Porcelain Collection

Caesarstone Porcelain offers a new point of view. It marks a leap in technology, functionality, and design, delivering a high degree of durability and strength for added safety and peace of mind that boosts dynamic living and creativity, indoors and outdoors. Each high-performance slab embodies innovative properties that elevate porcelain for the ultimate experience. Unlimited possibilities open up for making the perfect personal statement with a captivating interplay of versatile colours, tactile textures, and dynamic movements. Appearance and practicality combine to give you the freedom to choose and the flexibility to create your dream space.

Caesarstone Porcelain introduces three innovative properties that set the bar for Porcelain countertops:

- Fortified frame:** The Fortified Frame provides an extremely hard surface, incredibly resistant to scratches, pressure, and rupture, enabling it to stand up to the most demanding high-volume use.
- High-Heat Structure:** The High-Heat Structure forms a resilient surface that is extremely resistant to high temperatures, enabling direct contact with heated objects. The blend of natural ingredients secures UV resistance, for indoor and outdoor use.
- Forward Design:** The Forward Design achieves striking colour schemes, bolder veins, palpable textures, and magnified patterns in breakthrough surfaces that are simple to care for and maintain, in Honed or Ultra Rough finishes that accentuate their design.

The Caesarstone Porcelain Collection comes with a long-term residential warranty and is available in six designs.
