Instant **HEDGE**

PRODUCT RANGE

Designed for quick installation, each 50cm x 50cm tile is UV-treated and equipped with interlocking fasteners, allowing for modular assembly and tailored coverage to fit your specific layout

BOXWOOD

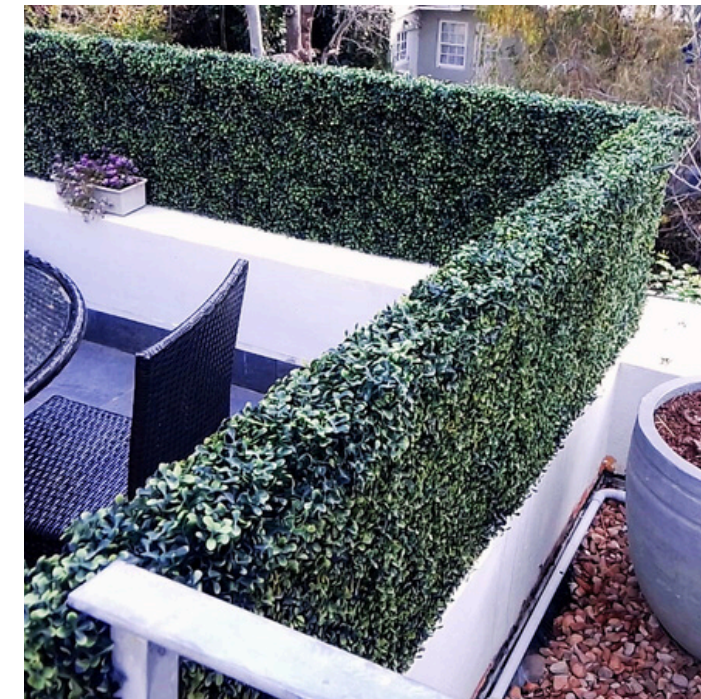

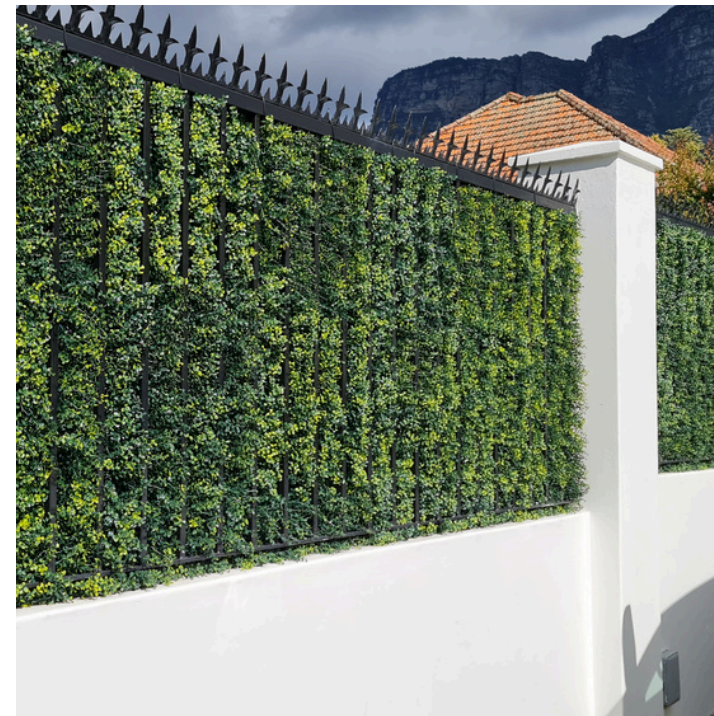

FICUS

TEA LEAF

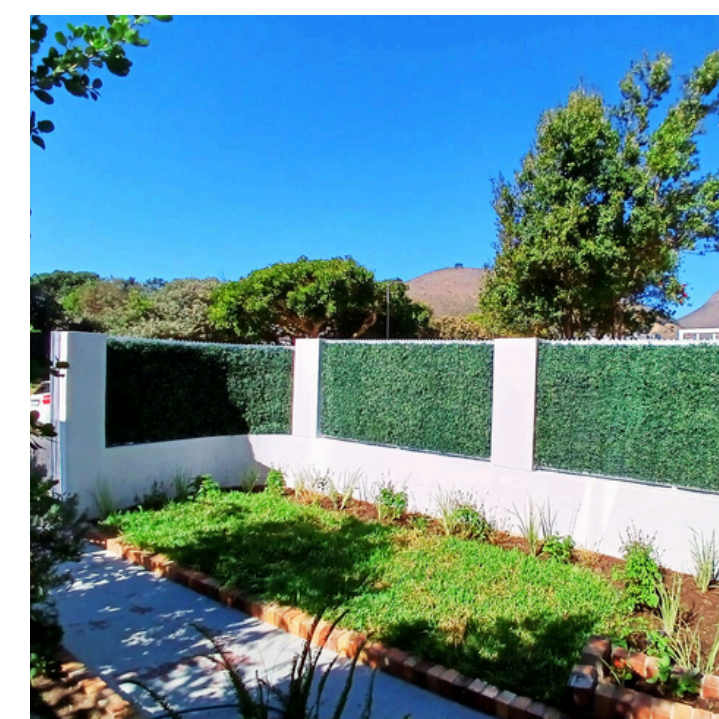

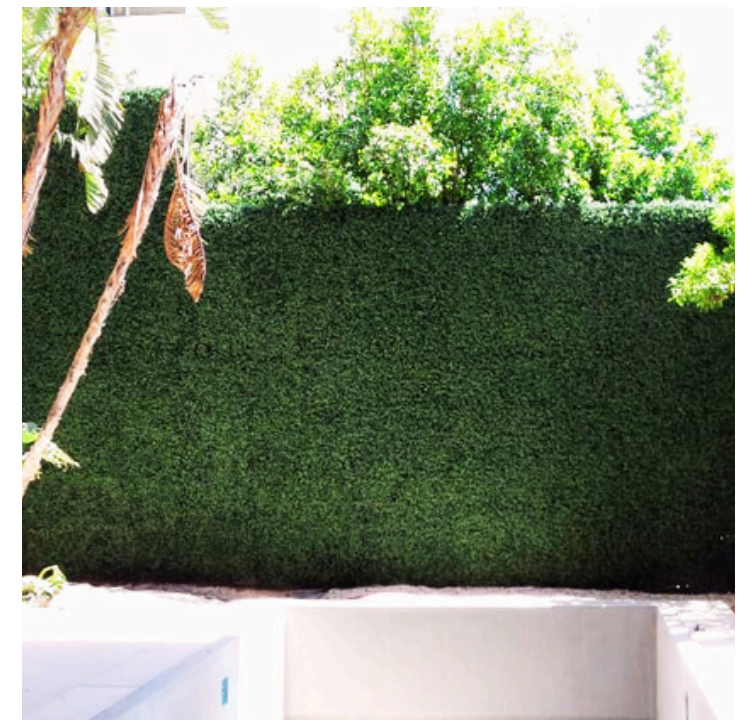

FENCING FOLIAGE

Instant Hedge foliage panels are designed for seamless integration with gates, fences, and palisades made from materials such as wood, steel, diamond mesh wire, and nylon-coated metal. Depending on client specifications, the foliage can be applied to a single side for a sleek finish or mounted back-to-back for a fuller, more immersive effect.

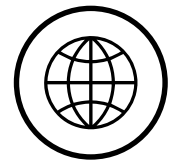

FENCING FOLIAGE

Instant Hedge foliage panels are designed for seamless integration with gates, fences, and palisades made from materials such as wood, steel, diamond mesh wire, and nylon-coated metal. Depending on client specifications, the foliage can be applied to a single side for a sleek finish or mounted back-to-back for a fuller, more immersive effect.
