for mobile workers and visitors. With a wide variety of heights and widths, they suits any space. Whether owned by an individual, or placed in a shared space, lockers provide personal storage, privacy and space division.

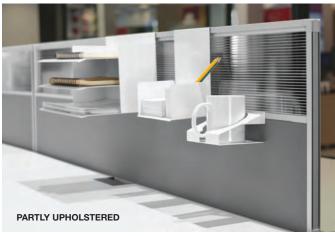

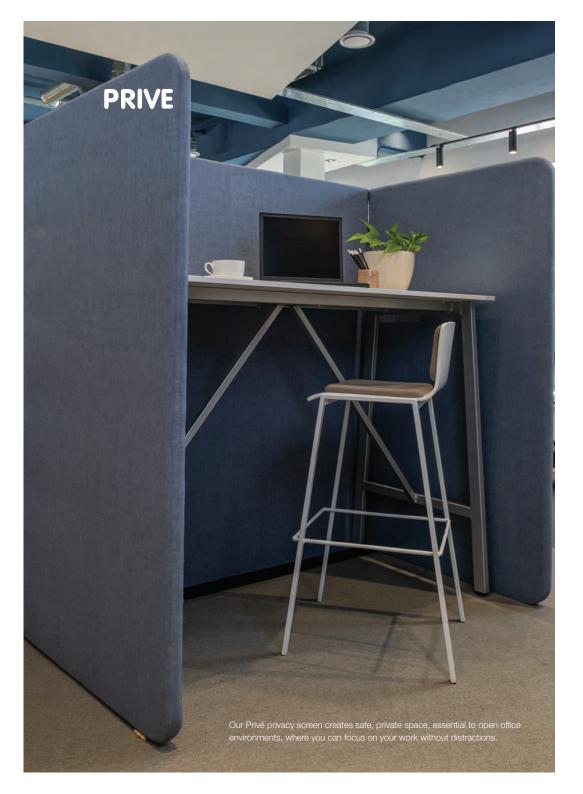

### **DESK SCREENS**

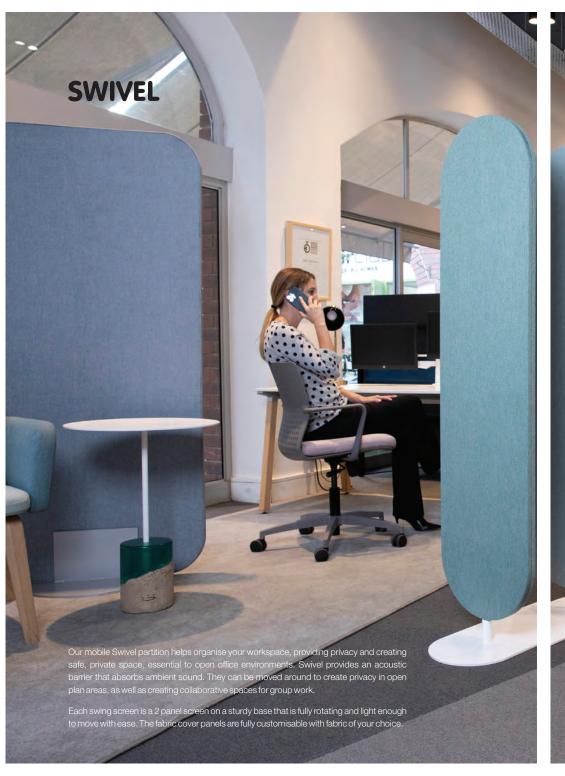

Lite, fully and partly upholstered desk screens bring structure to space. They successfully combine design and functionality by providing visual privacy and personal boundaries. Screens can incorporate accessories like the magnetic screen divider, tablet holders, letterboxes and cup holders. View our accessories to see the full range available.

# **SHIELD**

Creating safe, private space is essential to open office environments. Our mobile screen divider Shield provides privacy for desk systems.
