

PINNACLE STONE

SURFACES THAT WILL TOUCH YOU

About Pinnacle Stone

Pinnacle Stone (Pty) Ltd was established with a mission to provide the **highest quality stone surfaces** at highly competitive prices. We **are a South African Supplier of engineered quartz, granite, marble and porcelain** and own the Pinnacle Quartz brand. We offer **beautiful durable surfaces to builders, architects and designers.**

Customer focus is a central tenet of our mission, talk to us about your needs, we want you to win. We keep stock of **popular colors and designs** and can help you source that special element for your project requirements. Our agility and flexibility will be your super-power. Ask us about our cut-to-size service or available sub-dimensions in stock.

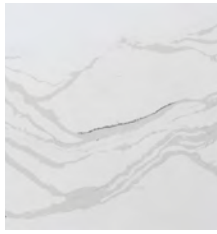

We're an importer and supplier of high-quality quartz. Pinnacle Quartz Countertops offer fantastic durability and a stunning kitchen or bathroom finish. In addition, as a leading **quality quartz countertop supplier in South Africa**, you can rest assured that your countertops will serve you for a lifetime at an affordable price.

TECHNICAL SPECIFICATIONS

Clause	Test Items	Test Methods	Test Results
1	Water Absorption	EN 14617 - 1:2013	0.01 & Classification: W4
	Apparent Density		2420 kg/m3
2	Flexural Strength	EN 14617 - 2:2008	42.2 MPa Classification: F4
3	Thermal Shock Resistance	EN 14617 - 6:2021	Mass Loss: 0.02% Flexural Strength After Thermal Shock: 42.7 Mpa Flexural Strength Loss: -1.2%
4	Slip Resistance (Polished)	EN 14231: 2003	SRV "dry": 74 SRV "wet": 13
5	Abrasion resistance (polished)	EN 1417 - 4:2012	24.1mm Classification: A4
6	Impact Resistance	EN 14617 - 9:2005	3.99 J
7	Chemical Resistance	EN 14617 - 10:2012	Classification: C4
8	Linear thermal expansion coefficient	EN 14617 - 11:2005	$22.3 \times 10^{-6} / ^\circ\text{C}$
9	Dimensional Stability	EN 14617 - 12:2012	Class: A Vertical displacement: 0.01 mm
10	Dimensions, geometric characteristics and surface quality	EN 14617 - 16:2005	Tolerance: see the following Surface quality: No defects
11	Release of danger substances (SVHC 163 substances)	SGS In-House Method	<_0.1 % (w/w) Not detected
